Raywall Hydronic Baseboard Heater Thermostats

TPI Corporation

- Thermostats are equipped with tamper-proof plug button
- Temperature range 50° to 90°F

Order #	Mfg. #	Description	F/L Amps @ 120V	Amps @ 277V	Phase
N45-200	3900T1	Single Pole	22	18	1-Phase
N45-201	3900T2	Double Pole	22	18	2-Phase

Raywall Baseboard Heaters

Stainless Steel Element Rod and Aluminum Fins

TPI Corporation

- 240/208VAC or 120VAC
- Junction box with quick-connect feature at either end
- Overall dimensions: 6" H x 2-1/2" D x L
- Mounting slots every 2" with a full length wireway along the back of the heater
- Durable designer white finish
- For use with baseboard or wall thermostats

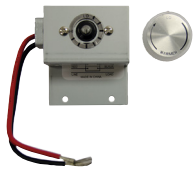
Thermostats for "BC" Baseboard Heaters

TPI Corporation

- Baseboard mounted thermostat may be installed at either end of baseboard on junction box cover
- Integral snap action bimetal, single or double throw, 22A, 40°F to 100°F control range



Order #	Mfg. #	Color	Poles	For Use With
X71-206	TBS	White	Single	Raywall
X71-207	TBD	White	Double	Raywall

Line Voltage Thermostats

TPI Corporation

- Snap action bimetal switch
- Convenient snap-off cover with comfort zone indicator
- Temperature range: 50°F to 90°F
- Electrical ratings: 22A, 125/208/240/277VAC
- **L37-725** has thermometer on face plate

Portable Infrared Electric Heaters

- Provides instant heat for indoor and outdoor workstations
- Efficient infrared heat spot warms individuals and objects, not surrounding air
- Stand mount tip-resistant design, rear-mount carrying handle
- Stand mount cast aluminum three-wire terminal box
- Hand cart includes 6" diameter wheels, twin hand grips, and weather-tight steel conduit box

Raywall Fan-Forced Wall Heaters

- 1,000 through 2,000 watts; 120 and 240/208V
- Auto limit
- Finned tubular steel element
- Thermostat: 40°F to 90°F
- Ideal for small space areas requiring supplementary heating
- Mounts horizontally or vertically
- Can be installed between studs
- All units include thermostat and wall box
- Manual reset thermal limit
- Thermal overload device disconnects elements and motor from power source if overheating occurs
- Steel frame construction with designer white finish — blends with decor
- Dimensions: 16-3/4" H x 7-5/8" W x 5-3/8" D
- Opening required: 14-1/2" H x 7-1/8" W x 3-1/2" D

Raywall Fan-Forced Wall Heaters

TPI Corporation

- Dual wattage
- Designed for residential and commercial usage in spacious areas such as family rooms, basements, offices, lobbies, stores
- **X90-237** and **X90-238** have a built-in thermostat
- **X90-995** and **X90-996** have a built-in double pole thermostat
- **X90-997** and **X90-998** do not have a built-in thermostat
- Reliable thermal overload cut-offs
- Designer white finish with heavy gauge front louvered cover
- Heavy-duty sheath finned heating element for maximum heat transfer
- Powerful 12' downward air-throw for improved comfort and air circulation
- Dimensions: 20-9/64" H x 15-3/8" W
- Opening required: 19-15/16" H x 14-3/16" W x 4" D

Mid-Size Fan Forced Wall Heaters with Back Cans

TPI Corporation

- Approved for horizontal mounting — right or left discharge
- Opening required: 12-1/8" H x 9-1/4" W x 3-5/8" D
- Grill dimensions: 13" H x 9-25/32" W x 1" D
- Drywall depth embossments in back can
- Powder coated 18 ga. steel front
- Manual reset thermal limit
- Finned tubular steel element
- Propeller style fan blade — 2200 RPM/70 CFM
- Two-wire installation
- Built-in thermostats — 240/208V models have a double-pole thermostat, 120V models have a single-pole thermostat
- Units are white

Fan Forced Portable Unit Heaters

TPI Corporation

- Finned steel tubular heating element
- Internal manual reset thermal cut-out
- 6' long cord with molded plug, can be removed at terminal block for hard wire installations
- Temperature control thermostat with 35°F to 85°F range
- 10' air throw = 262 CFM
- Swivel base can be used as a wall, floor or ceiling mount
- Beige Finish

Raywall Multi-Wattage Unit Heater

One Heater — Eight Wattage/Voltage Combinations

- Heavy-duty block fin element design offers excellent heat dissipation across entire element
- Unit mounted hydraulic action thermostat (50°F to 90°F)
- Heavy-duty wall/ceiling mount bracket; adjustable louvers
- Large wiring compartment with hinged door eases field wiring connections
- At 240V can provide 2,500, 3,332, 4,165 or 5,000 watts of heat
- At 208V can provide 1,874, 2,500, 3,123 or 3,750 watts of heat

TPI Corporation

Raywall 5100 Series Heavy-Duty Unit Heaters

Electric, Forced Air

- For commercial and industrial use
- Can be mounted for vertical or horizontal operation
- Adjustable louvers
- Heavy gauge welded steel cabinet with powder coat beige finish
- Hinged and latched access door simplifies wiring, installation and maintenance
- Larger kW models are available on special order

Wall Furnace

Top Vent Gas Wall Heater, Ultra Low NOx

- High-efficiency 82% AFUE
- Sustainable ultra-low emissions
- No standing pilot
- Fits into the same opening and uses the same venting as the traditional Monterey wall furnace
- Heats up to 1,000 square feet
- Natural gas; LP conversion kits available
- Programmable digital thermostat included
- Either **L82-802** or **L82-803** power supply is required

Wall Furnaces

Forsaire Top Vent, Direct Vent Counterflow and Electric Models

- 80% thermal efficiency
- Heats up to three rooms
- Forced air counterflow circulation provides equalized floor-to-ceiling temperatures
- Freestanding or recessed mounting
- Direct vent models use outside air for combustion; burners are completely sealed within the heating chamber; combustion is discharged through the wall
- Oval vent starter kit **L86-682** may be needed on some top vent installations
- **L96-860** and **L96-861** are intermittent ignition models; all others are standing pilot
- Automatic temperature and safety controls
- Gas furnaces are natural gas; LP conversion kits available for all models
- No venting included unless stated in the notes
- Requires **L40-149** Millivolt wall thermostat (not included)
- 115V

Comfort-Aire

Hydronic Air Handlers

Up to 14 SEER, 1-1/2 To 5 Tons, R410A

- T0A models have a PSC motor
- X0A models have an ECM motor
- Bottom return air option
- Horizontal or vertical installation, field convertible to downflow
- Hydronic built-in coil with freeze protection
- Factory installed air filter
- Low voltage terminal strip
- Slide-out blower for easy maintenance
- Cooling post-purge
- Multi-speed blower

Direct Drive Oil Furnaces

Highboy and Lowboy Front or Rear Flue Models with Beckett Oil Burner

- Up to 84% AFUE
- Beckett AFG burner with flame retention head, PSC motor and solid state ignition
- Multiple firing rates achieve the right furnace to heating requirements with a simple nozzle change
- High temperature ceramic combustion chamber
- Multi-speed direct drive blower assembly
- Honeywell primary with integral fan center and Honeywell fan/limit
- Heavy-duty 14 gauge steel heat exchanger
- Foil-faced high density fiberglass insulation
- Easy access clean-out ports for heat exchanger servicing
- 40VA transformer
- 120V

HB Compact Series Water Source Heat Pumps

Commercial 1 to 5 Tons, Single-Phase and Three-Phase, R410A

- Ideal for tight spaces or retrofit applications
- Extended range option
- Heavy duty scroll compressors
- Quiet operation
- Performance monitoring system signals a potential problem
- Copper water coil w/non-coated air coil

GeoLogix® HEH Series Geothermal Heat Pumps

2 to 5 Tons, Residential, Single-Phase, R410A, Horizontal

- Capable of geothermal, ground loop, ground water and boiler/cooling tower applications
- Extended range refrigerant circuit
- Two-stage scroll compressor
- System performance monitoring
- ECM blower motor
- Double isolation compressor mounting and air handler compartment insulation for quiet operation
- Easy service access
- Integrated digital controller

Room Air Conditioners

R-32 Refrigerant

- Cooling capacity from 5,000 to 28,000 BtuH
- Easy access, cleanable filters
- Window mounting kit for windows up to 38" wide available
- Rust-free cabinets with white decorator grilles provide appealing contemporary appearance
- Electronic digital touchpad controls
- Insulated cabinets provide quiet operation
- Includes LCDI

Room Air Conditioners and Heat Pumps

R410A Refrigerant

- Cooling capacity from 5,000 to 25,000 BtuH
- Some models also heat
- Easy access, cleanable filters
- 115V models have a window mounting kit for windows up to 38" wide
- Selected units include mount kits for windows up to 40" wide
- Rust-free cabinets with white decorator grilles provide appealing contemporary appearance
- Electronic digital touchpad controls
- Insulated cabinets provide quiet operation
- 1-year parts and labor warranty on full unit, 5-year parts only warranty on sealed system
- Includes LCDI
- **B64-299** are smartphone compatible

- Three cooling speeds
- May be operated on fan only for economy
- Removable filter for easy cleaning
- Electronic controls and wireless remote
- Four-way adjustable air directors
- Fits into windows that open at least 21-1/2" H x 15-1/2" W
- Unit comes with window filler kit that allows installation into windows as high as 39-7/16"
- Full one-year parts and labor warranty, parts only second through fifth year on sealed refrigerant system
- Includes LCDI or AFCI power cord

Thru-the-Wall Air Conditioners

26" Mini-PTAC Air Conditioners and Heat Pumps, R410A

- High energy-efficiency model
- Fresh air control plate
- Easy to use control panel accesses all functions
- LED indicator flashes error code
- Adjustable discharge grille for 15° or 55° discharge angle
- 208/230V

Thru-The-Wall Air Conditioners

Air Conditioners and Heat Pumps, R410A

- No louvers on side
- Cooling only or heat/cool models
- Four-way adjustable air directors
- Three cooling and three fan speeds
- Solid steel construction, corrosion resistant paint, attractive styling
- Quick access filter for easy cleaning
- Easily adapted to existing sleeves by other manufacturers
- Wall sleeve purchased separately
- Includes AFCI power cord

Portable Air Conditioners and Heat Pumps

8,000 to 13,500 BtuH, R-32

- Disposes of its own condensate under most conditions
- Auto stop for overflow protection as a safeguard
- Easy-access, washable filter
- Electronic controls with soft-touch keypad
- Louvers can be set for horizontal or vertical air flow, also auto louver swing
- Full feature remote control
- 24-hour on/off timer
- Cooling and auto mode
- Dehumidify mode
- Fan only mode and three cooling speeds
- Single exhaust hose
- 5-year warranty on compressor, 1-year warranty on parts
- **B73-994** and **B73-995** are smartphone compatible

Window A/C Support Brackets

- Fits all window A/C
- Complete unit for easy installation; fits walls 4" to 11" thick
- Weather resistant components, rugged construction
- Available in two sizes
- Unique bubble level helps ensure proper angle installation

Room Air Conditioners

Chill™ Premier Series, Air Conditioners, Up to 15.1 EER, R-32

- Heavy duty insulation on inner wall for sound absorption
- 24-hour programmable timer
- 3-speed fan and remote control
- Defrost control
- Money Saver® setting saves money by conserving energy
- Compatible with Amazon Alexa™ and Google Home
- Washable, antimicrobial filter
- Built-in wall sleeve
- A2L Ready with R-32 Refrigerant

Room Air Conditioners and Heat Pump

Kühl® Series, Air Conditioners and Heat Pump, Up to 12.1 EER, R-32

- 20 gauge steel cabinet
- Solid sleeve top with solid steel blower wheel housing
- Aluminum outside grille
- EntryGard™ kick-in intrusion protection
- All Kühl units include two built-in 7-day energy management programs accessed and selected from unit's controls
- FriedrichLink Wi-Fi® including multi-unit control options (sold separately)
- Washable, antimicrobial air filter
- Superior fresh air intake and stale air exhaust vent (Excluding "Q" models)
- 4 cooling and 4 fan-only speeds on select models
- Automatic fan speed adjustment
- 8-way air flow control
- Sealed control panel for protection from dust, moisture and contaminants
- Dual cord option (right or left)
- Wall sleeves included

Room Air Conditioners

Hazardgard® Series, Air Conditioners, Up to 9.7 EER, R410A

- Class 1, Division 2, Group A / B / C / D, R410A
- Ideal for oil rigs, petrochemical sites, paint storage and plant areas with strong solvents and other hazardous locations where specific volatile flammable liquids or gasses are handled or used in enclosed containers or systems
- Hermetically sealed refrigeration system
- Heavy duty galvanized steel
- Commercial grade, enclosed fan motor with hermetically sealed overload for arc-free operation
- Hot gas bypass for cooling operation at low ambient temperatures, down to 45ºF / 7ºC without freezing
- Anti-Corrosive Treatments Diamonblue® technology standard on models except **B62-683** SH24N30A; **B62-683** has ElectroFin® 5-stage-Passed 6048 hrs. ASTM B-117 Salt Spray

Thru-the-Wall Air Conditioners

Uni-Fit® Series, Air Conditioners, Up to 10.6 EER, R410A

- Residential grade quality for installation in new construction, retrofits and remodels
- 24-hour programmable timer
- 3-speed fan and remote control
- Auto restart
- Defrost control
- Money Saver® setting saves money by conserving energy
- Washable antimicrobial filter
- Stale air exhaust and 6-way air flow control
- Rotary compressors provide quiet, dependable performance
- Seacoast protection for corrosion resistance in harsh environments
- Chassis and sleeve sold separately

Thru-The-Wall Air Conditioners and Heat Pump

WallMaster® Series, Air Conditioners and Heat Pump, Up to 10.7 EER, R410A

- Commercial grade unit ideal for installation in new construction, retrofits and remodels
- 24-hour programmable timer and remote control
- 3-speed Smart Fan auto-adjusts fan speed to maintain desired temperature
- Electronic defrost control
- Adjustable louvers
- Money Saver® setting saves money by operating the fan only when needed
- Washable, antimicrobial filter
- Rotary compressors provide quiet, dependable performance
- Premium aluminum exterior grille
- EntryGard® anti-intrusion protection-chassis secured to sleeve to deter 'kick-in' intrusion
- Solid-sided, mounts in wall sleeve (wall sleeve not included — order **B81-663**)
- **B61-549** is R-32, all others are R410A

Thru-The-Wall Air Conditioning Units

Eco Series Cool-Pak, Cooling with Electric Heat, 11.7 SEER2, R410A

- 3/4 to 2-1/2 ton units
- 9,000 through 30,000 BtuH Cooling Capacity
- 3-10 kW electric heat
- Pre-wired and pre-charged from factory
- Insulated compartment
- ECM indoor blower and outdoor fan motor
- Single-stage scroll and rotary compressors
- Corrosion resistant drain pan
- Make up air vent allows for 50 CFM of ventilation air
- 208/230V

Thru-The-Wall Packaged Heat Pumps

First-Pak Series, Heat Pumps with Electric Heat, 11.9 SEER2, 6.3 HSPF2, R410A

- 1 to 2-1/2 ton units
- 12,000 through 30,000 BtuH Cooling Capacity
- 3-10 kW electric heat
- Pre-wired and pre-charged from factory
- Insulated chassis
- Blower collar locking mechanism
- ECM indoor blower motor and outdoor fan motor
- Double isolated compressor mount
- Two corrosion resistant drain pans
- Two TXVs
- Operated down to 5° F ambient temperature
- 208/230V

Thru-the-Wall Split Condensing Units

Single-Phase, 1 to 2-1/2 Tons, Up to 14 SEER, R410A

- High-efficiency scroll or reciprocating R410A compressor
- High pressure switch
- Propeller type fan
- Copper tube/aluminum fin coils
- Side panels fit inside the base pan to improve water containment on the sides of the cabinet
- Sloped base pan
- Plastic coated coil guard
- Brass service valves with sweat connections

Ceiling Fan Coils

HX Series, Uncased, Horizontal Recessed, 1-1/2 To 3 Ton, 3 To 10kW

- Copper tube/aluminum coils
- Primary and secondary drains
- Sloped and insulated drain pan
- Factory installed electric heat
- 240V relay
- 24V transformer

Ceiling Fan Coils

CDX-HW Series, Uncased, Horizontal Recessed, 1-1/2 To 3 Ton, Hot Water

- Copper tube/aluminum coils
- Two speed fan operation
- Sloped and insulated drain pan
- Electrical service switch
- Factory installed freeze protector
- Manual air bleed port
- Piston type metering device
- 120V relay
- 24V transformer

Ceiling Fan Coils

CDXQ Series, Uncased, Horizontal Recessed, 1-1/2 To 3 Ton

- Copper tube Heating/Cooling Coils
- Two speed fan operation
- Factory installed circulating pump
- Sloped and insulated drain pan
- Electrical service switch
- Factory installed freeze protector
- Manual air bleed port
- Piston type metering device
- 120V relay
- 24V transformer
- TXV Models come with factory installed Thermostatic Expansion Valves

Single-Piece Air Handlers

HBQB Series, Upflow/Horizontal Cooling or Heat Pump/Hot Water Heating, 1-1/2 To 5 Ton

- Copper tube/aluminum fin heating and cooling coils
- Primary and secondary drains
- Factory installed filter
- Automatic pump timer
- Blower-on delay
- Blower-off delay
- 4-way airflow (kit required for counterflow - 60HBQB not approved for counterflow installation
- 120/24V relay/transformer

Ductless Mini-Split Systems

Up to 26 SEER, Single and Multi-Zone, Heat Pumps, R410A

- Inverter system with variable-speed compressor
- 24-hour timer and auto restart/reset
- Auto changeover
- Dry, economy, auto, minimum heat and quiet modes
- Auto louver up/down
- Wall mount indoor units have a ion deodorizing and apple-catechin filter
- Multi-zone systems offer up to 5 zones
- Multi-zone systems offer long piping up to 377 feet
- **B65-052** and **B64-851** through **B64-853** require compact cassette grille, **B87-756** sold separately
- SEER depends on combination of indoor units selected
- Must be sold as a complete indoor/outdoor system
- See following pages for multi-zone allowable combinations
- 208/230V

Johnstone Supply's Mini-Split Selector Tool allows you to accurately and quickly identify the best system match ups for your needs.

- **Research, build and order from tablet, phone or computer**
- **Weekly updates to models and compatibility**
- **Single zone or multi-zone**
- **Easy indoor style selection and identification**
- **Real-time pricing and availability**
- **AHRI certified matches**

Remote Controllers

- Residential and commercial applications
- Child lock capable
- Timer mode: ON/OFF/WEEKLY
- Set back timer
- Remote controller sensor
- Operating mode: COOL/HEAT/DRY/FAN/AUTO
- Temperature setting: 60°F–88°F
- Fan speed: HIGH/MED/LOW/AUTO
- Energy saving operation
- Air flow direction: horizontal/vertical
- **G35-193** is required to install **G35-191** for 9 and 12 RL models

Daikin

Ductless Mini-Split Systems

ENTRA Series, 18 SEER2, Single-Zone, Heat Pumps, R410A

- Inverter variable speed compressor
- Automatic operation for year-round comfort
- Vertical auto swing air movement
- Dry mode
- Auto fan speed
- Remote controller
- 24-hour on/off timer
- Auto restart after power failure
- Self diagnosis with digital display
- 10-year parts warranty
- 208/230V

Ductless Mini-Split Systems

Up to 20 SEER2, Multi-Zone, Air Conditioners and Heat Pumps, R410A

- Inverter variable speed compressor
- Automatic operation for year-round comfort
- Dry mode
- Adjustable fan speed
- Remote controller (optional for FDMQ & FFQ)
- Econo mode for controlled energy consumption
- 24-hour on/off timer
- Auto restart after power failure
- Self-diagnosis with digital display
- 12-year parts and 12-year compressor standard warranty
- 208/230V

DAIKIN SkyAir

Ductless Mini-Split Systems

NEW

SkyAir Series, Single-Zone, Air Conditioners and Heat Pumps, R410A

- Wall mount, DC ducted, round flow cassette, ceiling suspended and inverter ducted indoor models
- Brushless DC compressor
- Automatic operation for year-round comfort
- Intelligent eye infrared movement sensor
- Vertical auto swing air movement
- Humidity control
- Auto fan speed
- Econo mode for controlled energy consumption
- FAQ, FBQ, FCQ, FHQ, FTQ models do not include remote, must order **G36-601**
- All other indoor units include LCD wireless remote control
- 24-hour on/off timer
- Auto restart after power failure
- Self-diagnosis with digital display
- 10-year parts and 10-year compressor standard warranty
- 208-230V

D

Ductless Mini-Split Systems

BMS5000 Series, Up to 28.1 SEER2, Single and Multi-Zone, Mini-Split Heat Pumps, R410A

- 100% heating capacity between -5ºF and 5ºF, depending on system configuration
- No additional accessory needed for Low Ambient Cooling operation down to -22ºF with MAX Performance System (Maximum 107% Cooling capacity at -22ºF)
- Whisper quiet operation: ODU as low as 53 dB, IDU as low as 23 dB(2)
- Wired wall thermostat (**L51-392**)
- 24V Interface for use with 24V thermostat
- Intelligent Eye (Wall-Mounted Indoor Unit)
- Factory installed base pan heater for all ODU models
- Built in condensate (lift) pump for Cassette & Ducted IDU's
- Compatible with the Bosch Connected Control (BCC) Wi-Fi Thermostat family (**L50-706**, **L50-707**)
- 10-year compressor & 10-year parts residential warranty

Ductless Mini-Split Systems

Floating Air® Select, Up To 18 SEER, Single-Zone, Heat Pumps, R410A

- Ideal for commercial and residential applications
- Advanced inverter technology
- Auto swing-louvers (up/down/side-to-side)
- Low-ambient operation built-in
- Continuous Air Sweep
- Auto-restart after power interruptions
- Washable, reusable air filters
- Auto-changeover (heat pump models)

Ductless Mini-Split Systems

16 SEER, Single-Zone, Air Conditioners and Heat Pumps, R410A

- Inverter-driven compressor
- Auto operation adjusts fan temperature to maintain the selected room temperature
- Multi-stage filtration
- Auto restart
- Hot start (heat pumps) prevents discharge of cold air during heat mode
- Quiet operation — outside compressor design
- 3-minute time delay at start to protect the compressor from short cycling
- Installation requires less than 3" diameter hole for connections
- Sleep mode and timer used to save energy
- Horizontal and vertical louvers can be set for air direction, includes auto swing
- Full feature remote control included

Amana Heating & Air Conditioning

Packaged Terminal Air Conditioners and Heat Pumps

PTAC's and PTHP's R410A

- Assembled in the USA for over 40 years
- DigiSmart control board provides easy connection to wireless accessories
- Indoor tangential fan for quiet operation
- Easy pull-out filters
- Random restart delay after power outages
- Indication LED temperature readout and fan operation
- Transfer fan on the low voltage terminal board allow for an external fan connection (**B14-620** wire harness kit required for this option)
- Front mounting hole is provided to secure the front to the chassis
- Energy management system features temperature limiting
- DigiSmart wireless door switch/motion sensor and wireless wall thermostat available
- May require **G22-891** wall receptacle
- Five year limited warranty
- Controls not included and must be ordered separately (**B13-368**, **B22-434**, **B21-413**)
- R410A Version Only

WE'RE THE EXPERTS YOU COUNT ON.

- Products you need, including hard to find speciality parts
- Delivery options to get back on the road
- Technology to make your job easier
- Training to keep you competitive
- Service and support

BETTER SERVICE & LOCAL SUPPORT WITH GLOBAL PARTNERS

THAT'S THE POWER OF JOHNSTONE™

DigiSmart™ Accessories

Wireless Energy Management System

- Reduces energy costs up to 35%
- DigiSmart antenna powered by PTAC, communicates to DigiSmart suite via an encrypted 2.4 GHz signal using the 802.15.4 standard
- DigiSmart thermostat wireless control of system, large LED display
- DigiSmart occupancy sensor activates setback function and can be programmed through the DigiSmart platform or thermostat
- DigiSmart web based platform controller DL01G with DT01G antenna controls up to 170 PTAC's per site with building and room level EMS and PTAC health monitoring
- DigiSmart platform controller is BACnet and LAN compliant

Fig.	Order #	Mfg. #	Description	Features
A	**B17-176**	DT01G	DigiSmart Antenna	Communicates Via Encrypted 2.4 Ghz Signal, Powered Through PTAC
B	**B21-413**	DS01G	DigiSmart - Remote RF Wireless Wall Mounted Thermostat	Built in Occupancy Detector, Controls PTAC From Anywhere in the Room
C	**B17-845**	DD01E	DigiSmart - Wireless RF Room/Door Combo Motion Sensor	Set-Back Function Activates When Room is Unoccupied, Up To 100,000 Set-Back Combinations
D	**B17-847**	DL01G	Digi-Link Communicates w/ up to 170 DigiSmart units with DT01G antenna installed	Communicates w/ Up to 170 DigiSmart Units
E	**B17-848**	DSUK01D	DigiSmart Upgrade Kit Upgrade works with Amana circuit board PTAC units built since 1996	Upgrade all Amana Knob control PTACs 1996 or newer to DigiSmart control
F	**B22-766**	DSA02NO	Wireless battery-powered Digital/Manual wall thermostat for use with Amana J and K model PTACs and PTHPs.	No add-on antenna needed with Amana J & K Series PTACs. 2-way wireless communication between PTAC and thermostat.

Accessories For Amana Packaged Terminal Units

Order #	Mfg. #	Description	Features
B13-367	DK900D	Condensate Drain Kit	For Internal or External Disposal of Condensate
B13-368	PHWT-A200	Remote Wall Thermostat	2-Stage Heat/2-Stage Cool, Rectangular, Heat Pump Application
B13-370	REK10B	Remote Escutcheon Plate (10-Pk.)	Replaces Knob Controls & Wire Harness for Units Operated by Wall Thermostat
B14-620	PWHK01C	PTAC Wiring Harness Kit	Wiring Harness Kit for Remote Wall Thermostat
B93-142	SGK01B	Stamped Aluminum Grille	Standard Stamped Aluminum Grille for Application w/ Wall Sleeve
B93-143	AGK01CB	Anodized Architectural Grille	Anodized Grille — Clear
B93-144	AGK01WB	Aluminum Architectural Grille	Anodized Grille — White Enamel Finish
B93-145	AGK01DB	Aluminum Architectural Grille	Anodized Grille — Dark Bronze Enamel Finish
B93-146	AGK01TB	Aluminum Architectural Grille	Anodized Grille — Stonewood Beige Finish

GE Appliances

Packaged Terminal Air Conditioners and Heat Pumps

PTAC's and PTHP's

- All units have a universal heater
- Universal Power Cord (UPC) determines the heater size; all units require a cord (LCDI cord purchased separately)
- Two fan motors/two speed fan for higher efficiency
- Reverse cycle defrost and simultaneous supplemental resistance heat on all heat pumps
- Random restart after power outages
- Fan cycle switch “Smart Fan” for increased guest comfort
- Permanently lubricated fan motors
- Solid-state controls for better room temperature control
- Touch pad controls and digital readout of temperature set point
- Freeze and heat sentinel for increased room protection
- Up-front universal filters
- Remote control TSTAT and central desk control compatibility
- High sound transmission class (STC) 29
- All GE PTAC’s have a cross fan blower for much quieter operation

Note: Also available from participating Johnstone Supply Stores by special order: 265V models, Corrosion/seacoast models, Dry Air 25, Makeup Air, and Vertical PTAC models.

GE Zoneline OEM Replacement Parts

All of the core replacement parts and more for GE Zoneline are available at your local Johnstone Supply. Contact us for model to part cross reference and solve your no heat and warranty service calls — fast and efficiently with the exact OEM replacement part. www.JohnstoneSupply.com

Packaged Terminal Air Conditioners and Heat Pumps

ZoneAire Select Series R410A

- Ideal for hospitality industry, healthcare facilities, offices, apartments, dormitories and residential add-on applications
- Low operating cost
- Ultra quiet operation
- High strength polystyrene front panel resists scratches and dents
- Easily installs into 16" x 42" wall sleeve
- Tangential indoor blower for quiet operation
- Permanently lubricated fan motors
- Electric strip heat on every unit
- Wall sleeves and outdoor grilles/louvers sold separately
- DiamonBlue Advanced Corrosion Protection® on indoor and outdoor coils
- Factory installed 3.6kW electric heaters, except **B60-465** and **B60-471** which include a 5kW electric heater

Packaged Terminal Air Conditioners and Heat Pumps

ZoneAire Premier Series R410A

- High-Efficiency refrigeration design with EERs up to 13.3
- Stainless steel endplates
- Advanced oil design
- Ideal for hospitality industry, healthcare facilities, offices, apartments, dormitories and residential add-on applications
- Ultra quiet operation
- High strength polystyrene front panels
- Easily installs into 16" x 42" wall sleeve
- Two-speed fan motor includes permanently lubricated bearings
- Electric strip heat on every unit
- Wall sleeves and outdoor grilles/louvers sold separately
- DiamonBlue Advanced Corrosion Protection® on outdoor coils
- R410A refrigerant

Packaged Terminal Heat Pumps

FreshAire Series R410A

- Up to 12.1 EER
- Ideal for hotel and motel rooms, healthcare facilities, offices, apartments, dormitories and residential add-on applications
- Low operating cost, ultra-quiet operation
- Electronic controls
- High strength polystyrene front panel resists scratches and dents
- Easily installs into 16" x 42" wall sleeve
- Built-in fresh air damper with filtered outdoor air
- Two-speed fan motor includes permanently lubricated bearings
- Electric strip heat on every unit
- Fully charged and ready for operation
- Wall sleeves and outdoor grilles/louvers sold separately
- Thermostat limiter
- First-year warranty on parts and labor on entire unit; second- through fifth-year parts and labor on entire sealed system
- Seacoast protected units for use in a coastal or corrosive environment, available by special order
- 230/208V

Note: 265V units available at participating Johnstone Supply stores.

Packaged Terminal Air Conditioners and Heat Pumps

PTAC's and PTHP's

- Room freeze protection
- Fresh air control arm
- LED indicator flashes error code
- Reversible discharge grille for 15° or 55° discharge angle
- Extends 7-5/8" into the room and can be mounted flush to the floor
- Energy management interface can be centrally controlled
- Electronic temperature limiter can be programmed for both heating and cooling

Note: Electric heat standard 3kW on 7K, 9K, and 12K models, and 3 or 5kW on the 15K model

Accessories for Packaged Terminal Units

Order #	Mfg. #	Description	Features
B72-596	7602-500F	Wall Sleeve	Insulated
B72-597	7602-501F	Standard Exterior Grille	Stamped Aluminum

Vertical Packaged Units

Wall Mount Air Conditioners

- Ideal for modular offices, telecommunication structures and other portable structures
- Aluminum finned copper coils
- Galvanized 20-gauge zinc coated steel cabinet allows it to withstand 1,000 hours of salt spray tests per ASTM B117-03
- Full length mounting brackets
- Barometric fresh air damper allows up to 25% outside air
- Rain flashing and slope top
- Condenser fan and motor shroud assembly slides out for easy access

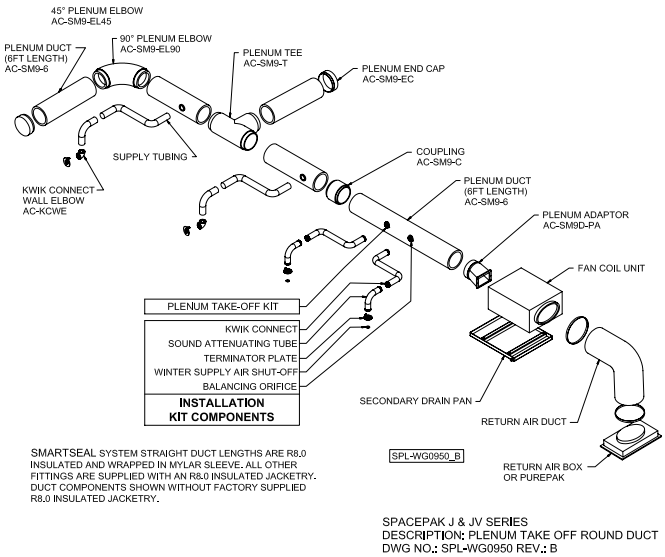
SpacePak® the Flexible Alternative To Conventional Cooling And Heating

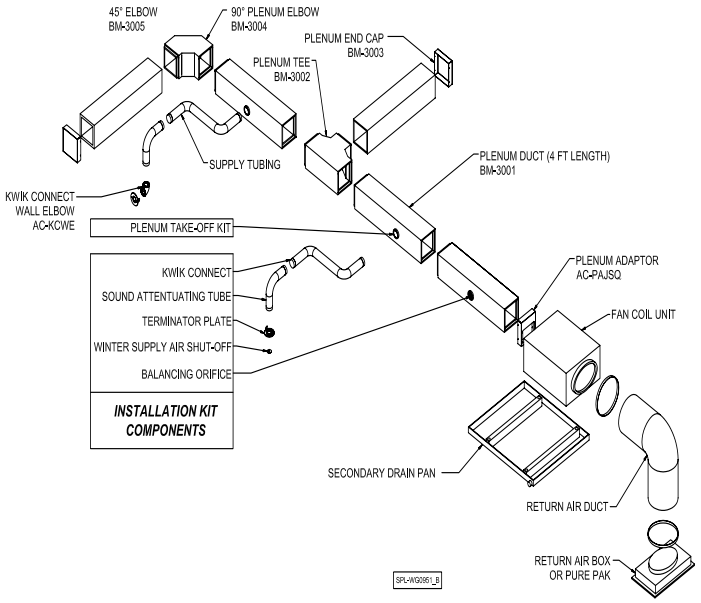
SpacePak is ideal for:

- Older homes, historic landmarks and townhouses heated with hot water, steam or radiant electric heat
- Newly constructed homes and condos warmed by radiant floor heating
- Commercial units with multiple zone requirements



SMARTSEAL SYSTEM STRAIGHT DUCT LENGTHS ARE R8.0 INSULATED AND WRAPPED IN MYLAR SLEEVE. ALL OTHER FITTINGS ARE SUPPLIED WITH AN R8.0 INSULATED JACKETRY. DUCT COMPONENTS SHOWN WITHOUT FACTORY SUPPLIED R8.0 INSULATED JACKETRY.

SPACEPAK J & JV SERIES
DESCRIPTION: PLENUM TAKE OFF ROUND DUCT
DWG NO.: SPL-WG0950 REV.: B



SPACEPAK J & JV SERIES
DESCRIPTION: PLENUM TAKE OFF SQUARE DUCT

ESP-J Series DX Fan Coil Units

2 To 5 Ton, Horizontal Air Flow

- R410A refrigerant
- Heat pump compatible
- Six-row copper/aluminum evaporator coil
- Factory installed Chatleff Thermal Expansion Valve
- Diagnostic J+ Advanced Control Board with 2 Line Display
- Anti-frost control
- Insulated cabinet
- High efficiency EC integrated motor/blower assembly
- Condensate trap
- Anti-vibration foam strips
- Mold resistant primary drain pan
- Field convertible to 115V with factory supplied kit
- See AHRI directory at www.ahridirectory.org for specific capacity and SEER rating

QwikProducts by Mainstream Engineering

QwikPad® Generator Pad

- Meets wind loading requirements up to 180 MPH
- UV-resistant highly durable construction
- Contains a unique gelling agent that forms a solidus gel and provides freeze protection
- Unfilled Weight 46 Lbs.; Filled Weight 330 Lbs.
- Includes corrosion-resistant stainless steel mounting hardware
- Designed for Generac/Honeywell generators between 9 - 26 kW

Bosch Gas Furnaces

BOSCH Invented for life

96% AFUE Upflow/Horizontal Gas Furnaces

BGH96 Series,Two-Stage, Multi-Speed ECM

- Aluminized steel tubular heat exchanger
- Stainless-steel secondary heat exchanger
- Hot surface igniter
- 2-stage gas valve
- Multi-speed ECM motor
- Upflow (right or left return) and horizontal orientation
- Left or right connection for gas and electrical service
- Factory installed natural gas to propane conversion kit

Heat Pumps

15 SEER, Single-Phase, 2 to 5 Ton, R410A

- Inverter driven rotary compressor
- High pressure switch and low pressure transducer
- Crankcase heater
- Intelligent oil return technology
- IPM and electronic control board high temperature protection
- Compressor high temperature protection
- Compressor sound blanket
- Wire fan discharge grille
- Steel louver coil guard
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Ceiling Mounted Air Handlers

BCA Series, 16.1 SEER2, 1-1/2 to 3 Ton, R410A

- Constant torque multi-speed ECM blower motor
- All aluminum coil
- Compatible with most standard 24 VAC heat pump thermostats
- Factory-Installed TXV
- Thermoplastic drain pan with primary and secondary condensate drain fittings

Single-Piece Air Handlers

BVA Series, 15 SEER, 2 To 5 Ton, R410A

- 3-speed PSC blower motor
- Factory-installed TXV metering
- Multi-position installation: upflow or horizontal right standard
- Field convertible to horizontal left or downflow
- Multiple electrical entry locations
- Dual front panel design
- Fully-insulated cabinet design
- Horizontal and vertical condensate drain pans
- Primary and secondary condensate drain fittings
- Integrated filter rack with tool-less door access
- Field installed heater kits 5, 8, 10, 15, 20KW
- Fully insulated cabinet
- 208/230V

Thermostats

- Supports 2 transformer systems (R/RC & RH)
- C-Wire required for installation
- Wi-Fi 802.11 b/g/n @ 2.4GHz
- Compatible with conventional (gas, oil, electric): up to 2 Heat/2 Cool
- Supports 1 accessory: humidifier or dehumidifier
- Unit Modes: Heat, Cool, Auto, Em Heat (Heat Pump only), Off
- Fan modes: auto, on, circulate
- **L50-706** has 7 relay terminals: G, Y, Y2, W/E, W2/AUX, O/B, H/DH
- **L50-707** has 6 relay terminals: G, Y, Y2, W/E/AUX, O/B/W2, H/DH

Evaporator Coils

Uncased Upflow/Downflow

- Rifled copper tubing, enhanced aluminum fins
- Immersion-tested at 500 PSI, then nitrogen-pressurized and sealed
- Left hand refrigerant and plumbing connections
- Glass loaded nylon drain pans with four 3/4" FPT condensate drains
- Pan is positively sloped toward drains
- Refrigerant leakage test is required before coil is installed
- Go to www.JohnstoneSupply.com/system-selector for complete system matchups

Evaporator Coils

Cased Multi-Position, Aluminum

- Rifled aluminum tubing, enhanced aluminum fins
- Air pressure tested at 500 PSI
- Leak tested with helium, then nitrogen-pressurized and sealed
- Left or right hand refrigerant and plumbing connections
- Externally mounted flowrator body with Schrader valve for hiss-testing
- Upflow, horizontal right, and horizontal left without field modification
- Downflow application require field kit (included)
- Heavy duty plastic or metal drain pans
- Fully insulated foil-faced insulation
- Go to www.JohnstoneSupply.com/system-selector for complete system match-ups

Thermostatic Expansion Valves

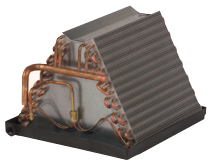
- Used with Aspen CA, CC and CE Evaporator Coils
- Go to www.JohnstoneSupply.com for R22 TXV's

Order #	Mfg. #	For Use With
B15-151	4195	3.5 to 5 Ton R22 Units
B15-152	4200	1.5 to 3.5 Ton R410A Units

Order #	Mfg. #	For Use With
B15-153	4202	4 to 5 Ton R410A Units

Manufactured Housing Coils

CM Series, Uncased Downflow



- Rifled copper tubing, enhanced aluminum fins
- Immersion-tested at 500 PSI, then nitrogen-pressurized and sealed
- Left hand refrigerant and plumbing connections
- Field installed TXV option
- Drain connection: 177L pans have single LH 3/4" MPT, 195L pan have quad drains, 3/4" MPT
- Condensate drain elbow and flexible drain tubing included
- Downflow plate kit included
- Refrigerant leakage test is required before coil is installed
- Go to www.JohnstoneSupply.com/system-selector for complete system match-ups

80% AFUE Upflow/Horizontal Gas Furnaces

GM9S80 Series, Single-Stage, Multi-Speed, ECM

- Aluminized-steel, dual-diameter tubular heat exchanger
- Single-stage gas valve
- Hot surface ignitor
- Single-speed draft inducer
- Self-diagnostic control board
- Multi-speed ECM blower motor
- Left or right connection for gas & electrical service
- Foil faced insulated heat exchanger

80% AFUE Upflow/Horizontal Gas Furnaces

GM9S80 Series, Single-Stage, Multi-Speed, ECM, Ultra LoNOx

- Stainless-steel, dual-diameter tubular heat exchanger
- Single-stage gas valve
- Hot surface ignitor
- Modulating draft inducer
- Self-diagnostic control board
- Multi-speed ECM blower motor
- Foil faced insulated heat exchanger
- California Ultra-LoNOx emissions compliant

Note: GMES80 furnaces will be in the catalog while inventory lasts

Upflow Filter Plenums

- Spring-hinged door for easy access
- Gasketed door for tight seal
- Adjustable rack for 1", 2" & 4" filters
- Uses standard filters
- 1.5-5 ton models available
- Return access on sides and rear
- No need for construction platform
- 24-gauge steel construction
- Hardware-free filter access

Heat Pumps

GSZ Series, 14 & 16 SEER, Single-Phase, 1-1/2 to 5 Ton, R410A

- High efficiency scroll compressor
- High and low pressure switch
- Factory installed bi-flow filter-drier, suction-line accumulator, compressor crankcase heater, high-capacity muffler
- Copper tube/enhanced aluminum fin coil
- Service valves with sweat connections
- Steel louver coil guard
- Contactor with lug connection
- 7/8" to 1-1/8" adapter required for suction line connection on 3-1/2 to 5T units
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning & Heating

Heat Pumps

GSZB4 & GSZM4 Series, 14.3 SEER2, 7.5HSPF2, 1-1/2 to 5 Ton, R410A

- Energy-efficient compressor (GSZB4 models)
- High-efficiency scroll compressor (GSZM4 models)
- SmartShift® technology to ensure quiet reliable defrost
- Enhanced aluminum fin coil with 5 mm diameter copper tubes in 1.5- to 3.5-ton
- Single-speed PSC condenser fan motor
- Factory-installed bi-flow liquid-line filter drier & suction-line accumulator
- Factory-installed: compressor crankcase heater & high-capacity muffler
- High- and low-pressure switches
- Service valves with sweat connections
- Contactor with lug connection
- Removable grille-style top design
- Steel louver coil guard
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Heat Pumps

GSZH5 Series, 15.2 SEER2, Single-Phase, 1-1/2 to 5 Ton, R410A

- High efficiency scroll compressor
- High and low pressure switch
- SmartShift® technology to ensure quiet reliable defrost
- Factory installed suction-line accumulator, compressor crankcase heater, high-capacity muffler
- Copper tube/enhanced aluminum fin coil on 1.5-3.5T
- Service valves with sweat connections
- Steel louver coil guard
- Contactor with lug connection
- Fully charged for 15' of tubing length
- Single panel access to controls with space provided for field-installed accessories
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Heat Pumps

GSZC Series, 16 and 18 SEER, Two-Stage, Single-Phase, 2 to 5 Ton, R410A

- Two-stage scroll compressor
- Two-speed condenser fan motor
- Integrated communicating ComfortBridge™ Technology
- Commissioning and diagnostics via indoor board Bluetooth with the CoolCloud™ phone and tablet application
- Expanded ComfortAlert diagnostics built in
- SmartShift® technology with short-cycle protection
- Factory-installed filter drier & suction line accumulator
- Factory-installed transformer
- High and low-pressure switches
- High-density foam compressor sound blanket
- Fully charged for 15' of tubing length
- Factory-installed sensors monitoring coil and ambient temperature
- Factory-installed compressor crankcase heater
- Factory-installed high-capacity muffler
- Sound control top design
- Wire fan discharge grille
- *7/8" to 1-1/8" adapter required for suction line connections on 4 and 5 ton units
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Heat Pumps

GSZC7 Series, 17.2 SEER2, 8.2 HSPF2, Single-Phase, 2 to 5 Ton, R410A

- Two-stage Copeland UltraTech scroll compressor
- Integrated communicating ComfortBridge™ technology
- Commissioning and diagnostics via indoor board Bluetooth with the CoolCloud™ phone and tablet application
- ComfortAlert™ built in diagnostics
- Copper tube/enhanced aluminum fin coil - 5mm on 2.0-3.0T
- Two-speed ECM condenser fan motor
- High and low pressure switches
- Factory-installed: bi-flow liquid line filter drier, suction line accumulator, compressor crankcase, high capacity muffler, coil and ambient temperature sensors
- Diagnostic indicator lights and storage of six fault codes
- Color-coded terminal strip
- Wire fan discharge grille
- Steel louver coil guard
- High-density foam compressor sound blanket
- *Installer will need to supply ⅞" to 1⅛" adapters for suction line connections
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Horizontal Discharge Heat Pumps

GSZS6 Series, 16.2 SEER2, Single-Phase, Variable-Speed, 1-1/2 To 5 Ton, R410A

- Variable-speed swing compressor
- High-density compressor sound blanket
- Compatible with Goodman connected thermostat and other Goodman communicating equipment
- Control algorithmic logic
- Diagnostic indicator lights, 7-segment LED display, and fault code storage
- Quiet digitally commutated fan motor
- Inside intelligence for diagnostics
- Field-installed bi-flow filter drier
- Coil and ambient temperature sensors
- Suction pressure transducer
- Sweat connection service valves
- Wire fan discharge grille
- Top and side maintenance access
- When properly anchored, meets the 2010 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available)
- * Installer will need to supply ⅞" to 1⅞" adapters for suction line connections
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

GSX Series, 13, 14 and 16 SEER, Single-Phase, 1-1/2 to 5 Ton, R410A

- Energy efficient compressor
- Copper tube/enhanced aluminum fin coil
- Steel louver coil guard
- Factory installed filter-drier
- Service valves with sweat connections
- Contactor with lug connection
- 3/4" to 7/8" and 7/8" to 1-1/8" adapter required for suction line connections on 3-1/2 to 5 ton units
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

GSXN3 Series, 13.4 SEER2, Single-Phase, 1-1/2 to 5 Ton, R410A

- Energy efficient compressor
- Copper tube/enhanced aluminum fin coil-5mm diameter
- Factory-installed filter drier
- Service valves with sweat connections
- Contactor with lug connection
- Ground lug connection
- Venturi for increased velocity of airflow
- Steel louver coil guard
- Fully charged for 15' of tubing length
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning & Heating

Air Conditioning Condensing Units

GSXB4, GSXM4 & GSXN4 Series, 14.3 SEER2, Single-Phase, 1-1/2 to 5 Ton, R410A

- Efficient compressor
- Copper tube/enhanced aluminum fin coil - 5mm diameter on 1.5-3T (GSXB & GSXM)/1.5 - 4T (GSXN) units
- Steel louver coil guard
- Factory installed filter-drier
- Service valves with sweat connections
- Contactor with lug connection
- Removable grille style top design
- 4 & 5 Ton units are 13.8 SEER2
- 3/4" to 7/8" adapter required for suction line
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

GSXH5 Series, 15.2 SEER2, Single-Phase, 1-1/2 to 5 Ton, R410A

- High-efficiency scroll compressor
- Copper tube/enhanced aluminum fin coil -5mm diameter on 1.5-3.0T units
- Steel louver coil guard
- Factory installed filter-drier
- Service valves with sweat connections
- Contactor with lug connection
- Removable grille style top design
- 3/4" to 7/8" adapter required for suction line
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

GSXC Series, 16 & 18 SEER, Two-Stage, Single-Phase, 2 to 5 Tons, R410A

- Two-stage scroll compressor
- Two-speed condenser fan motor
- Integrated communicating ComfortBridge™ Technology
- Commissioning and diagnostics via indoor board Bluetooth with the CoolCloud™ phone and tablet application
- Factory-installed filter drier
- Factory-installed transformer
- Factory-installed high and low-pressure switches
- High-density foam compressor sound blanket
- Copeland® ComfortAlert™ built in diagnostics
- Fully charged for 15' of tubing length
- Factory-installed sensors monitoring coil and ambient temperature
- Contactor with lug connection
- Service valves with sweat connections and easy-access gauge ports
- Sound control top design
- Wire fan discharge grille
- Single-panel access to controls with space for field-installed accessories
- 7/8" to 1-1/8" adapter required for suction line connections on 4 and 5 ton units
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

GSXC7 Series, 17.2 SEER2, Two-Stage, Single-Phase, 2 to 5 Ton, R410A

- Two-stage Copeland Ultra-Tech scroll compressor
- Two-speed ECM outdoor fan motor
- Integrated communicating ComfortBridge™ Technology
- Commissioning and diagnostics via onboard Bluetooth with the CoolCloud™ App
- Copeland® ComfortAlert™ built in diagnostics
- Copper tube/enhanced aluminum fin coil - 5mm on 2.0-3.0T
- Factory-installed filter drier
- Factory-installed transformer
- Factory-installed high and low-pressure switches
- High-density foam compressor sound blanket
- Fully charged for 15' of tubing length
- Ambient temperature sensors
- Removable grille style top design
- New venturi for improved airflow and less noise
- Steel louver coil guard
- Service valves with sweat connections
- 7/8" to 1-1/8" adapters required for suction line connections
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Horizontal Discharge Air Conditioning Condensing Units

GSXS6 Series, 16.2 SEER2, Single-Phase, Variable-Speed, 1-1/2 To 5 Ton, R410A

- Variable-speed swing compressor
- High-density compressor sound blanket
- Compatible with Goodman connected thermostat and other Goodman communicating equipment
- Control algorithmic logic
- Diagnostic indicator lights, 7-segment LED display, and fault code storage
- Quiet digitally commutated fan motor
- Inside intelligence for diagnostics
- Field-installed bi-flow filter drier
- Coil and ambient temperature sensors
- Suction pressure transducer
- Sweat connection service valves
- Wire fan discharge grille
- Top and side maintenance access
- When properly anchored, meets the 2010 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available)
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

ComfortNet™ Communicating Thermostat

High Definition

- Automatic configuration
- Advanced diagnostics
- Demand based modulation control
- Heat pump balance point
- Continuous fan speed (high, medium low)
- Commercial/residential selection option
- Humidification control
- Selectable tri-lingual language choices
- RedLINK™ accessory compatibility
- Wi-Fi remote equipment operation (with the use of the Honeywell Wireless Internet Gateway)
- Additional customizable service reminders
- Filter/UV lamp /humidifier pad maintenance reminder

Warning: This product contains lithium batteries and cannot be shipped by air

Order #	Mfg. #	For Use With		Height	Length
L46-610	CTK04AE	All ComfortNet Compatible ECM Based Furnaces, AH's & All Premium 2-Stage 16 & 18 SEER	Multi-Stage AC's & HP's	3-15/16"	6-13/16"

MUELLER STREAMLINE CO.

Standard Line Sets

- Designed for quick and easy installation of split system air conditioning systems
- Includes one length each of suction line and liquid line
- Purged with dry air, plugged for clean application
- Preinsulated suction line with 3 wall insulation choices
- Straight end design

Evaporator Coils

- All Aluminum evaporator coils
- CAPT models feature factory-installed thermal expansion valves for cooling and heat pump applications
- UV resistant drain pan
- Check flowrator for cooling and heat pump applications
- Split seam front
- Foil-faced insulation
- Engineered to match-up with SEER2 compliant Air Conditioners & Heat Pumps

Air Handlers

◀ NEW

AHVE Series, Horizontal Discharge Compatible, Variable-Speed, ECM

- Electronic Expansion Valve (EEV) for cooling & heat pump applications
- Variable-speed ECM blower motor
- 7mm evaporator coil tube size
- All-aluminum evaporator coil
- Compatible with Amana® brand smart thermostat
- Horizontal or vertical configuration capabilities
- CFM indicator
- Fault recall of 6 most recent faults
- Improved humidity & comfort control
- Coil mounting track for quick repositioning
- Rigid SmartFrame™ cabinet
- Foil faced insulation covers the internal casing
- Tool-less filter access
- 115V & 208/230V

Air Handlers

AVPEC Series, Multi-Position, Variable-Speed, ECM

- Electronic Expansion Valve (EEV) for cooling and heat pump applications
- Variable-speed ECM blower motor
- ComfortNet™ Communicating System compatible
- CFM indicator
- All-aluminum evaporator coil
- Fault recall of 6 most recent faults
- Horizontal or vertical configuration capabilities
- Foil-faced insulation covers the internal
- Tool-less filter access
- 3 kW – 25 kW electric heater kits
- 208/230V

Vertical Wall Mount Air Handlers

AWUF & AWUT Series, With Electric Heat

- For use with refrigerants R410A and R22
- Multi-speed ECM motor for AWUF19-25-31-32-37
- Multi-speed PSC for AWUF18-24-30-36
- Check flowrater for cooling only and heat pump application
- Circuit breaker disconnect
- Thermoplastic drain pan with primary/secondary drain connections
- Sequence controlled and rust resistant heating elements
- Aluminum tubing coils
- 1-1/2 & 2 Ton units: front and bottom return
- 2-1/2 & 3 Ton units: front return only
- Built-in filter rack with filter included
- Wall hanging bracket included
- 208/240V

Ceiling Mount Air Handlers

- High efficiency evaporator coil
- Quiet operation
- Direct drive resilient mounted, 2-speed motor
- Check flowrater for heat pump application
- Circuit breaker disconnect
- Primary/secondary drain connection on high temperature drain pan
- Easy service access
- Steel blower wheels
- Sequence controlled and rust resistant nickel chromium heating elements
- Galvanized steel
- 208/230V

Ceiling Mount Air Handlers

ACSF Series, Cooling Only

- High-efficiency evaporator coil
- All-Aluminum tube/aluminum fin coil
- Direct-drive, resilient-mount, multi-speed motor
- Primary/secondary drain connection in a high-temperature plastic drain pan
- Suitable for free-return installation (non-ducted return air)
- Factory-installed pull-type disconnect
- Quiet operation
- Available without heat or with sequence-controlled and heating elements of 5, 6, 8 or 10 kW
- 208/230V

High Efficiency Modular Blowers

MBVC Variable-Speed

- Integrated communicating ComfortBridge™ Technology
- Commissioning & diagnostics via on board Bluetooth with the CoolCloud phone and tablet application
- Advanced configuration of the airflow & tonnage
- CFM indicator
- Built-in compatibility with multi-stage heat pump & cooling application
- Horizontal or vertical configuration
- Fault recall of 6 most recent faults
- Foil faced insulation
- HKR heat kits sold separately
- 208/230V

Expansion Valve Kits

- Each kit includes 5/8", 3/4" and 7/8" OD suction line stubs that includes the equalizer line port
- For use with CA*F and CH*F coils and AR*F air handlers

Order #	Mfg. #	Description	Wt. Lbs.
B14-850	TX3N4	Non-Bleed Expansion Valve Kit - 2 to 3 Ton AC & HP, R410A	2
B14-851	TX5N4	Non-Bleed Expansion Valve Kit - 5 Ton AC & HP, R410A	2
B18-099	TX2N4A	Non-Bleed Expansion Valve Kit - 1.5 to 2 Ton AC & HP	2
B18-724	TXV-30	Non-Bleed Expansion Valve Kit - 1.5 to 2.5 Ton AC & HP, R410A	2
B18-725	TXV-42	Non-Bleed Expansion Valve Kit - 3 to 3.5 Ton AC & HP, R410A	2
B18-726	TXV-48	Non-Bleed Expansion Valve Kit - 4 Ton AC & HP, R410A	2
B18-727	TXV-60	Non-Bleed Expansion Valve Kit - 5 Ton AC & HP, R410A	2
B18-926	TXV-V24	Non-Bleed Expansion Valve Kit - 2 Ton for GVXC/GVZC, R410A	2
B18-927	TXV-V36	Non-Bleed Expansion Valve Kit - 3 Ton for GVXC/GVZC, R410A	2
B18-928	TXV-V48	Non-Bleed Expansion Valve Kit - 4 Ton for GVXC/GVZC, R410A	2
B18-929	TXV-V60	Non-Bleed Expansion Valve Kit - 5 Ton for GVXC/GVZC, R410A	2
B83-248	B1284655	Non-Bleed Expansion Valve Kit - 3/8"x1/2"x1/4"	2
B14-104	XVB18-36C	Bleed Expansion Valve Kit - 1.5 to 3 Ton R22	2
B14-105	XVB42-60C	Bleed Expansion Valve Kit - 3.5 to 5 Ton R22	2
B14-139	XV-36	Non Equalizing Expansion Valve Kit - 3 Ton R410A	2
B14-141	XV-60	Non Equalizing Expansion Valve Kit - 5 Ton R410A	2

Air Handler Filters

Order #	Mfg. #	Description	For Use With
L81-230	ALFH16201E	16" Filter	B Models of ARUF & ARPT SmartFrame™ AH's
L81-231	ALFH1912201E	19.5" Filter	C Models of ARUF & ARPT SmartFrame™ AH's
L81-232	ALFH20231E	23" Filter	D Models of ARUF & ARPT SmartFrame™ AH's

Heat Kits
Single-Phase

- Controlled by sequencers for better temperature control
- Multiple branch circuit capability
- Built-in overcurrent protection
- High temperature limit control
- Rust resistant nickel chromium heat elements
- For use with: MBR & MBVC Air Handlers; GPH16M/H, GPH15M, GPH14M/H, GPC15H, GPC14M/H, DP14CM/H, DP14HM/H, DP15CH, DP16HH Packaged Units
- 208/240V

Heat Kits
Single-Phase

- Designed for higher airflow requirements
- Available with or without circuit breakers
- Ship without the electric heater cover plate installed but the heater cover will be included with the literature packet if needed in no heat applications
- For use with ARUF, ASPT, AVPTC, DVPTC, DVPEC & DVPVC air handlers

Thermostat

- Up to 4 heat and 2 cool stages
- Gas/electric or heat pump control
- Dual fuel capable
- Simple as you want operation
- Switchable programmable or non-programmable
- Adjustable timers and deadbands
- Set point limiting
- Simple-stat operation for ease of use
- Programmable fan
- Outdoor sensor ready
- Choice of English, Spanish or French
- Customizable wallpaper
- Customizable screensaver
- 24 VAC

Single Packaged Heat Pumps

GPHH3 Series, 13.4 SEER2, Single-Phase, 2 to 5 Ton, R410A Horizontal

- Energy-efficient scroll compressor
- Multi-speed ECM indoor blower motor
- Copper tube/aluminum fin condenser coil
- All-aluminum evaporator coil
- Quiet horizontal discharge
- Totally enclosed, permanently lubricated condenser fan motor
- Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- Fully insulated blower compartment
- Louvered condenser coil protection
- Heat kits sold separately
- 208/230V

Single Packaged Heat Pumps

GPHM5 Series, Single-Phase, 15.2 SEER2, 2 to 5 Ton, R410A, Multi-Position

- High-efficiency 2-stage scroll compressor
- 2-stage heating and cooling
- Multi-Speed ECM indoor blower motor
- Copper tube/aluminum fin condenser coils
- All aluminum evaporator coil on 2- to 4-ton units
- Aluminum-copper evaporator coil on 5-ton units
- Liquid-line filter drier
- Convertible airflow: horizontal or downflow
- Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- Fully insulated air-handling compartment with convenient access panels
- Louvered condenser coil protection
- Heat kits sold separately
- 208/230V

Dual Fuel Packaged Units

GPDM3 Series, 13.4 SEER2, Single-Phase, 2 to 4 Ton, R410A, 81% AFUE, 6.7 HSPF2

- Combines cooling with heat pump and gas heating
- Energy-efficiency scroll compressor
- Heavy duty aluminized steel heat exchanger
- Multi-speed ECM blower motor
- All aluminum evaporator coil
- Two-stage gas valve
- Field convertible to LP
- Power-assisted combustion
- Direct spark ignition with microprocessor based control
- Self-diagnostic blower operation and safety circuits
- High and low-pressure switch protection
- Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- Horizontal or downflow applications
- Fully insulated cabinet
- Compressor sound blanket
- Bottom, 2” high base rails
- Comply with California LoNox emission standards
- 208/230V

Single Packaged Air Conditioners

GPCH3 Series, 13.4 SEER2, Single-Phase, 2 to 5 T, R410A, Horizontal

- Energy-efficient compressor
- Multi-speed ECM indoor blower motor
- Copper tube/aluminum fin condenser coil
- All-aluminum evaporator coil
- Quiet horizontal discharge
- Totally enclosed, permanently lubricated condenser fan motor
- Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- Fully insulated blower compartment
- Louvered condenser coil protection
- Heat kits sold separately
- 208/230V

Single Packaged Gas/Electric Air Conditioners

GPGM3 Series, 13.4 SEER2, Single-Phase, 2 to 5 Ton, 81% AFUE, R410A, Multi-Position

- Energy-efficient scroll compressor
- All-aluminum evaporator coil
- Multi-speed ECM indoor blower motor
- Convertible airflow: horizontal or downflow application
- Power-assisted combustion
- Direct spark ignition system
- Aluminum foil-facing internal insulation
- One roof curb fits all units
- Fully insulated cabinet
- All models comply with California LowNOx standards
- 208/230V

Single Packaged Gas/Electric Air Conditioners

GPGM5 Series, 15.2 SEER2, Single-Phase, 2 to 5 Ton, 81% AFUE, R410A, Multi-Position

- High-efficiency two-stage scroll compressor
- Convertible airflow: horizontal or downflow application
- Copper tube/aluminum fin condenser coil
- All-aluminum evaporator coil on 2 to 4 ton units
- Aluminum-copper evaporator coil on 5 ton units
- Power-assisted combustion
- Variable-speed ECM indoor blower motor
- Loss-of-charge protection & high-pressure switch
- Two-stage gas valve
- Direct spark ignition
- All blower operation and all safety circuits complete with self-diagnostics
- Fully insulated heavy-gauge, zinc-coated steel cabinet
- Aluminum foil-facing internal insulation reinforced with fiberglass scrim
- One roof curb fits 2-4 ton units
- All models comply with California Low NOx emission standards
- 208/230V

Single Packaged Heat Pumps

14 SEER/11.5 EER, Single-Phase, 3 To 5 Ton, R410A

- Scroll compressor
- High and low pressure switches
- Copper tube/aluminum fin coils
- 5mm Smart Coil Technology on all condenser coils
- Motor with thermal overload and phase failure protection
- 24-volt electro-mechanical controls package
- Standard terminal blocks
- Full perimeter base rail
- Single-point entry
- Direct Drive
- 208/230V

Single Packaged Heat Pumps

12.5 IEER/Up To 11.2 Three-Phase, 7-1/2 To 12-1/2 Ton, R410A

- Dual single-stage scroll compressor
- Copper tube / aluminum fin coils on condenser and evaporator
- 5mm Smart coil technology on all condenser coils
- Low- and high-pressure transducer, high pressure safety switch and temperature sensors
- Single-point power entry
- Units are factory-wired
- 1" raised flanged edges around the supply and return
- Internal overload protection included with compressor
- Full perimeter base rail
- Heat kits sold separately

Single Packaged Air Conditioners

10.0 Up to 11.0 EER, Three-Phase, 15 To 25 Ton, R410A

- High-efficiency scroll compressor
- 5mm Smart Coil Technology on all condenser coils
- High- and low-pressure switches
- 2 inch deep filters standard
- Low Ambient cooling operation down to 35°F outside air temperature
- Cranckase heater
- Single-point power entry
- Multi-stage capability
- Heat kits sold separately

Single Packaged Gas/Electric Air Conditioners

13 SEER, Three-Phase, 3 To 5 Ton, 80% AFUE, R410A, Multi-Position

- Energy-efficient compressor with internal relief valve
- Copper tube/aluminum fin coil with flowrater expansion device
- PSC blower motor on 3 Ton unit; EEM motor on 4 & 5 Ton units
- Aluminized steel tubular heat exchanger
- Gas valve for natural gas
- Direct spark ignition system
- Fully insulated blower compartment
- Complies with California LoNOx requirements
- 208/230V

Single Packaged Gas/Electric Air Conditioners

14 SEER, Three-Phase, 3 To 5 Ton, 81% AFUE, R410A, Multi-Position

- Energy-efficient compressor with internal relief valve
- EEM blower motor
- Stainless steel heat exchanger
- Direct-spark ignition system
- Gas valve for natural gas with easy conversion to propane
- Copper tube/aluminum fin coil
- All aluminum evaporator coils
- Fully insulated blower compartment
- Fully insulated cabinet
- Flow-rater expansion device on 3 and 4 ton
- TXV expansion device on 5-ton units
- 208/230V

Single Packaged Gas/Electric Air Conditioners

14 SEER/11.5 EER, Three-Phase, 3 to 5 Ton, R410A, Belt Drive

- Scroll compressor
- High and low pressure switches
- Copper tube/aluminum fin coils
- 5mm Smart Coil Technology on all condenser coils
- Motor with thermal overload and phase failure protection
- 24-volt electro-mechanical controls package
- Standard terminal blocks
- Full perimeter base rail
- Optional field installed LP kits

DAIKIN

Gas/Electric Packaged Air Conditioners

Up to 17 IEER/13.0 EER, 81% Thermal Efficiency, Three-Phase, 3 To 6 Ton, R410A

- Scroll compressor
- High and low pressure switches
- Copper tube/aluminum fin coils
- 5mm Smart Coil Technology on all condenser coils
- ECM Direct-Drive motor with thermal overload and phase failure protection
- 24-volt electro-mechanical controls package
- Standard terminal blocks
- Full perimeter base rail
- Single point entry

Air Conditioning Condensing Units

13 SEER & 13.4 SEER2, Three-Phase, 3 To 5 Ton, R410A

- Energy-efficient compressor
- Factory-installed filter-drier
- Copper tube enhanced aluminum fin coil
- Service valves with sweat connections and easy access gauge ports
- Contactor with lug connection
- Top and side maintenance access
- Steel louver coil When properly anchored, meets the 2020 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available)
- Note: * 7/8" to 1-1/8" adapter required for suction line connection on 4T and 5T units.

Heat Pumps

14.3 SEER2, Three-Phase, 3 To 5 Ton, R410A

- Energy-efficient scroll compressor
- Low pressure switch
- Liquid refrigerant return protection
- Factory installed, bi-flow liquid line filter drier
- Copper tube/enhanced aluminum fin coil
- Service valves with sweat connections and easy-access gauge ports
- Reliable time-initiated, temperature-terminated defrost control
- Contactor with lug connection
- Ground lug connection
- Steel louver coil guard
- Top and side maintenance access
- When properly anchored, meets the 2020 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available)

Air Handlers

Commercial DAT Series, Multi-Position, Two-Speed

- Upflow or horizontal left positions in 7-1/2 & 10 ton cooling only or heat pump applications
- 2-speed blower motor
- TXV control
- Draw-thru belt centrifugal blower
- Horizontal and vertical condensate pans
- Copper tube /aluminum fin coils
- Entry on top panel for both low and high voltage
- Built-in filter rack with 2" filter supplied
- Removable access panels
- AHKD heat kits sold separately

Note: * For two refrigerant lines

Goodman Extended Warranties

Goodman Air Conditioning & Heating

Asure EXTENDED SERVICE PLAN

Asure™ Extended Service Plans

Extended Parts and Labor Coverage for Goodman Residential Equipment

- Provide labor coverage, extended parts coverage and limited unit replacement coverage
- Designed to complement Goodman standard manufacturer's warranty
- Three-phase products are not subject to Asure Extended Service coverage

Evcon

80% AFUE Multi-Position Gas Furnaces

RGF1L*E Series, ECM Single-Stage, LoNOx

- Multi-position upflow, horizontal left or right, or downflow
- Blower-off delay for cooling SEER improvement
- Built-in, high self level diagnostics with fault code
- Electronic hot surface ignition
- 100% shut off main gas valve
- 5-speed direct drive, ECM motor
- 24V, 40VA control transformer and blower relay
- Tubular aluminized steel primary heat exchanger
- Quiet inducer operation
- External air filters (not included)
- Propane convertible

80% AFUE Multi-Position Gas Furnaces

RL18 Series, ECM Single-Stage, LoNOX

- Upflow, horizontal left or right, or downflow
- Blower-off delay for cooling SEER2 improvement
- Built-in, high self level diagnostics with fault code displays standard on integrated control module
- Electronic hot surface ignition
- 100% shut off main gas valve
- 5-speed direct drive, standard ECM motor
- 24V, 40 VA control transformer and control provisions
- Tubular aluminized steel primary heat exchanger
- Quiet inducer operation
- External air filters (not included)
- Insulated blower compartment
- Propane convertible

Heat Pumps

LX Series, 14 SEER, Single-Phase, 1-1/2 To 5 Ton, R410A

- Coated steel wire fan guard
- High pressure relief valve and temperature sensor
- High and low pressure switches
- Factory installed filter-drier
- Top discharge
- Low operating sound levels
- Adapter fitting required for 1-1/8" line sets
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Heat Pumps

14.3 SEER2, Single-Phase, 1-1/2 to 5 Ton, R410A

- Enhanced aluminum fins are mechanically bonded to copper tubing
- Extruded louver coil guard
- High and low pressure relief valve, temperature sensor & high and low pressure switch for compressor protection
- Field installed filter-drier
- Top discharge
- Diagonal base valves
- Low operating sound levels
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Coleman HEATING AND AIR CONDITIONING

80% AFUE Multi-Position Gas Furnaces

TM8E, TMLE & TL8E Series, Single-Stage, ECM Motor, 33" Height

- Multi-position upflow, horizontal left or right, or downflow
- 5-speed direct drive standard ECM blower motor
- Built-in, high level self-diagnostics with fault code displays on integrated control module
- Electronic hot surface ignition
- 100% shutoff main gas valve for extra safety
- 24V, 40 VA control transformer and blower relay
- Tubular aluminized steel (stainless-steel for TL8E models) primary heat exchanger
- Airflow leakage less than 1% of total airflow
- Quiet inducer operation
- All models are propane convertible
- LoNOx models meet specific code requirements; see www.JohnstoneSupply.com for complete information and product selection

80% AFUE Multi-Position Gas Furnaces

Z8ES Series, Single-Stage, ECM Motor, 33" Height, Standard & LoNOx

- Horizontal left or horizontal right, or downflow
- 5-speed direct drive standard ECM blower motor
- Blower-off delay for cooling SEER2 improvement
- Built-in, high level self-diagnostics with fault code displays standard on integrated control module
- Electronic hot surface ignition
- 100% shut-off main gas valve for extra safety
- 24V, 40 VA control transformer and blower relay
- Hi-tech tubular aluminized steel primary heat exchanger
- Airflow leakage less than 1% of nominal airflow
- Quiet inducer operation
- All models are propane convertible
- LoNOx models meet specific code requirements; see www.JohnstoneSupply.com for complete information and product selection

96% AFUE Multi-Position Gas Furnaces

TM9Y Series, Two-Stage, Standard ECM

- Multi-position upflow, horizontal left or right, or downflow
- Two-stage gas valve and inducer operation
- Standard ECM constant torque drive for cooling SEER
- Electronic hot surface ignition
- 100% shutoff main gas valve for extra safety
- Hi-tech tubular aluminized steel primary heat exchanger
- Built-in, high-level self-diagnostics with fault code display
- 24V, 40 VA control transformer and integrated furnace control
- Airflow leakage less than 1% of total airflow
- Insulated blower compartment
- External air filters (not included)
- All models are propane convertible

96% AFUE Multi-Position Gas Furnaces

TM9V Series, Two-Stage, Variable-Speed, ECM, 33" Height

- Communicating control
- Multi-position upflow, horizontal left or right, or downflow
- Two-stage gas valve and inducer operation
- Variable-speed ECM blower operation
- Built-in, high-level self diagnostics with fault code displays standard on integrated control module
- Electronic hot surface ignition
- 24V, 40 VA control transformer and blower relay
- High-tech tubular aluminized steel primary heat exchanger
- Airflow leakage less than 1% of total airflow
- Insulated blower compartment
- Internal condensate trap design
- All models are propane convertible

97 to 98% AFUE Multi-Position Gas Furnaces

CP9C Series, Modulating ECM

- Modulating gas valve, inducer and circulating blower
- Modulating operation from 100% to 35% input in 100 increments with nearly constant temperature rise
- Multi-position upflow, horizontal left or right or downflow
- Airflow leakage rate of less than 1% of total airflow @ 1" ESP
- ECM variable speed motor
- Electronic hot surface ignition
- 24V, 40 VA control transformer and blower relay
- Tubular aluminized steel primary heat exchanger
- Stainless steel tube/aluminum fin secondary heat exchanger
- Built-in, high-level, self-diagnostic controls with fault codes
- External air filters (not included)
- Insulated blower compartment
- All models are propane convertible

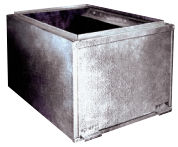
L39-479	S1-1CK0604	4" Tile Lined Chimney Kit	TM8V, TMLV, TM8T, TMLT, TM8X, TMLX, TM8Y, RGF1L*E, RGF1L*P, RGF2L*E

Counter Flow Filter Cabinets

- Uses standard filters
- Easy access to filters
- Filters angled to maximize surface
- Sizes 1-4 tons
- Completely insulated
- Filter access without vent pipe interference



Order #	Mfg. #	Cabinet Dimensions	Duct Size	Filter Dimensions	Wt. Lbs.
L81-201	CF1	15-3/4" x 21-3/8" x 12"	13-3/4" x 19-7/8"	10" x 20" x 1"	17

Labor Saver Platforms

- Available in 1-3 ton or 3.5-5 ton sizes
- Adjustable rack for 1", 2" and 4" filters
- Uses standard filter sizes
- Easy, dual-sized access
- Lined with 1" insulation
- Angled filter maximizes surface area
- Raises furnace to plenum for efficient installation

Coleman HEATING AND AIR CONDITIONING

Heat Pumps

TH4B, LX Series, 14 SEER, Single-Phase, 1-1/2 To 5 Ton, R410A

- Coated steel wire fan guard
- Extruded louver coil guard for coil protection
- Swing-out control box
- Field installed liquid line filter-drier
- High pressure relief valve and temperature sensor
- High and low pressure switches
- Top discharge
- Low operating sound levels
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Heat Pumps

THF2 Series, 15.2 SEER2, Single-Phase, 1-1/2 to 5 Ton, R410A

- Enhanced aluminum fins coil
- 2-stage operation (except for 1.5 Ton)
- 2-stage demand defrost
- High pressure relief valve & temperature sensor
- High & low pressure switches
- Extruded louver coil guard
- Coated steel wire fan guard
- Top discharge
- Low operating sound levels
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Heat Pumps

CH6B, LX Series, 16 SEER, Single-Phase, 1-1/2 to 5 Ton, R410A

- Aluminum fin and copper tube outdoor coil
- Removable 2-piece steel extruded louver coil guard
- 1-Stage scroll compressor
- Factory installed filter-drier
- TXV controls to all indoor coils
- Suction accumulator
- Demand defrost
- High & low pressure switches
- Conventional controls
- Easy service access
- Adapter fitting required for 1-1/8" line set
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

TC4B/TW4B, LX Series, 14 SEER, Single-Phase, 1-1/2 to 5 Ton, R410A

- High efficiency microchannel aluminum
- Stamped steel coil guard for coil protection
- High pressure relief valve, temperature sensor & high-pressure switch for compressor protection
- Factory installed liquid line filter-drier
- Top discharge
- Low operating sound levels
- Adapter fitting required for 1-1/8" line set
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

TCF2B Series, 15.2 SEER2, Single-Phase, 1-1/2 to 5 Ton, R410A

- Scroll compressor throughout: 2-stage scroll on 3.5, 4 and 5 Ton models
- Filter-drier shipped loose for field installation at either indoor coil or AC unit
- Service valves feature 45 degree access ports for easy gauge hook-up
- Swing-out control box
- Two easily removable coil guards
- Top or side access to compressor compartment
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Horizontal Discharge Air Conditioning Condensing Units

HMCG Series, 16.0+ SEER2, Single-Phase, Modulating, 2 to 5 Ton, R410A

- Inverter driven compressor
- High & low pressure switch for compressor protection
- Enhanced aluminum fins are mechanically bonded to copper tubing and coated to shed water during defrost cycles
- Coated steel wire fan guard for coil protection
- Factory installed accumulator
- Top discharge
- Low operating sound levels
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

CC7B, LX Series, 17 SEER, Single-Phase, 1-1/2 To 5 Ton, R410A

- Microchannel aluminum coils
- Coated steel wire fan guard
- ECM fan motor
- High pressure relief valve and temperature sensor
- High and low pressure switches
- Factory installed liquid line filter-drier
- Low operating sound levels
- Diagonal base valves
- Adapter fitting required for 1-1/8 line set
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

Echelon™ AC18B Series, 19 SEER, Single-Phase, Two-Stage, 2 To 5 Ton, R410A

- 2-piece steel extruded louver coil guard protects the tube-in-fin coil
- 2-speed protected scroll compressor
- WhisperDrive™ System
- ECM fan motor
- Swept wing fan
- Composite base pan
- Aluminum fin and copper tube outdoor coil
- Factory installed filter-drier
- Climate Connect™ providing pre-configured operating profiles
- Easy service access
- Advanced system control
- Factory or field installed TXV
- Communication capable
- Adapter fitting required for 1-1/8" line set
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Air Conditioning Condensing Units

Echelon™ AC21B, 20 SEER, Single-Phase, Modulating, 2 To 5 Ton, R410A

- Copper tube and aluminum fin coil
- Variable capacity (inverter driven)
- Inverter drive scroll compressor
- Copper or stainless steel filter-drier
- Composite base pan
- Swept-wing fan with ECM fan motor
- Slotted 2-piece coil guard
- Communicating only
- Outdoor main control with Charge View™
- Power conditioning chokes
- 24VAC transformer
- Removable fan guard
- Hx thermostat
- Adapter fitting required for 1-1/8" line set
- 208/230V

Applications:
- Product not suitable for all regions

Note: Installation must meet all Federal, State, and Local guidelines

Bolt-On Mechanical TXV Kits

- The kit consists of a bolt-on thermal expansion valve, 2.5 feet of thermal insulation, bulb straps or bulb clamp and instructions
- When a TXV kit is installed on systems using reciprocating compressors, a hard start kit must be installed; hard start kits are not necessary on units using scroll compressors
- For additional TXV selection, go to www.johnstonesupply.com.

Coleman HEATING AND AIR CONDITIONING

Single-Piece Air Handlers

JHVV Series, Variable-Speed, ECM, Communicating

- Upflow, downflow and horizontal left or right
- Variable-speed ECM motor
- MaxAlloy™ coil
- Factory installed Electronic Expansion Valve (EEV)
- Tool-less filter access with sliding latch
- Foil faced insulation
- Thermoset drain pan
- Less than 2% at 1 in. W.C. external static pressure when tested in accordance with ASHRAE Standard 193
- 8HK heat kits sold separately
- 208/230V

Coleman HEATING AND AIR CONDITIONING

Single-Piece Air Handlers

AVC Series, Variable-Speed, ECM, Communicating

- Upflow, downflow and horizontal left or right
- Rigid case construction interior endoskeleton
- Direct-drive variable-speed ECM motor
- MaxAlloy™ coil
- Single piece with no external screws
- Foil faced insulation
- Thermoset drain pan
- 2% or less total airflow leakage rate
- 1" standard size filter
- Heat kits sold separately
- 208/230V

Note: AVC air handlers will be in the catalog while inventory last.

Single-Piece Air Handlers

AE Series, Standard, ECM, Multi-Position with Factory-Installed TXV

- Upflow, downflow, and horizontal left or right
- Rigid case construction interior endoskeleton
- Direct-drive standard ECM motor
- MaxAlloy™ coil
- Single piece with no external screws
- Foil faced insulation
- Thermoset drain pan
- 2% or less total airflow leakage rate
- 1" standard size filter
- 6HK heat kits sold separately
- 208/230V

Note: AE air handlers will be in the catalog while inventory last.

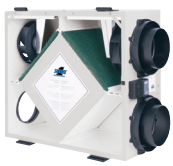
B85-607	S1-KF-102-718-203	Replacement Media Cartridge, MERV 10, 20x20x5 (M6)

Premium Hybrid Electronic Air Cleaner

- Rated airflow is 600–2,000 CFM
- Resistance: 0.14" w.c. @ 1,200 CFM, or 0.29" w.c. @ 2,000 CFM
- Supports a 400 lbs. furnace or air handler
- 80% efficient on virus-size particles 1,000 times smaller than you can see
- 94% efficient on respirable dust
- 1-year service life

Order #	Mfg. #	Description
B84-489	S1-HEAC3000T	Premium Electronic Hybrid Air Cleaner

Heat Recovery Ventilation System



- Two operating modes: intermittent and continuous ventilation
- Variable-speed
- Proportional defrost
- ISF TM 6" (diam.) collar system — enables you to manipulate duct within your reach and then insert the collar to HRV by sliding it in place
- 5-year limited warranty on ventilation motors; 5-year limited warranty on the enthalpy/heat recovery core; five-year limited warranty on all other components

Single Packaged Heat Pumps

PHE, LX Series, 14 SEER, Single-Phase, 2 To 5 Ton, R410A

- High pressure switch
- Standard ECM indoor fan motor
- Top discharge condenser air design
- Full perimeter, removable base rails
- Slide-out blower assembly
- Easily field convertible from side to bottom discharge
- Stamped slotted coil guard to provide impact protection against small objects
- Grooved copper tubes with enhanced aluminum fin; indoor coils use tin-coated copper tubing with aluminum fins
- Internal compressor protection (temperature and pressure)
- Convertible airflow design
- Field installed electric heaters available
- 208/230V

Single Packaged Air Conditioners

PCE, LX Series, 14 & 16 SEER, Single-Phase, 2 To 5 Ton, R410A

- Full perimeter base rail
- Top discharge
- Condenser coil grille
- Protected compressor against high pressure and temperature
- High pressure switch
- Standard ECM fan motor
- Convertible airflow design
- Aluminum fin construction and grooved copper tubes
- Low operating sound level
- Condensate drain pan
- 6HK heat kits sold separately
- 208/230V

Single Packaged Gas/Heat Air Conditioners

PCG4, LX Series, 14 SEER, Single-Phase, 2 To 5 Ton, R410A, 81% AFUE

- Full perimeter base rail
- Top discharge
- Stamped slotted coil grille
- Protected compressor
- High pressure switch
- Spark to burner ignition
- Multi-port in-shot burner
- Post-purge induced draft combustion
- Low operating sound level
- 208/230V

Single Packaged Air Conditioners

PCE4, LX Series, 14 SEER, Three-Phase, 3 To 5 Ton, R410A

- High pressure switch
- ECM fan motor
- Aluminum fin construction and grooved copper tubes
- Simple control circuit
- Top discharge
- 1" washable filter
- Stamped slotted coil guard
- Protected compressor against high pressure and temperature
- Full perimeter removable base rails
- Low operating sound level
- Condensate drain pan
- Convertible airflow design
- Electric heat kits sold separately
- 208/230V

Air Conditioning Condensing Units

TCD, LX Series, 13 SEER, Three-Phase, 2-1/2 to 5 Ton, R410A

- Aluminum microchannel tubing coil and enhanced aluminum fins
- Factory installed filter-drier
- Lower operating sound level
- Top discharge of warm air
- Stamped steel coil guard
- Low maintenance due to long life of motor-bearings
- Secured service valves
- Easy service access
- Compressors are protected against high pressure and temperature
- 2-1/2, 3 & 3-1/2 Ton units have Copeland compressors

Roof Curb Adapters

Custom Curbs

- One piece construction; requires zero field assembly
- No flat spots eliminating standing water
- Galvanized materials with steel coating
- All internal seams are covered with aluminum foil tape to prevent air leaks
- Crane ready lifting lugs

Performance Promise Protection Plans

Extended Warranty Plans for Coleman and Evcon Residential Equipment

- Provides up to 10-years of extended parts and labor protection
- Offered directly by you and Coleman — giving customers one place to go for service: your company
- Can be transferred to a new homeowner
- Offers contractor a mark-up on all equipment and parts after the 30th day
- Generous travel time allowance and labor rates
- Easy on-line claim processing and simple work defect codes for quick and easy reimbursements
- Paid via a one-time payment at the time of purchase

Order #	Mfg. #	Description
Gas and Electric Furnaces (Includes Evaporator Coil)		
L40-693	PRCPFURN060LM	31st Day-5th Year Labor Only
L45-910	PRCPFURN120LM2	2nd-10th Year Labor Only (10 Year Parts Standard)
L44-726	PRCPFURN120LM	31st Day-5th Year labor; 6-10 Year Labor Only (10 Year Parts Standard)
B18-542	PRCPUNIT060L	31st Day-5th Year Labor Only (No Markup or Travel)
A/C Outdoor Unit, (Includes Evaporator Coil) 1-1/2-5 Tons, Single-Phase		
B18-083	PRCPUNIT120LM2	2nd-10th Year Labor Only (10 Year Parts Standard)

80% AFUE Manufactured Housing Gas Furnaces

Downflow Sealed Combustion

- ECM Blower
- A/C ready: blower handles up to 4T A/C
- Aluminized steel heat exchanger
- Sealed combustion
- Built-in coil cabinet
- Molded contoured white upper panel
- Pre-painted contoured white lower
- Universal disposal filter
- Zero clearance where space is a premium

Note: When replacing a manufactured housing gas furnace, replace the roof jack as well.

95% AFUE Manufactured Housing Gas Furnaces

Multi-Position, Sealed Combustion

- Aluminized steel primary heat exchanger
- Stainless-steel secondary heat exchanger
- 5-speed, direct drive standard ECM motor
- Self-diagnostics with fault code display standard on integrated control module
- 24V, 40 VA control transformer and blower relay
- Low unit amp requirement
- Electronic hot surface ignition
- Blower door safety switch
- Installed as a two-pipe (sealed combustion) using outdoor combustion air propane (LP) convertible
- Quiet inducer operation

95% AFUE Manufactured Housing Gas Furnaces

CMA4 & CMC2 Series, Downflow, Sealed Combustion

- Natural gas or propane ready
- 4 speed direct drive blower for CMA3 series furnaces
- CMC2 series furnaces are Energy Star approved when using optional ECM blower motor
- Aluminized steel primary heat exchanger
- Stainless steel secondary heat exchanger
- Silicon Nitride igniter
- PVC venting
- Lifetime heat exchanger warranty
- 10-year parts warranty

Coleman HEATING AND AIR CONDITIONING

Manufactured Housing Electric Furnaces

Downflow & Upflow

- Multi-speed blower
- Built-in coil cabinet
- Coil shelf factory installed
- Thermostat sold separately
- Long lasting nickel chrome heat elements for heating package
- Zero clearance feature allows for installation where space is at a premium
- Louvered door for EBE models
- Solid door for EUE models

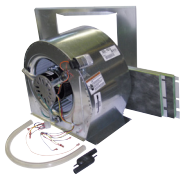
Blower Assemblies

For Manufactured Housing Furnaces

- Used to replace existing blower when adding air conditioning to an existing heat only system or 3-1/2 tons or more A/C to a new system
- **B81-555** used when adding 3 tons or less A/C to Coleman gas furnaces that are not A/C ready or MGHA or MMHA series Nordyne gas furnaces, or when adding 3 tons of A/C to DGAT/C or DGAT/D series Coleman furnaces less than 90,000 BtuH input
- **B81-554** used when adding 3.5 or 4 tons of A/C to most existing Coleman or Nordyne/ Intertherm/Miller gas furnaces
- **B82-016** used when adding up to 4 tons of A/C to a new or existing Coleman electric furnace
- **B82-443** used when adding up to 5 tons of A/C to EB/EU only Coleman electric furnaces
- **B82-451** PSC motor used on 5 tons DGAA models only
- No 5 ton A/C blower for DGAX models

Note: Nordyne furnaces require a thermostat sub-base to be fully A/C ready.



Order #	Mfg. #	Speeds	Nom. Tons	Type	Wt. Lbs.

B82-451	7900-7751	1	5	Gas	42

Roof Jacks

For Coleman and Evcon Gas Furnaces

- Telescopic and adjustable
- For proper fit, measure from the base of the furnace to the flange on the top of the roof
- BOSS sealant (**G37-454**) is the only substance approved for installation of roof jacks; comes in caulk tube ready for use
- External roof jack extension (not shown) **X89-552** allows cap to be raised 18" to exceed peak of roof

Control Packages

For Manufactured Housing Furnaces

- Used when adding A/C to a manufactured housing furnace not yet A/C ready — not needed on **L96-218** through **L96-221**, **L96-324** through **L96-326**
- **B12-493** manual switch is used to change from heating to cooling
- **B12-494** 4-wire thermostat included

95% Manufactured Housing Gas Furnaces

VMA Series, Downflow, Sealed Combustion

- LP convertible
- AC Ready: 50K-3.5 Ton & 75K-4 Ton
- 4-speed direct drive blower
- Sealed combustion design provides draws combustion air from the outside
- 18-Gauge aluminum coated primary heat exchanger
- 24C stainless steel secondary heat exchanger
- Silicon Nitride ignitor
- Fits standard manufactured housing furnaces footprint
- Limited lifetime heat exchanger and 5 year parts warranties

VMC Series, Downflow, Sealed Combustion

- Fully insulated cabinet
- Convertible gas valves
- Silicon Nitride ignitor
- New integrated coil box
- 4-speed direct drive blower
- 18-gauge aluminum coated primary heat exchanger
- Concentric vent kit
- Stainless steel secondary heat exchanger
- 2-piece top allows easy installation of vent pipes
- 22-gauge powder coated cabinet
- Shipped for natural gas, easily converted for propane
- Lifetime heat exchanger warranty

Manufactured Housing Electric Furnaces

- From 1-1/2 to 4 ton AC ready
- Downflow, upflow & multi-position configuration
- Built in full sized coil cabinet
- Built in circuit breakers
- Fully insulated cabinet
- Nichrome heating elements
- Control board allows for 16 blower speeds
- Heating relays provide quiet operation
- E7ED & E7EU models comes with factory installed coil cabinets

Manufactured Housing Single Packaged Air Conditioners

14 SEER, 2 To 5 Ton, Single-Phase, R410A

- High pressure switch
- Micro-Channel Aluminum coil
- ECM blower motor
- PSC condenser motor
- Polyester urethane coat finish
- Optional electric heat
- 208/230V

Manufactured Housing Coils

Tube-In-Fin , R410A

- Designed to work with Revolv condensers and Manufactured Housing furnaces
- Mounted TXV sensor bulb
- Factory installed TXV for R410A
- Built-in coil strainer for protection
- Leak tested to 500 p.s.i.
- Dry-type pan does not maintain standing water
- Kit contains drain hose, fittings and cover plates for gas/oil furnace

Note: Acceptable for downflow only in oil fired furnaces.

935 Series Fixed Bar Return Filter Grilles

SHOEMAKER

- Roll formed steel blades fixed at 45° parallel to the longest dimension
- Hinged removable extruded aluminum face frame with signature line marks
- Hinges parallel to longest side
- Face set in an outer filter grille frame
- Hand operated lever for easy filter access
- 4-way reversible door on square sizes
- 2-way reversible door on rectangular sizes
- Concealed mounting holes

905FG Series Aluminum Fixed Blade Filter Grilles

SHOEMAKER

- Fixed 45° aluminum airfoil blades parallel to the longest dimension
- Hinged removable extruded aluminum face frame with signature line marks
- Hinges parallel to longest side
- Face set in an outer filter grille frame
- Hand operated lever for easy filter access
- 4-way reversible door on square sizes
- 2-way reversible door on rectangular sizes
- Concealed mounting holes
- Holds up to a 1" filter (not included) with filter retention tabs
- White
- **L72-440** is a steel T-Bar grille and takes a 2" filter

950 & 951 Series Adjustable Ceiling And Sidewall Diffusers

SHOEMAKER

- Adjustable aluminum airfoil blades oriented for 1 or 2 way airflow pattern
- Blades parallel to shortest dimension
- One piece stamped steel frame on most common sizes, alternate frame is extruded aluminum with signature line marks
- Nylon bushings on adjustable blades prevent metal on metal rattle
- Countersunk mounting holes for flush appearance with color matching Phillips posi-drive screws
- Rust resistant pre-coat with durable powder finish
- Soft White

SHOEMAKER

915 Series Fixed Bar Blade Grilles

- Extruded aluminum surface mount frame with signature line marks
- Extruded aluminum fixed bar blades at 45 °
- Blades are parallel to longest dimension
- Designed to minimize vision into air duct
- Center margins are mounted on the backside of the grille for a streamlined continuous look
- Countersunk mounting holes for flush appearance with color matching Phillips posi-drive screws
- Rust resistant pre-coat with durable powder finish
- Soft White
- **L72-078** is a 2" filter grille

Order #	Mfg. #	Size (W x H)	Each

L72-078	915FG2-14X14	14" x 14"	**335.00**

SHOEMAKER

RS Series Radius Spiral Pipe Diffusers

- Double deflection with adjustable blades
- Front blades are parallel to shortest dimension
- Back blades are parallel to longest dimension
- Allows for 4-way airflow
- Nylon bushings on adj. blades prevent metal on metal rattle
- One-piece curved frame with gasket fits flush to spiral pipe
- Product sizes available to fit spiral pipe diameter 8" – 48"
- Spiral pipe diameter must be 4" larger than width of diffuser
- Galvanized finish

Order #	Mfg. #	Description	Size (W x H)	Spiral Duct Diam.	Each

SHOEMAKER

SD Series Transition Box Spiral Pipe Diffusers

- Nylon bushings on adjustable blades prevent metal on metal rattle
- Curved saddle with gasket provides airtight fit to spiral pipe
- Spiral pipe diameter must be 4" larger than width of diffuser
- SD34 series has front blades parallel to shortest dimension and back blades parallel to longest dimension
- SD52 series blades are parallel to the shortest side
- Galvanized

URS Series Universal Spiral Diffusers

- Galvanized steel construction
- Nylon bushings on adjustable blades prevent metal on metal rattle
- High quality foam gasketing for tight seal with duct
- SC models have half length scoop extrator
- FS models have full length scoop extractor
- A-USR34 models have adjustable airfoil blades

600FG And 620FG Series Lattice Filter Grilles

SHOEMAKER

- Hinged removable extruded aluminum face frame with signature line marks
- Hinges parallel to longest side
- Face set in an outer filter grille frame
- Hand operated lever for easy filter access
- 4-way reversible door on square sizes
- 2-way reversible door on rectangular sizes
- Concealed mounting holes
- Rust resistant pre-coat with durable powder finish
- 600Series has extruded aluminum frame
- **L72-307** is a T-Bar Grille
- Soft White

Butterfly Dampers

- The ideal backdraft damper for solar, fresh air intake, heat exchangers and other air duct applications
- Foam seal provides minimal leakage
- Works for both horizontal and vertical applications
- Ideal for intake or exhaust applications
- Opens easily with normal air flow and closes by gravity

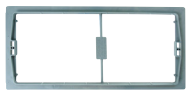
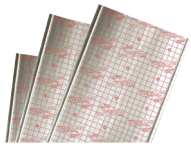
Thermo-Frames Return Air Grille Dry Wall Frames



- Precision molded polypropylene frame
- Windowed version is covered with clear film to keep out dirt

Order #	Mfg. #	Description	Size	Each
R87-712	14630	Standard	30" x 6" or 2 @ 14" x 6"	**6.55**
R87-713	14631	Windowed	30" x 6" or 2 @ 14" x 6"	**8.19**
R88-066	14831	Windowed	30" x 8" or 2 @ 14" x 8"	**9.69**

Fire-Resistant Thermo-Pans



- High quality "no noise" sheet metal alternative for return air ducts
- Excellent for open web trusses
- Fire resistant - tested to UL 723 Standard (non-self supporting)
- Airspace created provides R-value = 5

Order #	Mfg. #	Size	Carton Qty.	Each	25 Lot
R94-670	16048	16" x 47-1/2"	25	**8.25**	**7.45**

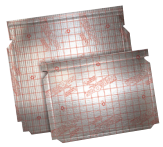
R94-674	32036	32" x 35-1/2"	25	**12.99**	**11.99**

Fire-resistant Thermo-Headers



- Pre-cut and scored to fit easily between joists
- Performance tested to UL 723 test standard
- Class 1 fire rating
- Flame spread 15, smoke index 5

Order #	Mfg. #	Size	Each	25 Lot
R87-928	16012R	16" x 12"	**2.55**	**2.29**
R87-929	16017R	16" x 17"	**2.55**	**2.29**
R87-930	16019R	19" x 16"	**3.79**	**3.45**

Thermo-Connectors

- Molded polypropylene strip for connecting Thermo-Pan sections
- Save time, add rigidity

Order #	Mfg. #	Size	Each	25 Lot

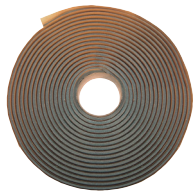
Gasketing

- Used to form airtight seal at transverse duct connection points
- Choose from butyl gasket for permanent seal or neoprene gasket for applications that require periodic maintenance



Order #	Mfg. #	Description	Each
R88-094	BTL500	Butyl Gasket 3/16" x 5/8" 25-Foot Roll	**14.99**
R88-095	BN516-34	Neoprene Gasket 5/16" x 3/4" 50-Foot Roll	**65.00**

Dyn-O-Mate Flanges

- Designed to strengthen the duct wall and connect duct sections together
- Integrated butyl sealant pocket for a secure airtight fit
- DOMJ is designed for large commercial and high-pressure applications
- DOMH is designed for low to medium pressure or residential applications

Order #	Mfg. #	Description	Each
R94-783	DOMJ10	J Flange 10-Foot	**75.00**

Thin Wall Conduit

- Use to support duct sizes over 48" or smaller duct in high pressure applications
- 10' lengths

Order #	Mfg. #	Description
G95-038	MC1210	1/2" Thin Wall Conduit
G95-039	MC3410	3/4" Thin Wall Conduit

Dyn-O-Loc Sets

- Insert into the ends of thin wall conduit to attach conduit to the duct
- Easy to insert and pull tested to withstand over 1,900 lbs.
- Set includes Dyn-O-Loc, ¼-20 bolt and neoprene backed washer

Order #	Mfg. #	Description	Each
R58-910	DOMRL12-250	1/2" Dyn-O-Loc Set (250-Pk.)	**729.00**
R58-911	DOMRL34-250	3/4" Dyn-O-Loc Set (250-Pk.)	**765.00**

VinylFlex™ Flexible Duct Connectors

- Leak proof — resistant to moisture and mildew
- Flame resistant
- Heat range -35°F to +200°F
- Tensile strength 220 x 195 lbs.
- Tear strength 70 x 45 lbs.
- 100' roll

DYNAIR DUCT HARDWARE & NEXUS FLANGE

Neoprene Flexible Duct Connectors

- Airtight, waterproof and resistant to mildew
- Resistant to many acids, oils, alkaline and toxic fumes
- Used in high velocity, high pressure systems
- Flame resistant
- Heat range -35°F to +235°F
- Tensile strength 475 x 375 lbs.
- Tear strength 25 x 20 lbs.
- 100' roll

Duct Rail

- Sturdy 23 gauge steel embossed-for-stiffness design
- Use with single or hollow vanes - up to 16 gauge steel
- Install with **R55-715** vane setter

Order #	Mfg. #	Description	Size
R87-631	308088	Dyn-O-Rail	4" x 100'
R87-632	308089	Dyn-O-Rail Jr.	2-1/2" x 100'

Duct Vane Setting Tools

- Vane setter is a hammer driven impact setter
- Impact vane setter is air operated at 40 PSI and sets vanes from 26 to 16 gauge

QuietR® Fiberglass Rotary Duct Liner

- Internal insulation that absorbs noise and reduces heat loss
- Clean cutting for easy fabrication
- Smooth, fire resistant air stream surface facilitates cleaning
- Bacteria and fungi protection
- Complies with the following codes: ASTM C 1071, Type 1, Flexible; NFPA 90A/90B, ICC Compliant, Calif. Title 24, SMACNA Application for standard duct liner, NAIMA Fibrous Glass Duct Liner Installation Standard, Conforms to ASHRAE 62-2001

SoftR® Fiberglass Duct Wrap

- Used for external insulation of commercial and residential heating, air conditioning and dual temperature ducts operating at temperatures from 40°F (4°C) to 250°F (121°C)
- Foil Reinforced Kraft facing (FRK)
- Reformulated to reduce dust and itch
- Assured thermal performance
- Condensation control
- Enhanced comfort control
- Meets model Energy and Mechanical codes
- Flexible, easy to install
- R value is installed

R58-895	WC6-CL23	Wire Rope for CL23-WC6 Cable Lock (50 to 640 lbs.)	**629.00**

Strut Kit Assembly

NEW

- For suspending ducts, cable trays, unit heaters, air handlers, and more
- Supports up to 600 lbs. and units up to 32" width
- No cutting required
- Threaded release cylinder allows for quick height adjustments
- Vibration padding reduces noise level
- Includes strut and strut lock
- **R88-202** and **R88-203** include threaded stud and dual hanger
- **R88-204** and **R88-205** include eyelet cable and wood screw

Reflective Insulation

- For wrapping rectangular or round ducts, and insulating attics, crawl spaces and radiant floors
- Two outer layers of aluminum foil bonded to polyethylene for strength
- Two inner layers of insulating bubbles resist conductive heat flow
- Reflects 97% of radiant heat
- Nontoxic/noncarcinogenic
- No need for protective clothing or respirators
- Easy to install
- Class A/Class 1 fire rated
- **R94-252** is a coated foil concrete pad for installation under concrete in radiant heating and snowmelt applications
- **R94-753** is Big Bubble R8.0

Flexible Aluminum Foil Ducting

- UL 181 Class 1 air connector
- Constructed of a heavy-duty, aluminum foil laminate, encapsulating a high density, corrosion resistant wire helix forming an airtight, easy-to-use, quality air duct; will not support combustion
- Applications include heating, air conditioning and exhausting

Order #	Mfg. #	Diam.	Length	Each
R94-494	AF325UL	3"	25'	**69.00**
R94-158	AF425UL	4"	25'	**75.00**
R94-163	AF450UL	4"	50'	**115.00**

ProFlex™ Aluminum Foil Ducting

- UL 2158A clothes dryer transition duct
- **R94-159** and **R94-164** are UL listed but not marked due to length
- Specifically designed for exhausting gas and electric dryers
- 5' and 8' lengths in display box, 25' and 50' in bulk packaging
- Fire resistant, will not support combustion
- Tear and puncture resistant

Order #	Mfg. #	Diam.	Length	Each
R94-121	BTD45	4"	5'	**19.49**
R94-122	BTD48	4"	8'	**30.99**

Increaser/Reducer

- 4" to 3"
- Made of heavy-duty plastic

Order #	Mfg. #	Each
R87-448	INC34Z	**7.35**

Duct Clamp

- Spring tension type for 4" ducting

Order #	Each	50 Lot
R94-019	**2.85**	**2.25**

Metal Duct Clamps

Order #	Size	Each
R53-463	3"	**7.25**
R94-018	4"	**5.39**

Recessed Dryer Vent Box

- Allows clothes dryer to be pushed up against the wall saving valuable inches of space
- Protects the duct from being crushed and lint build-up is minimized due to limited kinks and duct bends

Fig.	Order #	Mfg. #	Color	Each

Super Saber® Sheet Metal Screws

- One-step fastening
- Saber-sharp piercing point with a “fine-cut” machine thread, which pierces the metal upon contact
- Once pierced, the thread propels the screw through metal rapidly and almost without effort
- 5/16" hex head on **G36-484** and **G36-485**, 1/4" hex head on all others

Order #	Mfg. #	Description	Screw Size	Pkg. Qty.	Each

Pro Point® Sheet Metal Screws

- Precision formed drill point, are designed to fasten heavy gauge metals
- Screws assure accurately sized holes for maximum holding power
- 1/4" hex head on #8 screw size and 5/16" hex head on #10 screw size
- **G36-486** and **G36-487** have oversized heads for increased stability

Order #	Mfg. #	Description	Screw Size	Pkg. Qty.	Each

Zip-In® Fasteners

- Combination lead double thread design
- Single starting thread machined down to very tip of screw point
- Instantly penetrates and engages in heavy gauge sheet metal and layered light gauge consistent hard point
- Quality controlled heat treated
- Sharp tapered point will not mushroom or break
- No “walking”
- Complete operator control — precise hole alignment
- **G32-521**, **G32-522** and **G35-806** are white register screws
- **G32-521** has a Phillips oval head

Bit-Tip® Sheet Metal Screws

- Drills its own hole and taps a matching thread in less time than it takes to drill a pilot hole for other standard fasteners
- Produces optimum hole size, resulting in better thread engagement and tighter fit
- Also for use in applications requiring fastening of plywood, soft wood, composition board, drywall, insulation and laminates to metal framing or components
- Requires standard screw gun power tool rated at 2500 RPM equipped with drilling depth locator
- 1/4" head on **G36-901** and **G36-902**, 5/16" head on **G33-859**, **G36-903** and **G36-904**

Order #	Mfg. #	Screw Size	Pkg. Qty.	Each

G36-456	Pan Head w/#8 x 1" Screws	**34.99**
G36-457	Pan Head w/#10 x 1-1/4" Screws	**42.99**

Drywall Anchor

- Self-drilling, one-piece
- Replaces molly, plastic plugs and toggle bolts
- High strength, easily removable
- Installs with #2 Phillips bit
- For use with #6, #7 and #8 sheet metal screws
- Package of 100

Order #	Mfg. #	Each
G33-167	5000902	**65.00**

Wire and Duct Ties

- One-piece molded virgin nylon
- Tapered, flexible ties slip easily around wire bundles and through self-locking head for a quickly applied permanent tie
- Serviceable to 185°F
- Federal Military Specifications approved
- Pricing is per package
- Plenum rated

Spray Applied Duct Coating and Sealant

- RE-500:
- High-performance spray applied insulation encapsulment and coating for use inside ductwork
- Formulated with EPA registered chemicals to resist surface microbial growth
- Can be sprayed right over existing fiberglass duct liner
- RS-100:
- Water based spray sealant designed to seal joints, penetrations and seams from inside the ductwork
- Will meet and exceed all SMACNA pressure classes and its flexibility allows for system operation without cracking
- Formulated with EPA registered chemicals to resist surface microbial growth

CellOTherm™ Furnace and Retort Cement

- Non-asbestos furnace and retort cement
- Recommended for use on high temperature refractory surfaces found in fireboxes and other parts of furnaces, boilers, stoves and stokers used for comfort heating
- Works well on flue pipes, clean outs, ducts and chimney collars.
- Contains no asbestos or OSHA restricted fibers
- When cured it is fire proof, acid resistant, shrink proof and crack-proof
- 1/2 Gallon
- Gray

Order #	Mfg. #	Each

Metcaulk 1000 Intumescent Firestop Sealant

- Stops flames/smoke/hot gas/water moving through joints & through penetrations
- Fire-rated sealant/smoke seal for construction joints & through-penetrations
- Suited to dynamic motion
- Protected in wet & dry stages against mold growth with a combination of biocides
- Non-sag caulking grade sealant that is easy to apply & retrofit. Water Based and Flexible Set with a Minimum 3 Year Shelf Life. Excellent freeze-thaw and For interior use - paintable
- Safe and Easy to Use. No dilution or mixing is required for use
- Highly intumescent and VOC compliant
- Systems rated for 1, 2, 3 & 4 hours in accordance with ASTM E 814, UL 1479 UL 2079 & CAN/ULC-S115 standards. STC rating 62

Order #	Mfg. #	Size	Color	Each
G81-146	66640	10.3 Oz.	Red	**39.49**

Metcaulk 150+ Firestop Sealant

- General Intumescent fire rated sealant for construction joints & through penetrations which prevents spread of flames/smoke/hot gases/water
- Rated for up to 4 hours as per ASTM E814 (UL1479) & ASTM E1966 (UL 2079) test standards
- Water-based, non-sag and VOC compliant
- Protected in wet & dry stages against mold growth with a combination of biocides
- Flexible set and excellent freeze-thaw and cures to an elastomeric seal suitable where dynamic movement is expected
- For interior use & paintable
- No dilution/mixing is required

Order #	Mfg. #	Size	Color	Each
G81-147	66648	10.3 Oz.	Red	**22.99**

Metcaulk 835+ Firestop Silicone Sealant

- 1-component, fire-rated elastomeric silicone sealant for through penetration firestops
- Prevents flames/smoke/gas/water spreading through penetration openings
- Silicone based - use in systems where dynamic movement is expected
- STC rating 55 as well as FBC System Compatible- indicates that product has been tested, and is monitored on an ongoing basis to assure chemical compatibility with FlowGuard Gold, BlazeMaster and Corzan pipe and fittings
- Flexible and non-slump formula with neutral, moisture cure and low odor
- Excellent moisture resistance and protected in wet & dry stages against mold growth with a combination of biocides
- Use in interior or exterior expansion, contraction and control joints and in exterior and interior penetrations

Order #	Mfg. #	Size	Color	Each
G81-148	66645	10.15 Oz.	Gray	**69.00**

Black Jack All Weather Asphalt Roof Cement

- Waterproof — forms a tight strong seal
- Use on wet or dry surfaces
- Resistant to temperature changes
- Stays soft and pliable
- Ideal for sealing flashings and roof penetrations

Professional 100% RTV Silicone Sealants

◀ NEW

DAP ON THE JOB SINCE 1865.

- 100% waterproof/weather resistant
- Service temperature -40° to 475°F
- Safe for incidental food contact - NSF certified
- Will not crack or shrink
- Interior/exterior

Blue RTV Silicone Gasket

- Cures to strong, flexible rubber
- Seals flanges against leakage
- Temp. range: -65°F to +500°F intermittent

Order #	Mfg. #	Description	Size	Color	Approval/Listed	Case Qty.	Each
G31-699	95565	Blue RTV Silicone Gasket Maker	3 Oz.	Blue	ASTM D 4359	12	**19.99**

Thread Locker Blue

- **G22-680** blue is removable thread locker for easy disassembly (medium strength) for fasteners between 1/4" and 3/4"

Order #	Mfg. #	Description	Size	Color	Approval/Listed	Case Qty.	Each
G22-680	95560	Med Strength Threadlocker Blue	.20 FL Oz.	Blue	ASTM D 5363 AN0321 (Mil-S-46163A, Type II, Grade N)	12	**24.49**

Leak Lock Joint Sealer

- Seals by adhering to internal joint surfaces and by filling joint voids
- Permanent, flexible material keeps joints tight under extremes of vibration at temperatures from -100°F to +400°F and pressures from vacuums to 10,000 PSI
- For all piping metal or plastic to seal refrigerants, petroleum products, natural or manufactured gas, air, steam, water and most chemicals

Order #	Mfg. #	Size	Each
B10-853	HS10001	1.3 Oz.	**18.99**
B11-759	HS10004	4.0 Oz.	**44.49**

Hazardous Material Shipping Alert

System Safe Thread, Joint & Gasket Sealant

- Use on mini-spits, ductless systems, flare fittings, compression fittings, gaskets, schrader valves, threads and O-rings
- Compatible with all refrigerants
- Will not contaminate system
- No mess application

Order #	Mfg. #	Each
B22-431	3S	**30.99**

Nylog™ Gasket Thread Sealants and Assembly Lube

- Renders a strong, flexible, lubricative glaze that prevents high pressure leakage
- Provides high tack lubrication
- Will not dry, harden, or contaminate system

Order #	Mfg. #	Description	Each
B22-204	RT200RP	CFC and HCFC Compatible; Will not Contaminate System (2Pk.)	**47.49**
B22-203	RT201BP	Compatible with all Refrigerants; Will not Contaminate System (2 Pk.)	**55.00**

Nu-Calgon

NuLock Thread and Flange Sealants

- Applications include threaded metal fasteners and flange assemblies, locks and seals metal fasteners and ideal for metal pipe thread, flare and compression fittings
- Use for thread locking bolts/nuts, screws and studs in place
- Protects threads from rusting
- Provides added sealability in flange assemblies
- Quick and easy to apply
- Fast curing
- Excellent chemical resistance
- Excellent temperature range
- Fittings can be removed with hand tools after product cure
- **B22-285**: General purpose formula for thread locking/sealing of metal pipe thread, flare fittings, compression fittings, bolt/nut, screw and stud fasteners; Medium strength, excellent chemical resistance
- **B22-287**: Ideal for flare fitting sealing/locking duty in refrigerant systems due to maximum chemical resistance and higher strength; Also suitable metal pipe thread fittings, bolt/nut, screw and stud fastener applications when added strength is desired.
- **G38-274**: Thread sealant and locker with PTFE for metal pipe thread
- **G38-275**: Sealant for rigid metal faces and flanges to improve sealability; Designed to provide sealing in small gap fill areas of 0.01 inch or smaller; Cures to flexible seal; Excellent chemical resistance; Low strength formula allows for easy flange removal when necessary

Order #	Mfg. #	Description	Size	Each
B22-285	4289-01	NuLock, General Purpose Sealant	50 ml bottle	**55.00**
B22-287	4289-05	NuLock, Refrigerant Thread Sealant	10 ml Bottle	**15.49**
G38-274	4289-03	NuLock, Thread Sealant with PTFE	50 ml tube	**55.00**
G38-275	4289-04	NuLock, Flange Sealant	50 ml tube	**55.00**

HIGHSIDE CHEMICALS INC.

Red Epoxy

- Formulated for patching or sealing on all metals including aluminum and some plastics
- Includes two 0.5 oz. tubes
- Curing may be performed with a hot air gun or an open flame
- Exhibits a unique color change when completely heat cured
- Equipment is serviceable within minutes
- Temperature range: -100°F to +300°F, bursting strength: 6,000 PSI

Order #	Mfg. #	Each
B81-567	HS12001	**69.00**

LA-CO®

Heat-Seal Stik®

- Seals leaks almost instantly in refrigerator evaporators and tubing
- Works on all metals and ceramics
- Withstands pressure up to 450 PSI, temperatures up to 350°F

Order #	Mfg. #	Each
B11-001	11575	**69.00**

Permatex

Industrial Strength Instant Adhesives

- Two gram squeeze tube develops strength to 5000 PSI

Order #	Mfg. #	Description	Set Time	Strength	Each
G31-834	95558	Super Glue	30 Sec.	Extra Strength	**10.49**
G31-580	95557	Super Glue Gel	30 Sec.	Extra Strength	**14.49**

Permatex

Crystal Clear Epoxies

- Fast, waterproof, hardens to crystal clear finish
- Adheres to all metals, glass, wood, etc.
- Ideal for transparent repairs; semi-flexible and tough
- Comes in 1 oz. size

Order #	Mfg. #	Description	Set Time	Strength	Each
G21-214	95555	General Purpose Epoxy	5 Min.	Regular	**23.99**
G22-333	95556	High Strength General Purpose Epoxy	30 Min.	2-Ton	**24.99**

Epoxy Putty

DIVERSITECH

- Wet or dry fast cure; sets in 10–15 minutes, cures in one hour
- Adheres to damp surfaces and cures under water
- Gray color, can be sanded, drilled, machined, sawed and painted
- Temperature range: -65°F to +250°F

Order #	Mfg. #	Each
G22-400	DEP8001	**75.00**

Equipment Risers

DIVERSITECH

- Elevates heat pumps, A/C air handlers or other equipment
- Allows drainage, keeps corrosion of metal bases to a minimum
- Absorbs vibrations and noise

E Lite® Condensing Unit Pads

DIVERSITECH

- Rugged design provides uniform and generous ribbing for optimum, self-leveling ground support without inserts
- Lightweight and unaffected by UV or weather
- Texture to prevent unit sliding
- Classic appearance with rounded edges and concrete gray color
- Drillable for securing unit
- Limited lifetime warranty

BRINMAR

Condensing Unit Covers

- Premium 24 oz. industrial vinyl with cloth backing
- Top-vented to allow air circulation and prevent condensation
- Precision tailored to fit the exact shape of each cabinet
- Keeps out dirt and debris during the off season; reduces maintenance cost and prolongs life
- Specially treated against mold, mildew, fungus, UV and sub-zero temperatures
- Lifetime warranty
- Order by model number, not dimension; similar dimensions may have different refrigeration line configurations and different covers

AC-GUARD

Air Conditioner Security Cages

- 16 gauge steel
- Installs in 30 minutes
- Adjusts to fit residential and commercial units
- Adjusts from 34”H x 30”W x 30”D to 59”H x 51”W x 51”D

Order #	Mfg. #	Description	Each
R94-642	ACGU	Security Cage	**949.00**
R94-643	ACGUKIT	Security Cage w/ Lock and Bar	**1145.00**
R94-704	ACMS	Mini-Split Security Cage w/Lock	**1145.00**
R56-710	ACL	Lock/Hide-A-Key Kit	**119.00**
R94-644	ACB	Extra Security Bar	**75.00**

Little GIANT

- Oil resistant tank eliminates problem of cracked tanks due to oil exposure
- Slim footprint offers flexibility in tight places — 4.8" x 10.2" x 6.5"
- Includes check valve and external test/run lever
- Rubber feet absorb vibration on hard surfaces
- Thermal overload protection
- **B87-871** and **B87-872** come with 20' of 3/8" tubing and external safety switch
- **B87-873** comes with an anti-sweat tank sleeve and external safety switch

VCMA-15 Condensate Pumps

Little GIANT

- 1/2 gallon capacity ABS tank
- Suitable for high efficiency, gas furnace condensate removal
- Handles high acidity level condensates
- Stainless steel pump shaft
- 3/8" barbed outlet for plastic tube
- Includes check valve
- Turns on at 2-1/2", shuts off at 1-1/4"
- Dimensions: 7" H x 5" W x 9 3/4" L
- 115V
- **B82-576** comes with 20' of 3/8" tubing

Order #	Mfg. #	HP	GPH @ 1'	GPH @ 5'	GPH @ 9'	Safety Switch	Shutoff	Wt. Lbs.	Each

Low Profile Vertical Condensate Pumps

Little GIANT

- Designed for limited space applications
- ABS tank
- Includes safety switch and check valve
- Additional check valve adapter for 1/4" ID vinyl tubing
- 1/4 turn, twist-off locking check valve discharge adapter for 3/8" ID tubing
- Pump switch test lever (for manual test operation)
- 3 inlet openings suitable for 3/4" PVC pipe
- Intermittent liquid temperature up to 120°F
- Thermal overload protection
- Rubber feet for vibration isolation

Low Profile Plenum Rated Condensate Pumps

Little GIANT

- Designed for limited space applications
- For plenum applications. Pump is labeled "suitable for use in air handling spaces"
- Intermittent liquid temperature up to 140°F
- Includes overflow detection switch with 72" leads
- Additional check valve adapter for 3/8" copper tubing
- 1/4 turn, twist-off locking check valve discharge adapter for 3/8" ID tubing
- Pump switch test lever (for manual test operation)
- 3 inlet openings suitable for 3/4" PVC pipe
- Thermal overload protection
- Rubber feet for vibration isolation

High-Temperature Condensate Pumps

Little GIANT

- 1-gallon collection tank
- Maximum water temperature: 212 °F (100 °C)
- Suitable for plenum applications
- Stainless steel motor shaft
- 1.07" diameter inlet (with 0.69" diameter rubber grommet)
- Includes float-activated switch for automatic high-level water detection (overflow detection switch)
- 14' lead wires for power supply and overflow detection connection
- Includes adjustable right angle conduit fitting for use with flexible EMT
- Brass check valve with compression nut and ferrule for 3/8" copper tubing
- Compliant with UL 2043 standard
- Includes bottom inlet when drain outlet height is limited

ULTRAIQP Condensate Pump

◀ NEW

Asurity

- Uses TMR sensor technology (Tunneling Magnetoresistance)
- Variable speed motor determines the quietest motor speed practical and uses this speed to minimize pump noise
- Self-cleaning feature detects when a drain line is partially or fully clogged, increasing the pressure in the drain line to clear the clog
- Reversible deck for more installation options
- Translucent tank for easy and fast inspection
- Built-in safety overflow switch with alarm and run contacts shuts the system down preventing overflow
- LED and audible indicators confirm pump status
- Removable check valve for easy cleaning
- Four LED indicators (ready, motor-on/draining, clean cycle pending, alarm condition detected)

Order #	Mfg. #	Volts	Shutoff	Each
B88-124 ◀	ULTRAIQP	120	22'	**199.00**

ClearVue™ Condensate Pumps

Asurity

- Features iQ Technology™ — allows pump to adapt to changing conditions
- Includes Floatless Sensor™ technology — no float, no problems
- Variable pump speed and lift based on conditions
- Starts pumping slowly and only accelerates if needed
- Self cleaning — senses drain line clogs and enters cleaning cycle
- Variable pump speed means quiet operation
- Includes clear tank, pushbutton drain, check valve, molded silicone rubber feet and LED indicator lights
- **B85-706** includes 20' of clear 3/8" vinyl tubing

QUIETMINI-M Undermount Pump

- For ductless systems
- Ultra quiet, (21 dBA)
- Removable reservoir for easy maintenance
- Built-in safety overflow switch
- Max unit output 54,000 BTU/h, 16 kW

Order #	Mfg. #	Volts	Shutoff	Each
B22-350	QUIETMINI-M	100/240	26'	**285.00**

QUIETMINI-I Mini-Split Pump

- For ductless systems
- Ultra quiet, (21 dBA)
- Fits inside line set covers or inside cassette
- Built-in safety overflow switch
- For systems up to 2 tons

Order #	Mfg. #	Volts	Shutoff	Each
B22-536	QUIETMINI-I	100/240	26'	**285.00**

Mini White Condensate Pump

- Fits any mini-split up to 30,000 BtuH
- Surface mounts below evaporator at either end
- Self-priming
- External mount allows for easy cleaning of filter cartridge
- Quiet — only 21 db(A)
- Includes mounting grommets, 39" power cable and mounting pack

Order #	Mfg. #	Volts	Shutoff	Each
B18-409	ASP-MW-UNI	100-250	33'	**605.00**

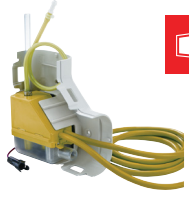
Silent+ Mini White Pump

- Fits any mini-split up to 54,000 BtuH
- Silent+ features ultra-quiet operation
- Audible noise is reduced 19dB(A) tested under laboratory conditions
- Reversible - position inlet left or right for installation flexibility
- 3 stage filtration system reduces maintenance visits
- Adaptive flow control through variable speed pump linked to capacitance sensor
- Thermally Insulated Reservoir features 3 stage filtration; Simple clip/unclip single handed removal
- Capacity: 6 GPH flow at 33' head

Order #	Mfg. #	Description	Volts	Shutoff	Each
B22-349	ASP-MWS+UNI	Silent+ Mini White Kit	100-250	33'	**605.00**

Mini Lime Mini-Split Pump

- Fits any mini-split up to 54,600 BtuH
- Automatically operates on water rise
- Kits include cable assembly, ivory elbow, lineset cover, ceiling plate, reducing connector, evaporator flashing, inlet and oulet tubing, wallplugs and screws



Order #	Mfg. #	Description	Volts	Shutoff	Each
B86-046	ASP-ML-UNI	Mini-Lime Uni	100-250	33'	**775.00**

Mini and Maxi Orange Mini-Split Pumps

- Fits any mini-split up to 30,000 BtuH; Maxi-Orange up to 60,000 BtuH
- Self-priming, suction lift to 4'
- Automatically operates on water rise
- Equipped with optional alarm
- Includes reservoir with lid and sensor cable, float and filter, submersible reservoir, pump unit, breather tube, discharge tube, reducing connector and 6' orange power assembly

Order #	Mfg. #	Description	Volts	Shutoff	Each

Mini Aqua Mini-Split Pump

- Fits any mini-split up to 48,500 BtuH
- Ultraslim profile fits inside any evaporator or lineset cover
- Self-priming, suction lift to 4'
- Automatically operates on rise
- Includes reservoir, inlet hose, breather tube and discharge tube

Order #	Mfg. #	Volts	Shutoff	Each
B18-408	ASP-MA-UNI	110-250	33'	**665.00**

EC-1 Mini-Split Pump

- Improved noise reducing design (21dBA) with solid-state switching technology
- Two piece design allows reservoir to be placed in air handler, while pump control is located outside
- Quick and easy installation
- Advanced float design
- Fits most mini-splits up to 34,000 BtuH

Order #	Mfg. #	Volts	Shutoff	Each
B86-406	EC-1-DV	115-230	33'	**295.00**

Undermount Mini-Split Pump

NEW

- Undermount pump for ductless units
- Hinged reservoir platform for easy maintenance
- Dual voltage 110 – 240V
- 33' shut-off
- 2.5 gph @ 1 ft
- Maximum water temperature 140°F
- 21 dB(A)
- Hall effect switching
- Large inlet filter
- Multi-size hose drain adapter fits all popular drain hose connectors
- Includes 5' power cable

Order #	Mfg. #	Volts	Shutoff	Each

High Rise Pans™

- The High Rise Pan™ is an innovative new plastic drain pan design which allows placement of an air handler 2 3/4in. above the outside lip of the pan without the need for separate, cumbersome mounting blocks
- The pan has a molded-in network of risers to give a 5in. lift
- The risers are positioned to accept a wide variety of air handler sizes
- Each riser has a specially shaped area at each end to accommodate a 2in. x 2in. anti-vibration pad which allows for quiet operation at all times
- Other features include heavy duty reinforcement throughout to give plenty of support as well as rolled edges for durability
- One-piece plastic construction ensures no rust, leaks, or seams to split
- Each High Rise Pan™ comes complete with a Condensate Cop™ float switch, 6 EVA™ anti-vibration pads, and 1- 3/4" PVC male adapter
- Installation is straightforward and hassle-free

Order #	Mfg. #	Dimensions	Each
B91-686	6-HK3050-1	30" x 50" x 5"	**329.00**
B91-687	6-HK3060-1	30" x 60" x 5"	**345.00**

Heavy Duty High Rise Drain Pans

NEW

- Allows for placement of an air handler 2" above the outside lip of the pan and a total of 4-1/4" of lift from the bottom of the pan
- Constructed of 1/8" thick heavy duty ABS plastic material that is 80% thicker than standard pans and is designed with 6 anti-vibration pads and risers
- Molded-in depressions in the risers make a perfect mounting point for antivibration pads, which means quiet operation
- Resistant to splitting, leaking, and cracking

Titan Flexible Series Secondary Drain Pans

- For tighter space applications
- More flexible and durable than fabricated metal or plastic pans
- Compatible with Goliath Furnace Series Furnace Risers to create a complete and professional HVAC Installation
- Compatible with the Aqua Guard AG-4200 series float switches

Order #	Mfg. #	Dimensions	Each
B60-434	96230	24" x 24" x 3"	**79.00**
B60-436	96234	30" x 30" x 3"	**115.00**
B60-437	96236	32" x 32" x 3"	**125.00**
B60-439	96240	30" x 62" x 3"	**185.00**

Goliath Secondary Drain Pans

- Self-extinguishing — won't support combustion
- 275° temperature rating
- Can be hung and will support air handlers up to 466 lbs.
- 14 rubber vibration isolators are included with **B16-961** float switch
- Dimensions listed are Width x Length x Height

Note: Must order with **B16-961** float switch.

Order #	Mfg. #	Dimensions	Each
B98-769	PG2857A	28.375" x 57.25" x 5.25"	**275.00**
B98-771	PG2869A	28.25" x 69.125" x 4.25"	**359.00**

Order #	Mfg. #	Dimensions	Each
B98-768	PG3050A	30.25" x 50.5" x 4"	**265.00**
B98-770	PG3062A	30.375" x 63" x 4.25"	**309.00**

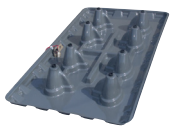
Float Switch For Goliath Drain Pans

- Required on each Goliath drain pan
- Includes drain plug in the event that a drain is not needed and 14 rubber vibration isolators
- 24V, 5A

Order #	Mfg. #	Each
B16-961	AG4200E	**75.00**

Goliath Furnace Pans

A



B

- Self-extinguishing — won't support combustion
- 275° temperature rating
- Meets ASTM-E-84-05 and complies with UL-94 5VA
- 7" risers on horizontal pans provide clearance for “P” trap required on high efficiency furnaces
- Can be hung
- 10 vibration isolators included with **B16-962** float switch
- Must order **B16-962** float switch
- Dimensions listed are Width x Length x Height

Fig.	Order #	Mfg. #	Description	Dimensions	Each
A	**B98-772**	PF3036A	Vertical	30.5" x 37.5" x 3"	**165.00**
B	**B98-773**	PF3464A	Horizontal	34.125" x 64.125" x 7.5"	**395.00**
B	**B98-774**	PF3479A	Horizontal	33.75" x 79" x 7.5"	**475.00**

Latching Condensate Switches

NEW

Asurity

- Prevents short cycling and intermitent tripping
- Float latches when tripped
- Simple to reset
- 24 VAC, 4 Amps
- 60" of 18 gauge wire
- UL 508 Approved
- **B22-411** has plenum approved 18 AWG CMP wire and clear CPVC fittings

A

Metal Pan Float Switch

RECTORSEAL
A CSW Industrials Company

- 5 amp high-capacity switch
- Fully enclosed float
- No holes to drill — just tighten 2 thumbscrews
- Protective housing keeps out insulation and debris
- Easy to operate test switch
- 24V, 5A, UL 508 tested

Order #	Mfg. #	Each
B16-956	AG1100+	**47.49**

Plastic/Metal Pan Float Switch

RECTORSEAL
A CSW Industrials Company

- 5 amp high-capacity switch
- 2-piece clam shell housing clamps on in seconds
- Protective housing keeps out insulation and debris
- Easy to operate test switch
- 24V, 5A, UL 508 tested

Order #	Mfg. #	Each
B16-957	AG1200+	**55.00**

Multipurpose Water Sensor

RECTORSEAL
A CSW Industrials Company

- Monitors condensate overflow, shutting down the system and activating an audible alarm
- Can be pan, floor or wall mounted
- 24V, 5A with 6' of control wire

Order #	Mfg. #	Each
B18-441	AG1250E	**65.00**

In-Line Water Sensor System

RECTORSEAL
A CSW Industrials Company

- 5 amp solid-state water sensor for auxiliary drains
- Small compact design; mounts to drain in seconds
- Water detection LED and automatic reset
- Eliminates false shutoffs caused by trapped condensation
- 24V, 5A, UL 508 Listed

Order #	Mfg. #	Each
B17-531	AG3150E	**99.00**

Plenum Rated Primary Pan Sensor

- Primary pan electronic condensate sensor with time delay & bonus secondary sensor for metal/plastic secondary drain pans
- 6' of both probe & sensor wire
- 5 amp, 24V AC solid state sensor with water detection led light
- UL 508 approved

Order #	Mfg. #	Each
B18-770	AG3175E	**109.00**

Plenum Rated Micro Pan Sensor

- Plenum rated micro pan electronic condensate sensor with time delay & bonus secondary sensor for commercial or self-contained package units, metal/plastic secondary drain pans & primary pan with time delay
- Meets international building codes & primary pan code requirements
- 6' of both plenum rated probe and sensor wire
- 5 amp, 24V AC solid state sensor with patent pending smart sensor technology
- UL 508 approved

Order #	Mfg. #	Each
B18-771	AG3180E	**109.00**

External Audible & Visual Remote Alarm

- Audible & visual remote alarm features a 12-24 VAC / 6-32 VDC circuit, which can be integrated into most monitoring systems (home alarm, water detection or condensate management system, etc.)
- Loud 103db audible alert with on/off switch
- Bright white LED alarm lights
- No battery required
- Can be mounted up to 250' from condensate overflow switch
- Includes 12" of lead wire

Order #	Mfg. #	Each
B18-772	AG9100	**95.00**

WiFi Water Sensor and Switch

NEW

L2

- Can turn the machine off or on if water is sensed by the cable
- Sends an alert to the homeowner if water overflows the condensate pan or is sensed by the cable
- Can be wired directly to the furnace, air conditioner, dehumidifier, or other HVAC equipment
- Alerts via an LED light, audio siren and WiFi notification via Resideo app and email

Order #	Mfg. #	Size
L51-852 ◀	TWLD3005-001/U	3.9" x 2" x 1.1"

Overflow Safety Float Switches

- Shuts down AC or refrigeration unit when drain pan approaches overflow
- 72" leads
- **B82-023** rated for 0–48V, 5A maximum applications
- **B14-992** rated for 125/250V, 11A maximum applications

Order #	Mfg. #	Each
B82-023	599123	**29.49**
B14-992	599124	**29.49**

Multi-Position Shutoff Switch

- Unique universal pan mount design
- For metal or plastic secondary drain pans
- Fast & easy 2 wire installation
- Push to test button and LED indicator light
- 24V, 5A

Order #	Mfg. #	Each
B18-445	CS1200	**37.49**

©2024 Johnstone Supply, LLC

SOS Safety Overflow Switch

- Snaps on to existing PVC condensate drain lines — no cutting required
- Electronically senses when drain line fills with water and locks out compressor contactor
- Easy two-wire connection to 24V circuits
- LED indicator light

Order #	Mfg. #	Each
B15-132	SOS-1	**85.00**

Condensate Cop

- Clamp-on float switch designed for condensate drain pans
- Magnetically actuated normally closed switch
- Two-wire connection to compressor contactor

Order #	Mfg. #	Each
B15-214	CC-1	**36.49**

Wet Switch™ Flood Detectors

- Shuts down unit with the detection of as little as 1 to 2 drops of water
- Used to sense moisture under air handlers, return air plenums, or to detect leaks in condenser or chilled water lines
- Simple three-wire installation
- Includes push-to-test and push-to-reset buttons
- LED confirms system status
- **B22-331** connects to a 24VAC power supply or 12VDC power on most alarm and home automation systems

Order #	Mfg. #	Description	Each
B12-876	WS-1	24VAC	**145.00**
B22-331	WS-2DV	24VAC or 12VDC	**179.00**

Universal Alarm

- Universal low-voltage alarm that can indicate possible system trouble
- Use with the Wet Switch, SOS, Condensate Cop, CP-22 (all types) and all float switches on 24VAC control circuits
- If an alarm condition exists, the homeowner can turn the alarm off with a silence button until service is obtained, however a red trouble LED will remain lit
- Features: easy 2 wire connection, label to print contractor information, and low current draw
- Actuates at greater than 18V to prevent false alarms due to low voltage
- Includes 2 wire nuts, a sheet metal screw, and double sided tape for convenient installation options

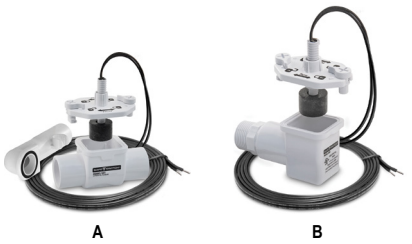
Order #	Mfg. #	Each
B22-101	UA-1	**40.99**

Safe-T-Switch SSW

- Can be used for placement into metal or plastic secondary drain pans or on a floor
- Logic circuit continuously samples the sensor probes for the accumulation of water
- Sensor detect as little as a 1/16" level of permanent water and automatically shuts off HVAC system
- As water recedes, system resets
- Sensor connects to indoor unit
- Features onboard LED Indicator
- Power supply - 24VAC
- Switching Capacity: 24 VAC/DC, 5A, Normally Closed (NC); 24VAC/DC, 1A, Normally Open (NO)

Order #	Mfg. #	Each
B22-435	97092	**129.00**

Safe-T-Switch® Overflow Shut-Off Switches



A

B

C

D

- SS1-GEN3 and SS1P are installed inline; magnetic reed switch can be installed up to 45° slope; switch cap is easily removed for cleaning and servicing condensate drain lines
- SS2-GEN3 and SS2P with 3/4" adaptor can be installed on auxiliary outlet of primary drain pan; magnetic reed switch can be installed up to 45° slope; switch cap is easily removed for cleaning and servicing condensate drain lines
- SS3-GEN3 and SS3P specially designed mounting bracket mounts firmly over edge of most drain pans; magnetic reed switch and slim profile can be installed on primary or auxiliary drain pans; switch is easily removed for cleaning and servicing
- SC1-GEN3 inline cleanout device allows quick and easy access for cleaning of condensate drain lines; integrated, easy-access Schrader valve for pressure cleaning; directional cleaning tool can be used for both pressure and vacuum

Safe-T-Switch® Mini Split Condensate Switch

- 0-250 VAC shut-off switch
- Contains low power consuming electric probes, instead of float switch
- Small sensor fits in confined spaces
- Installs on primary drain pan or clips to coils above primary drain pan

Order #	Mfg. #	Description	Each
B18-438	SS610E	Mini Split Switch	**335.00**

Electronic Safe-T-Switch® Overflow Shut-Off Switches

A

B

- 24 volt shut-off switch
- Contains low power consuming electric probes, instead of float switches
- The **B18-413** can be installed horizontally or vertically, inline or on the primary pan's auxiliary drain outlet by using the included ¾" adapter, bushing and cap
- The **B18-414** can be easily installed directly in the drain pan; Its small size and slim profile makes it ideal for use on commercial rooftop downflow units

All Access Condensate Cleanout

- Used to clear A/C drain lines quickly
- Once installed, never cut the line again to access
- Blow out the drain line in either direction
- Use wet vacuum to vacuum the line
- Easy access to add drain cleaners or tablets
- Installs in line either horizontal or vertical.
- Used to comply with local codes requiring for separate drain line access

EZ Trap Waterless In-line Condensate Mini Trap

- For use on ductless mini-splits with gravity drain
- Maintains mini-split efficiency by preventing outside air entry through drain tube
- Permits free condensate flow while blocking odors, noise and insects
- Freeze resistant
- 2-3/4" long
- 5/8" diameter with 9/16" adapter

Order #	Mfg. #	Each
B18-107	EZT-180	**55.00**

Drain Guard™ HVAC Condensate Drain

- Keeps condensate drains clean
- Addresses white slime
- Designed to prevent growth of algae, bacteria and fungus
- Maintenance free operation for a period of up to six months
- Easy one step refill process
- 3/4" PVC pipe connection

Applications:
- Horizontal and vertical air handlers
- Recommended for HVAC Systems

Order #	Mfg. #	Description	Each
B22-426	85001	Drain Guard™ HVAC Condensate Drain	**129.00**
B22-427	85002	Drain Guard™ HVAC Condensate Drain Refill	**129.00**

Condensate Drain Pan Fitting

- 3/4" PVC slip
- Fits most drain pans

Condensate Line Kit

- 21-piece kit contains everything needed to create a premium drain line
- Universal coupling and compact trap keep drain line as short as possible
- Smooth line elbows help prevent standing water where the pipe meets the elbow
- Includes access Y-Joint, NPT coupling, drain trap kit, 90° elbows (5), 45° elbows (5), pipe connectors (4), anchors, screws and wall clamps (4)
- Does not include PVC pipe or glue

Order #	Mfg. #	Each
B87-759	CL100	**99.00**

Residential Waterless Trap

- Residential/light commercial negative pressure waterless trap
- Never freezes, never dries out
- Reduces trap height by up to 60%
- Eliminates sludge build up
- Condensate flow up to 1 GPM @ 2"
- Schedule 40 PVC with easy open side clips for cleaning
- Retains no water after condensing ceases
- For use on HVAC equipment only

Order #	Mfg. #	Each
B22-008	FCN	**69.00**

The Dauber Stopper™

- A/C drain line guard
- Easy and effective way of preventing emergency drain line clogs because of mud daubers, dirt and other debris
- Fits 3/4" PVC pipe

Order #	Mfg. #	Each
R58-792	DS1	**59.00**

Drain Connector Kit

- Rubber with 4 clamps
- Can be used to connect mini-split drain lines to PVC

Condensate Neutralizer

- Suitable for 400,000 BTU/h at 93% efficiency
- Prevents acidic condensate from corroding drains and sewer systems
- Helps maintain a neutral environment for bacteria in septic systems
- Suitable for use on all types of natural gas and propane appliances
- Includes: initial charge of neutralization media, corrosion resistant capsule, two base/wall mounting clips, two 3" fill/access openings, 3/4" NPT threaded inlet and outlet, two 3/4" MNPT to 3/4" FNPT unions, two 3/4" MNPT to 3/4" FPVC socket adaptor

DIVERSITECH

Polyethylene Tubing

- Non-toxic, tasteless, odorless, translucent
- For evaporative coolers, vending machines, water cooler, refrigeration and drinking water lines
- Good low temperature flexibility to -30°F

Order #	O.D.	I.D.	Length	Wall	PSI	Each
R87-344	1/4"	17/100"	100'	0.0400"	120	**105.00**

DIVERSITECH

Clear Vinyl Tubing

- For air conditioning and refrigeration condensate drains, condensate pump discharge lines and humidifier overflows
- Brittle temperature -15°F
- Comes in E-Z dispenser box
- Not for use on potable water systems

Order #	O.D.	I.D.	Length	Each

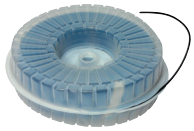
Flame Retardant Polyethylene Tubing

- Provides flexible connections in pneumatic control and flame resistant applications
- Protects against ultraviolet damage
- Resistant against abrasion, corrosion and fatigue
- Ideal for installation in panel boards or other box enclosures



Order #	O.D.	Color	Max. Temp.	Length	Max. Pressure	Each
R87-541	5/32"	Black	115°F	500'	100	**225.00**
R87-543	1/4"	Black	90°F	250'	250	**129.00**

Polyethylene Tube Fittings

- Convert standard compression fittings for use with polyethylene tubing
- Sold in 10 packs
- Lead free

Order #	O.D.	Each	5 Lot

TITAN OUTLET™ Wall & Line Set Gasket/Seal System

- Seals piping wall penetrations
- Gasket compression system seals air leakage and weather moisture
- Flexible sleeve reduces piping vibration and noise
- High grade construction for weather and UV exposure
- Prevents physical wall damage and pest intrusion
- Protects indoor air quality

A

B

Outset Seal

- Adjustable wall outlet that seals penetrations for both central and mini split systems
- Resists mold growth, deters rodents and insects and is UV resistant
- Can be used for both new and existing installs making it the easiest product to use with its hinge style closure
- Blocks air leakage, moisture
- Innovative flexible sleeve design reduces piping vibration & noise
- Fits up to 7/8" OD line set with 3/4" insulation

Order #	Mfg. #	Color	Each
B87-862	84006	Gray	**125.00**

Outset Jacket

- Durable UV-resistant PVC foam insulation
- Hook and loop fastening system is bonded and sewn for extra adherence
- Removable and reusable for easy installation and maintenance
- Will not fray when cut to size
- Vapor retarder and provides a secure, breathable, tight fit

Order #	Mfg. #	Description	Size	Each

MUELLER STREAMLINE CO.

Standard Line Sets

- Designed for quick and easy installation of split system air conditioning systems
- Includes one length each of suction line and liquid line
- Purged with dry air, plugged for clean application
- Preinsulated suction line with 3 wall insulation choices
- Straight end design

Duraguard UV Standard Line Sets

MUELLER STREAMLINE CO.

- Abrasion and weather resistant polymeric jacket
- Insulating properties of elastomeric foam
- Available in ½", ¾"and 1" wall
- 5-year limited manufacturer warranty on insulation including UV Resistance
- Compliance: ASTM E 84 25/50, 2012/2015 IECC (Res. + Comm.), UL 94 (fire stop), and CA Title 24, Section 120.3

Mini-Split Line Sets

MUELLER STREAMLINE CO.

- Designed for quick and easy installation of split system air conditioning systems
- Includes one length each of suction line and liquid line
- Purged with dry air, plugged for clean application
- Preinsulated liquid and suction line
- Flare nuts on both ends

NoKink™ Flexible Mini-Split Refrigerant Line Connectors

- Eliminates kinking refrigerant line when mounting mini-split evaporators
- Typically requires only one installer
- Braided stainless steel flexible body; 3" copper stubs for quick connection
- Flare or silver soldered to fit any line set size combination
- 800 PSI operating pressure rating

Duraguard UV Copper Line Set Rolls

MUELLER STREAMLINE CO.

- Abrasion and weather resistant polymeric jacket, providing the best protection in the industry
- Insulating properties of elastomeric foam
- 5-year limited manufacturer warranty on insulation including UV Resistance
- Compliance: ASTM E 84 25/50, 2012/2015 IECC (Res. + Comm.), UL 94 (fire stop), and CA Title 24, Section 120.3

Non-Copper PERT-AL-PERT Line Set Rolls

Python LINE SETS

- PERT-AL-PERT line set and compression fitting system for both unitary and mini-split systems
- Consists of an inner chemically resistant PERT layer, wrapped in an aluminum layer, with a carbon black UV resistant outer PERT layer
- Lightweight, flexible and kink resistant
- Tested and Listed to ASTM F3506-21 standard specifications
- Brass compression crimp fittings can be applied in the field without the use of special press tools
- Maximumum design pressure is 700psi for 1/4" - 3/4" and 650psi for 7/8"
- Maximum design temperature is 203°F
- Approved refrigerants are R410a, R32 and R454b

Python Fittings And Accessories

NEW

- For use with Python line sets
- Designed for both unitary and mini-split installations
- Solid brass and can be field installed without the use of a special tool
- Contains lead

Copper Refrigeration Tubing

- Quality seamless dehydrated copper tubing for HVAC equipment
- Rolls are bright annealed, dehydrated and end sealed
- Carefully annealed for flaring; conforms to ASTM specifications
- Plastic coated copper tubing available for gas and fuel oil applications; see online catalog

Plastic Coated Copper Tubing

GasShield™ and OilShield™ Type "L"

MUELLER STREAMLINE CO.

- GasShield is yellow for LP and natural gas applications; OilShield orange for fuel oil applications
- Polyethylene coating is extruded directly onto the copper, providing consistent corrosion protection
- Eliminates the need for on-site tape wrapping or sleeving
- Suitable for direct burial and through concrete slab
- Compatible with standard solder fittings, brazing techniques and compression fittings
- Complies with ASTM standards

Parker ZoomLock MAX

ZoomLock® MAX Press-to-Connect Refrigerant Fittings

- Designed for the air conditioning and refrigeration markets
- Allows contractors to make secure leak-free connections in seconds
- Saves time and money
- For high pressure HVACR applications
- Max operating pressure 700 PSI
- Max burst pressure 2100 PSI
- Compatible with R-32, R-134a, R-404A, R-407C, R-407F, R-410A, R-507, R1234ze, R1234yf, R-718, R-450A, R-513A, R-448A, R-449A, R-407A, R-427A, R-438A, R-417A and R-422D
- 10-year warranty

ZOOMLOCK® PUSH Installation Parts and Accessories

- ZoomLock PUSH installation kit includes depth gauge, permanent marker and general-purpose hand pad
- Removal tools for 1/4" - 7/8" sizes of ZoomLock PUSH removable fittings

Order #	Mfg. #	Description	Each
R58-985	PZKP-IK	Installation Kit	55.00
R58-986	PZKPR-RT	Removal Tools	41.49

ZOOMLOCK® PUSH to Connect Removeable Refrigerant Fittings

- Successfully make clean, leak-free connections on HVAC/R systems in seconds, without the use of a brazing torch or press tool and jaw
- Eliminates brazing concerns with installation of traditional HVAC/R fittings
- Connect refrigerant lines in seconds
- No press tool or jaws needed
- Removeable and non-removeable versions available
- Compatible with R-134a and R-410a
- 5-year warranty

Order #	Mfg. #	Description	Each

RLS 19 kN Lithium-Ion Cordless Braze-Free Press Tools

- For high pressure HVAC/R applications
- Compact design and 350° jaw rotation
- Fits jaw sizes 1/4" thru 1-3/8"
- Tool service indicated via imbedded LEDs, illuminates at 10,000 cycles
- Interchangeable with original Zoomlock tools, jaws and Ridgid jaws only
- Kits contain a crimping tool, 2 rechargeable Lithium-ion batteries, battery charger, tubing cutter, tubing deburring tool, stainless steel brush, Scotch Brite cleaning pad, crimp gauge, depth insertion gauge and permanent marker

Warning: This product contains lithium batteries and cannot be shipped by air

RLS 15 kN Original Braze-Free Press Tool Jaws

- For use with the original 15 kN RLS and Zoomlock tools only
- For high pressure HVACR applications
- Fits jaw sizes 1/4" thru 1-1/8"
- Ridgid tool jaws fit Ridgid models RP 200-B, RP 210-B, RP 100-B, RP 240 and RP 241

RLS Braze-Free Connectors

- For high pressure HVACR applications
- Approved for R410A, R134a, R404A and R407A/C/F, R507, R290, R600A, R32, non-potable water and glycol
- Not approved for R22
- Max operating pressure 700 PSI
- Max burst pressure 3000 PSI
- For use with RLS tools and jaws only

Streamline® ACR Press Copper Fittings

NEW

MUELLER STREAMLINE CO.

- The industry's most innovative and reliable press fittings for refrigerant applications
- Features innovative Two Ring Advanced Press (T.R.A.P.) Technology
- DualSeal™ Ring Design - Two (2) specially engineered HNBR sealing rings operate in tandem to provide 200% more surface contact and sealing area.
- TrapZone™ Leak Barrier - Precisely designed spacing between the two pressed sealing rings acts as a vacuum barrier or "trap" area and further ensures leak protection.
- Tri-Lock™ Press Profile - Three (3) distinct and independent mechanical connection points create superior joint strength and pressure handling capability. This press profile is an industry first.
- Force360™ Press Contour - Circular press design (developed in partnership with Milwaukee® Tool) provides the most uniform compression and sealing available (compared to hex press products).
- Fittings must be used with proprietary Milwaukie® Streamline® ACR Press Jaws - compatible with leading press tools on the market

MUELLER STREAMLINE CO.

Streamline DRYMASTER® FTG X FTG Filter Drier

- UL Recognized to 700 PSI
- Compatible with R410A and other commonly used refrigerant gases and oils
- Operating Temperature: -40°F – 160°F/ -40°C – 70°C
- Solid core design
- High pressure shell and connections
- High retention filter for removal of particulate as small as 25 microns
- Certifications: UL/cUL Listed, Conforms to EU Pressure Equipment Directive and UK Pressure Equipment Regulation

RIDGID

12V Lithium-Ion Cordless Press Tool Kits

- Compact and lightweight design for easy work overhead or in tight spaces
- RP 240 designed for best tool control
- RP 241 designed for easier use in tight spaces
- Built-in LED illuminates work area
- Bluetooth connectivity to your smartphone to manage cycle count and battery life
- Over 140 presses per charge
- Presses up to 1/2" to 1-1/4" copper and stainless steel, 1/2" to 1-1/2" PEX and 1/2" to 3/4" iron pipe

Warning: This product contains lithium batteries and cannot be shipped by air

Streamline® Refrigerant Brass Push Fittings

NEW

A B

C

- Patented push-fit technology designed for common air conditioning and heat pump installs and repairs
- Allows for permanent tool-free and flame-free connections
- Ideal for repair and remodel projects
- Compatible with common refrigerants & oils
- Robust one-piece forged brass body
- Proprietary BackBite™ Grip Ring Technology
- Double o-ring sealing
- 10 year warranty
- Made in the USA

M12™ Streamline® ACR Jaws

NEW

- For use with Streamline ACR Press Fittings
- Ideal for refrigerant line installations
- Compatible with M12™ FORCE LOGIC™ Press Tools

Order #	Mfg. #	Description	Each
H29-054	49-16-2461M	Streamline ACR Jaw Kit (1/4", 3/8", 1/2", 5/8", 3/4" and 7/8")	**4245.00**

18V Lithium-Ion Cordless Press Tool and MegaPress Jaw/Ring Kits

- Endless 360° head swivel for reaching tight spaces
- 4.5-second cycle time speeds connections
- Built-in LED illuminates work area
- Over 300 presses per charge
- Capacity: 1/2" to 4" (copper and stainless steel), 1/2" to 2" (PEX), but only includes jaws up to 2"
- Bluetooth connectivity and color-coded light indicators for easy operation
- **H85-805** swivel actuator allows a press tool to be placed ±90° to the tube being pressed for hard-to-reach applications, kit includes 1/2", 3/4", 1", 1-1/4" rings, actuator and carrying case
- **H85-806** includes 1/2", 3/4", 1" jaws and carrying case
- **H85-839** includes 1/2", 3/4", 1" jaws, 1-1/4", 1-1/2", 2" rings, actuator and carrying case
- **H86-094** press booster allows for pressing of steel pipe up to 4", kit includes booster, 2-1/2", 3", 4" MegaPress Rings and shoulder strap
- **H86-143** XL-C Rings for pressing 2-1/2" to 4" ProPress fittings

Warning: This product contains lithium batteries and cannot be shipped by air

MUELLER STREAMLINE CO.

Carbon Steel Press Fittings

- Designed for use in gas and fuel/oil piping systems utilizing Schedule 10 to Schedule 40 carbon steel pipe
- Corrosion-resistant zinc-nickel coating
- HNBR engineered sealing element
- 420 stainless steel grip ring
- CuZn15 brass separator ring
- 125 PSI Max for fuel gas applications
- Temperature Range: -40°F to 180°F

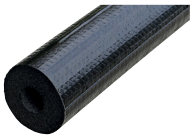
K-FLEX USA



Titan™ Pipe Insulation Rolls

- Rolls of flexible elastomeric foam insulation with low thermal conductivity and high resistance to moisture vapor intrusion
- Durable polymeric jacket is resistant to UV and equipment maintenance
- Meets the outdoor exposure requirements of the 2012 / 2015 IECC Residential & Commercial Codes, plus it's ASTM E84 25/50 rated
- No field-applied protective coating or jacketing required
- Service temperature range: -70°F to +250°F

Insul-Lock® & Insul-Lock® DS Pipe Insulation

- Pre-slit elastomeric insulation with pressure sensitive seam adhesive
- Sizes 1/2" wall thickness and larger are Insul-Lock® DS with a flexible PVC overlap tape with acrylic adhesive for doubled seam security
- Resists moisture vapor and controls condensation
- Operating temperature 6RLX: -70°F to +200°F
- Operating temperature 6RXLO: -40°F to +220°F
- Priced per 6' length
- ASTM E 84 25/50-tested according to UL 723

WE'RE THE EXPERTS YOU COUNT ON.

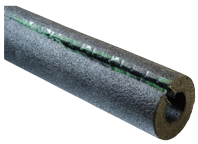
- Products you need, including hard to find specialty parts
- Service and support
- Delivery options to get you back on the road
- Technology to help you on the job
- Training to keep you competitive

BETTER SERVICE & LOCAL SUPPORT WITH GLOBAL PARTNERS

THAT'S THE POWER OF

JOHNSTONE™

armacell advanced insulation



Tubolit® SS (Self-Seal) Polyethylene Pipe Insulation

- Black flexible polyethylene pipe insulation for domestic heating and plumbing lines
- Reduces heat loss on hot water plumbing and heat gain on cold-water plumbing systems from 0°F to 180°F
- Self-seal pre-glued seam for easy installation
- Meets ASTM E-84, 25/50 flame and smoke
- Priced per 6' lengths

K-FLEX USA

Insul-Tube® Pipe Insulation

- High quality, closed cell type
- For HVACR and plumbing applications
- Retards heat gain and prevents condensation or frost formation on cold water plumbing, chilled water and refrigeration suction lines
- Meets ASTM E-84, 25/50 flame and smoke
- Operating temperature: -297°F to +220°F
- Non-slit, rubber base, 6' lengths
- Priced per 6' length
- White available online

Titan™ Pipe Insulation

K-FLEX USA

- Flexible elastomeric foam insulation with low thermal conductivity and high resistance to moisture vapor intrusion
- Durable polymeric jacket is resistant to UV and equipment maintenance
- Meets the outdoor exposure requirements of the 2012 / 2015 IECC Residential & Commercial Codes, plus it's ASTM E84 25/50 rated
- No field-applied protective coating or jacketing required
- Service temperature range: -70°F to +250°F
- Priced per 6' length

AP Armaflex® Pipe Insulation

armacell advanced insulation

- Flexible elastometric thermal insulation
- High efficiency closed-cell structure retards the flow of moisture vapor
- Used to retard heat and control condensation drip from cold-water plumbing, chilled-water, and refrigeration lines
- Efficiently reduces heat flow for hot-water plumbing, liquid-heating, and dual-temperature piping
- Meets ASTM E-84, 25/50 flame and smoke
- Priced per 6' lengths
- White available online

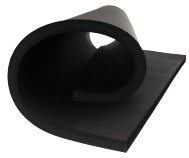
Insul-Sheet® Sheet Insulation

K-FLEX USA

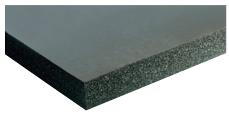
- For HVACR use to retard heat gain and prevent condensation or frost formation on components such as receivers, suction accumulators and chiller barrels; prevent refrigerant condensing during cold temperatures in oil separators; insulate duct work outside or in basements
- Installs quickly and easily
- Meets ASTM E-84, 25/50 flame and smoke
- Working temperature: -70°F to +220°F
- Priced per sheet



Order #	Wall Thickness	Dimensions	Sheets/Carton	Wt. Lbs./Carton
B92-593	1/2"	36" x 48"	12	26.5
B92-594	3/4"	36" x 48"	8	29.8

armacell advanced insulation

AP/Armaflex® Sheet Insulation



- Black flexible elastomeric thermal insulation sheets
- Protects HVACR components from temperature and moisture damage
- Meets ASTM E-84, 25/50 flame and smoke
- Priced per sheet

Order #	Wall Thickness	Dimensions	Sheets/Carton	Wt. Lbs./Carton
B94-756	1/2"	36" x 48"	12	22.5
B94-757	3/4"	36" x 48"	8	22.5

armacell advanced insulation

Armaflex® 520 Contact Adhesive

Hazardous Material Shipping Alert

- Air-drying contact adhesive for use with Armaflex® pipe and sheet insulation
- Three to five minute drying time under normal conditions
- Brush-top can

Order #	Mfg. #	Description
G80-236	AAD520002	1/2 Pint
G80-237	AAD520004	1 Pint

K-FLEX USA

K-Flex® 320 Contact Adhesive — Amber

- Air drying, solvent based neophene contact adhesive for use with Insul-Tube® and Insul-Sheet® insulation
- Two to four minute drying time under normal conditions

Order #	Mfg. #	Description
G22-964	948-32000	1/2 Pint
G89-991	916-32000	1 Pint

K-FLEX USA

374 Protective Coating

- Water based coating specially designed for application to elastomeric insulation surfaces
- Fast drying and white
- Offers UV resistance and is ideal for indoor and outdoor applications
- Can be applied by brush, roller or sprayed
- For best results two coats are recommended

Order #	Mfg. #	Description
G80-861	800-374-GAL	1 Gallon

armacell advanced insulation

WB Finish

- Water based latex enamel coating for use over all forms of Armaflex insulations
- Provides a clean, moisture resistant protective finish for both indoor and outdoor applications
- Its properties make it exceptionally durable and weather resistant to ultraviolet and ozone
- Formulated for cold weather and resistant to cracking
- Outdoor surfaces should be recoated every 2 to 4 years

Order #	Mfg. #	Description
G80-862	WBF8530005	1 Quart
G80-863	WBF8530006	1 Gallon

HARDCAST DUCT SEALANTS & INSULATION ADHESIVES

Seal-Tack Protective Coating

- Water based protective coating for line set insulation, duct liner and wrap
- Provides UV and weather resistance
- Brush, roller or spray application
- Excellent flexibility and dry to the touch in 30 minutes

Order #	Mfg. #	Description
G80-954	308609	1 Gallon
G80-955	308608	5 Gallon

Line Set Insulation Wrap

HARDCAST DUCT SEALANTS & INSULATION ADHESIVES

- TPO UV and weather resistant insulation wrap with mastic sealant
- Proven roofing membrane technology
- Resists mechanical damage
- Immediate leak proof results
- Easy, fast application
- Includes scoring tool
- No dry time

Order #	Mfg. #	Color	Size	Mils
G80-952	326380	White	6" x 75'	22
G80-953	326381	White	9" x 75'	22

Premium Cork Insulation Tape

Parker

- Stops cold pipe dripping and insulates hot pipes up to 158°F
- Prevents water damage to walls, woodwork and furnishings
- Easy to apply; sticks to any dry surface

Order #	Mfg. #	Description	Dimensions	Each
G21-515	PT1	Cork Insulation Tape	1/8"T x 2"W x 30'L	**55.00**

Foam Insulation Tape

Parker

- Unicellular with a K-factor of 0.26 at 75°F
- Water vapor transmission rate of 0.07 perm
- Easy-to-use tape that quickly insulates closed cell pipe

Order #	Mfg. #	Description	Dimensions	Each
G89-930	K501	Foam Insulation Tape	1/8"T x 2"W x 30'L	**45.99**

Cork-Tite® Insulation Tape

Nu-Calgon

- Insulates cold pipes for all kinds of air conditioners used in cars, homes, freezers and refrigerators
- Ideal for retarding heat gain in cold pipes and preventing heat loss in hot pipes.
- Sticks to all kinds of dry metals
- Seals tightly without drying
- Flexible and does not shrink or melt within temperature range of -20°F to +200°F

Order #	Mfg. #	Description	Dimensions	Each
G80-606	4217-12	Cork Insulation Tape	1/8"T x 2"W x 30'L	**55.00**

Foam-Tite® Insulation Tape

Nu-Calgon

- Closed cell construction
- Insulates cold water lines, chilled water lines and refrigerant lines
- Temperature range of -15°F to +160°F
- Prevents sweating and condensation

Order #	Mfg. #	Description	Dimensions	Each
G80-607	4219-12	Foam Insulation Tape	1/8"T x 2"W x 30'L	**44.99**

Pipe-Dri™

Aerosol Insulation

Nu-Calgon

- Provides a moisture barrier to prevent sweating and dripping
- Can be used on refrigeration lines, air conditioning lines, and other cold surfaces
- 18 oz. aerosol can makes it possible to insulate hard to reach areas

Order #	Mfg. #	Each
G80-305	4297-76	**47.49**

Foam and Fill Insulation Foam

Red Devil

- Polyurethane foam sealant
- Insulates and seals out drafts, moisture and pests
- Fills holes, cracks, and gaps to form an airtight, waterproof bond
- For windows, doorframes, around pipes, vents, outlets, foundations, etc.
- Can be sanded, painted or stained once cured
- Achieves full expansion after one hour and fully cures after 24 hours
- Tack free in 15 minutes

Order #	Mfg. #	Description	Size	Each
G80-997	0913	Minimal Expanding	12 Oz.	**22.49**
G80-186	0909	Triple Expanding	12 Oz.	**22.49**
G80-187	0912	Triple Expanding	20 Oz.	**31.49**

CounterStrike® Corrugated Stainless Steel Gas Lines

- TracPipe with a special energy dissipating black jacket which helps protect the stainless steel pressure liner as well as other fuel gas system components if the CounterStrike becomes energized due to lightning
- Installs the same as conventional yellow TracPipe

Warning: Must be certified to purchase. Contact your local Johnstone Supply for details.

TracPipe® PSII Underground Corrugated Stainless Steel Gas Lines

- Sleeved in a fully vent-capable polyethylene sleeve for underground or areas where sleeved piping is desired
- Eliminates on-site labor of pulling TracPipe through polyethylene conduit
- Protects underground installations in accordance with plumbing and mechanical codes
- Better suited than rigid pipe to withstand ground settling and seismic stress

Warning: Must be certified to purchase. Contact your local Johnstone Supply for details.

Note: Male adapters are required on each end and are not included.

Quick Acting CSST Cutter

- For quick and accurate cutting of corrugated gas tubing (CSST)
- Cuts CSST sizes 3/8" to 1" diameter
- Two sets of split-floating guide wheels ride in the corrugations to provide stable tracking and ensure a clean cut
- Ergonomic knob provides a firm grip to cut through tubing quickly
- Lifetime warranty

AutoFlare® Fittings

- Self-flaring with metal-to-metal gasket
- Rated for both indoor and outdoor use
- Compatible with black iron and copper threaded fittings
- Split rings are necessary for tubing to flare properly, extra split rings are available
- When installed outdoors, use self-adhesive yellow silicone tape (**G32-494**) to wrap exposed stainless steel tubing to prevent corrosion

Malleable Multi-port Manifolds

- Polycoated, corrosion resistant
- May be used for running individual lines to multiple appliances
- Used in conjunction with a regulator (**L37-535**, **L37-730**)
- Manifold and regulator recommended for elevated pressure systems
- Uses 1/2" black iron fittings for extensions, caps and plugs
- AGA approved bronze ball valves (**R54-598**, **R54-599** and **R54-600**) used for line shutoff and optional individual run shutoff
- **R55-026** manifold bracket is for use with **R54-708** manifold only
- **R55-733** and **R55-734** are stackable manifolds

Flashshield+ Corrugated Stainless Steel Tubing

Gastite The System is the Solution™ FlashShield+

- Electrically insulative polymer cover
- Metallically-shielded
- Only product that meets strict criteria of both LC1024 & LC1027
- Highest lightning resistivity
- Flexibility and durability allows for simple routing through complex building structures and designs
- Pre-marked by the foot for easy measuring and installation
- Minimum tubing wall thickness of .010 on all sizes
- Annealed 304 stainless steel makes tubing more flexible than brands not heat-treated

XR3 Straight Fittings

Gastite The System is the Solution™

- Designed with a metal-locking feature for FlashShield and Arc-Trap™ feature for FlashShield+
- Creates protection against hi-voltage risk associated with lightning strikes
- Jacket-Lock™ fitting eliminates exposed stainless steel beyond the nut
- Requires minimal torque for easy fitting installation
- With no o-rings or gaskets, the reusable brass components provide a reliable metal-to-metal seat.

Yellow Coated Stainless Steel Gas Appliance Connectors

Dormont SAFETY SHIELD

- Durable 304 stainless steel construction
- Yellow coated for resistance to salt, ammonia and corrosive household chemicals like ammonia and chlorine
- Features a premium antimicrobial coating to inhibit bacteria growth, improve corrosion and UV protection, and enhance flame and smoke resistance
- No-neck design provides increased flexibility
- A new gas connector must be used for new installations or when moving an existing appliance to a new location
- Meets ANSI Z21.24/CSA 6.10 for gas appliances and ANSI Z21.75/CSA 6.27 for outdoor appliances and manufactured homes

Stainless Steel Gas Hearth Connectors

With High-Temperature Black Epoxy Coating

Dormont

- Specifically engineered for hearth applications such as gas logs, fireplace inserts and freestanding fireplaces
- Low-visibility black epoxy coating hides the connectors from view
- Black adapters and flare nuts with zinc di-chromate plating for minimal glare
- CSA design certified
- Withstands up to 350°F

E

- For use on ranges, dryers, furnaces, water heaters, mobile homes and gas log fireplaces
- Resistant to crushing, kinking and cracking
- Stainless steel is naturally corrosion-resistant and durable
- Meets ANSI Z21.24/CSA 6.10 for gas appliances and ANSI Z21.75/CSA 6.27 for outdoor appliances and manufactured homes
- Code requires manual shutoff valve be installed on gas line ahead of connector
- Ultraflow 41 and 51 high BTU series has a heavy-duty, antimicrobial, hot-dipped gray PVC coating

Yellow Coated Stainless Steel Gas Appliance Connectors

MUELLER STREAMLINE CO.

- For use on ranges, dryers, furnaces, water heaters, mobile homes and gas log fireplaces
- Yellow coated for resistance to salt, ammonia and corrosive household chemicals like ammonia and chlorine
- Durable 304 stainless steel construction supports high flow rates, wide temperature ranges and is resistant to corrosive water and environmental conditions
- Zinc coated steel nut and fitting
- -40°F to 150°F operating temperature
- Meets ANSI Z21.24/CSA 6.10 and ANSI Z21.75/CSA 6.27

Stainless Steel Gas Appliance Connectors

MUELLER STREAMLINE CO.

- For use on ranges, dryers, furnaces, water heaters, mobile homes and gas log fireplaces
- Durable 304 stainless steel construction supports high flow rates, wide temperature ranges and is resistant to corrosive water and environmental conditions
- Zinc coated steel nut and fitting
- Meets ANSI Z21.24/CSA 6.10 and ANSI Z21.75/CSA 6.27

Commercial Gas Connector Kits for Moveable Appliances

- Connects gas line to movable gas appliances
- Snap-Fast™ one-handed quick disconnect coupling, coiled restraining device, 90° street elbow and necessary mounting hardware required to hook up moveable/castered gas appliances (less ball valve)
- Antimicrobial protective PVC coated gas connector with patented Stress Guard™ technology
- Saves labor in installation, cleaning and equipment service
- Complies with ANSI Z21.69, ANSI Z223.1, CAN/CGA-B149, CAN/CGA-6.16
- Use with gas ball valves **R54-016**, **R54-015**, **R54-014** and **R53-362**

Safety System™ Gas Connector Accessories

A

B

C

- Safety Quik™ prevents gas being turned on while the appliance is not connected to the supply line and prevents hose from being disconnected while gas is still flowing
- SnapFast™ one-handed quick disconnect (QD) design certified by CSA for commercial gas cooking equipment
- Swivel Max™ design allows movement in three planes (back-and-forth, side-to-side, and at various angles)

B

Lead-Free Dielectric Pipe Unions

- Protects from galvanic corrosion when dissimilar metals are joined
- For use with hot water heaters, boilers and air conditioning
- Suitable for water, air, oil, natural gas, propane, gasoline, kerosene, mineral oil, vegetable oil and alkalines
- Rated at 250 PSI at 210°F
- Meets requirements of ANSI B16.39 and ANSI B2.1
- The wetted surface of this product contacted by consumable water contains less than 0.25% of lead by weight

Dektite Pipe Flashing

- For metal roofs
- Flexible, corrosion resistant aluminum base conforms to any panel configuration
- Pipe diameter markings are clearly indicated on pleated rubber cone for an accurate fit
- One piece construction, easy to install
- Gray EPDM has a continuous service temperature range of -65°F to +250°F
- Red Silicone has a continuous service temperature range of -40°F to +350°F
- Use **R55-851** Scots Teks screws with seal for installation

Order #	Mfg. #	Description	Size	Each
R87-725	4009910	Gray EPDM	1/4" to 5"	**65.00**
R87-726	4016910	Gray EPDM	4" to 7"	**89.00**
R87-727	4025910	Gray EPDM	7" to 13"	**225.00**

Teks® Scots™ Steel-to-Steel Self-Drilling Screws

- Use to install Dektite Pipe Flashing
- Includes EPDM rubber washer

Order #	Mfg. #	Description	Pkg. Qty.	Each
R55-851	1175153	1/4-14 x 1-1/8"	250	**219.00**

PVC Flue Cap for High Efficiency Furnace

- Use in 90% AFUE applications with PVC flue pipe
- Universal flue cap fits 1.5", 2" and 3" PVC pipe
- Reduces draft inducer motor rust
- Helps eliminate pressure switch service calls
- Resistant to UV radiation and oxidative degradation
- Install with PVC cement

Order #	Mfg. #	Description	Each
R55-713	ECAP321	PVC Flue Cap	**25.99**

N-Take 2

Alternate Intake for Combustible Air

- This unique device is installed within the draft induction supply line in between the outdoor intake and the furnace
- When a blocked intake would normally result in a no heat call, and a shut down furnace, the N-Take 2 opens due to a slight vacuum inside the pipe
- Not to be used as a primary combustion inlet
- For blocked intake on all 2" and 3" PVC
- Installs in PVC tee fitting

Order #	Mfg. #	Description	Each
R56-668	NT02	N-Take 2 Alternate Intake	**55.00**

PVC Roof Flashing

- Used to vent PVC from 90%+ furnaces
- No caulk required
- Slips over vent stack and automatically adjusts to pipe size and roof angle
- 28 gauge galvanized steel

PVC Pipe

- For cold water pressure applications, irrigation and sprinkler systems (depending on model)
- Condensate drains
- PVC Schedule 40 drain, waste and vent (1-1/4", 1-1/2", 2" and 3" only)
- High chemical resistance to many oils, acids, alkalis, etc.
- 10' standard lengths

Note: Venting for 90%+ furnaces (2", 2-1/2" and 3" only)

Arctic™ 616 Low VOC

RECTORSEAL
A CSW Industrials Company

- Clear, medium-body cement specifically formulated to give optimum solvent welding penetration of pipe and fitting surfaces
- Specifically designed for use in cold weather (0°F to +120°F)
- For use on all PVC pipe applications through 6" Schedule 40 and 1-1/4" Schedule 80

Order #	Mfg. #	Size	Each
G80-558	55919	16 Oz.	**37.49**

RECTORSEAL
A CSW Industrials Company

Hot™ 203 Low VOC

- Used for joining PVC pipe and socket type fittings
- Blue color helps assure full coverage during application
- Sets very fast — rigid PVC pipe may be handled and pressure tested after only 15 minutes
- Will accept full line pressure after only one hour on rigid PVC pipe connections
- Excellent in cold weather applications
- Safe for potable water systems

Order #	Mfg. #	Size	Each
G32-684	55988	1/4 Pint Dauber Top	**15.99**
G35-568	55989	1/2 Pint Dauber Top	**24.49**
G35-569	55990	1 Pint Dauber Top	**35.49**

RECTORSEAL
A CSW Industrials Company

Gene™ 404 PVC Low VOC Solvent Cement

- For PVC types I and II through 2"
- Schedule 40 (except Schedule 80) on potable water, pressure pipe, conduit, drain pipe and drain waste vent (DWV)
- Fast setting
- Color: clear
- NSF and UPC listed

Order #	Mfg. #	Description	Size	Each
G31-253	55901	PVC Cement	1/4 Pint	**13.99**
G31-743	55904	PVC Cement	Pint	**25.99**

NuLock Thread and Flange Sealants

Nu-Calgon

- Applications include threaded metal fasteners and flange assemblies, locks and seals metal fasteners and ideal for metal pipe thread, flare and compression fittings
- Use for thread locking bolts/nuts, screws and studs in place
- Protects threads from rusting
- Provides added sealability in flange assemblies
- Quick and easy to apply
- Fast curing
- Excellent chemical resistance
- Excellent temperature range
- Fittings can be removed with hand tools after product cure
- **B22-285**: General purpose formula for thread locking/sealing of metal pipe thread, flare fittings, compression fittings, bolt/nut, screw and stud fasteners; Medium strength, excellent chemical resistance
- **B22-287**: Ideal for flare fitting sealing/locking duty in refrigerant systems due to maximum chemical resistance and higher strength; Also suitable metal pipe thread fittings, bolt/nut, screw and stud fastener applications when added strength is desired.
- **G38-274**: Thread sealant and locker with PTFE for metal pipe thread
- **G38-275**: Sealant for rigid metal faces and flanges to improve sealability; Designed to provide sealing in small gap fill areas of 0.01 inch or smaller; Cures to flexible seal; Excellent chemical resistance; Low strength formula allows for easy flange removal when necessary

Order #	Mfg. #	Description	Size	Each
B22-285	4289-01	NuLock, General Purpose Sealant	50 ml bottle	**55.00**
B22-287	4289-05	NuLock, Refrigerant Thread Sealant	10 ml Bottle	**15.49**
G38-274	4289-03	NuLock, Thread Sealant with PTFE	50 ml tube	**55.00**
G38-275	4289-04	NuLock, Flange Sealant	50 ml tube	**55.00**

Nylog™ Gasket Thread Sealants and Assembly Lube

REFRIGERATION TECHNOLOGIES

- Renders a strong, flexible, lubricative glaze that prevents high pressure leakage
- Provides high tack lubrication
- Will not dry, harden, or contaminate system

Order #	Mfg. #	Description	Each
B22-204	RT200RP	CFC and HCFC Compatible; Will not Contaminate System (2Pk.)	**47.49**
B22-203	RT201BP	Compatible with all Refrigerants; Will not Contaminate System (2 Pk.)	**55.00**

TFE Paste

RECTORSEAL
A CSW Industrials Company

- Thread lubricant and sealant
- Pure white, non-hardening
- Withstands up to 3,000 PSI and temperatures from -50°F to +500°F
- Apply to metal, PVC, CPVC, ABS, polypropylene and nylon pipe
- Do not use on oxygen systems

Order #	Size	Each
R54-263	1 Oz.	**8.85**

Leak Lock Joint Sealer

HIGHSIDE CHEMICALS INC.

- Seals by adhering to internal joint surfaces and by filling joint voids
- Permanent, flexible material keeps joints tight under extremes of vibration at temperatures from -100°F to +400°F and pressures from vacuums to 10,000 PSI
- For all piping metal or plastic to seal refrigerants, petroleum products, natural or manufactured gas, air, steam, water and most chemicals

Hazardous Material Shipping Alert

A CSW Industrials Company

Tru-Blu™ Pipe Thread Sealant with PTFE

- For high vibration environments like refrigeration applications
- For use on threaded galvanized steel, iron, brass, copper, aluminum, stainless steel, polyethylene, fiberglass and PVC, CPVC and ABS pipe
- Great for use as positive lock and seal on threaded fasteners
- Approved for potable water
- Lead free and contains no metal

Order #	Mfg. #	Size	Each
G80-219	31551	1/2 Pint	**38.49**
G31-536	31631	1/4 Pint	**20.99**

RECTORSEAL
A CSW Industrials Company

T Plus 2® Pipe Thread Compound

- For use on threaded galvanized steel, iron, brass, copper, aluminum, stainless steel, polyethylene, fiberglass and PVC, CPVC and ABS pipe
- Incorporates Teflon®, nylon and polyester in a resinous base
- Non-setting and may be pressurized immediately
- Approved for potable water

Order #	Mfg. #	Size	Each

R57-396	1/2" OD x 1/2" MIP

Brass Compression Fittings

Order #	Mfg. #	Description	Conn. Size	Each
L39-653	4590-063	Tubing Plug	1/4" OD	**45.99**

Drum Adapters

- Connects charging hose to cylinder
- One gasket included with each drum adapter
- **B11-260** connects 3/4" female pipe with 1/4" male flare
- **R54-463** connects 3/4" female pipe with 3/8" male flare
- **B11-261** is a 3/4" replacement gasket

Order #	Mfg. #	Conn. Size	Each
B11-260	K1-1	3/4" NPS x 1/4" Male Flare	**39.49**
R54-463	K1-3	3/4" NPS x 3/8" Male Flare	**55.00**
R55-146	K1-5	3/4" NPS x 1/2" Male Flare	**65.00**
R55-147	K1-8	1/2" NPS x 1/4" Male Flare	**65.00**
B11-261	K1-E	3/4"	**2.19**

Flaretite Seals

- Loctite™ Vibra copper seal coating for common aluminum and brass fittings
- Loctite™ coating fills minor imperfections, increasing the integrity of the fitting
- Loctite™ protects the face from fretting, galling and over-tightening
- Concentric rings form multiple seals down the face of the flare
- Prevents environmental debris and aggressive cleaning solvents from attacking sealing face
- Rated for -40°F to +300°F temperature
- SAE, 45 degree flare, for inch tubing sizes

Order #	Mfg. #	Description	Each
R58-763	97216	Twin Pack (2 each 1/4" and 2 each 3/8")	**49.49**
R58-764	97215	Twin Pack (2 each 1/4" and 2 each 1/2")	**49.49**
R58-765	97214	Twin Pack (2 each 1/4" and 2 each 5/8")	**59.00**

Nu-Calgon

FlareMate™ Stop Leak Flare Seals

- Applications include mini-split systems, thermostatic expansion valves, refrigeration control valves, filter-driers, high/low pressure controls and pilot lines
- Engineered 45° SAE flare seals for the HVAC/R market
- Field proven, OEM approved
- Creates confident leak-free flare connections
- Prevents costly refrigerant leaks
- Reduces unwanted call-backs
- Improves the integrity of any flare fitting
- For new or systems already in service

Control Valve

- Controls open/closed position of access valve core to eliminate spraying
- Compact brass body for long service
- Swivel coupler with double safety grooves
- Positive stop prevents rupture of valve core

Order #	Mfg. #	Description	Conn. Size	Each
B12-857	A33000	Control Valve	1/4" SAE x 1/4" O-Ring Quick Coupler	**119.00**

Valve Core Removal Tool

- Designed for removal or replacement of valve cores
- Contains 1/4" bit with six extra valve cores
- Hollow handle allows for storage of valve cores

Order #	Mfg. #	Each
H24-946	A32004	**36.49**

Valve Core Removal Tools

- Designed to remove and replace valve cores without losing system charge
- Speed up evacuation, recovery or recharging with full unrestricted flow
- Includes side port for vacuum measurement

Order #	Mfg. #	Description	Each
H27-361	A32525N	1/4" Valve Core Removal Tool	**155.00**
H27-573	A32530N	5/16" Valve Core Removal Tool	**165.00**

Valve Core Torque Tool

- Calibrated to precise torquing requirements for valve cores
- Won't tighten after proper torque is achieved

Order #	Mfg. #	Each
H27-114	A32008	**65.00**

CoreMax® High-Flow Valve Cores

- Provides up to 5 times greater flow for fast recovery
- Automatic valve shutoff on both sides of connection
- Includes caps

Order #	Mfg. #	Description	Each
B20-653	CM-VC003	CoreMax Valve Cores (3-Pack)	**48.49**
B20-654	CM-VC010	CoreMax Valve Cores (10-Pack)	**155.00**

B20-656	CM-VC100	CoreMax Valve Cores (100-Pack)	**1345.00**

CoreMax® Seats

- Required for use with CoreMax high-flow valve cores
- Standard stub tube size fits 1/4" through 3/8" O.D.
- Tube stop for ease of assembly

Order #	Mfg. #	Description	Size	Each
B20-658	CM-S370	CoreMax Seats (3-Pack)	3/8"	**23.49**
B20-659	CM-SS370	CoreMax Saddle Seats (3-Pack)	3/8"	**22.49**
B20-660	CM-S250	CoreMax Seats (3-Pack)	1/4"	**23.49**
B20-661	CM-SS250	CoreMax Saddle Seats (3-Pack)	1/4"	**22.49**

Slide Valve Core Removal Tools

- Designed to remove and replace valve cores without losing system charge
- Convenient slide valve side port to accommodate a vacuum gauge
- In-line actuated handle for easy open/close
- A32525SVT automatically sets torque 3 to 5 in.-lb.

Order #	Mfg. #	Description	Each
H28-735	A32525SV	Slide Valve Core Removal Tool	**195.00**
H28-736	A32525SVT	Slide Valve Core Removal Torque Tool	**249.00**

CoreMax® Service SnapMate® High-Flow Connector

- Provides quick and easy connections to CoreMax valve cores as well as standard 1/4" access valves
- Brass body and hardened steel sleeve

Order #	Mfg. #	Each
B20-657	CM-SNAP	**515.00**

CoreMax® Valve Core Removal Tool

- Designed for removal or replacement of CoreMax valve cores without refrigerant loss
- Stainless steel handle, heavy duty brass body and ball bearing quick connect coupler

Order #	Mfg. #	Each
H28-423	CM-CRTOOL	**975.00**

CoreMax® Manual Torque Wrench

- Used to install CoreMax valve cores into seat with proper torque
- Handle grip for easier control

Order #	Mfg. #	Each
H28-424	CM-TRQ	**889.00**

Shield Refrigerant Locking Caps

- Helps eliminate leaks, theft, vandalism, inhaling opportunities and accidental refrigerant mixing
- Corrosion-resistant all brass design
- Compatible with all refrigerant tanks and service ports
- Meets IMC (International Mechanical Code) 1101.10 and IRC (International Residential Code) M1411.6 requiring locking caps on all outdoor service ports
- Waterproof, color-coded sleeves for easy identification
- Strongly supports EPA management programs

Order #	Mfg. #	Description	Each

Novent Tamper-Resistant Refrigeration Caps

- Locking caps work for all refrigerant tanks and service ports
- IRC and IMC compliant
- Helps eliminate theft, vandalism, inhaling opportunities and accidental mixing of costly refrigerants
- Key required for access
- Corrosion-resistant, color-coded caps identify type of refrigerant
- Eurocap caps fit threads on most imported products

Universal Line Service Valve

- This valve offers a wide range of installation possibilities through unique design and engineering
- Use of the valve does not require a swaging tool as the step down feature permits the use of different sizes of tubing
- Each valve comes with a CD2250 heavy-duty brass cap with neoprene seal and core wrench on top
- 1/8" I.D. hole, 3/16", 1/4" and 5/16" steps and 1/8" MPT
- Other end has 1/4" flare threads to receive charging hose
- Standard package of six

Order #	Mfg. #	Conn. Size	Each	24 Lot
B10-734	CD3600	Universal	**6.89**	**5.29**

T36 Series Valves With Copper Tubing Brazed To Valve

- Valves are offered with short lengths of copper tubing brazed to the valve
- Faster, simpler connections — only the soldering of copper to copper to perform when on the job
- Each valve comes with a CD2250 heavy-duty brass cap with neoprene seal and core wrench on top and with a CD4450 valve core

"M" Series Copper To Copper Line Tap Valves

- Approved by Leading Manufacturers for All Types of Refrigerants
- Eliminates costly, high-temperature brazing
- Installed with 95/5 or lead free low-temperature solder
- Consists of saddle body, line piercing pin, valve core, Teflon® O-ring and sealing cap
- Saddle body is soldered to the tube at the point of entry
- Valve is kept closed by spring loaded valve core
- Put sealing cap on for permanent seal

Copper Access Tee

- Valve is brazed to 2" x 5/16" O.D. copper tube
- Will service 1/4", 5/16" and 3/8" tube sizes
- Includes cap and valve core
- Two per standard package

Order #	Mfg. #	Each
B10-745	CD5421	**10.49**

Copper Access Tee

- Valve brazed to 3" length of 1/4" O.D. copper tube
- One end swaged to 1/4" I.D.
- Includes cap and valve core
- Two per standard package

Order #	Mfg. #	Each
B10-746	CD8420	**14.99**

Valve Cores and Valve Core Tools

- Replacement valve core made of materials compatible with all refrigerants
- **B14-822** is a dual core wrench and thread chaser with a plastic bottle to store valve cores
- **B14-824** is a durable all brass core wrench with compartment to store valve cores

Flexible Valve Core Removal Tools

- Flexible to over 120° for easy access in tight or blocked areas
- Center section slip fit design allows user to hold the tool in place while turning the knurled end
- **H28-214** is 4-1/2" long
- **H28-422** stores up to 3 cores in cap and is 5-1/2" long

Order #	Mfg. #	Description	Each
H28-214	FVCT4	Flexible Valve Core Removal Tool	**27.49**
H28-422	FVCT4PLUS	Flexible Valve Core Removal Tool Plus	**33.49**

Super Heat Calculation Tool

- Kit includes sturdy custom molded plastic carrying case, core removal tool and digital thermometer
- Remove a "Schrader" core from a charged system
- Attach gauges to the side access fitting of the core removal tool (**H24-611**)
- Insert the digital thermometer (**H25-295**) through the access fittings
- Read "true" internal temperature, and — using pressure gauge — calculate super heat
- Add or remove gas through manifold
- Reinstate the "Schrader" core into the system

Order #	Mfg. #	Description	Each
H25-294	CD3970	Superheat Kit w/CD3910 (CRT) and CD3975 Thermometer	**409.00**

Replacement Digital Thermometer

Order #	Mfg. #	Each

MegaFlow™ Valve Core Removal Tools

◀ NEW

- Removes restrictive access valve cores for high-speed recovery and evacuation
- Rated to hold a 20 micron vacuum
- Compatible with all common refrigerants and oils, including R410a
- Remove and replace valve cores without exposing system to atmosphere
- 1/4" side access port for inline vacuum gauge measurement

Order #	Mfg. #	Description	Each
H26-921	MGAVCT	1/4" Valve Core Removal Tool	**169.00**
H27-056	MGAVCR	5/16" Valve Core Removal Tool	**169.00**
H28-629	KTMV25	Valve Core Tool Rebuild Kit	**129.00**
H29-027 ◀	KTMV50	Valve Core O-Rings	**129.00**

Core Removal Tools

- Use as vacuum/charge valve
- Designed for removing and replacing a "Schrader" type core without losing the charge
- Side tap can be used to take pressure measurements without losing the charge
- Allows evacuation of a system without the core in place
- Saves time by allowing faster vacuum and charging through unrestricted lines

Bullet 3-in-1 Line Tap Valve

- For charging and evacuating refrigeration systems
- For 1/4", 5/16", and 3/8" round or uneven tubing, 2" clearance
- Smallest complete piercing valve with its own key
- Permanent gasket included

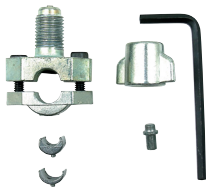
Order #	Mfg. #	Each
B11-039	BPV31	**11.49**

Bullet Line Tap Valves

- Installed on the high side as permanent valve
- Leakproof and Stillson wrench cannot budge it
- Special spline key is installation tool and valve handle
- **B11-033** is 2-in-1 valve for 1/2", 5/8" O.D. tubing

Order #	Mfg. #	O.D.	Each
B11-033	BPV-21	5/8"	**15.99**
B11-036	BPV-38	3/8"	**15.49**

Line Tap Valves

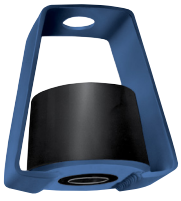


- Requires only one connection for piercing and servicing
- Needle automatically back seats after servicing, leaving line 100% free of restriction
- Sealed with refrigerant resistant O-rings
- Includes hex wrench

Order #	Mfg. #	O.D.	Each
B12-410	QTM-1J	1/4", 5/16", 3/8"	**20.99**
B12-411	QTM-2J	1/2", 5/8"	**22.99**

Neoprene Vibration Isolators

A



B

- Moderate vibration absorption
- Ideal for applications on stiff support structures and on equipment operating at over 1200 RPM
- ND mounts provide greater vibration and noise control than rubber, cork or composite pads
- HD hangers provide the same vibration control as ND mounts for suspended equipment

Spring Vibration Isolators

MASON INDUSTRIES, INC.

- Used to support equipment located in upper building levels where there are large vibration sensitive spaces and on equipment running below 1200 RPM
- IMF mounts are simple spring mounts for indoor applications on equipment that does not have to be level or bolted down
- SLFH mounts are used on equipment that must be level and secure
- C mounts are used on equipment that must be level and secure and requires extra lateral support
- HS spring hangers are for suspended equipment

Sammys® Threaded Rod Anchoring System

- Overhead threaded rod anchoring system saves time and installation costs
- For hanging air, water and electrical lines; unit heaters, A/C units, duct work, evaporators, lighting and conduit
- Receives 3/8" threaded rod, vertical and horizontal mount options
- Requires #14 driver for vertical applications or #14SW driver for horizontal applications
- Concrete Sammy's require 1/4" carbide tipped hammer drill bit for pre-drilling (**H24-045**)
- Wood, concrete and steel applications
- Sold and priced only in package quantities

SPEEDCLEAN

Condenser Needle

- Turn any garden hose into a powerful condenser cleaning tool
- Low profile three-foot aluminum “needle” fits through the top of most condensers and allows user to clean from the inside out
- Unique 3+ gallons per minute spray nozzle will not damage delicate fins
- Adjustable chemical injection valve

Order #	Mfg. #	Each
X82-258	CN-03	**429.00**

SPEEDCLEAN

CoilJet Portable Coil Cleaning Systems

- Specifically designed for condenser and evaporator coil cleaning
- No hoses or electrical connection required for operation, excellent for rooftops and attics
- 125 PSI spray removes debris without damaging fins
- Holds 3-3/8 gallons of water and 1-3/4 quarts of coil cleaner
- Includes 10' self-coiling hose and 12V rechargeable battery
- Angled adapters and extension wands sold separately for cleaning coils from the back
- Not for use with acid-based coil cleaners

W69-558	MSB-07-1	Adhesive Wrap (2" x 200')	**32.49**

Ceiling Cassette Bib Kit

- Easy mess-free cleaning of ceiling cassette systems
- Funnels all water and chemicals into bucket for proper disposal
- Fits systems up to 48" wide
- Includes bib with 10' drain line, bungee hooks and 5-gallon bucket
- Optional 7' to 10' stand available for applications without a drop ceiling

Order #	Mfg. #	Description	Each
W80-120	SC-CB	Ceiling Cassette Bib Kit	**379.00**
W91-216	SC-CB-STAND	Ceiling Cassette Bib Stand	**955.00**

Premium Water Hose

- Heavy-duty solid brass couplings and collar
- 5/8" diameter x 50' length
- High burst pressure up to 500 PSI

Order #	Mfg. #	Each
X83-828	5-IG5850	**119.00**

Commercial Hot Water Hose

- Withstands hot water up to 160°
- Heavy-duty solid brass couplings and collar
- 5/8" diameter x 50' length
- High burst pressure up to 500 PSI

Order #	Mfg. #	Each
X83-829	5-FLXPR5850CN	**155.00**

Expanding Hose

- Compact and lightweight hose expands to 50' with water pressure
- Ball valve shutoff control
- Latex core with durable brass fittings
- 5/8" x 25' (50' expanded)

Order #	Mfg. #	Each
X82-730	BX50	**99.00**

Bulls-Eye Power Hose Nozzle

- Power maximizing design provides 50% more power than regular nozzles
- Adjusts from power mode, heavy spray, pin point precision and leak proof off
- Great for cleaning air conditioning and refrigeration coils, rinsing and general cleanup jobs
- Solid brass construction
- Lifetime warranty

Order #	Mfg. #	Each
R57-401	810-C	**32.99**

Pistol Grip Hose Nozzle

- Ideal for commercial and industrial use
- Insulated molded grip for spraying hot or cold water
- Male hose threaded front for attaching accessories
- Solid brass valve stem with permanent adjusting nut
- Rubber head guard to protect threads

Order #	Mfg. #	Each
R58-268	540-572	**49.49**

Green Stripe Hose Washer

- Universal hose washers
- Green stripe hose washer

Order #	Mfg. #	Each
R59-508	LA100	**18.99**

Electronic Air Cleaner - Cell Cleaner

- Restores and maintains high operating efficiency to electronic air cleaners
- Specifically formulated to remove dust, hair, pollen, smoke, mold spores and bacteria from electronic air cleaner pre-filters and cells
- Convenient, easy to use and fast acting
- Biodegradable

Order #	Mfg. #	Size	Each
B82-496	ECC	1 Quart	75.00
B82-497	ECC-G	1 Gallon	145.00

Odor Neutralizing Liquids

- Fast-acting deodorizing system
- Biodegradable, non-toxic, non-staining
- Spray bottle for easy delivery

Order #	Mfg. #	Description	Size	Each
B85-669	1700D	ClenAir Citrus Scent Liquid	16 Oz. Spray	26.99
B85-670	1900D	CherryAir Liquid	16 Oz. Spray	26.99

Odorgon™ Spray

- Kills oil and other industrial odors
- Uses a combination of chemical neutralizers and masking agents
- Covers vertical surfaces and corners
- Spray into return air ducts to kill circulated odors
- Leaves a pleasant mild fragrance that doesn't excessively linger

Order #	Mfg. #	Size	Each	12 Lot
G89-807	68516	14 Oz.	38.49	36.49

Hazardous Material Shipping Alert

Odorgon™ Powder

- Kills oil odors
- Absorbs oil from concrete and other floors
- Handy for cleaning up after spills
- Leaves a pleasant odor
- Sifter top canister for controlled usage and clean storage

Water Treatment Products

Nu-Calgon

- No. 233 Cal-Treat controls severe corrosion in evaporative condensers and cooling towers and inhibits scale deposits
- Liquid Scale Dissolver contains low-foaming corrosion inhibitors and a built-in pH color indicator to remove calcium scales from cooling towers and other water-cooled equipment
- No. 340 Liquid Scale Inhibitor is effective in preventing the formation of scale in hard or highly alkaline water
- Ty-Ion® B14A Steam Boiler Treatment is an all-in-one boiler treatment controlling boiler scale, corrosion, and condensate line corrosion in low pressure, low make-up steam heating boilers
- Ty-Ion® B20 Boiler/Closed System Treatment is for use in boiler/closed recirculating systems which combines corrosion inhibitors, dispersant, and color indicator into a complete treatment for both hot and chilled water closed systems containing ferrous and non-ferrous metal components; color indicator facilitates leak detection and proper treatment residuals
- Ty-Ion® C70 Open Cooling System Treatment is an all-organic liquid scale, deposit and corrosion inhibitor for use in open recirculating cooling water systems, evaporative condensers; effective in preventing scale deposits in systems utilizing make-up water with high scaling potential

PurCool Green Condensate Drain Pan Treatment

ClenAir by Nu-Calgon

- Prevents slime and sludge build-up in air conditioning and refrigeration condensate drain pans
- Environmentally friendly suspending and dispersing action to prevent build-ups, overflows, and odors
- Slowly dissolves in the condensate water providing preventative treatment for 4-6 months
- Does not contain any harsh chemicals or biocides
- **B85-889** PurCool Green Mini Strips are designed to fit in tight fit mini split drain pans; Treats up to 5 tons and can be cut in half to treat multiple smaller evaporators

Flow-Plus™ Condensate Pan Treatments

Asurity

- A true water activated, time release treatment
- 100% water soluble polymer leaves no residue or carrier to be removed
- Adheres to drain pans — eliminates product floating and blocking the drain line
- No corrosive vapors — safe for computer rooms
- Recommended dosage — choose size according to equipment tonnage
- Each tab is designed to last a minimum of three months
- Can be stacked for use throughout a season
- NSF registered

Panseal™ and Durapatch™ Epoxy Pan Sealants

A

B

C

D

- Multi-component two-part epoxy quickly and permanently seals, repairs, and restores leaking and corroded drain pans
- Available in cartridge and burst bags for smaller repairs, 1-gallon for larger surfaces, such as cooling towers, and patch kits for vertical surfaces
- **G33-151** cartridge can be used with any standard caulk gun
- **G33-152** resin and hardener burst bags can be mixed directly into the drain pan; **G80-338** 1-gallon size includes containers for mixing
- Resin and hardener are premeasured
- Works even in standing water — eliminates surface prep time and down time
- Suitable for both metal and plastic pans
- Free of solvents and VOC's

HVAC/R Instant Patch Jar

- Combination of high strength bonding fluid and specialized bonding cells
- High strength bond permanently seals holes and cracks in pipe and materials used in the HVAC/R
- Compatible with all refrigerants and oils
- Temperature range: -60°F to +200°F
- Pressure range: Up to 1800 PSI
- Non-toxic and safe to use on all potable water systems

Foam-Max Coil Cleaner

- Super high-foaming, alkaline-based outdoor condenser coil cleaner
- Thick foaming action cuts through grease, grime, and debris to brighten aluminum condenser coils
- Highly concentrated formula can be diluted for use in lighter-duty jobs
- Brown liquid, non-flammable
- Biodegradable

Order #	Mfg. #	Description	Size	Each
B82-452	FM1	Foam-Max	1 Gallon	**99.00**

Hazardous Material Shipping Alert

Liquid Scale Remover

- Fast penetration of hard-to-remove scales
- Descales cooling systems without down time
- Cleans heavily scaled condenser tubes and cooling towers
- Also works in closed looped system
- Use one gallon per 15 gallons of water in the system

Order #	Mfg. #	Size	Each
B81-136	WL1	1 Gallon	**99.00**

Hazardous Material Shipping Alert

Triple "D" Universal Coil Cleaners

- Degreaser, detergent and deodorizer
- For use on condenser and evaporator coils
- Metal safe and does not attack aluminum or copper components
- Available in super-concentrated liquid or easy-to-transport granular concentrate form
- Liquid form has a 6:1 dilution ratio, 1 lb. granular makes 2 gallons

Ice Machine Sanitizer III

- Concentrated formula designed for sanitizing ice machines, ice cream dispensers, and other commercial food preparation equipment
- Will eliminate odors and control bacteria, slime, mildew, and mold on all hard surfaces
- No rinsing required

Order #	Mfg. #	Size	Each
B82-548	4211-34	16 Oz.	**27.49**

DIVERSITECH

Protek-EG™ Glycol

- Inhibited ethylene glycol-based heat transfer fluid
- Provides freeze and burst protection in hydronic, chilled and closed recirculating water systems
- Safe for use in systems where contact with food and potable water is not a concern

Order #	Mfg. #	Size	Strength	Temp. Range	Burst Protection
B98-159	EG-5	5 Gallon	95%	-60°F to +250°F	-100°F
B98-160	EG-55	55 Gallon	95%	-60°F to +250°F	-100°F

DIVERSITECH

ProTek™ -100 Glycol

- Propylene Glycol Antifreeze — protects from bursting down to -100° F
- Non-toxic — safe for incidental contact with food or potable water
- Inhibited — components provide corrosion protection for most metals
- For use in hydronic boilers, refrigeration systems, solar water heating and process cooling applications

Order #	Mfg. #	Size	Strength	Temp. Range	Burst Protection
B81-484	PG-100	1 Gallon	70%	-50°F to +220°F	-100°F
B92-532	PG-100-5	5 Gallon	70%	-50°F to +220°F	-100°F
B95-602	PG-100-55	55 Gallon	70%	-50°F to +220°F	-100°F

DIVERSITECH

ProTek PG Plus Glycol

- ProTek PG Plus is an inhibited propylene glycol based industrial heat transfer fluid and antifreeze that contains food grade corrosion inhibitors
- It is suitable for use in potable water systems
- Designed to provide freeze and burst protection, excellent thermal conductance, protection against corrosion and fouling and long term stability in closed recirculating water loops
- Must be mixed with water
- Provides burst protection to -100°F. Freeze points and burst points are controlled by the propylene glycol to water ratio

Order #	Mfg. #	Size	Strength	Temp. Range	Burst Protection
B87-520	PG-PLUS	1 Gallon	95%	-50°F to +220°F	-100°F

SPECTROLINE® LEAK DETECTION

WATER-GLO® ULTRA Fluorescent Leak Detection Dye

- Find leaks in industrial sized water/glycol-based fluid systems
- For both static and circulating systems including boilers, chillers and geothermal heat pump systems
- Pinpoint leaks in piping, valves, condensers, seals, welds, and fittings
- Treats up to 500 gallons of water
- NSF certified to meet food-grade processing requirements for category codes G7, GX and HTX-2
- 8 oz. twin neck bottle

Thawzone Liquid Dehydrants

- Chemically dries all fluorinated refrigerants (R12, R22, etc.)
- Frees frozen systems in five minutes and prevents refreezing
- Add 1/8 oz. of Thawzone™ to each pound of refrigerant

Order #	Mfg. #	Size
B10-851	HS17001	1 Oz.
B10-852	HS17004	4 Oz.

Big Blu® and Super Blu® Low Temperature Leak Reactants

- Ultra sensitive — capable of magnifying micro-gas leakage as small as 0.65 oz./year into visible foam "cocoons"
- Finds leaks in seconds, non-toxic, oxygen safe
- Pinpoints and preserves microscopic leaks up to two hours
- Super Blu® Low Temperature will not freeze down to -30°F

Acid-Away®

RECTORSEAL
A CSW Industrials Company

A

B

- Effectively removes acid buildup that occurs in refrigeration oils used in air conditioning and refrigeration systems
- Safe and easy to use treatment for both hermetic and semi-hermetic compressors of virtually any size that operate with mineral or alkylbenzene type refrigeration oils
- For systems that operate on Polyolester oils, use Acid-Away for POE (**B13-641**)
- Tested in accordance with ANSI/ASHRAE standards 86-1983 and 97-1989, and various ASTM standards

Fig.	Order #	Mfg. #	Description	Size	Each

B	**B13-641**	45009	For use with systems Polyolester oils	4 Oz.	**95.00**

QwikShot® Refrigerant and Oil Treatment

QwikProducts by Mainstream Engineering

- Works with all refrigerants, oils, and filter-driers on operating systems
- Removes acid and up to 26 drops of moisture
- Advanced technology - uses no harmful neutralization reactions
- Single treatment per box handles up to a 6-ton unit
- OEM approved

Order #	Mfg. #	Each
B20-226	QT2501	**39.99**

QwikInjector® Service Tool

QwikProducts by Mainstream Engineering

- Introduces QwikShot® acid treatment or other liquids without having to break down system
- Includes 1/2 oz. acid flush

Order #	Mfg. #	Size	Each
B13-045	QT2510	1/2 Oz.	**95.00**

RX — Acid Scavenger

Nu-Calgon

- Neutralizes, or "scavenges" acid in refrigeration and air conditioning systems after burnouts, or during regular maintenance
- Can be used with all lubricants — mineral, alkylbenzene, and polyolester oils

Order #	Mfg. #	Size	Each
B14-295	4301-02	2 Oz.	**75.00**
G80-711	4301-05	3.8 Oz. Aerosol	**75.00**

QwikCheck® Acid Test Kit

QwikProducts by Mainstream Engineering

- Tests for acid in two seconds in operating systems
- Provides an early warning of acid problems without the need to remove oil
- Meets EPA Venting Regulations
- Tests to 1 ppm of acid content
- Yellow to Red color change if inorganic acid is detected
- Compatible with all refrigerants and oils
- Meets EPA venting regulations and compatible with all refrigerants and oils
- Made in the U.S.A.

Order #	Mfg. #	Each
B13-043	QT2000	**27.49**

Phase III® Acid Test Kit

Nu-Calgon

- Phase separation makes it easy to see color changes in acid indicator
- Compatible with mineral oil, alkylbenzene and polyolester oils
- Only two bottles to work with — no glass to break open since bottles have screw caps

Hazardous Material Shipping Alert

Order #	Mfg. #	Each
B81-975	4320-W8	**48.99**

TKO™ Acid Test Kit

Parker

- For use with alkylbenzene and mineral oil lubricants
- One easy and quick step to tell if compressor oil is safe or acidic
- Simply add oil to bottle and shake — purple is safe; yellow is acidic
- Color chart in every box

Order #	Mfg. #	Each
B11-678	TKO	**59.00**

Rx11-Flush™

Nu-Calgon

- Engineered specifically for ozone-safe flushing of refrigeration and air conditioning system
- Can be used for new system cleaning, retrofits, and system cleaning after burn-outs and other failures resulting in system contamination
- Easy to use pre-pressurized solvent canisters
- "Scrubs" particulate, sludge, carbon residue, acid, oil, and water from system
- Helps avoid the need for costly and time-consuming repeat visits
- 2 lb. canister flushes 5 to 7 ton systems; 1 lb. canister flushes 3 to 4 ton systems

Pro-Flush HVAC Flushing Solvent

- Formulated for R-410A retrofits, refrigerant conversions and compressor burnouts
- Compatible with all refrigerants and compressor oils
- Uses field supplied nitrogen as propellant so the right amount of solvent can be applied without waste
- Pro-Flush is not HAZMAT for storage and ground transportation; this flushing solvent is low toxicity, non-flammable, and residue-free
- The kit includes: charging hose, large flush nozzle, refillable pressure tank, 8 oz. container of Pro-Flush and pressure relief valve for added safety

ProFlush Line Set Adapter

- Conveniently flushes line sets without carrying everything to the basement or attic
- Creates a complete connection from the liquid line to the suction line at the disconnected air handler
- Allows a single contractor to monitor both the introduction of the solvent to the lines, and the solution exiting the line set simultaneously

Order #	Mfg. #	Description	Each
B85-703	PF-ADAPTER	Pro-Flush Adapter	**139.00**

Pro-Flush Aerosol Flushing Kit

NEW

- Clean, retrofit and change out systems up to 7 tons after burnouts, before refrigeration conversions, and new system/component installations
- Powerful but safe solvent that removes sludge, carbon residues, oils, acids, moisture and particulates from condensers, evaporators, and line sets
- Formulated for R-410A retrofits, refrigerant conversions and compressor burnouts
- Compatible with CFC, HFC and HFO's refrigerants and compressor oils
- Includes 16 oz. flush aerosol, service hose, aerosol actuator valve, and flush gun

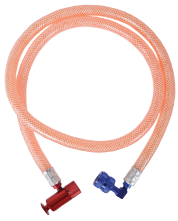
Boost Juice® Inject

DIVERSITECH MasterCare

- Enhances system performance, saving money on electric bills
- Reduces compressor noise
- Reduces energy consumption lowering starting and running amps
- Rejuvenates older systems
- Cleans interior linesets and system components removing loose deposits
- Improves oil lubricity through reduced friction and drag while blending with system oil and refrigerant
- Eliminates up to 20 drops of internal moisture prolonging system life
- Prevents acid formation



Order #	Mfg. #	Description	Each
B87-525	992-MC	Systems up to 12 tons	**225.00**

Super Change Refrigerant Retrofit

DIVERSITECH MasterCare

- Links Mineral/AB oil to any HFC refrigerant
- Eliminates change out of oil, "O" rings, or gaskets
- Designed as an alternative to R22 line set conversion flush
- Maximizes oil return and heat transfer on retrofit and drop in refrigerants
- Combats system contamination reducing TXV failure
- Boosts efficiency and extends compressor life
- Reduces oil logging - critical in systems with long line set runs and rises
- Prevents corrosion and restores lubricant to original condition by removing water and oxygen

Ester Refrigeration Oils

Parker

- Specially designed for HFC refrigerants
- Ideal for upgrading existing systems to new HFC refrigerants
- For low, medium, or high temperature refigeration systems
- Approved by manufacturers worldwide
- Also available in five-gallon containers by special order
- **B82-485** and **B82-486** are Copeland approved oils

Order #	Mfg. #	Description	Viscosity	Size	Each

Zerol® Refrigeration Oils

Nu-Calgon

- Synthetic alkylbenzene refrigeration oil
- Resists change under high pressure
- High solubility, low foaming, low floc point
- Excellent “clean-up” and replacement oil in burnouts
- Compatible with most refrigerants, including ammonia and HCFC-based blends
- Zerol® is Copeland approved
- Zerol® is not to be used with HFCs or HFC blends

Order #	Mfg. #	Description	Viscosity	Size	Each
B81-409	4310-07	Zerol Alkylbenzene Refrigeration Oil	ISO 32 (150 SUS)	1 Gallon	**195.00**
B81-410	4308-07	Zerol Alkylbenzene Refrigeration Oil	ISO 46 (200TD SUS)	1 Gallon	**175.00**
B81-411	4311-07	Zerol Alkylbenzene Refrigeration Oil	ISO 68 (300 SUS)	1 Gallon	**215.00**

Refrigeration Mineral Oils

Nu-Calgon

- High quality, stable lubricant — performs well at low temperatures
- Available in three viscosities: 150 (C-3s), 300 (C-4s), and 500 (C-5s)
- Designed for lubrication of air conditioning and refrigeration compressors

Order #	Mfg. #	Description	Viscosity	Size	Each

Guardian Refrigeration Mineral Oil

- Compatible with CFC, HCFC and HC refrigerants as well as non-fluorocarbon refrigerants including ammonia
- Wax-free content minimizes the potential for wax separation in low temperature systems
- High chemical stability minimizes any reaction with refrigerants and other materials that are a part of the refrigeration compressor/system
- Napthenic based refrigeration and air conditioning oils are formulated to exceed OEM compressor manufacturers specifications

R22 Refrigerant

- R22 is a single-component low ozone depleting HCFC refrigerant with a large installed base of air conditioning and refrigeration applications
- R22 is going through a mandatory phase-out beginning with new equipment in 2010 and production scheduled to end in 2020
- 30 lb. and 50 lb. disposable cylinders have 1/4" SAE male fitting, spring loaded relief valve, built-in handles and inversion stand
- 125 lb. and 1000 lb. returnable cylinders have a standard 3/4" MPT outlet connection and dual liquid and vapor charging valve

Note: B98-524 returnable cylinder is subject to deposit unless empty cylinder is returned at time of purchase.

FORANE® REFRIGERANTS

Order #	Mfg. #	Refrig.	Refrig. Type	Tank Size
B92-085	R22-30	R22	HCFC	30 Lbs.

Hazardous Material Shipping Alert

R427A HFC Refrigerant

- R22 Alternative in A/C and medium and low temperature refrigeration applications
- HFC refrigerant blend with zero ozone depletion
- Comparable capacity and operating pressures to R22
- High tolerance to existing mineral and alkylbenzene oils
- No need to change the existing expansion devices in most systems

Note: B99-143 returnable cylinders are subject to deposit unless empty cylinder is returned at time of purchase.

FORANE® REFRIGERANTS

Order #	Mfg. #	Refrig.	Refrig. Type	Tank Size
B99-142	R427A-25	R427A	HFC	25 Lbs.

Hazardous Material Shipping Alert

R410A HFC Refrigerant

- Also known as Puron™
- Zero ozone depletion potential
- For use as a replacement for HCFC-22 in a variety of new equipment applications

Note: B92-911 returnable cylinders are subject to deposit unless empty cylinder is returned at time of purchase.

FORANE® REFRIGERANTS

Order #	Mfg. #	Refrig.	Refrig. Type	Tank Size

Hazardous Material Shipping Alert

R404A HFC Refrigerant

- Long-term HFC alternative refrigerant
- Low and medium-temperature replacement for R502
- Not compatible with mineral or alkylbenzene lubricants; must use ester oil
- Available in 24 lb. disposable drums and 100 lb. returnable cylinders

Note: B92-441 returnable cylinders are subject to deposit unless empty cylinder is returned at time of purchase.

Hazardous Material Shipping Alert

R134a Refrigerant

- R134a is a single-component non-ozone depleting HFC refrigerant common in automotive and medium or high temperature refrigeration applications and is a common R12 retrofit
- Not compatible with mineral or alkylbenzene lubricants; must use ester oil in stationary or PAG in automotive applications
- **B92-373** has 1/4" SAE male fitting
- **B92-570** returnable cylinder has 3/4" MPT outlet connection, and valve permitting liquid and vapor to be charged while cylinder is upright

Note: B92-570 returnable cylinder is subject to deposit unless empty cylinder is returned at time of purchase.

ISCEON® MO99™ Refrigerant

- Replaces R-22 over a wide range of evaporator temperatures
- Lower retrofit costs versus HFC/POE options
- No expansion valve or line set changes
- Eliminates disruptive oil changes
- Compatible with AB, MO and POE lubricants
- Minimizes time spent on control set point adjustments and subsequent service calls

ISCEON® MO79™ Refrigerant

- Replaces R-22, R-502, and HCFC-containing blends
- Easier retrofit than R-404A and R-507
- Non-ozone-depleting HFC
- Compatible with AB, MO and POE lubricants
- In most cases, no change of lubricant type is needed
- Can be topped off during service without removing the entire refrigerant charge after retrofit
- Applications include low temperature commercial and industrial direct expansion refrigeration (can also be used for medium temperature), food service, supermarket display cases, food storage and processing and ice machines

ICOR INTERNATIONAL

NU-22B™ R-422B Refrigerant

- Non-Ozone Depleting HFC
- Direct replacement for R-22, R-417A, R-407C, R-422D
- Replacement for R-22 in low, medium, and high temperature applications
- Does not require an expensive system oil change
- Compatible with mineral, alkylbenzene and POE oils
- Operating characteristics closely compares to R-22
- ASHRAE safety classified A1 (non-toxic/non-flammable)
- Increased capacity over R-417A
- Also available in 110 lb. cylinders — cylinder deposit required

TEV'S BULB LOCATION

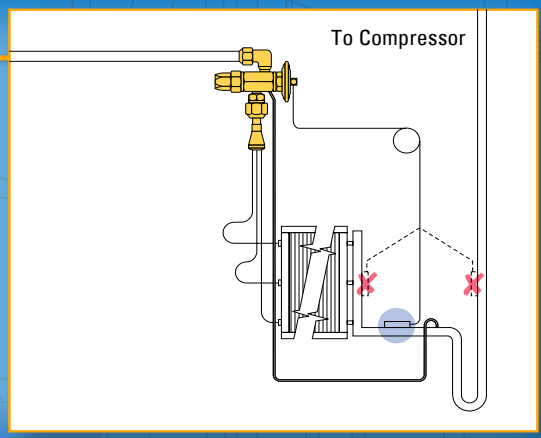
Where should the TEV's builb be located?

In general, the TEV bulb should be installed on a straight section of horizontal suction line.

When the compressor is above the evaporator

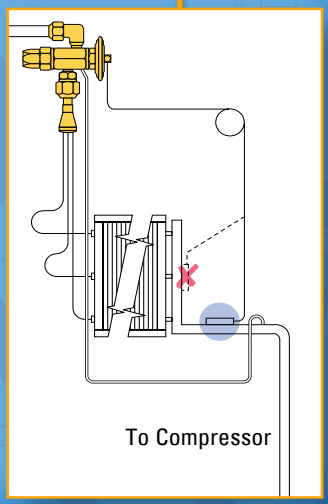
Locate the bulb on a straight, horizontal line, pitched slightly down, immediately after it leaves the evaporator.

A short trap should follow before the vertical line rises to be connected to the compressor suction. With the line pitched down, any liquid refrigerant and/or oil will pass into the trap, away from the bulb. As the trap fills with oil, the velocity of the refrigerant will carry the trapped oil into the vertical section and be returned to the compressor.



When the compressor is below the evaporator

In this piping configuration, no trap is required after the bulb location, but the line should be pitched slightly down to prevent any liquid refrigerant or oil from being trapped at the bulb location.



When several evaporators are installed both below and above the common suction line

Observing the same principles outlined above, the piping should be arranged to prevent the accumulation of oil and/or refrigerant at the bulb location. Also, traps installed in the suction lines of evaporators **B** and **C** prevent the refrigerant from one evaporator from entering the suction line of another evaporator.

Refrigerant Journals

- EPA compliance at low cost
- Purchase, disposal, and unintentional venting logs included
- Monitors use, recovery, purchase and disposal of all your refrigerant
- Technician Refrigerant Journal™ services one technician for all refrigerant related calls
- Master Refrigerant Journal™ is a one source summary for all the technician's journals; serves as a back-up copy of the technician's journals
- Journal Starter Pack comes complete with four Technician Journals and one Master Journal

Dual Element Cartridge Fuses

COOPER Bussmann

- For circuit protection use – same size as ordinary fuses
- Long time lag prevents useless shutdowns caused by ordinary fuses opening on starting currents or other harmless overloads
- For motor protection use size about 125% of motor running current
- On normal installations guards motor against burnout from overloads or single phasing, reduces heating in switches and panels
- Operates cooler than any other type fuse, prevents needless blows and heat damage
- Rejection type

HVAC Fuse Kit

COOPER Bussmann

- Sturdy polypropylene storage case with adjustable compartments kit contains:
- Ten each: **G31-525** (HAC-R-30)
- Five each: **G32-189** (ATC-3), **G32-043** (ATC-5) and **G31-528** (HAC-R-60)
- Two each: **G31-522** (HAC-R-15), **G31-523** (HAC-R-20), **G31-524** (HAC-R-25), **G31-540** (HAC-R-35), **G31-526** (HAC-R-40), **G31-527** (HAC-R-50), **G31-518** (SC-15) and **G31-294** (HMJ fuse holder)
- One each: **G31-167** (SL-15 pack of 4), **G31-494** (#263 pair of fuse reducers) and **H24-622** (FP-2 fuse puller)

Order #	Mfg. #	Each
G80-071	ERK-28J	**1099.00**

COOPER Bussmann

Cartridge Fuse Puller

- Remove cartridge fuses safely 13/32" to 13/16" diameter
- Affords complete insulation and safety
- Durable impact-resistant, high-strength polycarbonate

Order #	Mfg. #	Each
H24-622	FP-2	**59.00**

COOPER Bussmann

Cartridge Fuses

- 13/32" diameter
- **H24-868** Lighting, Appliance, Motor Branch Circuit

G36-434	ZFP05	5 Amp	38.49
G36-435	ZFPAS	Assorted Amps	38.49

Z-Breaker - Circuit Breaker Sets

- Sets include wires with pre-installed terminals that allow easily plug it into the connectors where a plastic-type fuse existed
- Protects the systems that you install or service from damage caused by shorts, overheating, or wiring problems

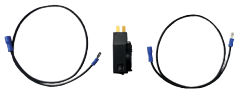
Order #	Mfg. #	Description	Each
G36-438	ZK003	Z Breaker- Circuit Breaker Set, 3 Amp	36.49
G36-439	ZK005	Z Breaker- Circuit Breaker Set, 5 Amp	36.49

Li'L Popper Control Circuit Tester

- Insert into the fuse receptable in place of a standard fuse
- Allows system testing or service work without blowing fuses
- Simply press the button to reset the device

Order #	Mfg. #	Description	Each
G33-039	POP3	3A Control Circuit Tester	31.99
G33-040	POP5	5A Control Circuit Tester	31.99

Fuse Pro



- Plugs into PC board on furnaces, boilers, air handlers and anything with a printed circuit board
- Auxiliary wires for more applications
- Built-in light for dark, hard to reach areas
- For low voltage circuit testing without wasting fast-blow fuses
- Not for permanent use; Does not replace a factory accepted fuse

Order #	Mfg. #	Description	Each
G37-734	BRK3	3A Control Circuit Tester	35.49
G37-735	BRK5	5A Control Circuit Tester	35.49

Tattle Tale™ Control Monitors

- Red flag pops up when a control opens in response to a malfunction
- Saves hours of time when troubleshooting
- Disposable after one use
- Use for monitoring safety controls and switches, fuses and fusible links, motor protectors, freeze controls and more
- Not to be used with lockout relays or operating controls

Order #	Mfg. #	Volts	Pkg. Qty.	Each
B12-015	TT-24	24	3	65.00

In-Line Fuse Holder

- Holder with fuse and wire leads
- Maximum current rating 20A
- Features bayonet type knob and 8" leads with #14AWG wire

Order #	Mfg. #	Each	10 Lot	50 Lot
G31-294	HMJ	18.49	15.49	13.49

©2024 Johnstone Supply, LLC

Fuse Holders

- 15A, standard size
- **G36-431** is for ATO/ATC type fuses
- **G36-432** is for Mini type fuses
- Fuse holder kits include 4 fuseholders, 2-3A fuses, 2-5A fuses and 4 crimp connectors

Order #	Mfg. #	Description	Each
G36-431	ZFH01	Plastic Medium-Duty	**38.49**
G36-432	ZFH02	Glass Medium-Duty	**38.49**

Disconnect Switches

- Heavy-duty disconnects with two-position pullouts or switches
- Cover remains in place when open; protective shield covers wiring
- **G37-456** and **G37-455** include a built-in self-testing GFI receptacle that meets NEC 210.63 ground fault requirements; eliminating the need for a separate installation
- **G37-455** has a 15A receptacle that allow 14/2 wire to be used; **G37-456** has a 20A receptacle that require 12/2 wire
- Fuses are sold separately (fused models)

Replacement Disconnect Pullout

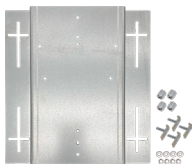
Order #	Mfg. #	Description	Each
G32-089	96-3258-4	Disconnect Handle	**15.49**

Disconnects

- Fused model designed with fuses in pull-out handle for easy replacement
- Line, load, and ground terminals are aligned for ease of wiring
- Reversible door opens to either the left or right
- Side open door opens more than 180 degrees for maximum access and has a full dead front
- Includes indicator lights for blown fuses
- Rain tight and sleet resistant
- The UL Listed number is IRF9, NEMA Type 3R and the US Patent is 6,630,637.

Order #	Mfg. #	F/L Amps	Type	Volts	Each
G37-516	DDS-30	30	Metallic Fused	120/240	**75.00**
G37-517	DDS-60	60	Metallic Fused	120/240	**75.00**
G35-618	DDS-60U	60	Metallic Non-Fused	120/240	**65.00**
G35-617	750-P60NF	60	Non-Metallic Non-Fused	120/240	**75.00**
G37-770	DDS-60SW	60	Metallic Non-Fused	120/240	**105.00**

Disconnect Mounting Plate



- To secure a disconnect to a unit without blocking the electrical panel
- Fits various layouts of single phase disconnects
- Cross pattern mounting
- Install with 5/16" hex nuts
- Weather-resistant galvanized metal

Order #	Mfg. #	Each
G38-513	TFXDMP	**59.00**

Fuse Adapter

- Converts 30A fuse to fit **G89-733** disconnect switch
- Pricing is per pair

Order #	Mfg. #	Each	10 Lot	20 Lot
G31-494	NO.263	**31.99**	**26.49**	**22.99**

Air Conditioner Whips

- 1/2" size uses #10 stranded THHN wire; 3/4" size uses #8 stranded THHN wire
- Contains black, red and green wires
- Includes two reducing washers, one straight and one 90° connector
- **G81-052** is 30 Amp

Order #	Mfg. #	Diam.	Length	Wire Gauge	Conductors	Carton Qty.	Each
G89-951	6-12-4NM	1/2"	4'	10	3	6	**39.49**
G89-797	6-12-6NM	1/2"	6'	10	3	6	**48.99**

Classified Circuit Breakers

- UL classified 1" circuit breakers for direct replacement in General Electric, Thomas & Betts, ITE/Siemens, Murray, Crouse-Hinds and Square D panels
- For use in place of specified circuit breakers
- Meets all code acceptance regulations governed by the NEC and UL
- 15-year warranty
- **G32-847** is a ground fault circuit breaker
- Additional amperages available by special order at participating Johnstone Supply stores

UBIZ Replacement for Zinsco Circuit Breakers

- Type R is 3/8" per pole total 3/4" wide (referred to as single pole twins); controls two separate 120V circuits
- Type RC is 3/4" wide, two pole common trip and controls one 240VAC circuit
- Type Q is 3/4" wide and controls one 120VAC circuit
- Type QC is 1-1/2" wide, two pole common trip and control one 240VAC circuit

BR Circuit Breakers

- BR 1" circuit breakers with a thermal-magnetic trip curve avoids nuisance tripping on mild overloads while reacting to severe short-circuit conditions
- All BR circuit breakers have rejection tab feature
- Units feature a quick-make, quick-break switch mechanism combined with inverse time element tripping operation and trip-free handle design

Whole Home Surge Protectors

- **G36-415** comes with a *$25,000 warranty
- LED status indication
- Suitable for indoor/outdoor applications when properly installed
- Limited lifetime warranty
- UL® 1449 3rd Edition compliant

Note: *Warranty amount is for connected equipment, for details visit www.eaton.com/surgetrap

Order #	Mfg. #	Max. Amps	Each
G36-415	CHSPT2SURGE	36,000	**335.00**
G36-471	CHSPT2ULTRA	108,000	**669.00**

Surge Protection Devices

- Hard-wired models provide greater capacity to handle surge energy (based on their close location to the service ground) compared to standard plug-in strips
- Designed for 120, 240 VAC single or split-phase panels
- Green LED indicator provides surge protection status – ON: Energized and providing protection – OFF: May still be energized but protection has been diminished and the unit should be replaced

Order #	Mfg. #	Max. Amps	Each
G36-493	IG1200RC3	50,000	**295.00**

G36-495	IG3240RC3	50,000	**865.00**

HVAC Surge Protector

- Protects high efficiency furnaces, hydronic heating systems and ductless mini-splits
- Robust TPMOV® surge technology with arc-shield
- 3yr/$7,500 connected equipment warranty
- Green LED protection indicator
- Type 1 and type 2 compatible
- Meets all UL1449 3rd edition standards
- 18 in. 10 Gauge leads
- 1/2 inch x 20 threaded nipple
- Weatherproof and UV resistant

Order #	Mfg. #	Max. Amps	Each
G36-492	AG3000	100,000	**169.00**

Compressor Defender™

- Protects residential and light commercial compressors and circuit boards
- Surge, brownout, and short cycle protection with 120, 208, and 240 VAC loads
- LED indicators provide real-time status updates for quick and easy troubleshooting
- For use inside condensing units or externally on disconnects
- Complies with ANSI/AHRI standard 110-2012 range B for voltage drop protection
- Auto-sense voltage technology 120-240 VAC universal input voltage
- Meets ANSI/UL 1449 3rd edition requirements

Order #	Mfg. #	Max. Amps	Each
G36-618	CD1-024R	100,000	**275.00**

ICM Single-Phase Surge Protector

NEW

- NEMA Type 4X enclosed Type 2 Surge Protective Device for indoor/outdoor installation
- Robust Cast Aluminum enclosure for maximum durability
- Featuring a redesigned rivet sealed molded case with an internal gasket
- Updated to latest UL standards with UL Rated Powder Coating for superior corrosion resistance
- Withstands effects of prolonged UV exposure better then ABS plastics
- Easy installation; built to withstand a major surge event
- Thinner, more compact profile than previous versions
- Limited lifetime product, up to a 3-year $25,000 connected equipment warranty

Order #	Mfg. #	Max. Amps	Max. Energy Dissipation (Joules)	Each
G38-521	ICM517A	100,000	1020	**195.00**

Linebacker® Surge Protector & Voltage Monitor

- TPMOV technology removes equipment from damaging surges
- Diagnostic circuitry analyzes incoming power for overvoltage, undervoltage or lost neutral

(ground), disconnecting equipment from power to prevent equipment damage.

Order #	Mfg. #	Max. Amps	Each
G37-422	LBK10	10,000	**285.00**

RSH-50 Surge Protective Device

- Protects from up to 50,000-amp single surges and up to 10,000-amp repetitive surges
- Designed to protect all Single-Phase system 120/240 VAC Type 1
- Long-Lasting Gas Discharge Tube Technology
- For Residential or Commercial Use
- TFMOV Technology
- Green LED Indicates Protection

Order #	Mfg. #	Each
G38-076	RSH-50	**129.00**

RSH-60 Surge Protector

- Designed to protect all single phase, 120/240-V air conditioning, heat pumps and ductless mini-split systems (DMSS) from transient over-voltage and natural-cause surges.
- Long-Lasting Gas Discharge Tube Technology
- TFMOV Technology
- Dual Diagnostic LEDs and Audible Alarm
- Additional Stability with Mounting Feet Option

Order #	Mfg. #	Each
G38-077	96416	**385.00**

RSH-60 VMD Surge Protector

- Designed to protect all single phase, 120/240-V air conditioning and heat pumps from transient over-voltage and natural-cause surges, brown-outs, and system short cycling
- Dual LED diagnostic lights for operational status
- 24V thermostat relay
- Hybrid gas discharge tube/metal oxide varistor (MOV) protection circuit
- Easy install on disconnect boxes

Order #	Mfg. #	Each
G38-078	96426	**255.00**

RSH-50 Enclosed VRM Kits

- RSH-50 Surge Protector and Voltage Range Monitor inside a NEMA 3R/IP66 enclosure
- Over-under voltage cutoff delay can be adjusted from 0.5 to 60 seconds
- Load restore delay adjustable from 1 to 600 seconds 120/240 single phase, 60 amp double pole capacity relays
- Magnetic latching relay for maximum reliability
- Large easy to read LCD digital display
- Dual red and green LED diagnostics indicators
- Easy setup, field programmable, no laptop or programming tool required
- Stores up to 300 over/under voltage and power-loss events in resettable internal memory
- Non-volatile memory retains all settings and event log when power is lost
- Entire kit is NEMA 3R enclosure, with the VRM60 having NEMA 1 din-rail housing
- **G38-503** includes a 60A disconnect breaker

Ingenuity for life

General Duty Safety Switches

- Applications include disconnects for motors, air conditioners, appliances or lighting loads
- Suitable for use as service entrance equipment
- Padlocking provisions for lock-out in off position
- Lugs suitable for copper or aluminum 60 or 70° rated wire
- Also used for two pole applications
- Dual horsepower ratings: Std. - Non-time delay fuses, Max. - Time-delay fuses

Heavy Duty Safety Switches

- Applications include disconnects for motors, air conditioners, appliances or lighting loads
- Suitable for use as service entrance equipment
- Padlocking provisions for lock-out in off position
- Lugs suitable for copper or aluminum 60 or 70° rated wire
- For use with cartridge type fuses
- Also used for two pole applications
- Dual horsepower ratings: Std. - non-time delay fuses, Max. - time-delay fuses
- Conduit hubs available; see index

Vending Machine Switch

- Simulated Roller Snap Action Switch
- Direct replacement for switches used on most vending machines
- SPDT, 0.5A @ 125VAC, 0.25A @ 250VAC, 1/8 HP, 0.187" spade terminals
- Replaces Micro #V3L107D8

Order #	Mfg. #	Each
G31-249	ES15252	**12.49**

Vending Machine Switch

- Pin Plunger Snap Action Switch
- Direct replacement for switches used on most vending machines
- SPDT, 10A @ 125/250VAC, 1/3 HP, 0.187" spade terminals

Order #	Mfg. #	Each
G31-251	ES16802	**7.25**

Vending Machine Switch

- Rigid Lever Snap Action Switch
- Direct replacement for switches used on most vending machines
- SPDT, 10A @ 125/250VAC, 1/3 HP, 0.187" spade terminals
- Replaces Micro #V3L1

Order #	Mfg. #	Each
G31-252	ES15253	**10.99**

Self-Testing Ground Fault Interrupters

- Duplex receptacles and portable
- No alteration to the fuse box or circuit breaker required
- For use outdoors, in bathrooms, kitchens, laundry rooms and damp or wet areas
- Meets or exceeds UL943 (3rd Edition) class A GFCI, UL498 requirements
- Feed-through receptacle protects all other receptacles downstream on same circuit
- No alteration to the fuse box or circuit breaker required
- Solid state circuitry for trouble-free operation
- Self-testing GFI

Commercial/Specification Grade Receptacles

- **G22-923** and **G32-078** are commercial specification grade, heavy-duty duplex receptacle with nylon impact resistance face, lead-in slots for easy plug insertions, heavy sectioned body of non-tracking urea and keyed to steel strap; automatic grounding clip; solid brass terminal screws accept #10, #12 or #14 copper or copper-clad aluminum conductors; back and side wired; meets federal specification WC-596
- **G22-887**, **G22-890**, **G22-889**, and **G22-891** are specification grade, heavy-duty single receptacles; side wire terminals take up to #10 wire; E-Z ground screw with grounding terminal screw; suitable for grounded metallic or nonmetallic systems; combination terminal screws are large head, staked and backed-out; rugged steel, heavyplated mounting strap; compact design provides more wiring space in outlet box
- **G22-891** will work with Amana PTAC'S

Combination Switches and Devices

Toggle with Second Device

- Toggle with Second Device
- Toggle switches have spring loaded steel ball mechanism for smooth, positive contact movement
- Switches have break-offs for wiring both devices on same circuit or on separate circuits, except pilot lights
- Receptacle has triple wipe line contacts and double wipe grounding contacts, and built-in pilot light is on when switch is ON
- Pilot light is connected to indicate when switch is ON and is long life neon
- **G32-076** has UL listed tamper resistant shutters designed to prevent the insertion of foreign objects

3 Pole Mini-Split Switch

- Meets local code requirements for breaking both the power line (L1 and L2) and the communication line of mini-split indoor unit for service

Order #	Mfg. #	Amps	Volts	Type	Color	Each
G38-102	755-303SW	30	600	Three Pole	Black	**125.00**

Super Specification Grade Cord Caps and Connectors

- Straight blade caps and connectors have side wire terminal screws take up to #10 copper or copper-clad conductors; back wire holes have tapered lead-in and clamps are spring loaded open; E-Z ground strap with grounding terminal screw, for grounded metallic and nonmetallic systems; one-piece molded construction for superior assembly security
- Angle cord caps are for use in industrial and commercial applications where cords must be close to wall or in tight fitting places where space is limited; eight possible plug positions; transparent terminal cover allows inspection of wire termination before final assembly; thick walled, black and white thermoplastic husk; grounding

General Duty Cord Caps and Connectors

- For use on extension cords and portable electrical equipment
- Solid brass blades are firmly embedded into body
- Steel clamps and armor are heavy plated for corrosion resistance
- Terminal screws are large head type for easy wiring, separated by barriers to prevent flashover or short circuits
- Strain relief clamps are superior in design, providing secure mechanical grip
- Rubber devices resist many chemicals and petroleum by-products, have low temperature flexibility and resist high heat

Thin Wall Conduit

- Use to support duct sizes over 48” or smaller duct in high pressure applications
- 10' lengths

Order #	Mfg. #	Description
G95-038	MC1210	1/2" Thin Wall Conduit
G95-039	MC3410	3/4” Thin Wall Conduit

Dyn-O-Loc Sets

- Insert into the ends of thin wall conduit to attach conduit to the duct
- Easy to insert and pull tested to withstand over 1,900 lbs.
- Set includes Dyn-O-Loc, ¼-20 bolt and neoprene backed washer

Order #	Mfg. #	Description	Each
R58-910	DOMRL12-250	1/2” Dyn-O-Loc Set (250-Pk.)	**729.00**
R58-911	DOMRL34-250	3/4" Dyn-O-Loc Set (250-Pk.)	**765.00**

Tube and Conduit Cutter

- Cuts 1/8" to 1" copper, aluminum, brass tubing and thin-wall conduit
- X-CEL knob and pin for quicker cutting and wheel replacement
- Includes fold-away reamer and spare cutter wheel

Order #	Mfg. #	Description	Each
H27-407	32910	Model #10	**89.00**

EMT Setscrew Connectors

- Concrete tight
- Zinc die-cast

Order #	Mfg. #	Size	Description	Each
G35-706	631S	1/2"	1/2" Knockout Size	**1.25**
G35-707	632S	3/4"	3/4" Knockout Size	**2.05**

EMT Setscrew Couplings

- Concrete tight
- Zinc die-cast

Order #	Mfg. #	Size	Each
G35-708	641S	1/2"	**1.35**
G35-709	642S	3/4"	**2.05**

EMT Compression Connectors

- Concrete tight/rain tight
- Zinc die-cast

Order #	Mfg. #	Size	Description	Each
G35-711	651S	1/2"	1/2" Knockout Size	**2.45**
G35-712	652S	3/4"	3/4" Knockout Size	**3.09**

EMT 90° Rigid and Setscrew Pulling Elbows

- Threaded
- Zinc die-cast

Order #	Mfg. #	Size	Each
G35-715	381	1/2"	**14.99**
G35-716	382	3/4"	**19.99**

EMT Combination Couplings

- EMT set screw to flex
- Zinc die-cast
- **G35-717** fits 3/8" flex
- **G35-718** fits 1/2" flex

Order #	Mfg. #	Size	Each
G35-717	EMTNM-38	1/2"	**6.45**
G35-718	181	1/2"	**13.49**

EMT Straps

- Plated steel

Order #	Mfg. #	Size	Description	Each

Armorlite Aluminum Clad MC Cable

- Full size insulated with green ground
- Prewired — no wire pulling
- Flexible — no special bending, easier to work with in limited space
- Speeds installation and rewiring of electrical equipment

Order #	Size	Length
G89-884	12/2	100'
G80-327	14/2	100'

Flexible Aluminum Conduit

- Provides mechanical protection for conductors and cables
- 66% lighter than steel
- Cuts 80% faster than steel
- Smooth interior for easy wire pulling
- High strength aluminum alloy construction
- Superior corrosion resistance

Order #	Length	Description
G89-829	100'	Flex Conduit 3/8"
G89-830	100'	Flex Conduit 1/2"

G21-649	419GY	**3.55**	**3.25**	**2.95**

3-Outlet Power Block

- Meets OSHA requirements for indoor/outdoor use
- 2' long, heavy-duty 12/3 cord; 15A, 125VAC

Order #	Mfg. #	Each
G84-918	4112SW8802	**36.49**

Portable GFCI

- Meets National Electrical Code and OSHA requirements for GFCI protection for temporary wiring at job sites
- Water resistant housing; test and reset button
- 12 AWG, 3' in length with straight end

Order #	Mfg. #	Each
G89-972	26020008-6	**149.00**

Portable GFCI Cord with Tri-Source Plug

- Meets National Electrical Code and OSHA requirements for GFCI protection in temporary jobsite use
- Water resistant housing; test and reset button
- 12/3 SJTW gauge cord, 2' length with 90° end

Order #	Mfg. #	Each
G80-826	14880023-6	**125.00**

HVAC Service Center Kit

- GFCI outlet and switch for servicing air cleaners, humidifiers, UV lights and other accessories
- 8' whip allows for easy placement near equipment
- No assembly required

Order #	Mfg. #	Each
G81-084	HVACSC-1	**225.00**

Furnace Whip

- Pre-Assembled for quick and easy installation
- 8' conduit for flexible placement
- GFCI protected outlet
- Pre-wired switch for easy accessory wiring
- Mounting and installation hardware included

Order #	Mfg. #	Each
G81-158	FKM-12-8GFCI	**205.00**

Round 3-Wire Extension Cords

- Heavy-duty extension cords provide safety and long service
- Molded-on caps and connectors resist moisture and damage
- Tough vinyl jacket resists abrasion, weather and water
- Manufactured for rugged safe use in home, factory, office or farm
- Meets OSHA requirements

Order #	Length	Gauge	Amps	Color	Each
G84-686	25'	16/3SJTW	13	Orange	**46.49**

Shielded Plenum Cable

- For use in thermostat controls, heating and air conditioning units, security systems, doorbells, intercom systems and low voltage applications where riser or plenum cable is required
- UL listed type CL3P/CL3P/CMP, -20°C to 75°C
- Stranded
- 300V
- **G80-291** can be used for permanent installation of mini-splits in low voltage applications

Order #	Gauge	Conductors	Spool Size	Each
G80-095	18	2	500'	**375.00**

G80-105	18	6	500'	**985.00**

Baro-Split Shielded Low Voltage Cable

- Stranded BC wire
- For use in thermostat controls for carrying an “ON” or “OFF” signal from a thermostat to the furnace and compressor
- Foil wrapped around its conductors to prevent electronic interference and protect signal integrity
- 150V
- UL listed type CMR/CL2R/CL3R, -20°C to 75°C
- 300V

Order #	Gauge	Conductors	Spool Size	Each

G95-156	Spool	14	4/Stranded	250'	**655.00**

EZ-IN™ Mini-Split Cable

- Can be installed indoors and out in wet locations without the use of conduit
- Stranded bare copper THHN/THWN conductors with PVC insulation and Nylon jacket cabled together with interlocking armor
- Moisture and sunlight resistant, with a flame resistant PVC jacket applied over the armor
- Direct burial
- 600V, -25°C to 90°C
- **G80-946** & **G80-947** are shielded

Thermwire-Wrap® 16 Gauge Pipe Heating Cable

- For metal or plastic pipe up to 8" in diameter in dry environments only
- Self-regulating
- 16 AWG buss wires with metallic braid
- 6 watts/ft. at 40°F, 120 or 240VAC
- No thermostat required, but for best results, use thermostat to turn ON and OFF
- Overlap, cut to length
- UL listed when installed with Thermwire® accessories shown below
- **G32-122** and **G32-124** truck pack includes 100' of cable, two power connection kits, one splice and tee kit and one roll of application tape
- All heating cable circuits should use ground protection devices
- Contact your local Johnstone Supply for per foot pricing on heating cable

Safe-T-Wrap® 20 Gauge Pipe Heating Cable

CHROMALOX Advanced Thermal Technologies

- Braid covered heat cable
- For dry environments
- Self-regulating
- No thermostat required, but for best result, use thermostat to turn ON and OFF
- Can be overlapped without burnouts
- 100', 120VAC, 3 watts/ft. at +40°F
- Maximum circuit length = 150'
- UL listed and CSA certified when installed with the SAFE-T-MELT® accessories shown below
- For use on metal and non-metal pipes
- Tinned copper braid provides positive grounded metal covering
- All heating cable circuits should use ground protection devices

Cable Tie Mounting Base

- 1" x 1" adhesive backed mounting base
- For use with 18 to 50 lb. cable ties
- Natural colored nylon
- Sold in packs of 100

Order #	Mfg. #	Each
G80-130	BLMPS9-C	**35.49**

Cable Tie Assortment Packs

- Three most popular sizes in a resealable vinyl pouch
- Includes 200 5" ties with 1-1/2" bundle diameter, 200 8" ties with 2" bundle diameter, and 50 11" ties with 3" bundle diameter

Temflex™ 175 Vinyl Electrical Tape

- Resists abrasion, moisture, alkalis, solvents and acids
- Flame-retardant and inhibits the corrosion of electrical conductors
- Made of durable PVC
- Compatible with rubber and synthetic splicing compounds
- Withstands a temperature range of 19 to 194°F (-7 to 90 °C)
- UL Listed and CSA Certified
- 7-mil thick
- 3/4" x 60' roll

Order #	Mfg. #	Description	Each
G38-311	175BK4A	PVC 3/4"	**5.29**

Scotch Super 33+ Electrical Tape

- Wraps and conforms in continuous temperatures of 0°F to 220°F
- Resists ultraviolet, abrasion, alkalis, acids and corrosion
- Provides moisture-tight electrical and mechanical protection
- Use as primary electrical insulation for wire, cable splices to 600V
- 3/4" x 76' roll

Order #	Description	Each
G21-197	#33 Black	**20.49**

Scotch 2242 Linerless Splicing Tape

- All-purpose linerless splicing compound rubber tape for all jobs: low voltage splicing, insulating bus bars, jacketing, insulation
- Scotch splicing compound has no liner or backing to get in the way and slow you down
- Easy unwind and the ability to wrap it quickly can save money and make tough jobs easier
- The only rubber tape you need to insulate, jacket or moisture seal
- 3/4" x 15' roll

Order #	Description	Each
G31-233	Scotch 2242 3/4"	**29.99**

Scotch 27 Glass Cloth Tape

- This high-temperature glass cloth tape has thermosetting pressure-sensitive adhesive designed to perform at class B temperature (130°C, 266°F)
- Provides heat-stable insulation for "hot-spot" applications such as furnace and oven controls, motor leads and switches
- 0.007 thickness
- 1/2" x 66' roll

Order #	Description	Each
G21-201	#27 1/2"	**49.99**

Colored Marking Tape

- Six colors to match standard thermostat wire color code
- For wire marking, phase identification and electrical insulation
- Flame-retardant and weather resistant
- Each roll 1/2" wide x 240" long

Order #	Mfg. #	Width	Color	Each
G32-061	10224	1/2"	Red	**8.79**

600-Piece Wire and Wing Connector Kit

DIVERSITECH

- Labeled, high impact polypropylene case with nine adjustable compartments
- Kit contains one standard package size of each of the following: **G32-035**, **G31-423**, **G21-352**, **G22-675**, **G37-924**, **G37-925**, **G37-926**, **G37-927** and **G22-994**

Order #	Mfg. #	Description	Each
G32-246	623-MIX	Wire Connector Kit	**229.00**

Wire Connectors

DIVERSITECH

- Ribbed cap provides positive-grip for fast, easy installation
- Fixed, square-wire spring threads itself creating a secure pressure grip
- Deep-wide-throated skirt protects against flashover and turned-back strands for maximum dielectric protection
- Tough, UL 94V-2 flame retardant shell rated at 105°C (221°F)
- UL 486C listed and CSA C22-2 #188 certified
- Pricing is per package

Wire Connector Jar

DIVERSITECH

- High dielectric thermoplastic shell resists chemical actions
- Deep skirt design prevents exposure of bare wires
- Handy carry handle and grip bottle
- UL Listed and CSA Approved

Order #	Mfg. #	Color	Wire Gauge	Volts	Pkg. Qty.	Each
G37-941	623-012	Blue	22-16	300	600	**99.00**
G37-942	623-013	Orange	22-14	600	300	**69.00**
G37-943	623-014	Yellow	18-10	600	200	**55.00**

Porcelain Wire Connectors

DIVERSITECH

- For high temperature applications in heating and cooking appliances
- Used for temperatures over 150°C (302°F)
- Maximum 300V
- Pricing per package

Order #	Color	Wire Gauge	Pkg. Qty.	Each
G31-272	Natural	18-14	10	**11.49**
G31-273	Natural	18-12	10	**14.49**

Snap Lever Connectors

Zebra HVAC

- Test point for voltage and connectivity
- 3/8" Strip length
- No twisting required
- 250V Mac, 32A Max
- Wire sizes: 28 - 12 AWG Solid and 28 - 14 AWG Stranded
- PA66 Flame retardent material

Order #	Mfg. #	Color	Wire Gauge	Volts	Pkg. Qty.	Each
G38-377	ZSLCK	Gray	28-12 Solid/28-14 Stranded	250	25	**38.49**

Alkaline Batteries

- Long lasting, dependable power
- Up to 10 year shelf life
- Prices are per package

Order #	Mfg. #	Description	Each
G37-637	E92BP-2	AAA Alkaline (2-Pk.)	8.59
G37-638	E91BP-4	AA Alkaline (4-Pk.)	14.99
G37-639	522BP	9V Alkaline (1-Pk.)	15.99
G37-640	E93BP-2	C Alkaline (2-Pk.)	15.99
G37-641	E95BP-2	D Alkaline (2-Pk.)	15.99

Industrial Batteries

- Alkaline batteries designed for heavy current or continuous use applications
- Heavy-duty carbon zinc battery for light to moderate drains applications, value option when alkaline batteries are not a requirement

Order #	Mfg. #	Description	Each
G21-865	EN91	AA Industrial Alkaline	1.29
G22-302	EN92	AAA Industrial Alkaline	1.29
G22-719	EN22	9V Industrial Alkaline	5.25
G32-403	EN529	6V Industrial Alkaline	27.99
G21-864	EN93	C Industrial Alkaline	2.79
G21-863	EN95	D Industrial Alkaline	4.39
G32-727	E96BP-2	AAAA Alkaline (2-Pk.)	9.65
G32-404	1222	9V Heavy-Duty	2.35
G32-726	A76BPZ	1.5V Alkaline Button Cell (LR44)	4.85
G31-373	357BPZ	1.55V Silver Oxide Button Cell (SR44)	6.89
G36-642	390-389TZ	1.55V Silver Oxide Button Cell (SR1130SW)	4.09
G31-532	393-309TZ	1.55V Silver Oxide Button Cell (SR754W)	2.29

Lithium Batteries

Hazardous Material Shipping Alert

- Lighter and longer lasting than alkaline batteries
- Up to 20 year shelf life on AA/AAA, 10 year shelf life on 9V and 8 year shelf life on button cells
- Works in temperatures -40°F to +140°F

Warning: This product contains lithium batteries and cannot be shipped by air

Order #	Mfg. #	Description	Each
G36-482	L91	AA Lithium Battery	9.09
G38-005	L92	AAA Lithium Battery	9.09
G36-483	L522	9V Lithium Battery	59.00
G37-518	EL123APBP	123 Lithium Battery	11.49
G32-395	ECR2032BP	3V Lithium Button Cell	5.79
G37-385	ECR1632BP	3V Lithium Button Cell	11.49

Lithium Batteries

Hazardous Material Shipping Alert

- 3V lithium battery for professional applications
- Performs in a wide range of temperature extremes (-22°F to +140°F)
- Virtually constant voltage over discharge period
- 10 year shelf life

Warning: This product contains lithium batteries and cannot be shipped by air

Order #	Mfg. #	Description	Each
G34-842	85175	CR123 Lithium Battery (2-Pk.)	14.99

LEARNING THAT EARNS

Johnstone University is your source for HVACR training online, anytime and anywhere. Gain the knowledge and skills to help drive successful business results with JohnstoneUniversity.com

Online you will learn how to:

- Keep technical skills current
- Stay safe and productive
- Increase revenue per job
- Maintain NATE certification
- Remain compliant with laws
- Know industry regulations and standards
- Build your dream team with the Technician Training Plan
- Hundreds of other free product courses

Learn more and sign up today at

JohnstoneUniversity.com

R22 Condensing Units

- Pressure control included, where listed
- MCA and MFS ratings denote Minimum Circuit Ampacity and Maximum Fuse Size
- Units 2 HP and larger have dual fan cycle controls
- BtuH capacity ratings below are based on 90°F ambient and listed evaporator temperature
- Last letter in mfg. # designates unit features:
- A or K: no receiver, with power cord (capillary tube applications)
- B: with receiver and power cord
- C: with receiver
- M: with suction accumulator
- S: no receiver, with isolation valves

Condensate Condensing Units

- Narrow size fits many applications — 8-1/2" for GK models and 16-1/2" for EC(E,D) models
- Great alternative to electric heater pans
- Molded plastic base is corrosion resistant and lightweight
- Moisture proof shroud for extended life
- Standard models listed (GK) include power cord — also available with receiver (GB model)

Water Cooled Condensing Units

- Water cooled units allow compact size and little ambient load
- Efficient and compact coaxial condenser
- Includes dual pressure control and water valve

R22 Hermetic Compressors

- R22 commercial temperature compressors have an evaporator range of 0°F to 50°F
- R22 high temperature compressors have an evaporator range of 20°F to 55°F
- R22 low temperature compressors have an evaporator range of -40°F to +10°F
- All starting components included where needed
- All mounting hardware included
- BtuH capacity ratings based on 130°F condensing temperature

R134a High Temperature Condensing Units

- All units charged with POE oil and dry nitrogen
- BtuH capacity ratings are based on a 90°F ambient at listed evaporating temperatures

Order #	Mfg. #	Refrigerant	HP	Volts	Phase	BtuH Capacity @ 10°F Evap.	BtuH Capacity @ 20°F Evap.	BtuH Capacity @ 25°F Evap.	BtuH Capacity @ 30°F Evap.	BtuH Capacity @ 35°F Evap.	BtuH Capacity @ 40°F Evap.	BtuH Capacity @ 45°F Evap.

R134a Medium Temperature Condensing Units

- All units charged with POE oil and dry nitrogen
- BtuH capacity ratings are based on a 90°F ambient at listed evaporating temperatures

R404A Low Temperature Condensing Units

- All units charged with POE oil and dry nitrogen
- BtuH capacity ratings are based on a 90°F ambient at listed evaporating temperatures

Outdoor Medium Temperature Scroll Condensing Units

COPELAND

- All units charged with POE oil and dry nitrogen
- BtuH capacity ratings are based on a 90°F ambient at listed evaporating temperatures
- Includes built-in sound reduction for areas with noise ordinances

R404A Low Temperature Scroll Compressors

- Charged with POE oil
- BtuH capacity ratings based on 125°F condensing temperature
- Smaller compressors also available in -961 Rotolock version

R22/R407C Copelaweld® Hermetic Compressors with POE Oil

COPELAND

- 1 through 5 ton models available
- Precharged with POE oil
- Use internal line break overloads for motor protection
- BtuH ratings are based on 45°F evaporating temperature, 130°F condensing temperature, 65°F return gas temperature and 95°F liquid temperature
- 7-1/2" x 7-1/2" square mounting
- Mounting hardware included

R410A Scroll Compressors

- 1-1/2 through 30 ton models
- Single-phase models are PSC type and utilize internal line break overloads for motor protection
- BtuH ratings are based on 45°F evaporating temperature, 130°F condensing temperature, 65°F return gas temperature and 95°F liquid temperature
- 7-1/2" x 7-1/2" square mounting
- Mounting hardware included
- BOM 800 features molded plug connection; molded plug not included
- **B15-358** molded plug purchased separately

Molded Plug for Copeland Compressors

Order #	Mfg. #	Description	For Use With	Each
B15-358	529-0060-04	Molded Plug	Select OEM Compressors	**129.00**

COPELAND

Comfort Alert™ Compressor Diagnostics

For Copeland Scroll Compressors

- Diagnostic module gathers and analyzes system data
- Allows technician to identify and solve problems faster
- Installs easily in electrical box
- Identifies root causes of malfunctions, including common electrical problems, compressor defects, and broad system faults
- Single-phase models listed below; three-phase commercial model available soon

Order #	Mfg. #	Description
B15-353	943-0012-00	Heat Pumps

©2024 Johnstone Supply, LLC

Hermetic Compressor Analyzer

- Connects directly to compressor motor; checks for continuity and ground faults in motor windings
- Frees locked rotors by reversing motor action
- Dual voltage operation, 120/240VAC
- 3 ranges of 250VAC starting capacitors, 88 to 301 MFD
- Direct measurement of resistance and voltage facilitated by VOM input jacks
- Convenient breakout jacks for measuring voltage and resistance

Order #	Mfg. #	Each
H24-355	HA1	**865.00**

R12 Medium and Low Temperature Compressors

- For low and medium temperature applications
- For R12 and interim blend applications
- Charged with alkylbenzene oil
- **B81-357** has start capacitor (high starting torque)
- **B81-263** is a direct replacement for Whirlpool compressors
- BtuH capacity ratings are based on the following low temperature conditions: 130°F condensing, 90°F return gas, 90°F ambient and 90°F liquid temperature at the expansion valve

Embraco R134A Compressors

- For low, medium and high temperature applications
- Charged with POE/ISO22 oil
- **B86-078** and **B86-079** have start capacitors (high starting torque)
- Direct replacement of OEM compressors in commercial refrigeration
- BtuH capacity ratings are based on the following low temperature conditions: 130°F condensing, 90°F return gas, 90°F ambient and 90°F liquid temperature at the expansion valve

Battery Driven Compressors

- For use with low and medium back pressure R134a systems
- Built-in battery protection module
- Ideal for boats, truck cab refrigerators, RVs and other compact mobile applications
- Variable speed
- Must purchase **B14-369** electronic unit control

Copeland	BR

Compressor Manufacturer	Compressor Model #
B11-845 Crankcase Heater For Use With:	
Aspera	J Series
Bristol / Sundstrand	H10, H20C, H21C & H22C
Tecumseh	AJ
Trane	D4340/7669
B11-846 Crankcase Heater For Use With:	
Bendix/Westinghouse	A
Bristol/Sundstrand	H10B, H20B, H21B & H22B
Copeland	RR & SR
Hitachi	305FH2-HE, 402FH2-HE & 505FH2-HE
Tecumseh	AB

Raychem

Crankcase Heaters

- Fits all hermetic compressors up to 5 HP and less than 40" circumference
- Reliable and long-lasting
- Regulates its own heat output
- Will not overheat oil and can be overlapped
- Easy installation and low operating cost
- 120VAC and 240VAC

Order #	Mfg. #	Volts	Watts	Each
B12-546	CCH-1C	120	32 @ 50°F and 60 @ 0°F	**215.00**
B12-547	CCH-2C	240	32 @ 50°F and 60 @ 0°F	**215.00**

Compressor Overloads

- Protectors have a temperature actuated disc that opens and closes contacts
- Disc opens at a combination of the heat generated by the motor or compressor and the electrical heater

Solid State Snap-On Relays

Replaces Thousands of Models 1/12 HP Through 1/2 HP

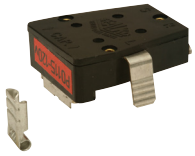
- Replace GE 3ARR2 and 3ARR12 series, Klixon #C6360, 9660 and 3CR series
- Mount with quick snap-on bracket or mounting screws
- Solid state means long life, no contacts to wear

Order #	Mfg. #	Volts	Each
B11-201	ICG1	120	**17.49**
B11-245	ICG-220	230	**19.99**

Solid State Push-On Relay

For 1/12 HP Through 1/3 HP Compressors

- Hundreds of different relays no longer must be matched for specific windings
- Solid state eliminates contact points



Order #	Mfg. #	Each
B11-255	PO115	**18.99**

Potential Relays

Universal Replacement

- Includes instructions, mounting brackets, spade adapters and screws
- Terminal connections are screw-type and can be converted to push-on

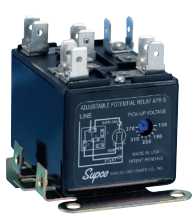
Adjustable Potential Relay

- Allows for the exact wire-by-wire replacement of virtually all potential relays with pick-up voltages from 130 to 370
- Replaces both 5-terminal and 3-terminal potential relays
- Recycles instantly
- Pick-up voltage can be preset to the voltage of the defective relay
- Built-in safety feature prevents the start winding from overloading during a locked rotor condition by removing it from the circuit



Order #	Mfg. #	Each
B12-402	APR-5	**69.00**

Direct Replacement Relays for Copeland

- Direct replacement relays for Copelaweld® hermetic air conditioning compressor applications
- Contact your local Johnstone Supply for complete specifications

Universal Potential Relay

- Wire-to-wire replacement for all potential motor starting relays for compressors rated at 110 to 270VAC, single-phase, up to 5 HP with any pick-up voltage
- Has adapters to convert screw-on to push-on terminals and installation instructions

Order #	Mfg. #	Each
B11-873	SUPR	**75.00**

Replacement for Potential Style Relays

- No user adjustments required
- Ideal for A/C, commercial refrigeration, heat pump, or any single-phase motor application up to 10 HP
- Voltage rating: 110 to 270VAC, single-phase

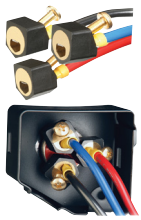
Order #	Mfg. #	HP	Volts	Replaces	For Use With	Each
L44-274	UMSR-50B-LF	10 max	110-277	All standard potential relays	Single Phase Motors	**85.00**

Compressor Leads

- Provides quick connect replacement for corroded or failed leads and as extensions for replacement compressors
- 12" length, 10 gauge wire, total of three leads per package
- Each lead has soldered flag end connector and heat activated butt end connector that provides an insulated, moisture sealed, strain relieved splice
- Suitable for use on 1 to 5 ton hermetic compressors

Order #	Mfg. #	Wire Gauge	Pkg. Qty.	Each
G32-387	CC33	10	3	**40.49**

QwikLug® Compressor Terminal Kits



- Attaches to damaged or corroded spade terminals
- Fits all standard compressor terminals
- Non-metallic connector — prevents short circuits
- Includes three connectors with lead wires
- Tightens from the front with a screwdriver
- Made in the U.S.A.

Order #	Mfg. #	Wire Gauge	Lead Length	Pkg. Qty.	Each
G32-265	QT2910	10	4' w/ Spade Terminal	3	**109.00**
G32-266	QT2912	12	4' w/ Spade Terminal	3	**99.00**

Ultimate Series Hard Starts

With Run Capacitor

- Universal, four-in-one combination relay, overload, start capacitor and run capacitor
- Provides additional boost to compressor
- Three sizes fit 1/12 to 1/2 HP refrigeration compressors
- Each includes a solid state run capacitor
- Completely pre-wired for quick and easy installation
- For use on systems with or without a run capacitor

Order #	Mfg. #	Volts	HP	Mfd	Each
B17-652	URCO810RC	115	For 1/12 to 1/5 HP	12.5	**47.99**
B17-651	URCO410RC	115	For 1/4 to 1/3 HP	15	**47.99**
B17-650	URCO210RC	115	For 1/3 to 1/2 HP	20	**55.00**

Ultimate Series Hard Starts

- Universal combination relay, overload and start capacitor
- Provides additional boost to compressor
- Three sizes fit 1/12 to 1/2 HP refrigeration compressors
- Completely pre-wired for quick and easy installation
- For use on systems with or without a run capacitor

Order #	Mfg. #	Volts	HP	Each
B17-140	URCO810	115	1/12, 1/10, 1/8, 1/16, 1/5	**39.99**
B17-141	URCO410	115	1/4, 1/3	**39.99**
B17-142	URCO210	115	1/2	**44.49**

3 Series High Torque Hard Starts

- 3-wire mechanical potential relay hard start
- For use on all 208/240V single-phase scroll and reciprocating compressors from 1 to 5 HP
- Can be used with single or dual run capacitors
- Instant re-start
- Energy saving, reduces start time by > 50%
- Includes EZ Snap Bracket for quick installation

Order #	Mfg. #	Volts	HP	Mfd	Each
B18-111	3W1	330	1–3	88-108	**65.00**
B18-112	3W2	330	3.5–4.5	189-227	**85.00**
B18-113	3W3	330	4–5	270-324	**105.00**

Ultra Series High Torque Hard Starts

- 2-wire mechanical potential relay hard start
- For use on all 208V/230V/265V single-phase reciprocating, scroll and rotary compressors from 1 to 5 HP
- Instant re-start
- Energy saving, reduces start time by > 50%
- Includes mounting cap

Order #	Mfg. #	Volts	HP	Mfd	Each
B18-110	MPR5	330	1–3	189-227	**99.00**
B18-109	MPR1	330	3.5–5	270-324	**115.00**

Solid State 3 N' 1 Relays

- Combination relay, overload and start capacitor
- Provides additional boost to compressor
- Three sizes fit 1/12 through 1/2 HP compressors on domestic and commercial refrigerators and freezers
- Completely pre-wired and installs quickly and easily

Order #	Mfg. #	Volts	HP	Each
B11-555	RCO810	115	1/12, 1/10, 1/8, 1/6, 1/5	**40.99**
B11-556	RCO410	115	1/4, 1/3	**39.49**
B13-542	RCO210	120	1/2	**40.99**

Super Start Relay

- Combination relay, overload and start capacitor
- For all motors including high starting torque motors 1/4 and 1/3 HP on domestic and commercial refrigerators and freezers
- Equipped with the latest electromechanical relay, locked rotor protector and 255 Mfd start capacitor
- Will increase its torque to its maximum capacity for motors not equipped with a capacitor, i.e. resistance start induction run

Order #	Mfg. #	Volts	HP	Each
B12-842	SS410	115	1/4, 1/3	**75.00**

Solid State Big Relay

- Combination relay and start capacitor
- One size fits 1/12 through 1/2 HP compressors
- Fits domestic and commercial refrigerators and freezers
- Pre-wired for fast, simple hook-up; 115V

Order #	Mfg. #	Each
B11-557	URSC10	**41.99**

Solid State Pow-R-Pak Starter

For Hard Starting — Installs in Seconds

- Compact 1-1/4" D x 1/2" W starter for the capacitor on room air conditioning, residential and commercial units
- No need to remove A/C from window on most models
- Quickly installs on 120VAC and 230VAC units, 1/2 through 10 HP
- One model for all starting problems and tight compressors

Order #	Mfg. #	Each
B11-254	SPP	**22.99**

Starter Pow-R-Paks

A B

- Combination relay and start capacitor
- For any PSC A/C and CSIR units, from 4,000 to 120,000 BtuH
- Connect two wires to existing run capacitor for easy installation
- Gives additional starting torque to all single-phase 120/288 VAC units, from 4,000 to 120,000 BtuH (1/2 through 10 HP)
- **B11-365** and **B11-519** are UR recognized

Fig.	Order #	Mfg. #	Starting Torque	Each	10 Lot
A	**B11-365**	SPP5	Up to 300%	**19.49**	**17.99**
A	**B11-519**	SPP6	Up to 500%	**25.49**	**23.99**
B	**B12-003**	SPP7S	Up to 600%	**55.00**	**53.00**

E Class Hard Starts

- Electronic potential relay and start capacitor for use on PSC technology or CSIR units
- Backup electronic timing circuit to protect the compressor
- Voltage sensing, instant restart
- Easy 2-wire connection

Order #	Mfg. #	Volts	HP	Mfd	Each
B13-543	SPP6E	90–277V	1/2–3	88-106	**85.00**

B11-881	SPP8E	90–277V	1–5	189-227	**115.00**

Ultra Series Hard Starts

- Mechanical potential relay
- Easy 2-wire installation
- NATE® recognized (Course #1867-0002)
- Voltage sensing and instant re-start
- Can be used on PSC and CSIR type compressors
- UL® recognized
- Without mounting clamp

Kickstart Hard Starts

- Two-wire hard start device using potential relay with start capacitor
- No PTCR devices or time delays
- Works on 208-265V PSC and CSIR air conditioning, heat pump, and refrigeration compressors; 1-5 HP reciprocating, scroll and rotary
- Restarts Instantly™
- Approved by major compressor and equipment manufacturers
- Two-year warranty
- **B11-947** fits Maneurop models MT18JA-1, MTE18JA-1 and MTZ18JA-1

RECTORSEAL Kickstart®

Order #	Mfg. #	HP	Mfd	Each
B11-947	TO-5	1 - 3	189-227 (Max-Torque)	**145.00**

B12-855	KS1	3.5 - 5	270-324 (Max-Torque)	**175.00**

5-2-1 Compressor Saver™

- Prewired potential relay and start capacitor
- Reduces time compressor is on high amp start-up, which helps prevent the dimming effect of household lighting
- Three color coded wires to connect for ease of installation
- Instant re-start
- For use on reciprocating and scroll compressors
- Two-year over-the-counter warranty exchange

5-2-1 COMPRESSOR SAVER

Sound Blankets

Universal Fit

- Two part design allows for varying heights and girths
- Minimum 5 dB noise reduction — a 40%+ decrease in noise
- Allows air conditioners to comply with local noise regulations

BRINMAR

Order #	Mfg. #	Description	Size (W x H)	Each
X81-410	0421AC	Fits up to 48,000 BTUs	10" x 19"	**115.00**

ESP ENERGY SAVING PRODUCTS

Rhino Tank and Compressor Tote

- Allows technician to easily pick up and move hermetic compressors and nitrogen/CO2 cylinders
- Comfortable grip balances the compressor or cylinder, avoids accidental dropping and bruised knuckles
- Great for warehouse personnel

Order #	Mfg. #	Each
B83-416	RH-10	**75.00**

DIVERSITECH

Compressor Tote

- Pick a compressor from its box
- Carry a compressor up a ladder
- Electroplated
- Strong steel construction
- Recommended for use with all compressors up to 5 tons
- Will even handle new high efficiency compressors

Order #	Mfg. #	Each
B81-337	ACT-6	**135.00**

Sypco®

TugBoat Compressor Tote

- Designed for easy transport of HVACR compressors
- Adjustable for either a one or two-person carry
- Heavy-duty steel construction
- Adjustable bike-style grips
- Quickly breaks down for easy storage

Discus Valve Plates		
B21-347	998-1661-27	Copeland Valve Plate (4D/6RD Std)
B21-348	998-1661-28	Copeland Valve Plate (4D/6D Unloader)
B21-349	998-1661-29	Copeland Valve Plate (2D)
B21-350	998-1661-30	Copeland Valve Plate (3D STD)
B21-351	998-1661-56	Copeland Valve Plate (3D STD) Moduload
B21-352	998-2661-27	Copeland Valve Plate(4D/6D STD Delta Reed)
B21-353	998-2661-28	Copeland Valve Plate(4D/6D Unloader Delta Reed)
B21-354	PLT-1633	Copeland Valve Plate (3D Delta Reed)
B21-355	998-2661-56	Copeland Valve Plate (3D Delta Reed Moduload)
Crankcase Heaters		
B21-356	HTR-1500	Copeland Well Type 2D/3D/4D/6D-30/35 Series 115 Volt
B21-357	HTR-1501	Copeland Well Type 2D/3D/4D/6D-30/35 Series 230 Volt
B21-295	06EA660-165	Carrier 06E Crankcase Heater
B21-359	20-4D-HTRSL	Copeland Heater Well Sleeve - 4D/6D/8D
B21-360	20-3D-HTRSL	Copeland Heater Well Sleeve - 2D/3D
Gasket Kits		
B21-361	998-0669-11/12/14	Copeland K Series Gasket Kit
B21-362	998-0669-30 / 31	Copeland E Series Gasket Kit
B21-363	998-0669-16 / 18 / 19	Copeland L Series Gasket Kit
B21-364	998-0669-23	Copeland MR Series Gasket Kit
B21-365	998-0669-37	Copeland 9R Series Gasket Kit
B21-366	998-0669-54	Copeland 4R/6R Series Gasket Kit
B21-367	998-0669-57	Copeland 4D/6Dseries Gasket Kit
B21-368	KIT-1539	Copeland 4DJ/6DJ Series Gasket Kit
B21-369	998-0669-06	Copeland 2D/Allseries Gasket Kit
B21-370	998-1669-04	Copeland 3D Series Gasket Kit
Terminal Kits		
B21-371	KIT-1570	Copeland K Series Gasket Terminal Kit
B21-372	KIT-1577	Copeland 3D Terminal Repair Kit Complete W/Block
B21-373	KIT-1598	Copeland 4R/6R/8R/4D/6D/8D Terminal Kit Complete W/Block (9 Lead)
B21-374	KIT-1597	Copeland 4R/6R/8R/4D/6D/8D Terminal Kit Complete W/Block (6 Lead)
Control Module & Oil Pumps		
B21-375	998-0008-33	Copeland Centronic Oil Pump All Series
B21-376	998-0524-00	Copeland 4R/6R/4D/6D Dual Voltage Control Module
Sight Glass Kits		
B21-377	998-0002-02	Copeland MR/9R/4R/6R Site Glass Replacement Glass
B21-378	998-0002-04	Copeland KA/EA/LA Site Glass Repair Kit
Unloader Assemblies		
B21-379	VAL-1500	Copeland Unloader Stem Only
B21-380	998-0212-02	Copeland Unloader Stem & Coil 115 Volt
B21-306	998-0212-03	Copeland Unloader Stem & Coil 230 Volt
B21-307	AMC-115	Copeland Unloader Coil Only 120 Volt
B21-383	AMC-208/230	Copeland Unloader Coil Only 230 Volt

Finny's Gasket Book

- Contains 36 of the most commonly used gaskets in the HVAC/R industry and one blank for field fabrication
- For use in most compressor suction/ discharge valve, expansion, solenoid and pump valve applications
- Klingersil 1/16" and 1/32" material replaces old gaskets on Copeland, Carrier, Tecumseh and Bitzer compressors and valves made by Superior, Mueller, Henry, Primore, Sporlan, Alco and Bell & Gosset

A-1 COMPRESSOR
A DIVISION OF CARRIER COMPRESSORS, INC.

Carrier Semi-Hermetic Compressors

Remanufactured by A-1 Compressor

- 7-1/2 through 30 HP
- R22 medium and high temperature
- All compressors are run tested
- All units are remanufactured, not just rebuilt — all used compressors are disassembled, and any broken or damaged components are discarded
- **B92-379** through **B92-382** and **B92-891** through **B92-894** available with or without unloading

Note: Used compressor body must be exchanged at time of purchase, otherwise there will be an additional core charge.

Order #	Mfg. #	HP	Volts	Phase	Suction Conn.	Discharge Conn.	Wt. Lbs.

Why Did The Compressor Fail?

Compressors typically fail because of a system problem or other failed component. It is imperative that the problem be diagnosed and corrective measures put in place or the replacement compressor will also fail. Field examination of a failed semi-hermetic compressor will usually reveal the cause of failure and will point to the system problem.

Inspection Shows	Cause	Remedy
Worn pistons and cylinders with no evidence of overheating (air cooled compressors). Center and rear bearings worn or seized, dragging rotor/shorted stator, progressively scored crankshaft, worn or broken rods (suction cooled compressors).	Refrigerant Floodback	Correct a low load condition; check for proper superheat at the compressor; install an accumulator to protect the compressor against uncontrollable liquid return.
Worn or scored rods/bearings. Broken rods from seizure. Crankshaft worn erratically.	Flooded Starts	Check crankcase heater operation; install pumpdown solenoid.
Broken rods, reed valves or crankshaft, loose or broken valve backer bolts, blown head gasket.	Liquid and/or Oil Slugging	Check for proper superheat at the compressor; correct a low load condition; install an accumulator; install pump-down solenoid.
Discolored valve plate, burned valve reeds, worn pistons, rings and cylinders, stator spot burn from metal debris.	High Discharge Temperature	Correct a low load condition; correct any high discharge pressure conditions; insulate suction lines; provide correct compressor cooling.
All rods and bearings worn or scored, crankshaft uniformly scored, rods broken from seizure, little or no oil in crankcase.	Loss of Oil	Check oil failure switch operation; check refrigerant charge; correct low load conditions/short cycling; check pipe sizing and/or oil traps; check for inadequate defrosts.
All windings are uniformly burned.	General Burn	Check for proper voltage; check for unbalanced voltage; check for inadequate motor cooling.
Two phases of a three phase motor overheated or burned.	Single Phase Burn	Check for proper and operational motor protection, replace contactor.
Only the start winding of a single phase motor is uniformly overheated or burned.	Start Winding Burn	Check for proper wiring; check start capacitor and/or start relay; check for compressor overloading.
A localized burn within a winding, between windings, or from windings to ground.	Spot Burn	If not caused by mechanical problems, check for spikes or surges of high current flow.
Breakdown of insulation between terminals and compressor body.	Shorted Terminals	Check for over torquing of terminals.

Copeland Semi-Hermetic Compressors

Remanufactured by A-1 Compressor

- Meets or exceeds industry standards
- All used compressors are completely disassembled, and any broken or damaged components are discarded and run tested
- Shipped with POE oil on models with "E" in model number after HP rating and alkylbenzene oil for all other; all models can be special ordered with POE oil
- Available only at participating Johnstone Supply stores
- Other units by Copeland, Carrier, Trane, Dunham-Bush and more are available by special order at participating stores

Note: Used compressor body must be exchanged with purchase, otherwise there will be an additional core charge.

Condensing Unit Enclosures

- Professionally designed for easy assembly and service
- Cut-out provided for installation of refrigeration lines
- Knock-outs on two sides of enclosure to allow for different electrical connection orientation
- A 4-3/4" base height allows for good air flow in and around unit

Outdoor Medium Temperature Scroll Condensing Units

- Includes microchannel condenser coil
- Flooded head pressure control valve
- Liquid and Suction line service valves
- Copeland Scroll Compressor
- BtuH capacity ratings below are based on 95°F ambient and listed evaporator conditions

Order #	Mfg. #	Refrigerant	HP	Volts	Phase	BtuH Capacity @ -10°F Evap.	BtuH Capacity @ 0°F Evap.	BtuH Capacity @ 10°F Evap.	BtuH Capacity @ 20°F Evap.	BtuH Capacity @ 25°F Evap.	BtuH Capacity @ 30°F Evap.	BtuH Capacity @ 40°F Evap.

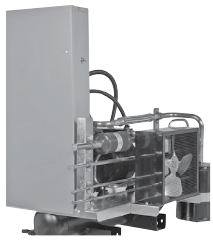
Johnstone Supply is a full-line Climate Control Distributor. The items featured below, along with a wide range of additional products, are available at participating Johnstone Supply stores.

Air-Cooled Condensers

Fluid Coolers



Indoor Remote Compressor Units

Indoor Semi-Hermetic Water-Cooled Condensing Units

CDD Outdoor Dual Discus Condensing Units from 300,000 to 800,000 BtuH

Warehouse Unit Coolers

Heatcraft OEM parts are available for Bohn, Larkin, Chandler and Climate Control equipment.

Mini-Split Selector
Quick • Accurate • Easy

Quick
Real-time pricing and availability

Accurate
Single-zone or multi-zone system matches

Easy
Effortless indoor style selection and identification

KR PRODUCTS

Water Chiller Refrigeration Units

- Fully assembled and factory charged
- Service water/glycol temperature range: +28°F to +120°F
- Small footprint; compact size; stainless steel plate heat exchanger
- Dual pump system and multi-zone capable
- Corrosion resistant GU-90 galvanized steel cabinet
- Digital temperature control with low ambient protection
- Includes flow switch, high/low pressure control and time delay
- Packaged chillers available with factory installed tank and recirculation pump
- Available up to 20 ton; 12 ton and up by special order

amcot

Fiberglass Cooling Towers

- Rugged, non-rusting fiberglass construction
- Aerodynamically designed propeller type fan blades used to conserve power and assure quiet operation
- Circular design permits maximum air intake regardless of wind direction
- Honeycomb heat embossed PVC fill material
- Lightweight and compact
- Larger models available upon request
- Nominal tons and nominal water flow are rated at hot water temperature of 95°F, cold water temperature of 85°F and wet bulb at 78°F
- Call Amcot to verify capacities at other temperature ratings

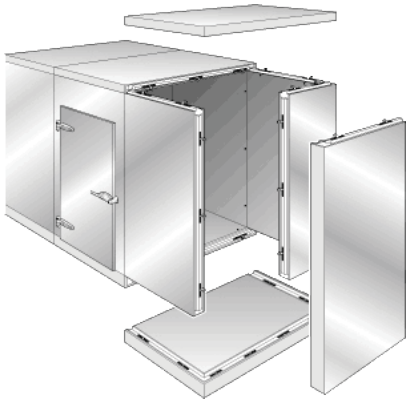
Complete Walk-Ins: Custom Sizes at Standard Prices

- Walk-in coolers & freezers
- Nominal sizes basic walk-ins
- Custom, space-maximizing designs
- High quality foamed in-place construction
- Variety of finishes & colors
- Indoor & outdoor applications
- Regional facilities for best shipping speed & cost



Framed Floors

- New installs or OEM Replacement
- For added strength against wear & sag
- Lift truck, pallet jack, hand truck loads

Replacement Swing & Sliding Doors

- OEM Replacement or New Install in solid panel
- Powered or Manual (Sliding Doors)
- Custom sizes, up to 12x12 feet on Sliding Doors
  - larger available on request
- Added-strength frames available
- Easy installation & on-site adjustments
- Easily replaced heater cable & gasket
- Heavy-duty, self-closing hinges
- Choice of locking or no-lock latches
- Safety latches in multiple styles
- Heater cable, windows, & other styles available

ArticTemp
WALK-IN COOLERS & FREEZERS

Strip Curtain

KASON

- Each Strip is 6" wide, 0.06" thick
- 50% overlap
- Strips equipped with Kason cleats, which slide into the easimount
- Flush wall mount, with 1" overlap on either side for standard 36" door openings
- Curtain strips rated for medium and low temp applications

Order #	Mfg. #	Description	Each
G80-937	75-0093	Strip Curtain 38" x 84" Kit Rated for Low Temperature (With Brackets and Strips)	**369.00**
G37-326	75-0094	Replacement Strip 84" for G80-937	**65.00**

Incandescent Vaportight Fixtures

TEDDICO ELECTRICAL PRODUCTS | BWF

- For use in severe service areas where extreme conditions prevail
- Vapor proof construction is designed to protect interior of fixture from deteriorating effects of sleet, ice, corrosive fumes, non-explosive vapors and other harmful factors
- Fabricated of rugged cast aluminum and zinc
- Fully enclosed and gasketed
- **G32-183** has cast guard for protection against breakage in high traffic areas

Tips For Quick Selection Guide

Walk-in Cooler Box Load Parameters

- 95°F ambient air temperature surrounding box
- 4" Styrene (R = 16.7, K = .24) walls/ceiling, 6" concrete slab floor
- Average product load with 5°F pulldown in 24 hrs
- BtuH load based on 16 to 18 hour compressor run time for 35°F box (timer recommended) + 20 hours for 30°F box
- See Table C for glass door load adjustment
- For 80°F ambient temperature box deduct 12%
- For 4" urethane walls & ceiling, 6" concrete slab floor, deduct 12%
- For 10' ceiling height add 10%
- For additional BtuH load for product cooling, see Table A

Walk-in Freezer Box Load Parameters

- 95°F ambient air temperature surrounding box
- 4" urethane (R=25, K=0.16) walls, ceiling and floor
- Avg. box load with 10°F pulldown in 24 hrs
- BtuH load based on 18 hour compressor run time
- See Table C for adjustment to box load for glass doors
- For 80°F ambient temperature box deduct 12%
- For 20 hour compressor run time (light frost load) in lieu of 18 hour run time, deduct 11%
- For 10' ceiling height add 10%
- For additional BtuH load for product freezing, refer to Table D

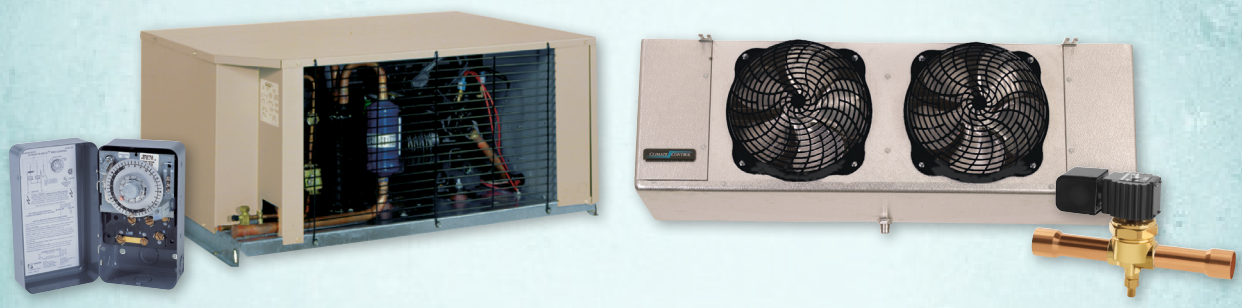
Poultry	0.79	0.42	106	27	878	2,636	6,590	8,787	13,181	26,360
Seafood	0.80	0.43	110	28	906	2,719	6,797	9,063	13,595	27,190
Vegetables	0.92	0.47	130	30	1,053	3,159	7,898	10,530	15,795	31,590
Bakery Food	0.74	0.34	53	20	520	1,560	3,900	5,200	7,800	15,600

Walk In With A Box Need, Walk Out With A Quote!

Turn to Johnstone for your box sizing needs



We're here to help you select the right equipment from our portfolio of trusted refrigeration brands and complete your project with essential components and accessories.

Or, ask us to verify your existing load calculation during a failure to prevent call-backs.

CLIMATE CONTROL

Twin Flow Unit Coolers

- Compact two-way design with medium velocity air flow
- Mounts flush to the ceiling and draws air in through the fan and discharges out both sides
- Air pattern reduces air loss when doors are opened and the medium velocity reduces product drying
- Textured aluminum cabinet
- All TXV connections are sweat
- Molded Lexan® fan guards
- Drain pan and fan panel is easily removed for installation and servicing
- Corrosion-resistant coated coil available
- Shaded pole motor
- 115V standard; optional 230V units available

Reach-In Unit Coolers

A

B

- Compact — does a big job in a small space
- Knock-outs in sides and top, plus openings
- Room for TXV inside, out of sight
- Drain fitting angled for installation flexibility
- Rear discharge assures good air distribution
- Attractive textured aluminum cabinet — no paint to scratch
- TL series includes defrost termination and fan delay controls
- All TXV connections are sweat
- Shaded pole motor (EC motor optional)
- BtuH capacity ratings below are based on the listed temperature drop (T.D.) and +25°F SST for C, TA, and LTA, -10°F for TL and LTL

Mullion Unit Coolers

- Ideal for under-counter reach-in refrigerators
- Superior air circulation and temperature throughout the cabinet
- Corrosion resistant coil coating; textured aluminum cabinets
- Height includes adjustable air deflector
- New sweat inlet connections standard; 5/8" O.D. drain
- Shaded pole motor (EC motor optional)
- 115V standard; available in 230V units

Back Bar Unit Coolers

- Ideal for undercounter reach-in or drawer-type fixtures
- Air enters bottom and discharges at the top
- Adjustable air deflector provides different air patterns
- Fan blades and guards are molded from corrosion-proof Lexan®
- Textured aluminum cabinet
- All TXV connections are sweat
- Connections: 1/2" O.D. inlet; 3/8" O.D. suction; 1/2" O.D. drain
- Shaded pole motor
- Options: master unit, slave unit, EC motor, 230V units available

Dual Air Unit Coolers

- Small, compact unit that can be mounted on the ceiling or wall
- Draws air through the front and discharges it out both sides
- Textured aluminum cabinet
- Shaded pole motor
- Detachable drain pan that is easy to clean
- 115V standard; optional 230V units available
- Connections: inlet 1/2" FN; suction 3/8" I.D.; drain 1/2" O.D.

Condensate Drain Pans

For Commercial Refrigerators and Vending Machines

- Cast aluminum pan supplied with legs
- Element cast into pan for safety
- **H24-882** has self-regulating thermostat; UL recognized
- Can be wall mounted or slide mounted for drawer-type applications
- Cannot short-circuit, nothing to clean
- Conforms with NSF standards to eliminate floor drains
- 120V, supplied with UL approved 20" long cord line, or can be wired direct

CLIMATE CONTROL

Low Profile Unit Coolers

- Application Capacity is capacity associated with a nominal 10°F TD, 25°F/-20°F SST application condition for R404A
- Built-up evaporator configurations also available
- 2-Speed EC motors standard on Air Defrost models
- Single Speed EC motors standard on Electric Defrost & Hot Gas Defrost models
- Hinged Removeable Access Panels allow for easy access to both refrigeration and electrical end of Low Profile units
- Quick-removal fan guard/motor assembly for easier servicing of air mover parts
- Sweat connections to reduce potential for leaks
- Liquid line solenoid wire harness is factory installed for quick installation
- Hot Gas defrost models also available

Low Profile Climate Control R448A Built-Up Evaporators

- Application Capacity is capacity associated with a nominal 10°F TD, 25°F/-20°F SST application condition for R448A
- 2-Speed EC motors standard on Air Defrost models
- Single Speed EC motors standard on Electric Defrost & Hot Gas Defrost models
- Hinged Removeable Access Panels allow for easy access to both refrigeration and electrical end of Low Profile units
- Quick-removal fan guard/motor assembly for easier servicing of air mover parts
- Sweat connections to reduce potential for leaks
- Hot Gas defrost models also available

InterLINK Commercial Refrigeration Parts

Electronically Commutated Motors

- Quick and easy solution for reducing costs and environmental impact without having to replace entire system
- Replacement motors lower operational costs through 50% increase in efficiency — or more — over shaded pole and PSC motors
- Easy-to-install as drop-in replacement; also available as an option on new Bohn, Larkin, Climate Control, and Chandler equipment

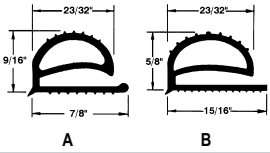
Sypco®

Universal Gasket Material

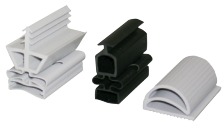


- Special cross sections designed as general replacement for most common commercial and domestic door gaskets
- Made of superior virgin vinyl material
- These large coils of gasket material offer increased shop savings

Fig.	Order #	Mfg. #	Length	Color	Each
A	**B80-912**	5451-50	50'	Gray	**219.00**
B	**B80-918**	6662-50	50'	Gray	**255.00**

GASKETS UNLIMITED

Custom Refrigeration Door Gaskets



- Custom made to your specifications
- Machine welded corners
- Over 50 profiles to choose from
- Matching OEM warranty
- Order by Model/Serial # or custom build
- Free Sample Rings upon request
- Guaranteed Fit
- To size a gasket measure the existing outside edge to outside edge (to 1/8"), pick the profile that most resembles your existing gasket, and use the sizing table below to determine your part number

Note: When ordering, please specify part number, gasket profile number and gasket dimensions.

Order #	Mfg. #	Description	Height	Length	Size	Color

Ice-O-Matic

Storage Bins and Adapter

- Insulated on all sides and bottom with foamed-in-place polyurethane
- Non-corrosive bin liner and molded plastic door
- Stainless steel exterior, except **B93-078**, which has polyethylene molded exterior and interior
- Dependable storage for either cube or flaked ice
- Bin drains located at the bottom/center of cabinet
- **B93-084** is for combining wider bins with smaller ICE Series™ ice cube makers
- Storage capacity: 242 to 854 lbs.

Note: Modular system of cuber and bin sold separately.

Valve and Reservoir Assemblies

For Ice Machines

- Direct replacement valve and reservoir assemblies used for Scotsman and Ice-O-Matic® ice machines
- Meets or exceeds NSF requirements
- All plastic materials are FDA approved
- Stainless steel float arm
- Size: 5" L x 4-1/2" H x 2-1/2" W
- Flow capacity of 0.426 GPM at 50 PSI

Universal Ice Machine Pump

Designed to Meet Manufacturer's Specifications on Most Ice Machines

- Base, impellers and discharge adapters molded from NSF approved thermoplastic
- 1/25 HP motor with upper and lower sealed ball bearings
- 115/230V, 4 lead wires — 3' in length
- Discharge adapters for 1/2", 5/8", 3/4" and 1" ID tubing
- Y-adapter included for 5/8" ID tubing

Order #	Mfg. #	Each
B82-642	545600	**325.00**

Commercial Ice Machine Water Valves S-55 Series

- Direct acting solenoid valves provide high flow at low head pressure
- Encapsulated coil provides high mechanical and dielectric strength, and is moisture resistant
- Bodies are made of polypro to withstand a variety of harsh water conditions
- Suitable for applications using water at temperatures up to 160°F (71°C)

Order #	Mfg. #	Replaces	Coil Voltage	Each
B19-098	IMV-1402	Scotsman 11051402 FN#K-55017-11	120	**185.00**

Commercial Ice Machine Water Valves S-53 Series

- Pilot-operated diaphragm provides high flow capacity with minimum power requirements
- Unique diaphragm design reduces unwanted particles from entering the armature area
- Armature is designed with clearances which minimize the possibility of jamming due to foreign materials
- Bodies are made of polypro to withstand a variety of harsh water conditions
- Suitable for applications using water at temperatures up to 160°F (71°C)

Robertshaw

Commercial Ice Machine Water Valves S-30 Series

- Single solenoid valve with a pilot-operated diaphragm provides high flow capacity with minimum power requirements
- Encapsulated coil provides high mechanical and dielectric strength, and is moisture resistant
- Unique diaphragm design reduces unwanted particles from entering the armature area
- Armature is designed with clearances which minimize the possibility of jamming due to foreign materials
- Bodies are made of polypro which provides high resistance to corrosion and mineral deposits suitable for applications using water at temperatures up to 160°F (71°C)

WATTS®

Lead Free Water Pressure Regulators

- Use where space and cost limitations are important
- Used for drinking fountains, bubblers, water coolers, humidifiers, beer pumps, beverage dispensers, and paint spraying equipment
- For water or No. 2 fuel oil
- Forged brass body
- Initial pressures up to 300 PSI
- Female inlet and outlet connections
- Maximum temperature: 140°F
- Dimensions: 4-3/8" H x 2-1/8" L
- Weight: 1 lb.
- The wetted surface of this product contacted by consumable water contains less than 0.25% of lead by weight

Order #	Mfg. #	Model #	Conn. Size	Outlet Pressure Range PSI	Outlet Pressure Preset PSI
2-Way Configuration

Supco®

In-Line Water Filters

Carbon and Carbon/Polyphosphate Types

- For domestic refrigerators with ice makers and/or water dispensers, coffee machines, vending machines, ice machines requiring up to one gallon maximum flow
- **R53-881** and **R53-882** have phosphate to reduce hard water deposits in hot water applications
- Constructed of all FDA approved or NSF listed materials
- Filter particulates as small as 20 microns in size
- Effectively remove or reduce chlorine; rust; dirt; sand; sediment; bad taste; odor; and organic substances
- Two 1/4" compression outlet fittings
- Maximum operating conditions: 125 PSI; 100°F

Order #	Mfg. #	Gallon Capacity	Filter Media Carbon	Filter Media Phosphate	Type	Size	Each
R53-590	RT61000C	1,000	8.25 Cu. In.	—	Carbon	2" x 6"	**43.49**

Replacement Cartridges by BevGuard®

- Plastic housing
- NSF Certified
- Economical alternative to expensive filter substitutes
- Up to 3x's the life of competitive filters
- NO Activation required
- Carbon Block Technology offers up to 25% greater flow rates (Except BGC-2100, BGC-3100S)
- BGE-1200S, BGE-3200, BGE3200S have metal housing

In-Line Water Filters

Nu-Calgon

- For ice machines and other commercial water applications
- Removes silt, sediment, objectionable tastes and odor
- 6R Micromet® for scale control, activated carbon for taste and odor removal, and sediment removal down to 20 microns
- Micro-Plus 4 and 8 for scale and taste/odor
- Micro-Plus Carbon for taste/odor
- Comes with 1/4" FPT connections, allowing use of flare or compression fittings or Quick-Disconnect plugs

Water Filter Cartridges

- For use with NP48DD housing shown below
- Perfect way to treat "problem specific" larger systems economically
- 6R Micromet® for scale control, activated carbon for taste and odor removal and sediment removal down to 20 microns
- All series "48" cartridge "Daily Volume" ratings are based on a six month life; higher than listed volume ratings can be handled, but at a reduced life expectancy
- **R54-676** is replacement cartridge for **R87-745** Everpure Prefilter

Cuno® Replacement Water Filters

- Equal replacements for Cuno Series 8000 filter cartridges in food service and vending machine applications
- Carbon block filter in both cartridges polishes water for high quality beverages and ice, reduces chlorine tastes and odor, and other offensive contaminants
- Also reduce extra fine dirt as small as 5 microns
- **R87-760** also provides scale formation reduction
- 10,000 gallon capacity
- 1.5 GPM flow

Water Filter Assemblies and Replacement Filters

Ice-O-Matic

Extends Warranty on New ICE-O-Matic® Cube Ice Makers Filters

- Purchase ICE-O-Matic water filter with new ICE-O-Matic Cube ICEMaker, replace the water filter every 6-months, and the evaporator is covered for 7-years — parts and labor
- 1 Micron filter — removes sediment, scale and chlorine
- Cartridge is NSF listed under ANSI/ NSF Standard 042-Aesthetic Effects, Taste, and Odor Reduction — Chlorine Reduction, Class II
- IFQ manifold includes filter cartridge with FDA approved scale inhibitor, inlet shut-off valve and quick-connect fittings

Suction Accumulators

- Specifically designed for heat pumps
- Solid copper connections
- "U" tube design for maximum flow of refrigerant and minimum oil entrapment
- Powder paint exterior coating surpasses 500 hour ASTM salt spray tests
- Integral 430°F fusible plugs
- Capacity rating listed below is holding capacity, in ounces, of R22 at 40°F; divide by 0.7 to obtain recommended maximum system charge on fixed orifice systems

Suction Accumulators

Vertical Mount

- Acts as temporary holding vessel between evaporator outlet and compressor inlet
- Traps liquid charge and allows it to be evaporated and fed to compressor at a controlled rate
- Internal U-tube includes an orifice which ensures proper metering of oil back to compressor
- Welded and brazed design for higher strength
- Nickel plated connections
- Screened orifice for proper oil return
- Powder paint finish
- UL fusable plug rated to 430°F

Oil Level Regulator

- Float regulator to control oil level in compressor crankcase
- Attach directly to sight glass housing on compressor crankcase
- 450 PSIG maximum working pressure
- Universal mounting flange
- Powder paint finish

Order #	Mfg. #	Description
B12-545	45-002	3-Bolt Replacement Sight Glass

Oil Reservoirs

- Holding vessel for stand-by oil necessary for an oil control system
- 100 PSI maximum working pressure
- Complete with 3/8" SAE inlet (top) and outlet (bottom) rotalock valves
- Additional 3/8" SAE connection off top of vessel for a vent line to suction line
- UL approved

Order #	Mfg. #	Height	Diam.	Sight Glass	Conn. Size	Capacity
B81-566	OR6-2	15.5"	6"	2	3/8" SAE x 3/8" SAE	2 Gallon
B92-623	OR6-4	33.5"	6"	3	3/8" SAE x 3/8" SAE	4 Gallons

Reservoir Pressure Valves

Order #	Mfg. #	Conn. Size	Pressure Setting
B12-543	VV-10	3/8" SAE M x F	5 lbs.
B12-544	VV-20	3/8" SAE M x F	—

Centrifugal Oil Separators

- Centrifugal oil separator feature a centrifugal flow path achieving approximately 99% efficiency of oil separation
- Low pressure drop throughout the entire range of velocities found in a refrigeration system
- 1/8" NPT oil drain fitting at bottom of separator
- UL approved
- Additional sizes available on request
- Ratings below are maximum capacity in tons at listed evaporator temperatures
- Automatic internal float valve oil return

Order #	Mfg. #	R12/R134a Capacity @ 40°F	R12/R134a Capacity @ -40°F	R22/R502 Capacity @ 40°F	R22/R502 Capacity @ -40°F	R404A/R507 Capacity @ 40°F	R404A/R507 Capacity @ -40°F	Oil Conn.	Conn. Size	Diam.	Height	Oil Charge Amount

Oil Level Controls And Adapters

- Regulates oil flow to compressor crankcase
- Maintains minimum oil level as specifed by compressor manufacturer
- Adjustable between 1/2 sightglass and 1/4 sightglass at 5 to 90 PSI differential
- **B17-522** has 3/8" SAE equalization connection for oil tranfer between a series of compressors
- Adapters contain adapter, bolts, nuts, O-ring and sightglass (except on AOL-R1) for various compressors (See Parker's literature for additional compressor models)

Order #	Mfg. #	Description	For Use With	Conn.	Each
B17-521	PL60CH	Oil Level Control	—	3 Bolt, 1-7/8" Bolt Center	**1099.00**
B17-522	PL60XH	Oil Level Control	—	3 Bolt, 1-7/8" Bolt Center	**1199.00**
B17-524	AOL-MA/TE	Compressor Mounting Adapter	Bitzer, Maneurop, Tecumseh	1-1/8" — 18 Thread	**385.00**

Oil Differential Check Valves

- Maintains oil pressure at a preset level above suction pressure
- Pressure differential allows oil flow to the level control
- Installed in 3/8" SAE connection on top of oil reservoir

Order #	Mfg. #	Diff. PSIG	Each
B17-467	PCV-5	5	**199.00**
B17-468	PCV-10	10	**205.00**

B17-470	PCV-30	30	**199.00**

Oil Filters

A

B

- 99% removal of 3 micron sized particles; 98% of 2 micron
- Element uses pleated design for maximum surface area
- High flow capacities with low pressure drop
- Inert microglass filter ensures lubricant compatibility
- Available as sealed filter or shell type with replaceable filter element
- **B17-471** has 3/8" connections

Fig.	Order #	Mfg. #	Description	Each
A	**B17-471**	PF303-T	Oil Filter Sealed Type	**609.00**
B	**B17-472**	POF413T	Oil Filter Shell - Filter Not Included	**659.00**
—	**B17-473**	PFE-1	Filter Element with Gasket	**365.00**

AOFD Oil Filter-Drier

- Designed specifically for systems using POE oil
- Operates at very low pressure drop
- 10 micron filtration for optimum oil cleaning

Order #	Mfg. #	Description	Each
B13-933	AOFD-55-3	Oil Filter-Drier	**225.00**

Oil Separator Filter Replacement Kits

- Replacement filter kits include the appropriate hardware to service the filter element in coalescing oil separators

Low Pressure Coalescing Oil Separators

- Coalescent filter-separator, filters down to 0.3 microns
- Continually works at 99% separating efficiency regardless of oil velocity
- Maximum working pressure 450 PSIG
- Capacity ratings listed below are nominal; capacity

Order #	Mfg. #	Type	R12/R134a Capacity @ 40°F	R12/R134a Capacity @ -40°F	R22/R502 Capacity @ 40°F	R22/R502 Capacity @ -40°F	Oil Conn.	Conn. Size	Diam.	Height	Oil Charge Amount

Pressure Differential Indicator

- Indicates when a replacement filter is needed in oil separators
- Visual indicator gauge displays pressure difference at the filter
- For use with all Coalescent Oil Separators
- 60 watts, 24V AC/DC, 3 amp leads
- 1/4" inlet/outlet

Order #	Mfg. #	Each
B21-100	DP-01	**1145.00**

Impingement Oil Separators

- Traditional impingement-type oil separator, typically for low temperature systems
- Accessible to allow field repair or replacement of the impingement screen
- 450 PSIG maximum working pressure
- Many additional models available upon request
- Capacity ratings listed below are nominal capacity in tons at listed evaporator temperature

Coaxial Tube-in-Tube Water-Cooled Condensers

- Designed for use as water cooled condensers
- Standard sizes for 1/2 through 7 ton systems
- Simplicity of design and installation
- Includes mounting brackets
- Maximum working pressure of 500 PSIG water side; 600 PSIG refrigeration side
- **B86-966** thru **B86-969** left hand coil helical
- **B87-083** thru **B87-086** right hand coil helical
- **B86-970** thru **B86-972** right hand coil spiral
- Cupro-nickel and larger sizes available online

Shell and Tube Condensers

- Epoxy coated water plates and tube sheets to prevent pitting caused by galvanic action; heavy wall copper tube for long life
- Generous pumpdown capacities
- 450 PSI shell side (refrigerant) working pressure
- 150 PSI tube side (fluid) working pressure
- Use **B12-053** relief valve for condensers with 3/8" safety connection and **B12-057** relief valve for condensers with 1/2" safety connection
- Custom models available through 800 HP

CB Chiller Builder Kits

Chiller Barrel is Included

- If you need an easy to assemble a low side package that utilizes the smallest, most powerful, and efficient chiller then Standard Refrigeration's Chiller Builder Kit is what you're looking for
- Uses super compact TX chiller barrel
- Brand name components
- Single or dual circuit options
- Available in ranges from two to 30 tons
- Entire kit can be assembled in less than one hour
- Three and four circuit models; ideal for achieving up to 20 tons with single phase compressors
- Includes: framework, control power supplies, temperature controls, freezestat, low pressure switch, flow switch, expansion valve, sight glasses, solenoids and custom piping
- Available at participating Johnstone Supply locations

Water Regulating Valves

- Direct acting modulating water valves open on pressure increase
- Suitable for use on either closed or open systems
- Range spring does not come in contact with cooling water
- Easy manual flushing
- 30" capillary with 1/4" flare nut
- **B82-030** 1/4" male flare only
- 170°F maximum water temperature
- 150 PSIG maximum water pressure
- Cast iron valve body with special finish

V246 Series 2-Way Pressure-Actuated Water-Regulating Valves For High-Pressure Refrigerants

- Comes in two types of control action: direct acting or reverse acting
- Regulates water flow to control refrigerant head pressure in systems with water-cooled condensers
- Maximum allowable water pressure of 150 psi (10.3 bar)
- Adjustable opening point in a refrigerant pressure range of 200 to 400psi (13.8 to 27.6 bar)
- May be used with standard non-corrosive refrigerants

Note: This chart is average measurements for average conditions and may have to be "fine tuned" for exact replacement. Chart references single feed up to 2HP. Additional charts available for 2-6 feeds up to 5HP.

EMERSON Climate Technologies

UNIVERSAL PARTS

ACP Series Automatic Expansion Valves

- For small units where heat load is reasonably constant
- Ideal for room air conditioners, food dispensers, ice cream cabinets and freezers, and milk coolers
- Compact design adapts to any installation
- Can be used as small capacity hot gas bypass valve
- Fully adjustable from 0 to 80 PSIG

AFA Series Thermo® Expansion Valves

- Designed for air conditioning and commercial refrigeration applications requiring compact size
- Compact size with stable and accurate control over a wide load and temperature range
- Stainless steel power element for maximum corrosion resistance
- Replaceable inlet strainer
- R12 valves suitable for R134a; R502 valves suitable for R404A; R134a valve for applications where specific R134a change is required

EMERSON Climate Technologies

UNIVERSAL PARTS

HFK Modular Thermo® Expansion Valve Kits

- Features interchangeable bodies, cages and power elements
- Balanced port design
- **B82-031** service kit includes four valve bodies (**B13-475**, **B13-476**, **B13-479** and **B13-480**), six power elements (**B12-175**, **B12-176**, **B12-178**, **B12-180** and **B12-181**), a cage kit and carrying case
- **B14-004** cage kit includes two each of #0 through #7 cages, oil and a cage socket

HF Series Expansion Valves

Flare Type

- Balanced port design improves operation during varying loads
- Replaceable power assembly offers maximum flexibility
- External superheat adjustment; RC are medium temperature; RZ are low temperature; and RW are pressure limiting

Alternative Refrigerant Correction Factors

Present R12 and R502 expansion valves can be used with HCFC interim blends as well as HFC replacement refrigerants. The following chart shows the additional valve capacity available when using the new refrigerants in traditional expansion valves.

In some instances, valve capacity increases dramatically when using a new refrigerant. Exercise caution when selecting a valve; oversizing can lead to poor superheat control.

Note: It is very important that superheat be checked and adjusted accordingly.

Valve Type	New Refrig. Used	Correction Factor to Calculate Valve Capacity
R12 Med./High Temperature	R134a	1.25
R12 Med./High Temperature	R401A (MP-30)	1.31
R12 Med./High Temperature	R409A (FX-56)	1.28
R502 Med./Low Temperature	R404A	1.04

Valve Type	New Refrig. Used	Correction Factor to Calculate Valve Capacity
R502 Med./Low Temperature	R408A (FX-10)	1.12
R502 Med./Low Temperature	R402A (HP-80)	1.06
R502 Med./Low Temperature	R402B (HP-81)	1.13

T-Series Take-Apart Expansion Valves

- Includes valve cage and power assembly; connection flange sold separately

EMERSON Climate Technologies

NXT-Series R410A Expansion Valves

- Designed for air conditioning and heat pump applications
- Balanced port construction
- Compact size allows installation in limited spaces
- Precision superheat control optimized for R410A systems
- Stainless steel power element
- Externally equalized
- Screens on ODF inlet connections
- Operating range: -20°F to +50°F
- Maximum working pressure: 700 PSIG
- Heat pump versions have internal check valve

ADK Solid Core Liquid Line Filter-Driers

- Designed to protect refrigeration systems from liquid and solid contaminants
- Specially blended and molded block form desiccant gives exceptional moisture and acid removal, as well as excellent filtration
- Full flow fittings for low pressure drop
- Shock resistant steel shell construction
- Solid copper sweat and flare fittings
- Capacity ratings listed below are nominal system tonnage
- **B13-265** through **B13-280** are rated for 600 PSI maximum working pressure, good for R410A usage

EK Series Liquid Line Filter-Driers

- Filtration first, for more effective use of desiccant surface area
- Specially formulated desiccant blend for maximum removal of acid and moisture
- Process-controlled fiberglass network for premium filtration
- Compatible with CFC, HCFC and HFC refrigerants
- Capacity ratings listed below are nominal system tonnage
- **B12-251** through **B12-270** are rated for 600 PSI maximum working pressure, good for R410A usage

EMERSON Climate Technologies

UNIVERSAL PARTS

EK Series Contractor Filter-Driers

- Liquid line drier designed for contractors by contractors
- Quick and easy installation — extended solder connections eliminates need to add coupling or tubing
- Faster system diagnosis — Schraeder valves on inlet and outlet for maintenance and charging port
- Premium EK construction provides filtration down to 20 microns
- Compatible with all CFC, HCFC and HFC refrigerants
- Capacity ratings listed below are nominal system tonnage

Copper Spun Driers

- 100% molecular sieve
- Tubes can be easily cut, flared or bent for job adaptation
- Superior mesh screens provide added filtering capacity
- Capacity ratings listed below are nominal system tonnage
- CU-80 is non-directional
- CU-620 includes access valve

EMERSON Climate Technologies

ASD Series Suction Line Filter-Driers

- Highly efficient filter-drier for cleanup after a burnout, or after major work has been performed
- Specially formulated and blended desiccant for maximum removal of acid and moisture
- Filtration to less than 10 microns
- Full copper fittings — easy to sweat in
- Dual access valves make system diagnosis easier
- Rugged, durable steel shells
- Compatible with all CFC, HCFC and HFC refrigerants
- Capacity ratings listed below are nominal system tonnage

SFD Series Suction Line Filter-Driers

- Full copper fittings, easy to sweat in
- Dual access valves to check pressure drop
- Rugged steel shells for shock resistance
- Corrosion-resistant finish
- Low pressure drop, full flow fittings
- Safe working pressure to 400 PSIG
- Compatible with all CFC, HCFC and HFC refrigerants
- Capacities listed below are based on nominal system tonnage

Replaceable Suction Line Cores and Cartridges for "BTAS" Shells

- Filter cores provide filtration down to 10 microns
- Pleated filter affords maximum surface area for efficient gas flow
- Filter-drier cartridges incorporate a desiccant assembly to provide clean-up capability and system protection against water and acid
- Filtration first for a more effective use of the desiccant surface area
- Cores and cartridges can replace other brands of similar diameter filters used in single core suction shells, all filter cartridges and filter-drier cores contain a gasket

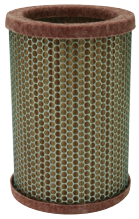
Replaceable Blocks and Cores For "STAS" and "ADKS" Shells

A



B

- Exceptional acid capacities for normal system protection, or for system cleanup after a compressor burnout
- **B12-306** through **B12-309** designed for use in Alco "STAS" and "ADKS" shells; will also replace competitive brand 48 cu. in. blocks and cores
- **B12-849**, **B12-850** and **B12-851** designed for use in Alco "ADKS" shells; will also replace competitive brand 100 cu. in. blocks and cores
- **B12-308** and **B12-851** have wax removal capabilities for low-temperature R22 and R502
- Filter core provides superior suction line compressor protection

EMERSON Climate Technologies

UNIVERSAL PARTS

High Capacity 75% Molecular Sieve Block

- Designed with the perfect balance of moisture and acid capacity to keep HFC/POE systems at optimum conditions
- Complies with Copeland's recommendation of a 75/25 mix of molecular sieve/activated alumina
- Perfect for new refrigerants, POE oils and retrofits
- Completely interchangeable with all competitive products
- Capacity ratings listed below are water capacity in drops of water at the listed evaporator temperature

Order #	Mfg. #	Description	Diam.	Length	Each
B12-452	UK-48	HFC/POE block	3.72"	5.50"	**75.00**

100RB Series Direct-Acting Solenoid Valves

- Direct-acting, normally closed valves
- Operates in any position; mount horizontally or vertically
- One coil fits all sizes; snap-on coil retainer eases installation and removal
- Maximum fluid temperature: 285°F
- Maximum operating pressure differential: 300 PSI
- Listed capacity ratings are suggested nominal tonnage
- All valves less coil

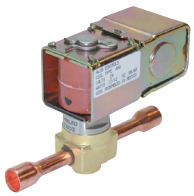
EMERSON Climate Technologies

UNIVERSAL PARTS



200RB Series Pilot-Operated Solenoid Valves

- Pilot-operated, normally closed valves; all valves less coil
- Snap-on coil retainer eases installation and removal
- 285°F maximum fluid temperature; 300 PSI MOPD
- T models include mounting bracket adapter, 1/4" port and larger convert to manual stem
- M models include manual stem
- Listed capacity ratings are suggested nominal tonnage
- **B13-788** through **B13-792** are biflow solenoids
- 200RD R410A approved solenoid available

200RD Series Pilot-Operated Solenoid Valves

- New 200RD series valves are R410A rated
- Pilot-operated, normally closed valves; all valves less coil
- Snap-on coil retainer eases installation and removal
- 250°F maximum fluid temperature; 550 PSI MOPD
- T models include mounting bracket adapter, 1/4" port and larger convert to manual stem
- M models include manual stem
- Listed capacity ratings are suggested nominal tonnage
- R12, R134a and R404A rated at 2 PSI; R22 and R410A rated at 3 PSI

Industrial Solenoid Valves

- Two-way, normally closed solenoid valves
- Snap-on coil retainer eases installation and removal
- Models ending in "B" have BUNA-N seat for up to 180°F
- Models ending in "T" have Teflon® seat for steam applications up to 400°F
- All valves less coil

540RA Solenoid Valves

- Two-way, normally open diaphragm valves
- For liquid, suction and hot gas service
- Can be brazed into line without disassembly
- Extended ends for easy installation
- Water, shock and vibration protection in coil winding
- Low pressure differential required for full opening
- All valves less coil
- Capacity ratings listed below are nominal system tonnage

Order #	Mfg. #	Port Size	Conn. Size	R12 Capacity	R22 Capacity	R404A Capacity	Each

Constant Pressure Expansion Valves

- Maintains minimum evaporator pressure under high load conditions
- Controls flood back by controlling overfeeding of the evaporator
- Automatically provides motor overload protection during system start-up
- For all refrigerants
- Capacity ratings listed below are nominal system tonnage

Note: The inlet connection of the **B12-512** (Fig. D) is on the bottom of the valve.

C and CE Series Expansion Valves

- C Series thermal expansion valves incorporate a brass body with SAE flare fittings using balanced port construction, allowing operation over varying load conditions
- Designed for use on small refrigeration systems, such as freezers, walk-in coolers, refrigerated cases, and air conditioning units
- Replaceable power element
- Field adjustable superheat

C -Series Interchangeable Expansion Valve Bodies

- Interchangeable bodies and thermostatic elements for maximum flexibility and inventory reduction
- Balanced port construction allows operation over varying load conditions
- Wide temperature and tonnage range
- Adjustable superheat and solid copper connections
- All models have replaceable inlet strainers
- R134A rating also applies to R12; R404A rating also applies to R502 and R507; R22 rating also applies to R410A, R407A and R422D
- Capacity ratings listed below are nominal system tonnage

Note: Valve bodies and elements sold separately. Purchase one of each to make a complete valve.

EC and ECE Series Expansion Valves

- EC Series thermal expansion valves incorporate a brass body with ODF sweat fittings using balanced port construction, allowing operation over varying load conditions
- Designed for use on refrigeration systems, such as freezers, walk-in coolers, refrigerated cases, and air conditioning units
- All models have replaceable power element
- Field adjustable superheat

Note: Wide range application temperature is +60°F to -10°F; low temp. application temperature is 0°F to -40°F.

Air Conditioning and Heat Pump TXV Kit

Refrigerants R22/R407C and R410A Applications

- 1-1/2 through 5 tons
- Adjustable superheat, built-in check valve, sweat connections and externally equalized
- See HAE series for replacement valves **B13-699**, **B17-092** and **B17-093**.
- Includes: two R22/R407 and two R410A valves and one each 1/2" and 5/8" ODF Aeroquip fittings, 1/2" and 5/8" ODF Chatleff fittings, and 1/2" ODF x 3/8" SAE fitting in a handy carrying case

Universal TEV Replacement Kit for Residential AC and Heat Pumps

- Replacement Kits come packaged with everything AC technicians need to complete the installation
- Replaces all major residential air conditioning OEM valves
- Single Pushrod Balanced Port construction works exceptionally well under wide load conditions
- Each valve comes with a 30" long capillary tube equalizer with flare nut
- Built-in check valve allows reverse flow on heat pump applications
- Easily adjustable Superheat setting
- Includes adaptors that fit the most common evaporator inlets, bulb strap and bulb insulation tape

Liquid Line Driers

Large Selection in Both Flare and Sweat Connections

- Driers have heavy gauge steel shell with all copper sweat and flare fittings
- Compatible with all existing and new refrigerants and blends, including R410A
- Models 052 thru 165S are UL listed to 3000 PSIG burst pressure
- All other models are UL listed 2500 PSIG burst
- Rated in accordance with ARI standard #710 for liquid line drier
- Capacity ratings listed below are nominal system tonnage

Sahara Series Air Conditioning Liquid Line Driers

- Excellent moisture protection in HVAC/R systems
- Use with HCFC, HFC, and HFO based refrigerant blends and MO, POE, and PVE lubricants
- 100% solid copper fittings for easy brazing
- UV protection from polyester powder paint 650 psi (45 bar) Maximum Rated Pressure
- 100% molecular sieve solid core to maximize water adsorption
- 500-hour salt spray per ASTM B117

Suction Line Filter-Driers

Designed to Allow Pressure Drop Measurement

- Special desiccant for high acid pick-up
- Offers maximum compressor protection
- Unparalleled for system cleanup
- Solid core is designed to withstand high-velocity refrigerant gas flow and provides more filter area
- Driers may be assorted for quantity price
- Capacity ratings listed below are capacity flow in tons

Magnetic UV Drier

- 100% XH-9 beaded desiccant and UV dye compatible with all refrigerants and oils
- Magnetic reduction filter reduces microscopic steel, iron, and stainless steel particles as the refrigerant flows through the system
- Hermetically sealed, directional flow drier with access valve
- 100% Spun copper shell and end tubes, pre-scored ends for easy break off
- 100 micron filter sieve
- Safe working pressure to 500 PSIG

Bullet Strainer

For Refrigeration and Air Conditioning

- Designed to meet highest standards for repairs or rebuilding programs
- Has over-sized screen area, made of 150 twill mesh monel
- 3/4" O.D., 2-3/4" length, 1/4" inlet, 0.098" outlet

Order #	Mfg. #	Each
B11-057	S210	**13.49**

Replacement Filter-Drier Shells

For R12, R22, R500, R502 and R134a Systems

- Range of models 7-1/2 to 85 tons
- Has necessary gaskets, screws and springs (and spacers on two-core models) to install filter-driers or cores
- 1/4" SAE pressure tap
- Full-flow heavy solid copper fittings 5/8" to 3-1/8"
- Cores may be loaded individually, easy installation in tight spots

Order #	Mfg. #	Conn. Size	Cores	R12/R134a Capacity Refrig.	R22 Capacity A/C	R22 Capacity Refrig.	R404A/R507 Capacity	Each

Replacement Cores for Liquid/Suction Line Filter-Drier Shells

- For use in either liquid or suction line applications
- Removes sludge, moisture, acid and varnishes
- Low pressure drop with maximum moisture and acid capacity

Order #	Mfg. #	Description	Diam.	Length	Each

Sightglass Filter-Driers

- Leak-proof sight glass for easy viewing combined with the filtration and moisture removal of a drier
- Less brazing required with combination drier and sight glass
- Capacity ratings listed below are nominal system tonnage

Order #	Mfg. #	Conn. Size	Cubic Inches	Length	R12/R134a Capacity	R22/R410A Capacity	R404A/R507 Capacity	Each

Sight Glass Moisture Indicators

- An extremely accurate moisture sensing unit
- An easy-viewing leak-proof liquid sight glass
- Simple color comparison
- Leak-proof sight glass
- Solid copper ends

R-Series Refrigeration Solenoid Valves

- PCK-1 Coil purchased separately
- Extended life-cycle tested for durability
- Compatible with all CFC, HCFC and HFC refrigerants, including R410A; rated at 600 PSI
- For use with a broad range of refrigeration, air conditioning and freezing applications
- Forged brass body with Rulon® thermoplastic seals
- Operating temperature range: -20°F to 250°F
- Cataloged valves are all normally-closed valves, normally-open valves available on special order
- Totally encapsulated watertight coils
- Extended end copper connections for easy installation
- Require P/MKC coils
- All valves less coil
- Capacity ratings listed below are nominal system tonnage

PKC/OPKC Solenoid Coils

- Complete coil assembly with junction box
- Use with various solenoid valve and other type control valves
- OPKC series for normally open solenoid valves and PKC normally closed
- Wide range of voltages

WE'RE THE EXPERTS YOU COUNT ON.

- Products you need, including hard to find speciality parts
- Technology to make your job easier
- Delivery options to get back on the road
- Training to keep you competitive

BETTER SERVICE & LOCAL SUPPORT WITH GLOBAL PARTNERS

THAT'S THE POWER OF JOHNSTONE

©2024 Johnstone Supply, LLC

3-Way Heat Reclaim Valves

- Pilot operated design shifts flow between normal condenser and heat reclaim condenser
- Allows reclamation of heat that would otherwise be discharged to the outdoor condenser
- "B" type eliminates the need for normally open solenoid valve on systems requiring reclaim condenser pump out
- Not for split condenser applications
- Can be installed in horizontal or vertical position
- Capacity listed in nominal tons at 2 PSI pressure drop, 0°F evaporator, 100°F condensing temperature isentropic compression plus 50°F, 25°F superheat suction gas

Note: Use with MKC coils (sold separately).

Order #	Mfg. #	Port Size	Conn. Size	R404A Capacity	Each

Solenoid Valve Operating Magnet

- Use to test, troubleshoot or manually activate solenoid and reversing valves
- Holds solenoid valve open during recovery and evacuation
- Temporarily replaces faulty coil to open solenoid valve
- Turns power on or replaces faulty solenoid
- Permanent magnet molded in ABS plastic fits all solenoid valves

Order #	Mfg. #	Each
B22-020	SM-18	**89.00**

CRO(T) Series Crankcase Pressure Regulators

- Protects compressor from overloading after defrost or off cycle
- Automatically throttles vapor flow until compressor can handle load
- All models respond to outlet pressure
- Prevents the suction pressure from rising above valve setting
- Installs in suction line between evaporator and compressor
- CROT regulator includes 1/4" SAE access fitting on inlet
- Rated capacity is nominal tons at 100°F condenser, 10°F superheat, 0°F subcooling and listed evaporator temperature and valve setting with 1/2 psi pressure drop

ORIT Evaporator Pressure Regulators

Direct Acting

- Automatically maintains desired minimum evaporator pressure
- Efficiently balances system capacity regardless of operating conditions
- Prevents evaporator pressures change as load changes
- All valves have pressure tap for easy adjustment
- Install in suction line between evaporator and compressor
- Short length sweat fittings
- See vendor literature for sizing capacity

SORIT Evaporator Pressure Regulators

Pilot Acting With Suction Stop

- Automatically maintains desired minimum evaporator pressure
- Efficiently balances system capacity regardless of operating conditions
- Prevents evaporator pressures change as load changes
- All valves have pressure tap for easy adjustment
- Install in suction line between evaporator and compressor
- High side pilot allows valve operation with less pressure drop
- Suction stop in pilot valve for hot gas defrost applications
- See vendor literature for sizing capacity

Note: Use with MKC coils (sold separately).

Head Pressure Controls

- 3-way non-adjustable head pressure control valve
- Limits the flow of refrigerant from the condenser to the receiver
- Maintains more consistent head pressure than fan cycling controls
- Install in liquid line between condenser and receiver
- LAC-4 capacity: 2.25 nominal ton capacity for R404a at 2 PSI pressure drop, 0°F evaporator, 110°F condenser and 10°F subcooling
- LAC-5 capacity: 5.39 nominal ton capacity for R404a at 2 PSI pressure drop, 0°F evaporator, 110°F condenser and 10°F subcooling
- OROA-5 capacity: 9.15 nominal ton capacity for R404a at 2 PSI pressure drop, 0° evaporator, 110°F condenser and 10°F subcooling
- Use 100 PSI for R134a, 180 PSI for R22 and 210 PSI for R404a

E01-206	C-304-S-HH	**179.00**

Catch-All Suction Line Filter-Driers

- Removes moisture, foreign matter, acids, sludge, and varnish
- Suction line filter-driers utilize the HH style charcoal core to obtain the maximum ability for lubricant clean-up and removing all types of contaminants

Order #	Mfg. #	Each
E01-195	C166STHH	**139.00**

See-All Moisture and Liquid Indicators

- Moisture & Liquid Indicator may be installed anywhere in the liquid line
- Change the drier when the color is in the caution or wet range
- Bubbles indicate a shortage of refrigerant or a restriction in the liquid line such as a plugged drier

Pressure Relief Valves

- Suitable for all CFC, HCFC and HFC refrigerants and their oils
- Brass body construction
- 100% Teflon® seat material
- Stainless steel spring material
- **B14-171** through **B14-182** are atmospheric type valves and have no external outlet connection
- Temperature range: -40°F to +325°F
- ASME certified
- Other pressure settings available upon request

Tuffy Series Diaphragm Packless Valves

MUELLER STREAMLINE CO.

- Suitable for all CFC, HCFC and HFC refrigerants and their oils
- Forged brass body construction
- Stainless steel diaphragm construction
- Valves may be installed without disassembly
- **B13-852** (234 Series) is designed for purging and draining
- ST models have copper extended ends
- Temperature range: -40°F to +275°F
- Working pressure: 700 PSIG

VAB Series Vibration Eliminators

Stainless Steel Construction with Copper Connections

- Stainless steel hose and braid for maximum strength, with solid copper connectors
- Available in sizes from 1/4" through 3-1/8"
- Leak-free operation beyond the pressure limits of conventional bronze vibration absorbers

Order #	Mfg. #	Conn. Size	Flexible Hose I.D.	Overall Length	Max. Working Pressure	Burst Pressure (PSIG)	Each

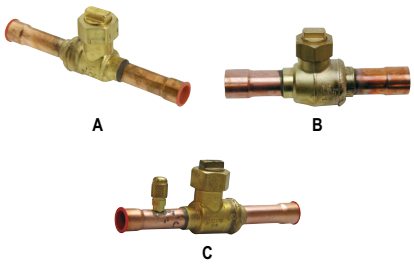
Superior Refrigeration Products



Ball Valves

- Suitable for all CFC, HCFC and HFC refrigerants and their oils
- Forged brass body and seal cap with copper extended ends
- No synthetic O-ring seals; double seal protection provides a superior stem seal
- Seal cap design provides valve operation without removal of seal cap
- Full size ports for unrestricted flow, except for **B12-066**, **B12-067**, **B82-206**, and **B82-207** which are reduced port
- Non-directional; valve may be installed in any position
- Full refrigeration service temperature range of -40°F to +325°F
- Valves with access fittings also available
- **B16-854** through **B16-861**, **B84-214** and **B84-215** include access fitting located on tube extension

H-V Check Valves

- Suitable for all CFC, HCFC and HFC refrigerants and their oils
- Forged brass body construction with special non-metallic bonnet gasket and Teflon® seat material
- Install in any position except upside down
- Low pressure drop "Y" design
- Complete back pressure shutoff at low pressure differential
- Special higher differential springs available upon request
- ST models have copper extended ends
- 500 PSI maximum working pressure; -40°F to +400°F temperature range

Ball Valves

- Compatible with all CFC, HCFC and HFC refrigerants and oils
- Full port construction to match line size ID
- Internally equalized ball design
- Rupture-proof encapsulated stem
- Maximum working pressure 700 psig, 48 bar
- Working temperature range -40°F to 300°F
- MCM™ Seal Technology
- UL/cUL Listed, CE Certified
- **B19-543**, **B19-544**, **B19-545** and **B19-546** are reduced port valves

Copper Spring Loaded Check Valves

- Prevents backward flow through dryers, strainers, and other devices designed for directional flow
- Straight flow-through design yields high flow capacities for small diameter valve bodies
- Metal-to-metal seating — stainless steel to brass
- Corrosion resistant construction
- One piece body eliminates leaks
- Valves can be mounted in any position

Digital Thermometer

- Designed to hang or stand in refrigerator or freezer applications
- Accurate for life, no calibration necessary
- Large easy-to-read display
- Water-resistant with anti-microbial additive

Order #	Mfg. #	Range	Each
H27-420	2560J	-22°F to +122°F	**49.49**

Refrigeration Temperature Alarm

- For refrigerators, freezers or any temperature sensitive area
- When temperature rises or falls at the selected temperature, an alert light will flash for one hour, then an audible beeper is activated or the no delay setting causes **B11-769** to sound an immediate alarm
- Designed so a remote alarm (120VAC, 5A) may be connected
- Encapsulated sensor with 6' cord

Order #	Mfg. #	Range	Each
B11-769	TA2	-10°F to +80°F	**245.00**

Winter Watchman

- Used as a freeze warning device
- Turns on household lamp when temperature is below setpoint
- Plugs directly into wall outlet and lamp plugs into the unit

Specifications:
- Switch action: SPST
- Electrical rating: 120W maximum for incandescent lamp load only
- Operating range: 30°F to 60°F, adjustable
- Dimensions: 3-3/8" x 2-1/8" W x 13/16" D

Order #	Mfg. #	Each
L39-735	S483B1002	**139.00**

Mechanical Temperature Controls

- For applications requiring single-stage and two-stage control of heating, ventilation, air conditioning, and refrigeration equipment (**L38-861** is a two-stage control)
- Universal shaft kit for concealed knob or slotted shaft applications
- **L36-931**, **L38-684**, **L36-932**, **L39-483** and **L39-484** have field adjustable differentials; **L38-861** is field adjustable at 5°F per stage, 2 to 7°F adjustable between stages; **L39-485**, **L39-486** and **L39-487** are manual reset; **L39-480** and **L39-488** have a fixed differential of 3-1/5°F
- **L36-931**, **L38-684** and **L39-480** are remote bulb thermostats
- **L36-932** and **L39-488** are space thermostats for walk-in coolers, ventilating, cooling or similar applications, have stainless steel element for greater accuracy and durability
- 120VAC: maximum full load 16A; maximum locked rotor 96A; maximum resistive load 22A (**L38-861**, 16A); maximum pilot duty 125VA
- 120VAC: maximum full load 6A; maximum locked rotor 36A, maximum resistive load 10A (**L39-480**, 6A); maximum pilot duty 125VA
- 240VAC: maximum full load 8A; maximum locked rotor 48A; maximum resistive load 22A (**L38-861**, 8A); maximum pilot duty 125VA

RANCO

Mechanical Temperature Control

- Wide temperature and differential range
- SPST switch, opens low
- Cross ambient bulb
- Well suited for a broad range of commercial refrigeration applications
- 120/240VAC – 17 FLA maximum; 102 LRA maximum
- Pilot duty: 720VA maximum

Order #	Mfg. #	Sensing Element	Temp. Range	Switch Action	Diff.	Each
B13-241	O60-109	96" Cap. w/Bulb	-20°F to +70°F	SPST	3.5°F to 35°F Adj.	**205.00**

RANCO

Mechanical Temperature Controls

- Wide temperature and differential range
- Suitable for return air or space temperature sensing, defrost termination, fan delay and evaporator coil sensing
- Non-position-sensitive bulb
- SPDT for close-or-open-on rise applications
- Can also be used for most heating and industrial applications
- 120/240VAC – 17 FLA maximum, 102 LRA maximum, resistive load 24A
- Pilot duty: 720VA maximum

Order #	Mfg. #	Sensing Element	Temp. Range	Diff.	Each
B11-272	O60-100	96" Cap. w/Bulb	-35°F to +95°F	3.5°F to 50°F Adj.	**239.00**

B11-274	O60-200	96" Cap. w/Bulb	95°F to 240°F	6.0°F to 50°F Adj.	**305.00**

Honeywell

Mechanical Temperature Controls

- Wide-range controller for applications where remote mounting of sensing element is required
- Controls temperature in duct, tank, freezer or cooler
- 8' remote bulb can be directly immersed in the controlled medium
- Ambient temperature compensation
- Case has top and bottom knockouts
- Easy-to-wire screw terminals
- **B10-843** includes bulb holder and mounting plate

Order #	Mfg. #	Temp. Range	Switch Action	Diff.	Each

Changeover Temperature Controller

Honeywell

- Ambient temperature compensated, high-limit controllers for agriculture and industrial applications
- Suitable for line-voltage, low voltage, or millivolt (powerpile) control of bulk milk tanks, beverage dispensing machines, ice cube machines, dishwashers and similar applications
- One SPDT relay output
- Includes 107324A duct bulb holder
- Immersion well available separately (**L37-828** or **L37-829**)
- Electrical rating: 120/240VAC, 50/60 Hz
- Bulb size: 3/8" x 2-7/8"

Order #	Mfg. #	Sensing Element	Temp. Range	Max. Operating Temp.	Diff.	Each
B14-304	T6031C1009	5.5 Ft.	40°F to 180°F	205°F	2°F	**599.00**

Electrical Ratings

Full Load	8A	5.1A

	120V	240V
Locked Rotor	48A	30.6A

Remote Bulb Temperature Controllers

Honeywell

- Remote bulb thermostats regulate temperature of air or liquids
- Suitable for applications requiring temperature control of air or liquids where controller must be placed outside the sensing area
- Typical uses include control of dampers and valves in heating, cooling and heating-cooling systems
- Voltage input: 120/240/277VAC, 50/60 Hz
- All models except **L40-061** include 107324A duct bulb holder
- Switch action: **L40-061**, **L40-062**, **L40-063**, **L40-064** and **L40-065**: one SPDT; **L40-066** and **L40-067**: two SPDT switches in sequence
- Bulb size: 1/2" x 3-9/16" on **L40-061** and **L40-064**; 1/2" x 4-3/16" on **L40-062**, **L40-063**, **L40-065**, **L40-066** and **L40-067**

Order #	Mfg. #	Sensing Element	Temp. Range	Max. Operating Temp.	Diff.	Each

RANCO

Electronic Temperature Controls

- Digital display allows for simple and accurate setting
- Displays sensor temperature when not in program mode
- Wide temperature range (-30°F to +220°F) and differential adjustment (1°F to 30°F)
- User selectable heating/cooling modes for wide application use
- Capable of remote temperature sensing up to 400'
- Keypad lockout switch to prevent tampering
- Replaces most electromechanical and electronic temperature controls
- **L38-382**, **L38-383** and **L38-385** are single-stage; **L38-386**, **L38-714** and **L38-715** are two-stage

Specifications:
- Switch action: SPDT
- Includes thermistor sensor, 2" x 0.25" with 8' cable
- Relay output rating: N.O. contact 16A @ 120VAC, N.C. contact 5.8A @ 120VAC
- Dimensions: 6.52" H x 2.7" W x 2.48" D

Electronic Refrigeration Controls

RANCO

- Microprocessor-based controller designed to manage all of the temperature and defrost functions in a piece of commercial equipment
- Can replace up to five different controls: the case thermostat, defrost timer, defrost termination switch, fan delay switch and thermometer
- NSF Approved temperature sensors for the case and evaporator
- Features 4 powerful relay outputs; one for the compressor, fan, defrost and alarm
- Selectable line voltage input power (120/208/240VAC at 50/60 Hz) enable it to handle a wide range of equipment
- Set point range: -40°F to +60°F
- Defrost cycles: **G32-702** 1 to 8 per day or 1 every 48 hours; **G32-703** 2 to 8 per day or 1 every 48 hours
- Temperature sensor: NTC Thermistor

PENN TC Series Controls

Johnson Controls

- Easy to program microprocessor-based controllers with touch keys and large LED display
- Manage active or passive defrost, evaporator fan, alarm buzzer, and case lighting—all with one device
- Designed for panel mounting with included snap-in brackets
- Use industry-standard NTC temperature sensors with your choice of IP ratings and cable lengths
- Available with built-in or external RS485 Modbus communications

Universal XR Temperature Controls

- Replaces the functions of a mechanical thermostat, defrost time clock, fan control and alarm in one control
- Select from seven pre-set programs based on application with easy 4-step setup
- Replaces 20 different controls in the field
- Fully programmable to meet all warming, medium and low temperature applications
- UL and NSF listed
- Includes two temperature probes

Specifications:

- Operating temperature: +32°F to +140°F; Storage temperature: -22°F to +185°F
- Relative humidity: 20 to 85% (no condensing)
- Measuring and regulation range: NTC probe -40°F to +230°F
- Relay outputs: Compressor, SPST 16FLA/96LRA, 250VAC
- Defrost: SPDT 10A, 250VAC; Fan: SPST 5A

Electronic Temperature Controls

A

B

- Replacement for A419 Series Temperature Controls
- Reliable electronic accuracy with adjustable, backlit display of current sensor temperature and other functions
- Customizable display brightness for any desired conditions making it easy to read in dark environments
- Sensor compensation adjustment for longer sensor leads, provides for greater temperature control accuracy
- Indexed programming, control automatically prompts for next programmable input
- High/low temperature stops, restricts temperature adjustments to desired range

Specifications:

- Setpoint range: -30°F to +212°F
- Differential range: 1°F to 30°F
- Switching: SPDT

System 450™ Control and Expansion Modules

Johnson Controls

- Up to three inputs (temperature, humidity and/or pressure) per control module provide flexibility and reduce the number of controls required
- A99 Series temperature sensors
- HE-67S3 humidity sensors
- P499 ratiometric transducers
- Backlit LCD built into the main control module, no need to order a separate display
- Up to ten stages of control
- Single and dual output modules
- A total of nine System 450 modules will replace 80 System 350™ modules, fewer parts to order and stock
- **L47-333** provides Ethernet/Internet connectivity for remote access; **L47-334** provides network communication with equipment/BAS utilizing the Modbus protocol

Specifications:

- Range:-40° to 250°F; 10 to 95% RH; 0 to 750 PSI
- Diff: 1° to 30°F; 2 to 10% RH; 2 to 50 PSI or 10 to 100 PSI

Electronic Remote Temperature Controllers

Honeywell

- Provides on/off, modulating or reset control in applications where electronic accuracy and remote sensing is desired
- Available with analog outputs (0-10VDC, 2 to 10VDC, 4 to 20mA or Series 90 selectable)
- Internal time clock scheduler allows for energy savings during unoccupied periods without the need for a separate time clock

L43-812 is a stage sequencing model that allows configuration of up to 12 relay outputs with one or two setpoints using **L43-814** relay expansion modules

- **L43-813** is a universal model that uses 0 to 10VDC or 4 to 20mA sensor input to control pressure, humidity, temperature

Universal Electronic Temperature Control

WHITE-RODGERS

- Multiple input voltages (24/120/208/240VAC)
- No common wire required: saves 30–60 min. when upgrading a mechanical control
- Wide set-point temperature range (-40°F to 220°F) and adjustable differential settings
- Electronic temperature accuracy
- Alarm output (with selectable delay — up to 99 min.)
- Adjustable anti-short cycle delay
- Setpoint locking function

Order #	Mfg. #	Description	Volts	Each
B17-321	16E09-101	Electronic Temperature Control	24/120/208/240	**215.00**

System 350™ Series ON/OFF Temperature Control Modules

- Used in conjunction with the A99B temperature sensors; base silicon sensor #A99BC-25C (not immersible) included
- **L39-489** is a proportional plus integral temperature control module; **L37-526** is an electronic on/off temperature control
- Remote sensing capability up to 800'
- For use with S350 Stage, D350 Display and Y350R Power Modules
- Supply voltage: 20 to 30VAC transformer or Y350R 120/240VAC Power Module

Order #	Mfg. #	Switch Action	Range	Diff.	Each
L37-526	A350AA-1C	SPDT	-30°F to +130°F	1° to 30°F	**465.00**
L39-489	A350PS-1C	Proportional	-30°F to +130°F	2° to 30°F	**1045.00**

System 350™ Series Temperature Stage Module

- For use with A350, A350E, A350P and A350R series modules to add multiple heating or cooling stage capability (room for up to nine additional stages)
- Supply voltage: 24V power supply provided by A350 or Y350R

Order #	Mfg. #	Switch Action	Diff.	Each
L37-527	S350AA-1C	SPDT	1° to 30°F	**299.00**

System 350™ Series Digital Temperature Display Module

- 3-Digit LCD display provides continuous actual space temperature indication (local or remote) when used with A350, A350E, A350P and A350R modules
- Supply voltage: 5VDC provided by the temperature control

Order #	Mfg. #	Range	Each
L37-528	D350AA-1C	-30°F to +250°F	**619.00**

System 350™ Series Power Module

- Provides unfiltered 24VDC power to System 350™ Controls
- Input voltage: 120/240VAC, 50/60 Hz

Order #	Mfg. #	Each
L37-529	Y350R-1C	**295.00**

System 350™ Series Electronic Temperature Reset Control

- Designed to raise or lower temperature of supply water or air based on proportionate rise or drop in temperature at the master sensor
- Use as a stand alone device or with plug-in accessory modules
- A99BC-25C Master and A99BB-300C Supply sensors included
- Adjustable master reset set-point (40°F to 70°F), minimum relay on-time selection (jumper selectable: OFF, 1, 2 or 3 minute), adjustable minimum (50°F to 160°F) and maximum (160°F to 220°F) supply temperature and selectable warm weather shutdown temperature (jumper selectable: OFF, 60, 64, 68 or 72°F)

Order #	Mfg. #	Switch Action	Each
L37-852	A350RS-1C	SPST, N.O.	**1199.00**

System 350™ Series Electronic ON/OFF Humidity Modules

Johnson Controls

- Used in conjunction with the HE-67S3-0N0BT or HE-67S3-0N00P series of humidity transmitters to stage humidification and dehumidification
- For use with S351 Stage, D351 Display and Y350R Power Modules
- Supply voltage: 20 to 30VAC transformer or Y350R 120/140VAC Power Module
- **L37-854** does not come with a sensor
- **L44-523** is factory-equipped with HE-67S3-0N00P duct mount sensor
- **L41-797** used to add multiple staging capability, up to 5 stages (requires **L37-529** power module)

Order #	Mfg. #	Switch Action	Range	Diff.	Each
L37-854	W351AB-2C	SPDT	10 to 90% RH	2 to 10% RH	**579.00**
L44-523	W351AA-2C	SPDT	10 to 90% RH	2 to 10% RH	**1945.00**
L41-797	S351AA-1C	SPDT	10 to 90% RH	2 to 10% RH	**475.00**

System 350™ Series Digital Display Module

Johnson Controls

- For use with W351 humidity module
- 3-Digit LCD display provides continuous actual space humidity and setpoint sensed by HE-67S3-0N0BT or HE-67S3-0N00P humidity transmitter (order sensors separately)
- Supply voltage: 12VDC provided by the W351 Humidity Control

Order #	Mfg. #	Range	Each
L37-855	D351AA-1C	10 to 90% RH	**669.00**

System 350™ Series Humidity Transmitter with Sensors

Johnson Controls

- All-Polymer™ humidity transmitters with planar silicone temperature sensors
- For use with W351 humidity and D351 digital display modules, as well as other applications with an output signal of 0-10VDC or 0-5VDC, 1,000 ohm maximum load

Order #	Mfg. #	Switch Action	Range	Each
L38-955	HE-69S30NP-0	Duct Mount	0 to 100% RH	**729.00**

Special Application Temperature Controls

RANCO

- 120/240VAC — 17 FLA, 102 LRA; maximum resistive load 24A; maximum pilot duty 720VA
- **B11-722** Bulk Milk Control is suitable for chillers and any close-differential applications which require close adjustment
- **B11-723** Soft Ice Cream Machine is suitable for soft ice cream, slush ice and yogurt machine applications; features 72" capillary tube

A

B

Fig.	Order #	Mfg. #	Temp. Range	Switch Action	Diff.	Each
A	**B11-722**	O16-601	22.5 to 47.5	SPDT	1.5°F Fixed	**375.00**
B	**B11-723**	O16-588	-15.0 to +40.0	SPDT	1.5°F Fixed	**375.00**

Ice Bank Control

RANCO

- Controls the ice bank inside milk coolers or any refrigerating cabinet that cools by means of an ice bank
- Suitable for soft drink dispensers, vending machines and ice builders for thermal storage
- Cut-in over 32°F, cut-out under 32°F
- 120/240VAC — 24 FLA, 144 LRA; maximum resistive load 24A; maximum pilot duty 720VA

Order #	Mfg. #	Sensing Element	Switch Action	Range	Diff.	Each
B11-253	O18-100	76" Cap. w/Bulb	SPST	Fixed	1/8" Ice Thick-ness	**335.00**

Adaptable Replacement Refrigeration Controls

ARANCO

- Compact for nearly all commercial refrigerators and freezers
- Break-off shafts are included with instructions
- Controls have OFF position except **B10-327** and **B10-387**
- **B10-327** is not UL listed
- **B10-327**, **B10-387**: 120/240VAC — maximum 20 FLA; maximum 80 LRA; maximum resistive load 25A; maximum pilot duty 500VA
- **B10-359**, **B10-360**, **B10-361**, **B13-239**, **B13-240**, **B13-289**: 120/240VAC — maximum 20 FLA; maximum 80 LRA; maximum pilot duty 240VA

Low Temperature Cut-Out (Freeze-Stat)

Johnson Controls

- Provides monitoring of the face temperature of evaporator coils for freeze protection
- Snap-acting SPST switch
- External temperature scale
- Easy setpoint adjustment
- Galvanized mounting brackets and cover

Specifications:
- Switch action: SPST open low
- Range: 35°F to 45°F
- Bulb and capillary: 20' 1/8" tubing, 4' capillary

Order #	Mfg. #	Switch Action	Diff.	Each
B13-348	A11A-1C	SPST	Manual Reset	**385.00**
B13-650	A11B-1C	SPST	8°F	**415.00**

Special Application Temperature Controls

Johnson Controls

A

B

- Used for energizing an indicator light after a low temperature cutout
- Special 4-wire 2-circuit switch action with isolated contacts
- Long-life, snap-acting contacts
- Contacts designed so that when main contact opens, auxiliary contact closes
- Line—M2 (main): 120VAC; maximum full load: 16A; maximum locked rotor: 96A
- **L39-490** and **L39-491** have 20' bulb
- **L39-492** has remote bulb with 6' capillary

Fig.	Order #	Mfg. #	Switch Action	Range	Diff.	Each
A	**L39-490**	A70GA-1C	SPST Open Low	15°F to 55°F	5°F	**755.00**

Cooling Tower or Evaporative Condenser Control

Johnson Controls

- For control of cooling tower fans
- Heavy-duty DPST contacts
- Neoprene coated sensing elements
- 6' capillary
- 11/16" x 6-3/4" bulb

Order #	Mfg. #	Switch Action	Range	Diff.	Each
L39-493	A72AE-1C	DPST	25°F to 90°F	4°F to 25°F	**869.00**

Limit Controls

Honeywell

- Used to limit temperature in air conditioning or refrigeration systems
- Dual Fahrenheit and Celsius scaleplate
- Enclosed snap switch is dust and moisture proof for trouble-free operation

Specifications:
- Ambient temperature range: 20°F to 125°F
- Differential: 10°F, fixed
- **B13-315** includes manual reset

Order #	Mfg. #	Sensing Element	Temp. Range	Switch Action	Each

B14-302	L480B1239	20'	20°F to 60°F	SPDT	**795.00**

©2024 Johnstone Supply, LLC

Low Limit Controller-Freeze Stat

Honeywell

- Used to limit or control temperature in air conditioning systems or refrigerated enclosures
- Applications include freezer cabinets, display cases, beverage coolers, milk cooling tanks and air conditioners
- Special applications include use as frost alarm where frost would damage equipment or crops.
- Dual Fahrenheit and Celsius scaleplate
- Enclosed dust and moisture resistant snap switch for trouble-free operation

Specifications:
- Differential: 10°F
- Dimensions: 3-29/32" H x 4-11/16" W x 2-3/32" D
- Pilot duty: 125VA at 120/240VAC
- Includes manual reset

Order #	Mfg. #	Sensing Element	Temp. Range	Switch Action	Each
B14-345	L482A1004	20'	15°F to 55°F	2 SPST: 1 NC, 1 NO	**845.00**

Locked Rotor	44A	36A	39A	18A
Resistive	16A	6A	8A	6A

Defrost Termination/Fan Delay Control

RANCO

- Terminates defrost and delays the evaporator fan from operation on electric heat, hot gas, and reverse cycle on commercial refrigeration systems
- This prevents warm, moist air from being circulated into the refrigerated space
- Adjustable defrost termination from 40°F to 75°F
- Fan on temp: 20°F fixed

Order #	Mfg. #	Capillary Length	Switch Action	Each
B11-804	F25-107	60" Cap. w/ 1/8" x 4" Cross Ambient Bulb	SPDT	**329.00**

Ice, Beverage Dispensing and Thermal Storage Controls

RANCO

- 120/240VAC — maximum 20 FLA; maximum 80 LRA; maximum resistive load 25A; maximum pilot duty 500VA
- 277VAC — maximum 16 FLA; maximum 80 LRA; maximum pilot duty 500VA
- **B11-571** is a direct replacement ice bin control, provides narrow differential for accurate control of bin level
- **B13-242** is an ice bin level control for use on Hoshizaki ice machines
- **B11-572** is an adaptable replacement ice harvest control for ice machine applications

A

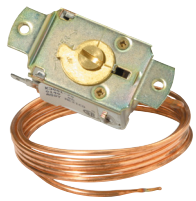
Direct Replacement K-3000 Series Controls For Water Coolers



- Two controls replace over 200 OEM numbers
- Computer calibrated for precise settings
- Laser-welded bellows assure accurate temperature control and a long life
- Patented switch provides high performance and greater reliability
- Performance-matched to OEM specifications
- These temperature controls are a direct replacement for approximately 80% of the water cooler controls out in the field in equipment such as Ebco, Sunroc, Halsey-Taylor and Kelvinator
- Designed for the original OEM specifications having direct replacement temperature range, mounting configurations, dial shaft and driver arrangements and capillary lengths
- 10 FLA, 40 LRA @ 125VAC; 6 FLA, 36 LRA @ 250VAC; 10A @ 120V

Low Pressure Controls

- For air conditioning and refrigeration applications
- Suitable for most refrigerants; **B15-396** and **B15-397** specifically designed for use with high pressure HFC refrigerants
- 120VAC — 20 FLA; 120 LRA; maximum resistive load 22A; maximum pilot duty 125A
- 240VAC — 17 FLA; 102 LRA; maximum resistive load 22A; maximum pilot duty 125VA
- **B13-356** and all P70 Models have 36" capillary with 1/4" flare nut; **B13-355** and P170 Models have 1/4" male flare connection
- **B11-568** and **B12-013** features Micro-Set adjustment for critical applications where close tolerances are required
- **B13-355** and **B13-356** have time delay and lockout features; 750VA, 120/240VAC

Low Pressure Controls

- Automatic reset operation
- 120/240VAC — 24 FLA; 144 LRA; maximum resistive load 24A; maximum pilot duty 720VA
- **B10-528** specifically for use with R22 and R502
- **B10-513**, **B10-514** suitable for R12, R134a and R500
- **B13-243** universal control suitable for use with all CFC, HCFC and HFC refrigerants

Order #	Mfg. #	Switch Action	Pressure Range PSIG	Diff. PSIG	Conn. Size	Each

Lube Oil Protection Controls

Johnson Controls

A

B

- Protects against major compressor breakdown by guarding against low lube oil pressure
- Built-in time delay switch avoids nuisance shutdowns on short pressure drops during the running cycle
- Manual reset operation
- Ambient compensated for uniform time delay
- 120/240VAC, maximum pilot duty 750VA
- **B15-404** is for Copeland applications
- **B15-406** is for Carlyle applications
- **B15-405** is for Bitzer applications

UltraCap Armored Capillary

- Designed for use as a pressure connection in refrigeration and air conditioning applications
- Minimizes pressure pulsation and improves abrasion resistance
- Allows no effusion of refrigerant to the environment
- Break-away Shraeder depressors
- One straight and one 90° fitting
- 1/4" SAE flare connection

Order #	Mfg. #	Capillary Length	Each
B15-407	SEC99AB-18C	18"	**79.00**

Pressure Controls

- Pressure Switches for use in residential air conditioning and commercial refrigeration/ air conditioning applications
- OEM approved design
- Factory set, hermetically sealed sensor
- Compact and lightweight for direct mounting
- Tamper-proof construction
- RoHS compliant

Specifications:

- Electrical rating: 5.8FLA@115VAC; 2.9FLA@230VAC
- 1/4" diameter female flare pressure port
- **B18-788** and **B18-789** includes capillary tube connection
- **B18-796** includes conduit clamp for 3/8" flexible metal conduit
- **B18-811** includes 1/4" male spade terminals
- **B18-784**, **B18-811**, **B18-792** and **B18-791** are compatible with R410A
- **B18-805** and **B18-801** include SPDT switch with heavy duty electrical contacts (high current capacity)

Electronic Pressure Controls

- Electronic pressure control with display and adjustable anti-short cycle delay
- For use with P399 transducer
- Minimum differential PSIG: 5 or 20

Order #	Mfg. #	Switch Action	Pressure Range PSIG	Each
B13-741	P470EB-1C	SPDT	0 to 750	**345.00**
B13-742	P470FB-1C	SPDT	0 to 750	**275.00**

Electronic Pressure Transducers

- Designed for use in commercial refrigeration and air conditioning
- Compact, rugged and direct-mount
- Produces a low voltage analog signal based on sensed pressure
- Stainless steel with environmentally sealed electronics
- Resistant to the effects of wide temperature swings, high humidity, condensation and icing
- Suitable for use in all non-corrosive refrigerants, as well as ammonia
- "K" models include wire harness
- **B18-452** is sealed for wet and freeze/thaw applications such as the suction side of the compressor

Differential Pressure Controls

- Measures the pressure difference between supply and return lines, repositioning switching mechanism to cause corrective action of supplementary control equipment
- Provides differential pressure sensing on chillers, water cooled condensers or heating systems for proof of flow
- Can be used as lube oil failure cutout for refrigeration compressors
- Also suitable for use as refrigeration pressure limiting controls
- Pressure differential setting easily changed without removing cover
- Includes universal mounting bracket
- Brass bellows

Specifications:

- Switch action: SPDT, snap-acting
- Range pressure differential: 8 to 60 PSI
- Switch differential: 1.5 fixed
- Pressure connections: **B13-349**, 1/4" male flare; **B13-350**, 1/4" FNPT
- 120VAC — maximum full load 6A; locked rotor 36A; maximum resistive load 10A; maximum pilot duty 125VA
- 240VAC — maximum full load 3A; locked rotor 18A; maximum resistive load 10A; maximum pilot duty 125VA

A B

Fig.	Order #	Mfg. #	Conn. Size	Each

B	**B13-350**	P74FA-5C	1/4" Female NPT	**615.00**

Differential Pressure Control

- Measures the pressure difference between two sources: supply lines and return
- A change in differential pressure repositions the switching mechanism to cause corrective action of the supplemetary control equipment
- Easy to change pressure differential (without removing cover)
- 36" capillary with flare nut specifications:
- Electrical rating: 120VAC — FLA 16, LRA 96
- Maximum resistive load: 16A
- Maximum pilot duty: 125VA

Lube Oil Protection Control

- 120-second time delay switch opens control circuit to stop compressor when oil pressure is lost
- Replaces Copeland #085-0062-00
- Manual reset, alarm circuit standard
- Ambient temperature compensated
- Super Cap® capillary protection system
- 120/240VAC, maximum pilot duty 720VA

Order #	Mfg. #	Reset Type	Pressure Range PSIG	Conn. Size	Each
B12-009	P30-5826	Manual	9 Fixed	36" Cap. w/ Flare Nut	**575.00**

INTERMATIC

Heavy-Duty In-Wall Timer

- 24-hour heavy-duty in-wall timer
- Captive trippers with 20-minute switching interval
- Manual ON/OFF/Auto switch
- 20A @ 120VAC, 60 Hz, 2400 watt resistive, 8A inductive, 1 HP @ 120VAC, 1350 watt tungsten

Order #	Mfg. #	Description	Volts	Switch Action	Amps	Time Range	Each
G32-431	KM2ST-1G	Heavy-Duty Mechanical In-Wall Timer - 20 A	120	SPST	8	24 hour	**179.00**

INTERMATIC

Automatic Shutoff Timers

- Automatically turns off fans, lights, heaters, pumps and other loads, saving energy and extending equipment life
- Non-metallic wall plate meets NEC requirements
- SPST 20A, 2 HP switch
- Each pole — 20A @ 125VAC (inductive), 50/60 Hz, 7A @ 125VAC Tungsten, 2 HP @ 250VAC, 50/60 Hz, 7A @ 125VAC Tungsten, 2 HP @ 250VAC, 50/60 Hz
- **G22-280**, **G31-587** and **G22-279** include timer hold feature

24-Hour Timers

- 24-hour timer, DIN rail or surface mounted with captive trippers
- 15-minute switching intervals
- Three-way override
- Real clock face

Specifications:
- Input voltage: 24VAC
- Switch rating: SPDT 21A @ 250V Res
- On/Off time: 15 min.

Order #	Mfg. #	Description	Volts	Switch Action	Amps	Time Range	Includes	Each	3 Lot
G32-657	MIL72ASTUZH24	21 A, 1-Circuit, 24-Hour Timer Module	24	SPDT	21	24 hour	Clear Plastic Dust Cover	**205.00**	**195.00**

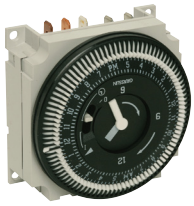
Electromechanical Timer Module

- 24-hour timer, surface mounted with spade terminals
- Easy-to-set captive trippers
- Synchronous drive for greatest accuracy
- 24-hour switch program
- Switch output: SPDT
- Program: ON/OFF every 15 minutes
- Voltage: 24VAC



Order #	Mfg. #	Description	Volts	Switch Action	Amps	Time Range	Each
G32-652	FM1STU-ZH-24	21 A, 1-Circuit, Panel Mount Timer Module	24	SPDT	21	24 hour	**195.00**

Multipurpose Control
E100B Series

- Multi-voltage input 120–277VAC
- Patented 40 amp contacts
- Indoor/outdoor enclosure standard
- LCD display, simple programming with brief easy-to-follow instructions
- Replaces Paragon EC4000 Series

Order #	Mfg. #	Volts	Switch Action	Amps	Each
G35-797	E101B	24/120/208/240/277	SPST	40	**455.00**

24 Hour Timer Switches

- Provides direct 24 hour control of most loads
- 1 to 12 ON/OFF operations each day with minimum ON/OFF times of 1 hour
- Manual override
- All models equipped with one ON and one OFF tripper

Order #	Mfg. #	Volts	Switch Action	Amps	Time Range	Includes	Each
G36-498	T101	125	SPST	40	24 hour	one ON and one OFF tripper	**209.00**
G36-499	T102	208-277	SPST	40	24 hour	one ON and one OFF tripper	**219.00**
G36-500	T103	125	DPST	40	24 hour	one ON and one OFF tripper	**215.00**
G36-501	T104	208-277	DPST	40	24 hour	one ON and one OFF tripper	**225.00**

7-Day Time Switches

- True 7-Day load control with minimum ON/OFF time of 3 ½ hours
- Separate clock motor terminals for switching loads not on-line voltage
- Carryover automatically rewinds when power resumes
- One hour of rewinding time for every two hours of power outage

Order #	Mfg. #	Volts	Switch Action	Amps	Time Range	Includes	Each
G36-502	T7401B	125	4PST	40	7 day	seven ON and seven OFF trippers	**425.00**

PARAGON

Commercial Defrost Timers

- One to six defrost cycles per day, four hours between cycles
- Cycle adjustable from four to 110 minutes, in two-minute increments
- Positive switch action slider bar
- Heavy-duty synchronous industrial type motor and steel enclosure
- Knockouts on bottom, back and sides
- Hasp and staple for padlock
- 40A electrical rating; choice of three contact arrangements
- UL approved except **G22-349**
- 8040 Series are time initiated, time terminated with accuracy of defrost duration ± two minutes
- 8140 Series are time initiated, remote temperature or pressure terminated and control works with an external temperature or pressure sensor

Johnson Controls

Electronic Defrost Control

- Combines functionality of electromechanical thermostat and time clock, thermometer and termination switch
- Provides defrost scheduling, and termination based on time or temperature, sensor fail-safe modes and temperature indication
- Control buttons can be locked to prevent tampering
- Programmable alarms for high or low case temperature, cooler door open, and sensor failure
- Alarm relay can connect to a dial-out modem for remote reporting
- Minimizes compressor wear through built-in short cycling delay
- Precision control of evaporator fan provides maximum benefit of cooling and defrost cycles
- Voltage: 120VAC or 240VAC
- Accuracy: ±1.8°F (±1°C)
- Includes two A99BB-200C 6.5 foot sensors (**L38-717**)

Order #	Mfg. #	Description	Each
L38-724	MR4PMUHV-12C	Electronic Defrost Control	**1145.00**

24-Hour Time Switch

- Synchronous drive for low cost and greatest accuracy
- Easy-to-set captive trippers, 96 trippers provide up to 48 ON/OFF events
- Three-way OFF/AUTO/ON overide switch provides continuous override
- Replaces Intermatic, Tork and Paragon switches

Order #	Mfg. #	Description	Volts	Switch Action	Amps	Time Range	Each
G32-656	GMX ST-I-120	21 A, General Purpose, 1-Circuit Electronic Time Switch	120	SPDT	21	24 hour	**215.00**

Multi-Voltage On/Off Timers

- 40A heavy-duty contacts
- Manual override switch with OFF/AUTO/ON options
- NEMA 3R indoor/outdoor non-metallic enclosure
- Captive trippers can be set in 15-minute intervals
- No tools required — the "guts" simply snap into existing Grasslin or Intermatic enclosures
- Universal replacement; replaces over 50 competitive models
- **G36-168** is auto-voltage timers that can operate in any voltage between 120V and 277V

Commercial Auto-Voltage Defrost Timers

- Automatically selects the appropriate voltage between 120V and 240 without the use of a dip switch
- Temperature, pressure or time terminated
- Red and green LEDs indicate refrigeration or defrost cycle
- 40A resistive, 1 HP @ 120V, 2HP @ 240V

Applications:

- Air defrost (compressor shutdown) and electric or hot gas defrost systems

Three-Phase Motor Protector

Supco®

- Basic protection for motors against loss of phase and unbalanced voltage conditions
- Disconnects the motor pilot circuit when monitored problem is detected
- Re-energizes circuit only when all three phases are activated at the full voltage rating
- Power consumption: 3 VA maximum

Specifications:
- Operating voltage: compact 208-277VAC model
- Output relay: normally open and normally closed contacts, type C; 5A 240VAC, 10A 120VAC
- Phase imbalance: fixed 7%

B13-541	TPMP2	**69.00**

Three-Phase Loss/Reversal Monitors

ICM CONTROLS · Made in USA

A

B

- Provides three-phase single-side protection
- Universal voltage input (190 to 600VAC)
- Monitors for phase reversal, phase loss, and phase unbalance % as a function of input voltage
- Bright LED indicators for ON and FAULT
- Highly reliable passive electronics
- Interrogates the line during fault conditions to reduce nuisance trips from transients or compressor start-ups

Specifications:
- Fixed control voltage: 18 to 30VAC
- Output: relay, SPDT, N.O., 20A

Three-Phase Line Voltage Monitors

- Designed to protect motors and other three-phase loads from premature failure and damage due to common voltage faults
- Front and back-side fault identification
- Independent over/under voltage % adjustment
- Line voltage programmable

Specifications:

- Line voltage: universal — 190 to 600VAC, 50/60 Hz
- Type: relay, SPDT
- Voltage range: 277 VAC @ 10A maximum, 50-60 Hz
- Operating temperature range: -40°F to +149°F delay on break timer
- Phase Unbalance Protection: 2-20% adjustable
- Delay on break timer control voltage: 18 to 240VAC/VDC with time delay: 0 to 10 minutes adjustable fault interrogation delay
- Fault interrogation time delay: 0 to 15 seconds adjustable
- Terminations: 1/4" quick connects

Fan Speed Head Pressure Control

- Temperature or pressure sensitive motor fan speed control
- Near field communication (NFC) capable; configure using the ICM OMNI App
- Features: hard start, low temperature bypass, isolated 24 VAC supply
- Controls up to 3 refrigeration circuits
- RoHS compliant / lead free design
- Both A/C and heat pump applications
- Universal 120-600VAC line voltage and 24-240VAC control voltage
- Helps prevent evaporator freeze-ups, low pressure cut-outs and liquid-slugged compressors in low ambient conditions
- Integral heat pump bypass circuitry allows electronic bypass of speed control
- Eliminates overshoots common to on/off and pressure switch controls

Order #	Mfg. #	Operating Range PSIG	Throttling Range PSIG	Max. Control Range (Adjustable)	Max. Pressure	Sensors Inputs	Volts	Each

Pressure Actuated Motor Speed Controllers

- Pressure actuated electronic motor speed controller directly senses pressure and electronically varies fan motor speed
- Designed to replace on/off fan cycling controls, multiple speed motors, condenser flood back systems, temperature fan speed controls and modulating louver systems
- Provides soft start, reducing motor starting noise
- Built-in voltage surge protection
- 60" capillary with 1/4" flare nut connection
- Control voltage: 24VAC

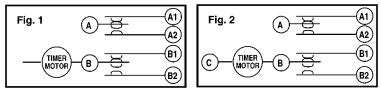
Air Conditioning Time Delay Sequencers



- For residential and commercial central and unitary air conditioning systems
- Prevents compressor short cycling
- Provides automatic resetting of safety devices during power outage, low and high pressure cutouts and thermostat jiggling
- Allows system pressures to equalize before compressor restart
- 125VAC; 9.8 FLA, 58.8 LRA, resistive load maximum 15A
- 250VAC; 4.9 FLA, 29.4 LRA, resistive load maximum 10A
- Maximum pilot duty 125/250VAC: 125VA
- **B10-500** replaces Carrier #**T34-111**, HK25MJ172 and HK25RC010

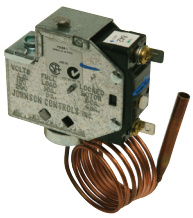
P20 Series Air Conditioning Limit Controls



- Shuts compressor off when excessive pressure develops
- Specially designed for commercial and residential air conditioning units
- Can be used with all non-corrosive refrigerants
- Dust tight contact unit has male quick connect terminals
- Capillary is 36" long with 1/4" sweat connection
- 16A @ 120VAC; 8A @ 240VAC; maximum volts 300 AC
- Screwdriver adjustment slot
- Mounting bracket supplied on all models

Solenoid Operated Reversing Valves

RANCO

- For unitary, spilt systems and window-type heat pump applications
- Instantaneously reversing
- Brass body construction with copper tubes
- Operates on pressure differential between high and low sides of refrigerant system
- Valves come less coil — proper coil should be ordered separately from the chart below
- Capacity ratings listed below are suggested capacity in tons
- Reversing valves have specific suction and discharge tube sizes as well as restricted refrigerant capacity; therefore the valves are not interchangeable

Warning: Keep valve cool while brazing into heat pump.

G5Twin Refrigerant Recovery Unit

- A2L compatible
- Oil-less compressor with twin cylinders and twin condensers for greatly reduced liquid and vapor recovery time, up to 2–4 times faster
- 1/2 HP high-torque ball bearing motor with 550 PSI cutoff switch
- Heavy-duty crankcase isolated from refrigerant protects bearings for long life
- High-speed, high-pressure turbine fan with over 600 CFM for cooling
- Simple 2-valve unit control
- Field serviceable modular construction with easy to replace gauges and easy-to-clean inlet filter screen
- Compact casing with rubber over-molded ergonomic handle
- No purge required

Order #	Mfg. #	Vapor Rec. Rate - R22	Liquid Rec. Rate - R22	Push/Pull Rate R22	Width	Height	Depth	Wt. Lbs.	Each
H93-103	G5TWIN	0.62 Lbs./Min.	10.36 Lbs./Min.	16.62 Lbs./Min.	9.4"	10.3"	13.75"	24	**2145.00**

G1Single Refrigerant Recovery Unit

- A2L compatible
- Oil-less compressor for rapid liquid and vapor recovery
- 1/2 HP high-torque ball bearing motor with 550 PSI cutoff switch
- Heavy-duty crankcase isolated from refrigerant protects bearings for long life
- High-speed, high-pressure turbine fan blasting 600 CFM of cooling air over the entire assembly
- Advanced design: no purge and no throttling required
- Easily field serviceable: can be fully rebuilt in 20–30 minutes

Order #	Mfg. #	Vapor Rec. Rate - R22	Liquid Rec. Rate - R22	Push/Pull Rate R22	Width	Height	Depth	Wt. Lbs.	Each

MR45 Refrigerant Recovery Unit

- A2L compatible
- Powerful, variable speed, 1 HP DC motor
- Minimizes liquid slugging and maximizes vapor recovery with auto adjusting RPMs
- Large micro channel condenser for faster cooling
- Large backlit dual LCD display with status messages
- One push start, auto shutoff and self-purge
- Easy hose connections and built-in power cord storage
- For use with all common non-flammable refrigerants including R410A

Order #	Mfg. #	Vapor Rec. Rate - R22	Liquid Rec. Rate - R22	Push/Pull Rate R22	Width	Height	Depth	Wt. Lbs.	Each
H93-215	MR45	0.62 Lbs/Min.	10.34 Lbs/Min.	10.08 Lbs/Min.	9.8"	13.5"	14.8"	22	**2245.00**

F6 Boost Ignition Proof Refrigerant Recovery Unit

- A2L compatible
- Dual piston design for fast recovery
- Sealed internal start components with ignition proof switch
- Powerful 1.25 HP BLDC (Brushless DC) motor-drive oilless compressor
- High air-flow fan with a micro-channel condenser keeps the unit running cool
- Built in purge functionality to prevent cross contamination
- Auto shut-off when recovery is complete
- Dual voltage (100 to 240VAC)
- Recessed folding handle with rubber grip and padded shoulder strap

Order #	Mfg. #	Vapor Rec. Rate - R22	Liquid Rec. Rate - R22	Push/Pull Rate R22	Width	Height	Depth	Wt. Lbs.	Each
H86-193	F6-BOOST	0.77 Lbs./Min.	12.40 Lbs./Min	13.43 Lbs./Min.	9.5"	12"	14.5"	24	**2145.00**

PRO-SET® Molecular Transformator

- Increase performance of any recovery machine
- Cuts recovery time in half
- Functions as submersible condenser or evaporator
- Transforms hot refrigerant gas molecules into refrigerant liquid molecules
- Transforms cold refrigerant liquid molecules into a warm refrigerant gas
- Maintenance free
- Rugged, compact and easy to use

Order #	Mfg. #	Width	Height	Depth	Wt. Lbs.	Each
H27-417	MT69	4"	12"	4"	5	**349.00**

Refrigerant Recovery Unit Pre-Filters

- Contains special filtering media which maximize removal of debris
- For temporary use only; should be changed after maximum of 200 lbs. of refrigerant processing (sooner depending on actual system conditions)
- Capacity ratings are refrigerant flow capacity at 2 PSI pressure drop

Order #	Mfg. #	Conn. Size	Cubic Inches	Length	Each
B11-929	PF052	1/4" SAE	5	4.38"	**119.00**
B11-930	PF052MF	1/4" SAE M x F	5	5.02"	**119.00**

Refrigerant Labels

- Color-coded, self-adhesive
- Environmental safety notice (**B12-008**) for use when discarding old, unrepairable equipment

Order #	Mfg. #	For Use With	Type	Color	Size	Pkg. Qty.	Each

DOT-Approved Recovery Cylinders

- 2-tone, gray and yellow, for recovered refrigerants
- Powder coated cylinder for a high gloss, durable finish
- Y-valve for liquid or vapor on 30# and 50# tanks
- Dual port CGA 660 liquid/vapor valve protected by a threaded steel cap on 123# tank
- Reusable and conforms to DOT-4BA specifications and AHRI guidelines
- Suitable for recovery of R410A refrigerant

D-TEK Stratus™ Refrigerant Leak Detector and Portable Monitor

Hazardous Material Shipping Alert

- Dual mode functionality to find leaks faster
- Cloud hunting mode finds area highest in concentration and classic pinpoint mode locates the exact leak point
- Sensitivity of 0.10 oz./year (3 g/a)
- Detects all CFCs, HCFCs, HFCs and HFOs including A2Ls
- Large easy-to-read LCD display
- Automatic and manual zero modes
- Includes spare filters, AC wall charger, DC vehicle charger, ear buds and carrying case

Warning: This product contains lithium batteries and cannot be shipped by air

Order #	Mfg. #	Each
H86-087	724-202-G1	2699.00

D-TEK® 3 Infrared Refrigerant Leak Detector

Hazardous Material Shipping Alert

- A2L compatible
- Minimum sensitivity of 0.03 oz./year (1 g/a)
- Detects all CFCs, HCFCs, HFCs, HFOs and blends including A2Ls
- Low, medium, high and super sensitivity settings with pinpoint and manual zero modes
- Easy field replacement of sensor
- Optional CO2 sensor sold separately with sensitivity of 0.07 oz./year (2 g/a)
- Includes spare filters, AC wall charger and carrying case

Warning: This product contains lithium batteries and cannot be shipped by air

Order #	Mfg. #	Each

Whisper Ultrasonic Leak Detector

- A2L compatible
- Detects ultrasonic frequencies generated by leaks of any gas under pressure or vacuum
- Uses heterodyne signal to allow leaks to be heard by the human ear
- Adjustable sensitivity
- 165-hour battery life
- Optional **H27-055** transmitter helps check seals in enclosed spaces such as freezer cases or tanks
- Includes rubber probe extension, headphones, batteries and hard plastic storage case
- 2-year replacement warranty

Order #	Mfg. #	Description	Each
H27-054	711-202-G1	Whisper Ultrasonic Leak Detector	**709.00**
H27-055	711-600-G1	Whisper Ultrasonic Transmitter	**285.00**

Refrigerant Monitors

- For standalone constant monitoring of refrigerant gas
- Easy field service with single point calibration
- 3 adjustable alarm set points with relay outputs tie to any system or device
- LDM150R monitors include remote sensors

BigEZ™ Fluorescent Dye Injection System

- A2L compatible
- Concentrated, co-solvent free dye remains safely in the system
- Inject dye into the system with a turn of the handle
- Calibrated cartridge provides exact dosing for multiple systems
- Multi-dose reusable cartridge
- Each cartridge treats up to 16 gallons of lubricant, 400 pounds of refrigerant or 150 tons of cooling
- Compatible with all medium-large sized A/C&R system pressures up to 200 PSI
- BigEZ Complete kit includes SPE-HVL-CS LED flashlight with 3 AAA batteries, SPE-BEZ5E-4CS dye cartridge, BEZ-50 BigEZ dye injector assembly, BEZ-25 hose assembly with low-loss fitting and check valve, UVS-40 glasses and GLO-AWAY Plus dye cleaner

Order #	Mfg. #	Description	Each
H28-586	SPE-HVLBEZE	BigEZ Complete Dye Injection Kit	**815.00**
H28-587	SPE-BEZ5E-4CS	BigEZ Fluorescent Dye Cartridge	**365.00**

EZ-Ject™ Fluorescent Dye Injection System

- A2L compatible
- Concentrated, co-solvent free dye remains safely in the system
- Multi-dose reusable cartridge, inject with the turn of a handle
- Each cartridge treats up to 2 gallons of lubricant, 25 pounds of refrigerant or 12 tons of cooling
- Compatible with all systems and system pressures up to 450 PSI
- EZ-Ject Complete kit includes SPE-HVL-CS LED flashlight with 3 AAA batteries, (2) SPE-EZ5E-CS dye cartridges, EZ-50 EZ-Ject dye injector assembly, EZ-25 hose assembly with low-loss fitting and check valve, 128186 R-410a adapter, UVS-40 glasses and GLO-AWAY Plus dye cleaner
- A2L Compatible
- Standard EZ-Ject kit includes (2) SPE-EZ5E-CS dye cartridges, EZ-50 EZ-Ject dye injector assembly, EZ-25 hose assembly with low-loss fitting and check valve and 128186 R-410a adapter

Order #	Mfg. #	Description	Each
H28-578	SPE-HVLEZE	EZ-Ject Complete Dye Injection Kit	**489.00**

H28-829	SPE-EZDS-CS	EZ-Ject GLO-SEAL Cartridge	**59.00**

GLO-STICK® Fluorescent Dye Capsule System

- A2L compatible
- Convenient and mess-free with single-dose capsules
- Choose from 4 sizes/concentrations to match system capacity
- Inject dye while charging with refrigerant or when connecting from the high side to the low side
- Compatible with all systems and overcomes system pressures up to 450 PSI
- SPE-GS1E-CS capsules treat up to 1.6 quarts of lubricant, 4.9 pounds of refrigerant or 2 tons of cooling
- SPE-GS2E-CS capsules treat up to 3.2 quarts, 9.9 pounds of refrigerant or 6 tons of cooling
- SPE-GS3E-CS capsules treat up to 2 gallons of lubricant, 25 pounds of refrigerant or 12 tons of cooling
- GLO-STICK Complete kit includes SPE-HVL-CS LED flashlight with 3 AAA batteries, SPE-GS1E, SPE-GS2E (2), SPE-GS-3E dye capsules, BV-50 bleed valve, EZ-25 hose assembly with low-loss fitting and check valve, PC-0249 purge capsule, 128186 R-410a adapter, UVS-40 glasses and GLO-AWAY Plus dye cleaner

Flash™ High Resolution UV Dye

Hazardous Material Shipping Alert

- Advanced class of UV dye distributes cleanly and instantaneously
- Flashes into refrigerant as a mist for instant distribution
- Leaks revealed in as little as 15 minutes
- Will not react with moisture
- Clean no mess installation
- Compatible with all oils and refrigerants
- Works with all leak detection lights
- No UV enhancement glasses required
- **B17-320** clear hose sold separately

Order #	Mfg. #	Description	Each
B17-319	980	Flash UV Dye	**44.49**
B17-320	20122	Clear Hose w/ Anti-Blow Back Fitting	**41.49**

SMAN Digital Manifolds with Micron Gauge

NEW

- A2L compatible
- Powerful wireless signal with up to 1000' range
- Displays all critical measurements on one screen
- Wireless compatibility with JL3PC and JL3RH Job Link Probes, SRS3 Scale and Job Link mobile app
- Monitor and record refrigerant weight directly on SMAN using SRS3 scale
- Displays vacuum in microns with timer and alarm
- Data logging stores up to 9 jobs internally with easy export to spreadsheet
- Logs up to 7 days (168 continuous hours)
- Easily check for leaks after repairs or installations with built in tightness test
- Water resistant (IP54 rating)
- Powered by 6 AA batteries
- Includes 2 TC24 type K pipe clamp thermocouples, ATA1 type K bead thermocouple with clip and ANC11 padded drawstring case
- Compatible refrigerants include R11, R12, R13, R22, R23, R32, R113, R114, R115, R116, R123, R124, R125, R134A, R236FA, R245FA, R290, R401A, R401B, R402A, R402B, R403B, R404A, R406A, R407A, R407C, R407F, R408A, R409A, R410A, R413A, R414A, R414B, R416A, R417A ,R417C, R420A, R421A, R421B, R422A, R422B, R422C, R422D, R424A, R427A, R428A, R434A, R438A, R448A, R449A, R450A, R452A, R452B, R453A, R454B, R458A, R500, R501, R502, R503, R507A, R508B, R513A, R600, R600A, R601, R601A, R744, R1233ZD, R1234YF and R1234ZE

Job Link™ Probes

- A2L compatible
- Powerful wireless signal with up to 1000' range
- Directly transmits to iOS or Android devices with free Job Link app
- Pipe clamp Rapid Rail™ sensor stabilizes in under 5 seconds
- Automatic calibration and long battery life
- Powered by 2 AAA batteries per probe (included)
- JL3KR4 Charge Test Kit includes 2 pressure probes, 2 pipe clamps and carrying case
- JL3KH6 Charge and Air Kit includes 2 psychrometer probes, 2 pressure probes, 2 pipe clamps and carrying case

Order #	Mfg. #	Description	Each

550i Digital Manifolds

- A2L compatible
- Fully wireless app-controlled 2-valve digital manifold
- All measurements and documentation via app on your phone or tablet
- Bluetooth 5.0 range of up to 500'
- 90 refrigerants stored with automatic app updates
- Rugged housing with IP54 rated protection
- Includes carrying case
- Compatible refrigerants include R407H, R23, R290, R1234YF, R442A, R134A, R123, R452B, R438A, R421A, R453A, R401B, R1233ZD, R410A, R407A, R407C, R452A, R401A, R422C, R427A, R422B, R424A, R125, R414B, R404A, R408A, R448A, R422D, R12, R114, R421B, R449A, R409A, R420A, R444B, R32, R454A, R124, R402A, R450A, R407F, R416A, R13, R437A, R1234ZE, R454B, R402B, R22, R434A, R454C, R455A, R458A, R500, R502, R503, R507, R513A, R600A, R718 (H_2O), R744 (CO_2), R11, FX80, I12A, R1150, R1270, R13B1, R14, R142B, R152A, R161, R170, R227, R236FA, R245FA, R401C, R406A, R407B, R407D, R41, RA11A, R412A, R413A, R417A, R417B, R417C, R422A, R426A, R508A, R508B, R600, RIS89, SP22

570 4-Valve Digital Manifolds

- A2L compatible
- Long-term measurements with intelligent error analysis
- Measuring accuracy of 0.25% fs
- Up to 360 hours battery life
- IP54 protection class
- Compatible with the testo Smart App
- Carrying case
- **H86-277** includes two testo 115i wireless clamp temperature probes and a 552i wireless vacuum probe
- **H86-278** includes the 115i and 552i probes and a 4 piece hose set

Warning: This product contains lithium batteries and cannot be shipped by air

TITANMAX™ Digital Manifolds

◀ NEW

- A2L compatible
- Bluetooth range up to 1,000'
- Calculates and displays temperatures, pressures, superheat and subcooling
- 5" high resolution, full color, backlit touchscreen display
- On-board data logging
- Pressure hold mode
- External vacuum sensor with high and low alarms
- Temperature clamps for up to 1-5/8" pipes
- Compatible with YJACK VIEW app
- Rechargeable battery with USB-C cable
- Kits include PLUS II hoses and backpack
- **H86-292** wireless kit includes YJACK VAC vacuum gauge and 2 YJACK temperature clamps

2-Valve Heat Pump Manifolds

- Two 800 PSI gauges to read pressures in heating or cooling mode
- Large 3-1/8" gauges with 1% accuracy
- Double O-ring non-rotating pistons for long life
- Full porting maximizes capacity and flow
- Forged brass body for durability
- Lifetime warranty on manifold bar and stem assembly

4-Valve CO2 Manifolds

- For use with transcritical CO2 systems
- Large, easy-to-read 3-1/2" liquid-filled gauges
- Double o-ring for reliability and long service life
- Mesh in-line filter on all flare fittings
- No sight glass for added safety
- 3/8" vacuum port for faster evacuations
- Includes 3/8" vacuum hose, (3) 1/4" 6' hoses and carrying case

Order #	Mfg. #	Description	Each
H86-173	45925	C02 Transcritical CO2 Manifold Kit w/Hoses	**2045.00**
H86-174	45930	C02 Transcritical CO2 Manifold Kit w/Hoses and Quick Couplers	**3145.00**

Hydrocarbon Charging Kit

- Complete kit to charge and service R290 and R600A hydrocarbon systems
- Single valve manifold and small ID hoses allow for effective system pressure measurement while minimizing the impact on the system charge
- Kit includes compact charging scale, bottle stand for inverted liquid charging, single valve manifold with 24" REFFLEX® charging hoses, bottle valve for 7/16" threaded bottles, bottle adapter for 1" threaded bottles, 90° quick-coupler fitting for compatibility with piercing and other right-angle bottle valves, line tap valve for system connection to 1/4", 5/16" or 3/8" process lines, pinch-off tool for crimping process tube, safety placard and carrying case

Order #	Mfg. #	Each
H86-172	61001	**1099.00**

Single Manifold Gauge for Hydrocarbon Refrigerants

- Quickly check pressure on hydrocarbon systems
- Nylon seal with double O-ring piston

Order #	Mfg. #	Description	Each
H28-673	40339	High Side Manifold for R290, R600, R600a	**175.00**
H28-674	40340	Low Side Manifold for R290, R600, R600a	**175.00**

Mini-Split Tool Kits

- Complete kit for mini-split installation and service
- Heat pump manifold handles all mini-split refrigerants and pressures
- 60" PLUS II 1/4" hose set (red, yellow and blue)
- Eccentric cone flare tool flares 3/16" to 3/4" O.D. tubing
- Hex Key Set includes 5/32", 3/16", 5mm and 6mm
- Adjustable Digital Torque Wrench displays torque measurement and features adjustable spanner head for flare nut sizes 5 to 30 mm
- Tube cutter, deburring tool and 16" nylon tool bag

REFFLEX® Charging Hoses for Hydrocarbon Refrigerants

- For use with R290 and R600A
- Highly flexible with short bending radius
- Absorbs multi directional vibrations
- Rated for 1,160 PSI working pressure and 14,500 PSI burst pressure
- Ozone, UV and oil resistant

Order #	Mfg. #	Description	Each

Mini-Split Tool Kits

- Eccentric cone flare tool flares 3/16" to 3/4"
- Hex key set includes 5/64" to 1/4" and 2mm to 8mm
- Adjustable torque wrench set, range of 10 to 80 Nm (7.375 to 59.004 ft/lb.)
- Nylon tool bag with strap, rubber feet and 20 pockets
- 2 brass adapters
- Complete kit for mini-split installation and service; Patriot R410A brass manifold with 2-1/2" gauges and 360° swiveling hose holders; 60" Kobra hose set with UL approved low loss fittings; Valve core remover and 5 brass caps; 4 Shield refrigerant locking caps with 1 tamper resistant bit
- Basic kit for mini-split installation and service; includes tool bag instead of backpack and does not include manifold, hoses or Shield caps

Order #	Mfg. #	Description	Each
H85-891	MSKIT1	Complete Mini-Split Kit with 1/4" Tools	**1245.00**
H85-892	MSKIT2	Complete Mini-Split Kit with 5/16" Tools	**1245.00**
H85-924	MSKIT3	Basic Mini-Split Kit with 1/4" and 5/16" Tools	**755.00**

VaporVue Charging Device

- Connects to the low side of charging manifold to increase charging rate up to 8 times
- Absorbs heat and flashes liquid refrigerant from the cylinder and charges into the system as a vapor preventing slugging and damaging the compressor
- Easily monitor vapor rate through the double sight glass
- Place over hot discharge airflow of the condensing unit to increase charging rate efficiency
- Pressure tested at 800 psi

Order #	Mfg. #	Description	Each
H27-503	VV1	Vapor Vue with 1/4" Flare Fittings	**155.00**

EZ Turn™ Anti-Blowback Adaptors

- Reduces friction so service hose easily connects to access fitting under pressure
- Deep square knurling and textured band for easy fingertip control
- Compatible for R-410A and all CFC, HCFC and HFC refrigerants
- Rated for 800 PSI working pressure and 4,000 PSI burst pressure
- **B19-528** repair kit includes spring, depressor, square seat, O-ring and gasket

H27-816	HVAC STRAP	Magnetic manifold gauge holder	**48.49**

Charging Jacket

- Use to charge TXV systems in cold weather
- Works in outside temperatures between 37°F and 70°F
- Easily attaches to the condensing unit with hooks and drawstring
- Simply adjust until proper difference between high and low side pressures is reached

Order #	Mfg. #	Description	Each
H85-647	S365	TXV charging jacket	**319.00**

Kobra Charging Hoses with Ball Valves

- Quarter turn lever style ball valves trap refrigerant in the hose to help meet non-venting requirements
- Blowout resistant gasket
- Rated for 800 PSI working pressure and 4,000 PSI burst pressure
- Compatible with R410A

Order #	Mfg. #	Description	Length	Each

A2L Kobra Charging Hoses

- Left-hand thread fitting on yellow hose
- Blowout resistant gasket
- Rated for 800 PSI working pressure and 4,000 burst pressure
- Compatible with R410A, R32, R454B

Order #	Mfg. #	Description	Length	Each
B22-835	CCLE-A2L-60	CLE Series Yellow, Red & Blue Hose Set	5'	**215.00**
B22-838	CLE-A2L-60Y	CLE Series Yellow Hose	5'	**85.00**

Kobra Charging Hoses with Whip End and Ball Valves

- Quarter turn lever style ball valves trap refrigerant in the hose to help meet non-venting requirements
- Whip ends are great for tight spaces or retrofitting a CLE series hose to non-venting
- Rated for 800 PSI working pressure and 4,000 PSI burst pressure
- Compatible with R410A

Shut-Off Valve

- Great for blanking off systems
- 1/4" female quick coupler x 1/4" flare

Order #	Mfg. #	Description	Each
H28-110	D10162	1/4" Female QC x 1/4" flare Shut-Off Valve	**85.00**

Insta-Charge Low Side Charging Adapter

- Converts liquid refrigerant to a saturated vapor for faster charging
- Unique internal restrictor reduces liquid flow to a level below the compressor capacity
- Connects directly to the refrigerant can or cylinder valve
- No need to heat the refrigerant cylinder while charging

Order #	Mfg. #	Each
B12-407	RC-1	**35.99**

Liquid Charging Adapters

- For fast liquid charging through the low side of a system
- Metering element reduces liquid flow below capacity of the compressor
- Eliminates the need to heat the refrigerant cylinder while charging

Order #	Mfg. #	Description	Each
B17-936	LC-4	1/4" Liquid Charging Adapter	**55.00**
B17-937	LC-5	5/16" Liquid Charging Adapter	**59.00**

Micron Gauge Blankoff Test Unit

- Isolate your micron gauge to check for vacuum
- Close off the micron gauge and open the refrigerant line for quick and easy charging
- Use with manifold and charging hoses

Order #	Mfg. #	Each
H26-476	DV-29	**445.00**

Eliminator Vacuum Pumps

- SP and DC models are A2L compatible
- Two-stage design
- Break-resistant steel cushioned handle
- O-ring seal drain valve
- Made in the U.S.A.
- DV-6E-250SP is spark-proof

Specifications:
- Factory rating: 25 microns
- Voltage: 115V (DV-4E, DV-6E), 115/230V dual voltage (DV-6E-250, DV-6E-250SP)

Order #	Mfg. #	CFM	Motor HP	Oil Cap.	Conn. Size	Length	Width	Height	Wt. Lbs.	Each

Platinum Vacuum Pumps

- SP and DC models are A2L compatible
- Two-stage design
- Blank-off valve isolates pump and assists in determining a leak within the system
- Check valve prevents oil from back flowing during power failure
- Internal oil filter protects pump from particle damage
- Protected oil drain
- Non-slip cushioned handle, tilted upward to prevent oil leakage
- 10' lead cord
- Made in the U.S.A.
- DV-200N-250SP is spark-proof

Specifications:
- Factory rating: 15 microns
- Voltage: 115V (DV-85N, DV-142N, DV-200N, DV-285N), 115/230V dual voltage (DV-200N-250, DV-200N-250SP)

Platinum Flex AC/Battery Vacuum Pumps

- Cordless vacuum pumps powered by 18V lithium-ion battery or AC
- Easy access 1/4", 3/8" or 1/2" intake tee
- 15-micron vacuum rating
- Gas ballast and blank-off isolation valve
- Ergonomic 1/2" NPT exhaust handle with lift ring
- Large, easy-to-see oil level sight glass with easy access oil fill located on cover
- O-ring sealed oil drain valve to prevent leaks and tethered safety cap to prevent spills
- Battery run time of approximately 90 minutes on 3 CFM models and 60 minutes on 5 CFM models

Warning: This product contains lithium batteries and cannot be shipped by air

Vacuum Pump Repair Kits

- Kit consists of drain valve, rubber foot and screw assembly (2), motor foot and screw, flexible shaft coupler and sight glass

Order #	Mfg. #	Description	Each
H25-762	PR-45	Repair Kit (for Platinum Series)	**125.00**
H26-477	PR-208	Flexible Coupler (for Platinum/Eliminator Series)	**65.00**
H26-689	PR-6	Flexible Coupler (DV-3/5/42 manufactured prior to 2001)	**65.00**

The TANK Vacuum Pump Oil Caddy

- Easily change vacuum pump oil in between jobs
- No more mess and spills
- Extends the life of your vacuum pump and ensures pump is running at maximum efficiency
- Vacuum pump not included

Order #	Mfg. #	Each
H85-742	DV-T1	**105.00**

Vacuum Pump Oil

- High quality, low-vapor pressure mineral oil is specially formulated for use in all deep vacuum mechanical pumps manufactured by JB Industries and others
- For best results use fresh vacuum pump oil for each job and avoid storing oil in partially empty containers

Order #	Mfg. #	Description	Each
H85-165	DVO-1-BX	Pint	**27.99**
H85-227	DVO-12-BX	Quart	**46.49**
H85-096	DVO-24-BX	Gallon	**115.00**

Velocity Rapid Evacuation Kit

- A2L compatible
- Remove valve cores and perform system evacuations up to 10 times faster with 1/2" diameter hose
- Includes valve core removal tool and 5' black hose
- 3/8" x 1/4" SAE flare
- Vacuum-rated to 20 microns

Order #	Mfg. #	Each
H28-455	VL-100	**405.00**

Accelerator Rapid Evacuation Kit

- Paired with a JB vacuum pump allows technicians to remove restrictive valve cores and perform HVAC/R system evacuations up to 20x Faster
- 1/2" diameter vacuum certified hose will not collapse or permeate
- Vacuum rated to 20 microns
- Easily attaches and protects vacuum gauge with the slide valve side port
- Includes (2) Y-FORCE dual high-speed coupler connectors, A32525SV valve core removal tool, A32525N valve core removal tool, (2) CL264-48 48" evacuation hoses with female swivel hose connections and drawstring storage bag

Order #	Mfg. #	Each
H86-167	VL-200	**975.00**

Y-FORCE Dual High-Speed Coupler Connectors

- Speed up evacuation with dual hose connections
- Vacuum rated and designed for high-pressure refrigerants
- Rugged solid brass construction
- Use with any vacuum pump

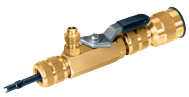
Order #	Mfg. #	Description	Each
H28-737	QC-206	3/8" Y-FORCE Coupler Connector	**129.00**
H28-738	QC-208	1/2" Y-FORCE Coupler Connector	**129.00**

Valve Core Removal Tool

- Designed for removal or replacement of valve cores
- Contains 1/4" bit with six extra valve cores
- Hollow handle allows for storage of valve cores

Order #	Mfg. #	Each
H24-946	A32004	**36.49**

Valve Core Removal Tools



- Designed to remove and replace valve cores without losing system charge
- Speed up evacuation, recovery or recharging with full unrestricted flow
- Includes side port for vacuum measurement

Order #	Mfg. #	Description	Each
H27-361	A32525N	1/4" Valve Core Removal Tool	**155.00**
H27-573	A32530N	5/16" Valve Core Removal Tool	**165.00**

Slide Valve Core Removal Tools

- Designed to remove and replace valve cores without losing system charge
- Convenient slide valve side port to accommodate a vacuum gauge
- In-line actuated handle for easy open/close
- A32525SVT automatically sets torque 3 to 5 in.-lb.

Order #	Mfg. #	Description	Each
H28-735	A32525SV	Slide Valve Core Removal Tool	**195.00**
H28-736	A32525SVT	Slide Valve Core Removal Torque Tool	**249.00**

Valve Core Torque Tool

- Calibrated to precise torquing requirements for valve cores
- Won't tighten after proper torque is achieved

Order #	Mfg. #	Each
H27-114	A32008	**65.00**

CoreMax® Service SnapMate® High-Flow Connector

- Provides quick and easy connections to CoreMax valve cores as well as standard 1/4" access valves
- Brass body and hardened steel sleeve

Order #	Mfg. #	Each
B20-657	CM-SNAP	**515.00**

CoreMax® Valve Core Removal Tool

- Designed for removal or replacement of CoreMax valve cores without refrigerant loss
- Stainless steel handle, heavy duty brass body and ball bearing quick connect coupler

Order #	Mfg. #	Each
H28-423	CM-CRTOOL	**975.00**

CoreMax® Manual Torque Wrench

- Used to install CoreMax valve cores into seat with proper torque
- Handle grip for easier control

Order #	Mfg. #	Each
H28-424	CM-TRQ	**889.00**

Bullet™ Vacuum Pumps

- High efficiency two-stage design
- Heavy-duty rotors and bearings
- Wide mouth oil reservoir port for easier and cleaner filling
- Oil reservior port doubles as pump exhaust and is threaded to attach garden hose for exhausting to remote location
- Large oil sight glass for easy monitoring of oil level
- Large brass oil drain for fast oil changes
- Internal intake check valve prevents oil backup into the system during a power failure
- Intake filter screen keeps damaging particles from entering the pump
- Made in the U.S.A.
- **H86-201** is A2L compatible

Specifications:
- Factory rating: 25 microns
- Voltage: 115V/60 Hz

SuperEvac™ PLUS II Vacuum Pumps

- A2L compatible
- High efficiency two-stage design with high torque brushless DC motor
- Wide mouth oil reservoir port for easier, cleaner filling
- Isolation valve for oil changes without losing vacuum in the system
- Internal intake check valve to help prevent oil backup into the system
- Shoulder strap for easy carrying
- Non-sparking switch

Specifications:
- Factory rating: 15 microns
- Voltage: 115V/60 Hz

Vacuum Pump Replacement Coupling

- For use with Bullet and Superevac vacuum pumps

Order #	Mfg. #	Each
H27-246	93047	**65.00**

SuperEvac™ Evacuation Manifold

- Decreases vacuum time by over 50% and improves micron readings
- Mounts with 1/2" female flare quick coupler and provides easy connection for two 3/8" vacuum hoses
- Extra port for connecting micron gauge or charging cylinder
- Convenient 1/4 turn, full flow shutoff valve
- Includes 3/8" adapter for competitor pumps

Order #	Mfg. #	Each
H25-576	93850	**259.00**

MegaFlow Vacuum Speed Kit-V

- Faster evacuation with unrestricted full flow
- Easy to hook-up multiple simultaneous connections
- All components vacuum rated to 20 microns
- Includes (2) 1/4" and (2) 5/16" Valve Core Removal Tools, (2) 1/2" x 6' black MegaFlow hoses, 1/2" and 3/8" Speed-Y Fittings and MegaFlow tool bag

Order #	Mfg. #	Each
H86-125	SPDKIT-V	**1299.00**

MegaFlow Recovery Speed Kit-R

- Faster recovery with unrestricted full flow
- Easy to hook-up multiple connections to a recovery unit
- All components vacuum rated to 20 microns
- Includes (2) 1/4" and (2) 5/16" Valve Core Removal Tools, (2) 3/8" x 6' (red/blue) MegaFlow hoses, 1/4" x 4' yellow MegaFlow hose, 3/8" x 1' drier hose, 3/8" Speed-Y Fitting and MegaFlow tool bag

Order #	Mfg. #	Each
H86-126	SPDKIT-R	**1199.00**

MegaFlow™ Speed Kit Replacement Parts and Accessories

- All components are vacuum-rated to 20 microns
- 1/2" bore forged aluminum manifold with 7 ports for multiple high-flow connections
- Manifold knobs are ball bearing-actuated for easy operation under high pressure
- Manifold diaphragm valves are vacuum-tight when finger-tight
- Ultra-flexible, larger diameter hoses with open, unrestricted fittings for greater flow and faster evacuation and recovery speeds

Order #	Mfg. #	Description	Each
B17-371	MH380006EAR	6' Red MegaFlow 3/8" Hose (1/4" to 3/8")	**135.00**
B17-372	MH380006EAB	6' Blue MegaFlow 3/8" Hose (1/4" to 3/8")	**135.00**
B17-373	MH120006EAK	6' Black MegaFlow 1/2" Hose (1/4" to 3/8")	**195.00**
B18-279	MH380006AAY	6' Yellow MegaFlow 3/8" Hose (1/4" to 1/4")	**135.00**
B21-541	MH380001BAB	1' Blue MegaFlow 3/8" Filter-Drier Adapter Hose (1/4" to 1/4")	**105.00**

Order #	Mfg. #	Description	Each
B21-542	MH380004AAY	4' Yellow MegaFlow 3/8" Hose (1/4" to 1/4")	**115.00**
H28-592	KT11AA-R	1/4" MegaFlow Hose Gaskets (10-Pk.)	**65.00**
H28-593	KT11EE-R	3/8" MegaFlow Hose Gaskets (10-Pk.)	**75.00**
H28-594	KT11GG-R	1/2" MegaFlow Hose Gaskets (10-Pk.)	**79.00**

Hose Hangers

- Easily hang and organize recovery and evacuation hoses
- Keeps hoses clean, dry and free of contaminates
- Protect hose fittings and gaskets from damage

Order #	Mfg. #	Description	Each
H28-678	HH1414	1/4" x 1/4" Hose Hanger (5-Pk.)	**75.00**
H28-679	HH1438	3/8" x 1/4" Hose Hanger (5-Pk.)	**75.00**

MegaFlow Speed-Y Fittings

- Maximizes hose connections
- Merging flow paths eliminates flow restrictions
- Faster evacuation and recovery with unrestricted full flow
- No manifold required, eliminates the tangle of hoses and potential leak points
- Vacuum rated to 20 microns
- Aircraft-Grade aluminum

Order #	Mfg. #	Description	Each
H28-675	SPDY12	Speed-Y Fitting (2 x 3/8" MFL to 1/2" FFL)	**189.00**
H28-676	SPDY14	Speed-Y Fitting (2 x 3/8" MFL to 1/4" FFL)	**185.00**
H28-677	SPDY38	Speed-Y Fitting (2 x 3/8" MFL to 3/8" FFL)	**189.00**

MegaFlow™ Basics Kits

- For use with vacuum pumps (5CFM or more) with 3/8" inlets
- 1/2" ID hose for increased speed and reduced evacuation time
- Vacuum-rated to 20 microns
- Includes MegaFlow 1/4"valve core removal tool and 6' black hose

Order #	Mfg. #	Description	Each
H27-202	MGABAS	1/4" MegaFlow Basics Kit	**335.00**
H28-488	MGABRO	5/16" MegaFlow Basics Kit	**335.00**

MegaFlow™ Valve Core Removal Tools

NEW

- Removes restrictive access valve cores for high-speed recovery and evacuation
- Rated to hold a 20 micron vacuum
- Compatible with all common refrigerants and oils, including R410a
- Remove and replace valve cores without exposing system to atmosphere
- 1/4" side access port for inline vacuum gauge measurement

Order #	Mfg. #	Description	Each
H26-921	MGAVCT	1/4" Valve Core Removal Tool	**169.00**
H27-056	MGAVCR	5/16" Valve Core Removal Tool	**169.00**
H28-629	KTMV25	Valve Core Tool Rebuild Kit	**129.00**
H29-027	KTMV50	Valve Core O-Rings	**129.00**

Core Control Tools

- Vacuum rated to 20 microns
- 1/4" side port for gauge or hose connections
- Compatible with high-pressure refrigerants
- Double O-Ring design
- Aircraft-grade aluminum
- 1/4" and 5/16" Female flare fittings available

Order #	Mfg. #	Description	Each
H28-888	CCT14	1/4" Vacuum-Rated Core Control Tool	**145.00**
H28-889	CCT516	5/16" Vacuum-Rated Core Control Tool	**145.00**

MegaSeal™ Tools and Accessories

Order #	Mfg. #	Description	Each
B20-536	CTEE14	Low-Loss Charging T-Fitting (1/4" Flare)	**135.00**
B20-537	CTEE516	Low-Loss Charging T-Fitting (5/16" Flare)	**135.00**

Order #	Mfg. #	Description	Each
B20-538	VFL45L	4" 45° Vacuum-Rated Connector (1/4" F-Flare)	**109.00**
B20-628	VFL90L	4" 90° Vacuum-Rated Connector (1/4" F-Flare)	**109.00**

Wireless Full Range Digital Vacuum Gauge

- A2L compatible
- Full range response and accurate measurements from atmosphere to 1 micron
- Free ION app enables remote viewing and advanced features on your Smartphone or tablet
- ION App features include rate of change, alarms and reporting
- Reveal extreme leak points, helping avoid preventable delays
- Rubberized water resistant housing (IP65 Rated)
- Optional auto power off (15 minutes with no change)
- Large, easy-to-read backlit LCD & easy-to-clean sensors
- Certifiable and NIST traceable accuracy
- Displays 6 different units of measurement

Order #	Mfg. #	Each
H27-760	AV760	**1099.00**

SUPEREVAC™ Vacuum Gauge

- Full range measurements from atmosphere to 1 micron
- Automatic ambient temperature and battery compensation
- Calibration standards traceable to (NIST)
- 5.5' sensor cable
- Automatic shutoff after 20 minutes
- Powered by D battery (included)

Order #	Mfg. #	Each
H28-380	69075	**965.00**

Digital Vacuum Gauge

- Patented thermal conductivity sensor automatically compensates for temperature
- Replaceable, cleanable plug-in sensor handles 450 PSI positive pressure
- Digital display reads microns, milliTorr, Torr, millimeters of mercury, millibar, kiloPascal and Pascal
- Calibration standards traceable to (NIST)
- 12" coiled sensor cord stretches to 24" for easy reach, connectivity and display readability
- Numeric readout: 25,000 to 10 microns
- Operating temperature range: +32°F to +122°F
- Automatic shutoff after 20 minutes
- Includes 9V battery

Order #	Mfg. #	Description	Each
H26-665	69086	Digital Vacuum Gauge	**699.00**
H26-666	69087	Replacement Sensor	**189.00**

Omni™ Digital Vacuum Gauges

- Easy-to-use, compact vacuum gauges
- Measures vacuum in microns, Pascals, mBar and mmHg
- Audio and visual signal when target vacuum level is reached
- Electronic paper display for clear visibility, even in direct sunlight
- 45° fitting
- Low battery indicator and automatic power-down when inactive
- Includes 2 AAA batteries

Order #	Mfg. #	Description	Each
H28-425	69020	Omni Vacuum Gauge (1/4" Coupler)	**459.00**
H28-426	69021	Omni Vacuum Gauge (5/16" Coupler)	**459.00**

Vacuum Sensor Cleaning Kit

- Use to clean sensors on ManTooth and Omni/69086 vacuum gauges
- Includes syringe, tubing and adapters

Order #	Mfg. #	Each
H28-671	69030	**79.00**

Supernova Digital Vacuum Gauge

- Large, easy-to-read backlit display
- 3' coiled sensor cord stretches to 6 feet
- Accurate from 10 to 12,000 microns
- Measures in microns, PSI, inHg, Pascals, Torrs, mTorrs and mBars
- Programmable alarm, shutoff and backlight
- Factory calibrated and requires no additional calibration

Order #	Mfg. #	Description	Each
H27-110	DV-41	Vacuum Gauge w/Case and AC Adapter	**739.00**
H26-982	DV-40C	Carrying Case and AC Adapter	**125.00**
H26-983	DV-40AC	AC Adapter	**55.00**

Digital Vacuum Gauges

- Large, easy-to-read backlit display
- Accurate from 10 to 100,000 microns
- Measurements in microns, mBar, Torr and Pascals
- Audio and visual alarms when target vacuum level is achieved
- Includes 3 AAA batteries

Order #	Mfg. #	Description	Each
H25-973	DV-22N	Digital Vacuum Gauge	**555.00**
H28-505	DV-24N	Digital Vacuum Gauge with Case	**585.00**
H27-283	P90009	Replacement O-Ring (10-Pk.)	**16.49**

Wireless Vacuum Gauge

- A2L compatible
- Easy-to-read backlit LCD with bar graph
- Measurement range 50 to 25,000 microns
- Powerful wireless signal with up to 1,000' range
- View readings on your smart device with the Job Link App or on your SMAN digital manifold
- High/low alarms
- IP54 water resistance
- Includes 2 AA batteries

Order #	Mfg. #	Each
H28-730	MG44	**559.00**

Electronic Refrigerant Scale with Alarm

- 110 lb. capacity with 0.25 oz. resolution
- Integrated charge/recover weight alarm
- Full numeric keypad for easy operation
- Strong magnetic back on handset
- Includes soft carrying case

Order #	Mfg. #	Each
H28-135	SRS1	**509.00**

©2024 Johnstone Supply, LLC

Wireless Refrigerant Scale

- 13" platform
- Load capacity up to 252 lbs
- Accuracy range ±0.03%rdg + 0.25 oz
- 200+ hours battery life
- IP64 weather resistant rating
- Job Link compatible
- Includes wireless LED remote, carrying case, 9V and 6 AA batteries

Order #	Mfg. #	Each
H28-848	SR47	**795.00**

Atlas Electronic Refrigerant Scale

- Compatible with all refrigerants including R410A
- 220 lb. capacity with 0.25 oz. resolution
- Powered by 9V battery (not included)
- Includes heavy-duty storage case

Order #	Mfg. #	Each
H86-023	DS-20000	**659.00**

Atlas Wireless Electronic Refrigerant Scale

- Wireless connection to smart devices via app
- Wired full color LCD display on removable handset
- 250 lb. capacity
- Job time recording/data logging with email capability
- Programmable weight alarms
- Adjustable units of measurement
- Slip-resistant platform and water-resistant design
- Powered by 4 AA batteries (included)
- Includes durable blow molded case
- Wired handset includes built-in magnets and hanging hook

Order #	Mfg. #	Each
H86-192	DS-250	**679.00**

Atlas Propane Scale

- Accurately measure R600a and R290
- Resolution accuracy within 0.1oz
- Capacity up to 11 lbs.
- Inverted and Upright charging orientations
- Includes charging valve for precise charging
- Schrader valves to prevent loss/leaks
- Includes CLRF Series hoses

Order #	Mfg. #	Description	Each
H86-203	DS-5000	Propane Scale	**505.00**
B22-752	DSR-290SS	¼" Female Secure Seal Fitting (7/16-28)	**69.00**
B22-753	DSR-290LDL	1" Male Lindal Fitting (7/16-28)	**37.99**

560i Refrigerant Scale and Intelligent Valve

- Wireless Bluetooth and digital connection up to 100'
- Highly accurate with .02lb. resolution
- 220 lb. maximum load for all common refrigerant containers
- Dust and water protection (IP44)
- Up to 70 hours battery life
- Compatible with testo Smart App
- Purchase separately or kit option available with scale and intelligent valve

Order #	Mfg. #	Description	Each
H28-825	0564-1560-01	Wireless Refrigerant Scale	**805.00**
H28-826	0564-2560-01	Wireless Refrigerant Scale and Valve Kit	**1299.00**
H28-827	0560-5600-01	Wireless Refrigeration Valve	**545.00**

Flaring/Swaging Spin Sets

NEW

- Flare or swage copper and aluminum tubing in seconds without deburring or clamping tools
- Preserves the malleability of tubing during flaring/swaging without cracks
- Stopper ensures the same size flare/swage every time
- Compatible with corded and 18V cordless drills with at least 1,800 RPM
- **H28-130** includes 1/4", 3/8", 1/2" and 5/8" bits
- **H28-131** includes 1/4", 3/8", 1/2", 5/8" and 3/4" bits
- **H29-030** includes 1/4", 3/8", 1/2", 5/8", 3/4", and 7/8" bits
- **H28-133** includes 1/4", 3/8", 1/2", 5/8", 3/4" and 7/8" bits

Order #	Mfg. #	Description	Each
H28-130	F4000	Flaring Spin Set (4-Pc.)	**215.00**
H28-131	F5000	Flaring Spin Set (5-Pc.)	**235.00**
H29-030	F6000	Flaring Spin Set (6-Pc.)	**285.00**
H28-133	S6000	Swaging Spin Set (6-Pc.)	**285.00**

PRO-Fit™ Flaring and Swaging Kits

RECTORSEAL — A CSW Industrials Company
PRO-Fit™ PRECISION FLARING KIT

- Flares or swages in copper and aluminum tubing in seconds
- Stopper ensures a consistent length
- Compatible with corded and 12V cordless drills with at least 2,000 RPM
- Standard 1/4" hex shank with color coded bits for easy identification
- Includes durable see-through case
- Flaring kit includes 1/4", 3/8", 1/2", 5/8" and 3/4" bits
- Swaging kit includes 1/4", 3/8", 1/2", 5/8", 3/4" and 7/8" bits

Order #	Mfg. #	Description	Each
H28-555	87001	Pro-Fit Flaring Kit (5-Pc.)	**279.00**
H28-556	87011	Pro-Fit Swaging Kit (6-Pc.)	**315.00**

Pinch-Off Tool

YELLOW JACKET

- Allows you to close suction line for testing compressor pumping efficiency and then reopen the line to restore normal flow
- For 1/4", 5/16", 3/8" and 1/2" O.D. tubing

Order #	Mfg. #	Each
H25-298	60665	**65.00**

Tube Expander/Swager Kit

YELLOW JACKET

- Expands 3/8" to 1-1/8" O.D. tubing
- Provides precise swaging on the job
- Able to re-round deformed tube and fitting ends
- Salvage shorts and scrap to make couplings
- Includes handles, 6 expander heads, deburring tool and steel carrying case

Order #	Mfg. #	Each
H85-511	60407	**939.00**

Hydraulic Tube Expander Kit

YELLOW JACKET

- Expands 3/8” to 1-5/8” O.D. tubing with one-hand operation
- Save time and money by eliminating fittings, soldering points and materials
- Includes hydraulic expander pump, 3/8”, 1/2”, 5/8”, 3/4”, 7/8”, 1-1/8”, 1-3/8” and 1-5/8” expander heads, tubing cutter, inner-outer reamer and carrying case

Order #	Mfg. #	Each
H27-358	60493	**1345.00**

Deluxe Flaring Tool

YELLOW JACKET

- Automatic tube height gauge
- Bearings and cam allow burnishing action
- Self-centering flaring yoke
- Multi-faceted burnishing cone rolls out smooth, polished flare seat
- Jaws grip without marring or constricting tube
- Rugged one-piece for dependable long-life performance
- Full range: 1/8" to 3/4" O.D.

Order #	Mfg. #	Each
H26-428	60278	**415.00**

Electric/Manual Lightweight Flaring Tools

YELLOW JACKET

- Use with a cordless or corded power tool for fast flaring
- Aluminum body and bar for lighter weight than traditional steel designs
- Hardened, polished eccentric cone with 45° flare produces a rolling action for uniform flare walls
- Built-in slide gauge to easily meet the desired flare sizes
- Built-in clutch release prevents over-torquing
- Includes carrying case and handle for manual flaring
- **H28-103** includes 6 positions for 1/4”, 5/16”, 3/8”, 1/2”, 5/8” and 3/4” O.D. tubing
- **H28-104** includes 6 positions for 6mm, 8mm, 10mm, 12mm, 16mm and 18mm O.D. tubing

Order #	Mfg. #	Description	Each
H28-103	60241	Standard Power/Manual Flaring Tool	**669.00**
H28-104	60242	Metric Power/Manual Flaring Tool	**699.00**

©2024 Johnstone Supply, LLC

Lightweight Flare and Swage Kits

- Aluminum body and bar for lighter weight than traditional steel designs
- Quick connect feature on yoke for easy flaring and swaging
- Built-in slide gauge to easily meet the desired flare sizes
- Includes carrying case
- **H28-101** includes 6 positions for 1/4", 5/16", 3/8", 1/2", 5/8" and 3/4" O.D. tubing
- **H28-102** includes 6 positions for 1/4", 5/16", 3/8", 1/2", 5/8" and 3/4" O.D. tubing and 6 positions for 6mm, 8mm, 10mm, 12mm, 16mm and 18 mm O.D. tube

Order #	Mfg. #	Description	Each
H28-101	60430	Standard Flare and Swage Kit	**525.00**
H28-102	60431	Standard/Metric Flare and Swage Kit	**699.00**

Flare and Swage Kit

- Flares and swages soft copper using interchangeable adapters
- Chrome plated adapters, flare bars, flare cone and yoke
- Flares: 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 5/8" and 3/4" O.D. copper
- Swages: 3/16", 1/4", 5/16", 3/8", 1/2", 5/8" and 3/4" O.D. copper
- Includes deluxe blow molded carrying case

Order #	Mfg. #	Description	Each
H25-407	60440	Swaging and 45° Flaring Tool Kit	**375.00**

45° Flaring Tool

- Self-centering yoke and swivel-type flaring cone makes accurate SAE flares on 7 sizes of tubing
- Flaring bars are hardened steel and yoke is forged steel; both are nickel-chrome plated
- Flares: 3/16", 1/4", 5/16", 3/8", 7/16", 1/2" and 5/8" O.D. tubing

Order #	Mfg. #	Each
H25-301	60210	**105.00**

Slide Block Flare Tool

- Slip-on steel yoke locks on bar with a twist
- Chrome plated burnishing cone polishes flare seat for optimum sealing surface
- Flare 3/16" through 5/8" sizes using heat-treated dies
- Die blocks hold tubing firmly in place

Order #	Mfg. #	Each
H25-405	60270	**215.00**

Heavy-Duty Large Flaring Tool

- Hardened steel flaring bar
- Forged steel yoke
- For sizes 3/4", 7/8", 1" and 1-1/8" O.D.

Order #	Mfg. #	Each
H25-406	60290	**315.00**

Eccentric Cone Flaring Tool

- Off-center hardened steel cone produces a rolling action for uniform flare walls
- Black oxide-finished steel flaring bars are heat-treated for durability and secure grip on tubing
- Flares 3/16" to 3/4" O.D. tubing
- Recommended by some mini-split manufacturers for R410A flare

Order #	Mfg. #	Each
H26-864	60295	**315.00**

Swaging Tool

- Made of fatigue-proof steel with precision ground to size
- Bright chrome finish
- Expands 3/16", 1/4", 5/16", 3/8", 1/2" and 5/8" tube

Order #	Mfg. #	Each
H24-266	60460	**44.49**

Swaging Tools

- Safety turned and chamfered heads
- Exclusive bell-chamfer to meet recognized aluminum tube soldering practice
- Brite-plated, heat treated hex steel

Flaring Tools

- **H26-820** flares 3/16", 1/4", 5/16", 3/8" and 7/16" O.D. (1/8", 1/4", 3/8" and 1/2" nominal)
- **H26-821** flares 3/16", 1/4", 5/16", 3/8", 1/2" and 5/8" O.D.

Order #	Mfg. #	Description	Each
H26-820	T20195	3/16" to 7/16" Flaring Tool	**159.00**
H26-821	T20500	3/16" to 5/8" Flaring Tool	**135.00**

Eccentric Cone Flaring Tool

- Off-center hardened steel cone produces a rolling action for uniform flare walls
- Built-in ratchet action has an internal clutch to prevent over-torqueing
- Flares 3/16" to 3/4" O.D. tubing
- Recommended by some mini-split manufacturers for R410A flare

Order #	Mfg. #	Each
H28-055	T30600	**375.00**

Metal Flare Size Gauge

- Designed to measure all flares to provide superior seal tightness against flare fittings
- 1/4", 3/8", 1/2", 5/8", 3/4" SAE

Order #	Mfg. #	Each
H28-664	T30600-G	**59.00**

Evacuation Recovery Tool

- Quick release trigger punctures large holes into the line for discharge of a recovery unit
- Fits 3/16" to 7/8" O.D. hard tubing

Order #	Mfg. #	Description	Each
H26-937	A32100	Evacuation Recovery Tool	**149.00**
H26-938	A32101	Replacement Needle Assembly	**37.49**

Capillary Tubing Cutting Tool

- Sturdy design
- Clean cut
- No chips
- No collapse of tube

Order #	Mfg. #	Each
H26-369	A10973	**33.99**

Capillary Tubing Gauge and File

- Specifically designed file to cut and open tube
- Precision engineered
- Stainless steel with black etched numbers
- Stainless steel wire plugs
- 14 I.D. sizes from .026" to .090"
- 22 O.D. sizes from .072" to 7/16"

Order #	Mfg. #	Description	Each
H26-368	A10971	Capillary Tubing Gauge and File Set	**85.00**
H28-438	A10972	Capillary Tubing File	**28.99**

Tight Spaces Tubing Cutters

- Non-slip grooved body only needs 1/2" clearance to cut
- Color coded for easy tool recognition and cutting direction
- Stainless steel rollers protect the cutter from corrosion

Order #	Mfg. #	Description	Each
H27-382	14830TS12	1/2" Tube Cutter (5/8" O.D.)	**40.99**
H27-383	14831TS34	3/4" Tube Cutter (7/8" O.D.)	**59.00**
H27-384	14832TS1	1" Tube Cutter (1-1/8" O.D.)	**69.00**
H27-385	14833TSK	1/2", 3/4" and 1" Tube Cutter Kit	**129.00**
H27-386	14829TSB	Replacement Cutter Wheels (2-Pk.)	**29.49**

Tube Cutters

- Won't "walk" while cutting
- Will not damage cutting wheels; full-stop feed system prevents wheels and rollers from coming into contact
- Change out wheels with only a screwdriver
- Store an extra cutting wheel in the handle
- Four roller tracking system keeps tube from threading (**H26-508** and **H26-509** only)

Oxy-Acetylene Brazing Kits

VICTOR AN ESAB BRAND

- Designed for light-duty cutting, brazing and heating jobs
- Stainless steel needle valves
- Solid one-piece tip and mixer design
- Includes: torch handle, oxygen regulator, acetylene regulator, check valves, striker, goggles and 12-1/2' twin hose
- Refer to the following chart for additional components

Oxy-Acetylene Torch Handle

TURBOTORCH

- For use with "A" hose fittings, 3/8"–24
- Threaded joints provide easier service
- Stainless steel ball stems and Teflon® packing for gas-tight operation

Order #	Mfg. #	Each
H26-090	103-01FP	**299.00**

Adapter

TURBOTORCH

- Fits TurboTorch® oxy-acetylene handle **H26-090** allowing the use of TurboTorch air-acetylene tips with just the acetylene regulator of the oxy-acetylene kit
- Adapter accepts standard and self-ignition TurboTorch tips

Order #	Mfg. #	Each
H25-563	160-02P	**269.00**

Cutting Attachment

TURBOTORCH

- Use with TurboTorch® **H26-090** handle
- Stainless steel lever and tubes for durability
- Double O-ring seal

Order #	Mfg. #	Each
H25-330	152-01FP	**459.00**

TURBOTORCH

Oxy-Acetylene Cutting Tips

- For use with 151-01FP and 152-01FP TurboTorch® cutting attachments

Cap'n Hook® Oxy-Acetylene Brazing Outfits

- Cap'n Hook flame tip brazes up to 1" copper tubing
- Welding tip brazes up to 1" copper tubing and welds up to 1/8" steel
- Centurion® regulators with reseatable safety blow off feature protective rubber gauge boots
- Includes front valve welding handle with stainless steel ball point valves for accurate gas control
- **H85-957** and **H85-958** include cutting attachment for cutting up to 1/2" steel

Order #	Mfg. #	Description	Each
H85-955	KCHP	Without Cutting Attachment, no Tanks	**745.00**
H85-956	KCHPT	Without Cutting Attachment, with Tanks	**1399.00**
H85-957	KLCHP	With Cutting Attachment, no Tanks	**845.00**
H85-958	KLCHPT	With Cutting Attachment, with Tanks	**1499.00**

Centurion® Oxy-Acetylene Brazing Outfits

- Capable of brazing up to 1" copper tubing and welding up to 1/8" steel (with supplied tips)
- Includes Centurion® regulators
- Includes welding handle (Mfg.# 71), 2 welding/brazing tips (Type 17-0, Type 17-2), oxygen regulator (RO100), acetylene regulator (RMC100), twin hose, safety goggles, flint lighter and plastic carrying stand
- **H85-440** also includes cutting attachment (CA100) and cutting tip (CT100-0)

Order #	Mfg. #	Description	Each
H85-439	KC100P	Without Cutting Attachment, no Tanks	**725.00**
H85-440	KLC100P	With Cutting Attachment, no Tanks	**815.00**
H85-441	KC100PT	Without Cutting Attachment, with Tanks	**1345.00**

Oxy-Acetylene Torch Handle

- "A" hose connection
- 2-tube silver brazed construction
- Front stainless steel ballpoint valves
- One-hand fingertip control and positive shutoff

Order #	Mfg. #	Description	Each
H26-283	71	Welding Handle	**329.00**

Cutting Attachments and Tips

- For cutting through steel and other metals
- For use with Uniweld and most TurboTorch® welding handles (no adapters required)
- Fits various attachments which cut up to 2" steel
- CA550 is a heavy-duty one-piece solid copper mixer
- CA100 mixes all fuel gases in the cutting tip for superior performance and safety
- Cutting tips 5-101-0D and CT100-0D cut up to 1/2"

Fig.	Order #	Mfg. #	Description	Each
A	**H26-295**	CA550	Cutting Attachment	**429.00**

Oxygen and Acetylene Regulators

- Compact design with rear inlet service and various CGA cylinder connections
- Forged brass body
- Low profile forged brass pressure adjusting screw
- Specially compounded diaphragm and seat material
- Easy-to-read 1-1/2" gauges with protective boot

Tuning Fork™ Oxy-Acetylene Tip

- Designed for removal/replacement of a heat pump reversing valve
- Heats up all fittings at once and removes the valve without altering the original copper tubing and fittings
- Fits both Uniweld and TurboTorch® oxy-acetylene torch handles

Order #	Mfg. #	Description	Each
H26-289	Type17TFT	Tuning Fork Tip	**255.00**

Flashback Arrestors

- Flashback occurs when mixed gases are ignited in the torch, hose or regulator, causing a potentially dangerous situation
- Flashback arrestors are designed specifically to help prevent reverse flow of gases and quench flashbacks at the torch handle
- Built-in check valve also prevents reverse flow of gases
- 2 pack includes one each for oxygen and fuel
- “A” fitting, 3/8"–24

Order #	Mfg. #	Each
H26-620	TFAA	**265.00**

Nitrogen Purge Tote Kit

- A complete tote kit to pressure check and purge lines before brazing
- Includes empty nitrogen cylinder (40 cu. ft.), nitrogen regulator, 6' hose, blow gun and carrying tote

Order #	Mfg. #	Each
H85-658	SKP-40T	**1699.00**

Nitrogen Purge Kit

- A complete kit to pressure check and purge lines before brazing
- Includes nitrogen regulator, turbo tornado, 1/2" cone plug, 3/4" cone plug, needle tip, CO2 adapter, 36" x 1/4" hose, 72" x 1/4" hose and blow gun

Order #	Mfg. #	Each
H85-585	NPK-TT	**715.00**

Nitrogen Purge Kit Replacement Parts and Accessories

Order #	Mfg. #	Description	Each
H27-009	TT-1	Turbo Tornado	**89.00**
H27-016	BG-NPK	Blow Gun	**195.00**

Nitrogen Regulators

- Forged brass body with easy to read 2" (51mm) gauges
- 1/4" flare outlet fittings accept standard refrigeration hoses
- CGA-580 inert gas inlet connection fits all nitrogen tanks
- Gauge content: 4,000 PSIG, 600 PSIG delivery

Order #	Mfg. #	Description	Delivery Pressure	Each
H85-432	245-03P	Nitrogen Regulator	500 PSIG	**195.00**

G Series Nitrogen Purge Regulator

- Heavy-duty steel gauge guard for added protection
- Patented G series high strength alloy bonnet
- Contoured, easy to grip knob for precision control
- 1/4" flare fitting accept standard refrigeration hoses
- CGA-580 inert gas inlet connection fits all nitrogen tanks

Order #	Mfg. #	Delivery Pressure	Each
H28-049	GP250-500-580	500 PSIG	**249.00**

TURBOTORCH

High Pressure Nitrogen Regulator

- Heavy-duty gauge guard for added protection
- Contoured, easy to grip knob for precision control
- 1/4" flare fitting accept standard refrigeration hoses
- CGA-580 inert gas inlet connection fits all nitrogen tanks

Order #	Mfg. #	Delivery Pressure	Each
H27-378	250-800-580	800 PSIG	**285.00**

TURBOTORCH

Nitrogen Flowmeter

- Provides visual confirmation and controlled flow of nitrogen gas flow through copper lines while brazing
- Helps eliminate scale and oxidation that can cause blockage in a system
- 1/4" flare outlet connection; attaches directly to any nitrogen regulator with a 1/4" male flare outlet fitting

Order #	Mfg. #	Each
H27-379	NFM-TT	**115.00**

TURBOTORCH

EDGE™ 2.0 Series Pressure/Flow Hybrid Nitrogen Regulator

- Single stage cylinder delivers convenience, safety and performance
- Dual stage orifice technology allows one regulator to control both pressure and flow
- Fully enclosed, highly visible modular gauges
- SLAM™ (Shock Limitation and Absorption) technology built into the adjusting knob
- 1/4" flare fitting to accept standard refrigeration hoses
- CGA-580 inert gas inlet connection fits all nitrogen

Order #	Mfg. #	Delivery Pressure	Each
H28-535	0781-3652	800 PSIG	**459.00**

UNIWELD

Sludge Sucker™ Kits

- For use with nitrogen or CO2 (with adapter)
- **H85-344** includes nitrogen regulator, Sludge Sucker attachment, Sludge Blaster, 2 and 6-foot hoses, blowgun and carrying stand
- **H85-608** includes nitrogen regulator, Sludge Sucker attachment, Sludge Blaster, 2 and 6' hoses, needle tip, 1/2" and 3/4" rubber plugs, blowgun and air chuck
- Nitrogen and CO2 tanks not included
- **H26-213** CO2 adapter delivers up to 175 PSI; can be used for cleaning condensate drain lines, cleaning coils, unclogging sinks
- **H26-211** Sludge Blaster™ accessory expands inside pipe, and uses pressure exerted on the clog to "blast" sludge free; attaches to any standard 1/4" service hose

Order #	Mfg. #	Description	Each
H85-344	40040	Sludge Sucker Kit with Stand	**645.00**
H85-329	40000	Sludge Sucker Attachment	**95.00**
H85-608	40055	Sludge Sucker/Blaster Maintenance Kit without Stand	**555.00**

CO2 High Pressure Regulator

- Forged brass body with easy-to-read 2" gauges
- 1/4" male flare outlet connection
- CGA-320 CO2 gas inlet connection
- Large T-handle for easy adjustment

Order #	Mfg. #	Description	Each
H28-750	RHPC1500	1,500 PSI CO2 Regulator	**439.00**
H28-751	G3SD	Replacement Gauge (Delivery/3,000 PSI)	**47.99**

Nitrogen Flowmeter

- Low-pressure nitrogen gas must be flowing through the copper lines when brazing to eliminate scale and oxidation that can cause blockage in a system
- A nitrogen flowmeter has a float ball that rises in the flowmeter tube indicating low-pressure flow of nitrogen when purging copper lines during the brazing process
- 1/4" flare outlet connection; attaches directly to any nitrogen regulator with a 1/4" male flare outlet fitting

Order #	Mfg. #	Each
H26-625	UNF3	**175.00**

NitroVue™ Flow Indicator

- Precision adjustable valve to control the low flow of nitrogen
- Easy-to-read flow indicator label simplifies purging and brazing
- Reseatable safety blow off opens at 200+PSI
- 1/4" female inlet by 1/4" male flare outlet connections

Order #	Mfg. #	Each
H27-741	NV1	**159.00**

Braze-Rite Adapter

- Quickly connects to manifold gauge hose and slips easily and securely into pipe
- Allows for bleed of nitrogen through pipe being brazed to keep pipes clean and oxide-free

Order #	Mfg. #	Each
H26-966	BRZ1000	**129.00**

Nitrogen Purge Boot

- Creates hands-free connection between nitrogen regulator and refrigerant line
- O-rings are compatible with all refrigerants, oils, and flushing agents
- Use on de-burred refrigerant tubing
- Compatible with 3/8", 1/2", 5/8", 3/4" 7/8" and 1-1/8" OD ACR

Order #	Mfg. #	Each
H28-984	TFXNPB	**75.00**

Nitrogen Purge Tool

- Quick and easy way to purge copper pipes with nitrogen
- Just switch between purge, braze and off without the need to fumble with a flow indicator valve
- Designed to operate at 50 PSI inlet pressure, with a maximum pressure of 200 PSI

Order #	Mfg. #	Each
H28-091	DP-1	**179.00**

DIVERSITECH

Hazardous Material Shipping Alert

Drain Gun™

- Lightweight portable tool designed to blow out drain lines instantly
- 800 PSI of oil-free food grade air available at the press of a trigger
- Tapered fitting works on 3/8" through 3/4" drain openings
- Flexible hose assembly
- Eliminates need for air or nitrogen tanks

Order #	Mfg. #	Description	Each
H26-164	GG-1	Drain Gun	**95.00**
H26-165	GGC-12	SWOOSH CO2 Cartridges (12-Pk.)	**85.00**

DIVERSITECH

Hazardous Material Shipping Alert

SWOOSH® Drain Gun Big Shot™

- Designed to blow out drain lines instantly
- New larger 20 gram SWOOSH CO2 cartridges deliver 800 PSI of oil free air to clear the line, with 25% more capacity
- Comes equipped with a tapered fitting to work on 3/8" - 3/4" drain openings
- Flexible hose assembly maneuvers through cabinets, coils and hard to reach drains

Order #	Mfg. #	Description	Each
H28-660	SG-1	Drain Gun	**95.00**
H28-661	SGC-12	20 Gram CO2 Cartridges (12-Pk.)	**89.00**

DIVERSITECH

SWOOSH® Drain Gun Double Shot™

- Designed to blow out drain lines instantly
- Uses one or two large 20 gram SWOOSH CO2 cartridges which deliver 800 PSI of oil free air to clear the line
- Indicator indicates when cylinders are charged
- Kit includes drain gun, 2 20 gram CO2 cartridges, 1 connector, 1 3/16" - 1/4" adaptor, 1 Super Lube packet and one carrying case
- Uses **H28-661** replacement CO2 cartridges

Line Set Cleaner Tool Kit

NEW

- Uses a pressurized source to launch a foam pig into the line set to wipe the pipe clean of contaminants and remaining refrigerants
- Simply connect the correct nozzle, chamber the corresponding pig size, connect to a regulated compressed Nitrogen source, and pull the trigger for a perfectly clean line set
- Effectively wipes contaminants and remaining oil from line sets ranging from 3/8" to 7/8"
- The rinseable/reusable foam cleaning pigs are specially formulated and manufactured to flow through normal line set configurations and most deformations
- **H28-886** kit consists of 10EA 3/8" & 1/2" and 25EA 5/8", 3/4" and 7/8"

LucasMilhaupt® Lasting Connections

Phosphorus/Copper/Silver Alloys

- For copper to copper or copper to brass
- Self-fluxing on copper to copper
- Use **R56-212** flux for copper to brass
- Sil-Fos 15 is for loose or large tolerance joints providing slow flow and vibration resistance
- Handy Flo 6 and Sil-Fos 5 have similar characteristics to 15% but the lower silver content reduces ductility
- Silvabraze is for copper to copper
- Fos-Flo is an economical and very fluid 0% Ag alloy for low to moderate vibration applications
- **R55-843** is 1/8" square rod

HARRIS A LINCOLN ELECTRIC COMPANY

Phosphorus/Copper/Silver Alloys

- For copper to copper or copper to brass
- Self-fluxing on copper to copper
- 0% is for copper to copper when brazing temperature is not critical
- 2% is an economical, low silver alloy, designed to broaden the melting range of 0%
- 5% is for close tolerances
- 6% is a medium-range alloy is well suited where close fit-up cannot necessarily be maintained
- Dynaflow 6% has melt and flow properties of 15%
- 15% is for loose or large tolerance joints and an excellent filler metal for situations in which close fit-up does not exist, and where thermal expansion and service vibration are involved
- 1/8" x 5/100" x 20"
- **R55-842** is 1/8" x 1/8" x 20"

R56-214	99076	Handy One® 505 Flux-Cored Alloy	50%

Handy One® Flux Cored Aluminum Brazing Alloy

- For aluminum to aluminum or aluminum to copper joints
- Easy flow for patching aluminum coils
- Non-corrosive flux doesn't need to be removed after brazing
- 78% zinc, 22% aluminum; 800°F melt, 900°F flow
- Contains 4 20" x .090" diameter sticks

Order #	Mfg. #
R56-215	99088

HARRIS
A LINCOLN ELECTRIC COMPANY

Al-Braze Aluminum Brazing Kit

- Superior brazing alloy for the joining of aluminum to aluminum
- Wider melting range than standard braze products fills gaps easier
- Often used to repair cracks and splits
- Tensile strength 35,000 PSI; solidus 1,070°F, liquidus 1,080°F (**R53-604**); solidus 1,065°F, liquidus 1,170°F (**R56-798**)
- Includes 0.75 oz. 1/16" aluminum brazing wire and 1/3 oz. flux plus instructions (**R53-604**)

Order #	Mfg. #
R53-604	1070K

Aluminum Solder Kit

- For low-temperature applications
- Forms corrosion-resistant joints on all solderable aluminum alloys and dissimilar metals, both ferrous and non-ferrous
- Also beneficial as high-temperature solder
- Tensile strength 20,000 PSI; solidus 391°F; liquidus 482°F
- Contains: 1 oz. 1/16" solder and 1 oz. aluminum solder flux

Order #	Mfg. #
R53-729	10022

Lasting Connections

Silvabrite Silver Bearing Solder

- Lead-free solder in 1 lb. spool
- Low melting point of 430°F
- Can be used on most ferrous and non-ferrous metals
- Use with **R56-713**, **R58-251** and **R54-013** flux
- **R53-405** is designed for field repairs and tight fitting joints
- **R53-406** has plastic range of 430°F to 535°F, great for loose-fitting couplings
- **R59-038** is designed for applications where slightly more sluggish flow is required

Order #	Mfg. #	Ag %
R53-405	56619	4%

Plumbing Solders

- 1/8" X 1 lb. spool
- **R56-795** lead-free solder used in plumbing applications; excellent for large diameter fittings and ill-fitted or non-concentric pipes; fills gaps and caps off easily and effectively
- **R56-797** is a common lead-bearing solder used to join copper and most copper alloys, lead, nickel alloys and steel; not for joints subject to high stress or vibration in the cooling applications; not for use in potable water systems

Order #	Mfg. #	Description	Soldus °F (Melt)	Liquidus °F (Flow)

Precision Torque Wrench Set

- Interchangeable head torque wrench provides consistent and accurate readings
- Use to ensure compliance with OEM torque settings on R410A mini-split systems
- Range of 10 to 80 newton meters (7.4 to 59 ft/lb.)
- Newton meter and foot pound scales marked on barrel of wrench handle
- Includes storage case with 16, 17, 21, 22, 24, 26, 27 and 29mm head sizes

Order #	Mfg. #	Each
H85-861	60652	**419.00**

Digital Torque Wrench

- Use to ensure compliance with OEM torque settings on R410A mini-split systems
- Stores 5 factory and 5 user-defined torque presets
- Alerts user with audio, visual and vibration feedback when approaching or exceeding torque settings
- Jaw opening: 3/16" to 1-7/16" (5 to 35mm)
- Torque settings: Lbf.ft, Lbf.in, N-m and Kgf.m
- Powered by 2 AAA batteries (included)
- Includes storage case

Order #	Mfg. #	Each
H28-236	BTLDTW	**449.00**

Pipe Wrenches

- Sturdy housing and I-beam handle with full floating hook jaw
- Self-cleaning threads with replaceable hook and heel jaws
- Meets federal specifications GGG-W65IE, Type II, Class A
- Available in heavy-duty cast iron or lightweight aluminum

H27-771	J206-8C	8” All-Purpose Pliers	**95.00**
H28-157	J207-8CR	8” All-Purpose Pliers with Crimper	**115.00**

Wire Stripper

KLEIN TOOLS

- For cutting, stripping and looping wire
- Strips 10 to 18 AWG solid wire

Order #	Mfg. #	Each
H25-935	11045	**37.49**

Long Nose All-Purpose Tool

- Crimps insulated and non-insulated connectors from 10 to 22 AWG
- Cutters for 4-40, 5-40, 6-32, 8-32, 10-32 and 10-24 bolts
- Strips gauges 10, 12, 14 and 16 solid wire

Order #	Mfg. #	Each
H25-934	1010	**65.00**

Long-Nose Wire Stripper/Crimper

- Reinforced head reduces flex keeping stripping holes true to size
- Cuts and strips 10 to 20 AWG solid wire and 12 to 22 AWG stranded wire
- Crimps insulated and non-insulated connectors from 10 to 22 AWG
- 7-3/4" overall length
- Not for use with steel wire

Order #	Mfg. #	Each
H28-516	1009-SEN	**55.00**

Wire Stripper/Cutters

- Strips solid wire and stranded wire
- Hardened steel with precision-ground stripping holes
- 8-32 and 6-32 screw-shearing holes

Order #	Mfg. #	Description	Each
H26-267	11055	10-18 Ga. Solid Wire, 12-20 Ga. Stranded Wire	**59.00**
H26-268	11057	20-30 Ga. Solid Wire, 22-32 Ga. Stranded Wire	**65.00**

Heavy-Duty Wire Stripper

- Forged steel for easy wire stripping, cutting, twisting and bolt shearing
- Precision ground stripping holes and knurled jaw for twisting up to 3 wires at a time
- Strips 8-18 AWG solid and 10-20 AWG stranded wire
- Cleanly shears 6-32 and 8-32 screws
- Induction hardened cutting knives for long life
- Hot-riveted joint ensures smooth action and no handle wobble

Order #	Mfg. #	Each
H28-482	K12065CR	**99.00**

All-Purpose Wiring Tool

- Crimps insulated and non-insulated terminals
- Strips 8 to 22 AWG solid wire and 10 to 26 AWG stranded wire
- Bolt cutter cuts 5 sizes: 4-40, 6-32, 8-32, 10-32 and 10-24

Order #	Mfg. #	Each
H24-098	1001	**85.00**

Self-Adjusting Wire Stripper/Cutter

- Stripping head adjusts to strip 10-20 AWG solid, 12-22 AWG stranded and 12/2 or 14/2 Romex®
- Adjustable stopper to control length of core strip
- Tensioning thumb screw allows for precise stripping of smaller gauge wire
- Convenient wire cutter in handle
- Grooved grips for added comfort

Order #	Mfg. #	Each
H27-609	11061	**69.00**

PowerLock Multi-Tool

- Exclusive gear-driven compound leverage
- One-handed flip opening and closing
- Removable comfort hand grips
- 100% stainless steel construction
- Includes pliers/grippers, wire cutter, blasting cap crimper, foldable 1/4" socket drive, spring-loaded scissors, partially serrated knife, Phillips screwdriver, small/medium/large screwdrivers, 3-sided file, bottle/can opener, double tooth saw, lanyard ring, awl, ruler and nylon pouch

H28-721	27858	RC-1625 Replacement Blade	**59.00**

PVC Cutter

KLEIN TOOLS

- Cuts up to 3/4" PVC and 1-3/8" flexible plastic pipe
- Makes clean burr-free cuts
- Steel handle construction for added strength
- Reversible blade
- Handle latch keeps tool closed when not in use

Order #	Mfg. #	Description	Each
H26-923	50506SEN	PVC Cutter	**36.99**
H28-591	50549	Replacement Blade	**26.49**

One-Handed Ratcheting PVC and Tubing Cutter

GENERAL

- Cuts PVC, PE, PEX and ABS pipe
- All metal construction for greater durability
- Extended handles for added leverage
- Locking strap keeps blade concealed for safe storage
- Capacity: 1-5/8"

Order #	Mfg. #	Each
H27-490	1191	**65.00**

High Tension Hacksaw Frame

LENOX

- Unique lever tensions blade to 30,000 PSI, twice that of ordinary frames
- Mounts at 45° angle for flush cutting
- Use as jab saw or compass saw
- Stores spare 12" blades
- Heavy-duty cast aluminum handle

Order #	Mfg. #	Each
H24-083	12132HT50	**95.00**

Hacksaw Frame

LENOX

- All metal construction, including zinc-plated bar and cast aluminum handle
- Includes 12" bimetal hacksaw blade

Order #	Mfg. #	Each
H24-348	1213188300	**65.00**

Bimetal Hacksaw Blades

LENOX

- Tuff Tooth™ design cuts stronger, faster and longer
- Outlasts carbon steel blades up to ten times
- Flexible and virtually unbreakable

Order #	Mfg. #	Blade Length	Teeth/Inch	Each
H23-382	20144V218HE	12"	18	**49.99**

H26-601	HC1E	Adjustment Sleeve with Screw	**21.99**
H26-603	HC1G	Shoe	**6.25**

Pocket Brake

- A portable sheet metal scoring tool that permits quick and precise, on the job, sheet metal fabrication
- Ergonomic ambidextrous design with twin metal scoring wheels provides a stable and accurate sheet metal scoring tool

Order #	Mfg. #	Each
H28-823	HPB1701	**149.00**

Hand Seamers

- REDLINE™ ergonomically contoured non-slip handles
- Makes permanent, tight-fitting seams
- Jaws are drop-forged, high impact steel
- Scaled depth marks on jaws are in 1/4" increments for precise depth bends
- Latch allows for easy open and close with one hand
- **H26-876** is for use overhead or in confined areas

Fig.	Order #	Mfg. #	Description	Each
A	**H26-875**	S2R	3-1/4" Hand Seamer	**149.00**
B	**H26-876**	S3R	3-1/4" Offset Hand Seamer	**165.00**
A	**H26-877**	S6R	6" Hand Seamer	**215.00**

Crimpers

- REDLINE™ ergonomically contoured non-slip handles
- Long, shallow crimps allow for a tighter fitting, more self supporting connection
- Latch allows for easy open and close with one hand
- **H26-878** is ideal for crimping heavy 24 to 22 gauge sheet metal
- **H26-880** is for use overhead or in confined areas

Fig.	Order #	Mfg. #	Description	Each
A	**H26-878**	SC3R	3-Blade Crimper	**109.00**
A	**H26-879**	C5R	5-Blade Crimper	**105.00**
B	**H26-880**	C6R	Offset 5-Blade Crimper	**139.00**

Snap Lock Punches

- REDLINE™ ergonomically contoured non-slip handles
- Joins sheet metal, duct and pipe sections
- Raises a louvered projection on metal edge for locking into rolled edge of sheet or piece to be joined
- Compound handle leverage for maximum ease of operation
- Heavy-forged steel cutting jaw
- Latch allows for easy open and close with one hand
- **H26-882** is not recommended for heavy gauge sheet metal

Order #	Mfg. #	Description	Depth	Each
H26-881	SL1R	Snap Lock Punch	3/8"	**159.00**
H26-882	SL2R	Adjustable Snap Lock Punch	1/4" to 5/8"	**125.00**

Hand Notchers

- REDLINE™ ergonomically contoured non-slip handles
- Hook design of cutting jaw facilitates notching to desired depth without slippage
- Latch allows for easy open and close with one hand
- **H26-883** makes a clean 30° V-shaped cut
- **H26-884** punches a large 1" deep V-notch in 24 to 30 gauge sheet metal

Order #	Mfg. #	Depth	Each
H26-883	N1R	13/16"	**149.00**
H26-884	N2R	1"	**159.00**

Scratch Awls

- Scribes lines on sheet metal, plastic and a variety of other materials
- 1/4" x 4" blade is tapered and can be resharpened many times
- Handle is shock and shatter-resistant

Order #	Mfg. #	Description	Length	Each
H26-025	A2	2-1/4" Stubby Handle	6-1/4"	**17.99**
H26-030	A20	3-3/4" Regular Handle	7-3/4"	**18.99**

Sheet Metal Scribe

- Places common trim lines on sheet metal quickly and accurately
- Dual-edged scribing points
- Creates clean, readable score lines parallel to edge of metal sheet
- Ten pre-set depths from 1/8" to 1"

Order #	Mfg. #	Each
H25-832	A40	**9.09**

©2024 Johnstone Supply, LLC

Adjustable Sheet Metal Scribe

- Measure, mark and scribe trim lines in one easy operation
- Adjustable from 1/4" to 12-1/2"
- No special point required — uses a standard 6 x 3/8" screw
- Rust resistant nickel plated steel construction

Order #	Mfg. #	Each
H26-885	A60	**46.99**

Dividers

- Scribes a thin, accurate line time after time
- Points are easily resharpenable or replaced
- Nickel-plated steel body

Order #	Mfg. #	Description	Length	Each
H24-859	18	32" Max Circle Diameter	11"	**42.99**
H85-508	24	42" Max Circle Diameter	13-1/2"	**55.00**

Trammel Point

- Expands to a 42" radius and creates an 84" diameter
- Minimum radius is 12"
- All steel construction
- Points are resharpenable
- Telescoping arms are nickel plated to resist corrosion
- Handle features a comfortable vinyl grip

Order #	Mfg. #	Each
H85-385	TR42	**89.00**

Tinners Circumference Rule

- 48" L x 1-1/4" W x 1/16" D

Order #	Mfg. #	Each
H93-079	48BS	**215.00**

Folding Tools

- Use to fold 24 to 30 gauge sheet metal
- Available in 3 lengths

Order #	Mfg. #	Depth	Length	Each
H25-171	12F	3/8" and 1"	12"	**40.99**
H25-170	18F	3/8" and 1"	18"	**59.00**
H26-567	24F	3/8" and 1"	24"	**85.00**

Offset Duct Stretcher

- Use stretcher to hold duct in place with one hand, while slipping drive cleats in place with other hand
- Additional spacing holes allow wheels to be adjusted
- Offset handle eliminates knuckle contact
- Anodized aluminum body with large vinyl cushion grip

Order #	Mfg. #	Each
H24-858	DS2	**79.00**

Locking Duct Stretcher

- Frees both hands to align and install drive cleats
- Tool locks on from either side of duct connection
- Large wheel clearance captures even misshapen flanges
- Tool can push, hammer and bend cleats as necessary
- Offset design keeps hands away from work

Order #	Mfg. #	Each
H25-831	DS3	**99.00**

Valve Action™ Liquid Paint Markers

LA-CO

Hazardous Material Shipping Alert

- Marking range: -50°F to +150°F
- Marks with real paint, dries in three minutes
- Marks on all surfaces
- Lead-free, low halogens
- Meets California VOC regulations

Flex Duct Cutters

Malco

- Double-edged knife blade cleanly pierces through outer skin, insulation and liner of flexible round duct
- Blade cuts both directions, from any angle and around entire duct circumference
- Duct´s exposed wire rib coil can be snipped in the jaws of the built-in wire cutter
- Non-slip vinyl grips with hand stops
- **H27-227** includes a tie tensioning mechanism to easily install nylon tie straps without the need for a separate tensioning tool

Order #	Mfg. #	Desription	Each
H25-217	FDC1	Flex Duct Cutter	**125.00**
H27-227	FDC3	Flex Duct Cutter with Tensioning Tool	**215.00**

Flex Duct Shear

Malco

- Cuts insulated flexible round duct and duct wire rib coil
- Heavy-duty wire cutter is located away from scissor blades
- Thumb operated latch ensures sharpened blade edges stay closed when not in use
- Non-slip vinyl grips with hand stops

Order #	Mfg. #	Each
H26-034	FDC2	**145.00**

Pipe and Duct Holder

Malco

- Holds duct in place, either between or under joists until properly secured
- Holders also open wide and clamp securely for use on engineered wood joists
- Includes pair of clamps and 4' of 125 lb. tensile strength linked chain — all nickel plated steel

Order #	Mfg. #	Each
H26-598	2DH	**105.00**

Tensioning Tools

Malco

A

B

- Attaches nylon ties to flex duct and sheet metal take-offs
- Works on all ties including thin designs
- Comfortable cushion grip handles
- **H24-583** requires manual cut-off
- **H26-011** is adjustable with auto cut-off

Tin Knocker SHEET METAL WORKING MACHINERY

1660 Duct Beader

- Heavy-duty beader includes five sets of bead tooling
- Produce SMACNA approved beads in a fraction of the time it takes to cross brake
- Beads are adjustable in depth to 3/16” deep
- Exit support roll is powered to reduce material hang up
- 1 year warranty

Specifications:
- Capacity: 16 gauge mild steel (galvanized) x 60”
- Motor: 1 HP, 115V, single-phase, 60Hz
- Shipping weight: 1,750 lbs.
- Shipping dimensions: 80” L x 48” W x 54” H

Tin Knocker SHEET METAL WORKING MACHINERY

Box and Pan Brakes

- All steel welded construction, with adjustable truss bars and bronze bushings
- Includes removable apron angle and apron insert, permitting .25” reverse bends in lighter materials
- Nose bar is removable and the brakes are equipped with a precise stop rod for repeat bends
- Shown with optional, all steel stand
- 1 year warranty

Specifications:
- Bend length: 48”
- Maximum beam lift: 7/8” (**H93-108**), 1-1/4” (**H93-110**)
- Maximum box depth: 3” (**H93-108**), 4” (**H93-110**)
- Minimum reverse bend: 5/16” (**H93-108**), 1/4” (**H93-110**)
- Minimum flange: 3/8” (**H93-108**), 1” (**H93-110**)
- Front to rear beam: 1/4” (**H93-108**), 5/8” (**H93-110**)
- Finger width: 2”, 3” and 4”
- Capacity: 22 gauge (**H93-108**), 16 gauge (**H93-110**)
- Dimensions: 60” L x 24” W x 30” H
- Shipping weight: 282 lbs. (**H93-108**), 493 lbs. (**H93-110**)

No. 30 Bar Folder

Tin Knocker SHEET METAL WORKING MACHINERY

- One motion clamp and fold to desired angle
- Easy to adjust internal back gauge allows for quick flange width selection
- 1 year warranty

Specifications:
- Capacity: 22 gauge mild steel
- Max. bend length: 30”
- Flange width range: 1/8”–1”
- Shipping weight: 334 lbs.
- Shipping dimensions: 48” L x 20” W x 34” H

No. 30 Cleat Bender

Tin Knocker SHEET METAL WORKING MACHINERY

- Quickly forms uniform drive cleat edges on rectangular duct with no required set up or adjustment
- The upper handle forms the cleat and the lower handle opens the work space for easy removal of the metal
- Heavy cast iron and steel fabrication, this machine is built to last
- Shown with optional stand
- 1 year warranty

Specifications:
- Capacity: 20 gauge mild steel
- Bend length: 30”
- Cleat depth: 1/2”
- Shipping weight: 126 lbs.
- Shipping dimensions: 38” L x 10” W x 11.5” H

Portable Mini Brake™ and Optional Leg Set

- Accommodates sheet metal up to 4’ wide, in any length
- Dual-direction, cam-over style clamps keep anvil secure in any position
- Makes bends to 135° in galvanized sheet metal up to 22 gauge
- Ideal for fabricating plenums or large transitions at job site
- Adjustable strengthening ribs assure uniform bends

Order #	Mfg. #	Description	Each
H93-082	MB48A	Mini Brake	**1199.00**
H93-083	MBL	Mini Brake Leg Kit	**275.00**

Pan Style Mini-Brake™

- Fabricate drip pans, register boxes, complex corners and larger transitions or plenums at the jobsite
- Accommodates sheet metal up to 48” wide
- Makes bends to 135° bends in galvanized steel up 22 gauge
- Weighs less than 100 pounds for 1 or 2 person transport
- Use on a workbench, tailgate or with optional **H29-083** leg kit

Tight Taper

Supco

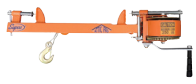
- Easily apply foil tape and rolled mastic on seams in HVAC units and ductwork in hard-to-reach applications
- Non-slip silicone ends help to easily release tape and smooth evenly without tears or snags
- Magnet inside handle for storage
- Includes inch and centimeter marks for measuring

Order #	Mfg. #	Each
H86-196	TT100	**75.00**

Attic Pro® Utility Lift

Supco

- Adjustable from 14" to 24"
- 20' cable length
- Integrated locking hook
- Sturdy steel construction
- Lifts up to 250 lbs.
- Includes equipment strap and carrying case



Order #	Mfg. #	Each
H85-894	ATP1	**409.00**

One Trip Hook

- Easily Lift equipment and tools though rooftop hatch
- Save time without multiple trips up ladder
- One person can do work of 2-man team
- Includes control rope (load rope not included)

Order #	Mfg. #	Each
H28-259	OTH-1	**79.00**

Ultimate Puller

- Removes various sizes of fan blades and blower wheels
- Both pushing and pulling force
- Hardened steel hooks and screws won't flatten with use

Order #	Mfg. #	Each
H85-404	UP-1	**145.00**

Fan Blade Pullers

- Heavy-duty jaws
- Removes fan blades and blower wheels from rusty shafts

Fan Blade Pitch Gauge

- Tool to help determine pitch on blade before replacing

Order #	Mfg. #	Each
H24-850	PG5099801	**79.00**

Screw Extractor Sets

- 8 points of contact with broken bolt
- Cutting edges for non-slip engagement
- Center point for centering drill hole
- **H27-744** includes sizes 1 to 5, **H28-106** includes sizes 1 to 3

Order #	Mfg. #	Description	Each
H28-106	9R4719033	3-Piece Screw Extractor Set	**65.00**
H27-744	9R4719003	5-Piece Screw Extractor Set	**129.00**

Pin Extractor Tool

- Easy removal of Molex and AMP pins for reinsertion into correct location
- Eliminates the need to cut, strip, splice or use wire nuts
- Perfect for ignitors and other replacement parts that come with the wrong connector type

Order #	Mfg. #	Each
H28-008	PE44	**35.99**

Sight Glass Removal Tool

- Extension slides into outer slots on 1" Copeland compressor sight glasses
- Once inserted use wrench or socket to remove the threaded sight glass
- Made of heavy-duty carbon steel

Order #	Mfg. #	Each
H28-016	SGRT	**49.49**

Cordless Precision Engraver

- Strong diamond tip bit for marking tools and other valuables
- Use on metal, plastic, ceramic or glass surfaces
- Includes 2 AAA batteries

Order #	Mfg. #	Each
H27-207	505	**44.49**

Forged Steel Fork

- Has tines 11/16" apart for prying off pulleys, fan blades, etc. from any motor shaft 5/8" diameter or smaller
- 16" length provides maximum leverage

Order #	Mfg. #	Each
H24-959	KIT-258	**215.00**

Board Pin Removal Tool

- Remove PCB's from standoffs
- Dual sided
- Precision Machined
- Two most common standoff sizes

Order #	Mfg. #	Each
H28-683	BRT10	**29.99**

Hammers

- 1-piece forged, I-beam construction
- Full-polished heads with beveled face and peen are corrosion resistant
- Sections are individually hardened and tempered for strength and resiliency

Order #	Mfg. #	Description	Each
H25-169	RH4	Riveting Hammer with Leather Grip	**165.00**

CoilShot® Condenser Cleaning Tool

- Tablet-based coil cleaning system eliminates bulky and heavy coil cleaners
- Attach to garden hose, insert tablet and dial in custom foaming level
- One pack of tablets replaces an entire case of coil cleaner
- Tablets are compact, lightweight and create a safer work environment
- Quick connect fitting for accessory attachments
- Use with the optional 3' cleaning wand for additional flexibility and better cleaning

Order #	Mfg. #	Description	Each
W69-642	SC-CS-100	CoilShot Condenser Cleaning Tool	**269.00**

Lazer CT™ Carbide Tipped Reciprocating Blades

LENOX

- Carbide tips provide high performance in cast iron and stainless steel applications
- Up to 10 times longer life than standard bi-metal reciprocating blades
- Tall blade profile delivers straight cuts and long life in demanding metal cutting applications
- Each tooth is precision ground to quickly cut through difficult metals

Order #	Mfg. #	Description	Thickness	Teeth/Inch	Length	Pkg. Qty.	Each
H28-507	2014220	Cast Iron and Stainless Steel	0.052	8	6"	1	**33.49**

Plaster Master Reciprocating Blade

LENOX

- Tuff Tooth™ design cuts stronger, faster and longer
- Ideal for plasterboard and lath
- Bi-directional blade is ideal for cutting wall plates, ceiling tiles and abrasive materials

Order #	Mfg. #	Thickness	Teeth/Inch	Length	Pkg. Qty.	Each
H26-207	20570636RP	.050	6	6"	5	**46.99**

General Purpose Hole Saw Kit

LENOX

- Kit includes 12 popular sizes: 5/8", 3/4", 7/8", 1", 1-1/8", 1-1/4", 1-3/8", 1-1/2", 1-3/4", 2", 2-1/2" and 3" (16, 19, 22, 25, 29, 32, 35, 38, 44, 51, 64 and 76mm)
- Kit also includes both a 1L and 2L arbor (1/2" chuck), 3 spare pilot drills and a plastic case

Order #	Mfg. #	Each
H25-781	308201200G	**465.00**

WE'RE THE EXPERTS YOU COUNT ON.

- Products you need, including hard to find speciality parts
- Technology to make your job easier
- Delivery options to get back on the road
- Training to keep you competitive

BETTER SERVICE & LOCAL SUPPORT WITH GLOBAL PARTNERS

THAT'S THE POWER OF JOHNSTONE™

LENOX

Refrigeration Hole Saw Kit

- Kit includes 6 sizes: 5/8", 7/8", 1-1/8", 1-3/8", 1-5/8" and 2-1/8" diameter
- High-speed bimetal vari-tooth hole saws cut all materials, including stainless steel
- 4.5/5.5 teeth per inch, cuts to 1-1/2" depth
- Kit includes 5L and 6L arbors, spare pilot drill and plastic case

Order #	Mfg. #	Each
H25-205	30830600R	**265.00**

LENOX

Plumber's Hole Saw Kit

- Kit includes 6 sizes: 3/4", 7/8", 1-1/8", 1-1/2", 1-3/4" and 2-1/4" diameter hole saws
- Cuts through 2" x 4" and stainless steel
- 1-1/2" cutting depth
- Bimetal construction, 4.5/5.5 vari-tooth
- Kit includes a 2L and 5L arbors, spare pilot drill, arbor adapter and plastic case

Order #	Mfg. #	Each
H25-243	30808600P	**289.00**

LENOX

Electrician's Hole Saw Kit

- Kit includes 6 sizes frequently used for pipe and conduit entrance: 7/8", 1-1/8", 1-3/8", 1-3/4", 2" and 2-1/2" (22, 29, 35, 44, 51 and 64mm)
- Kit also includes both a 2L and 5L arbor (1/2" chuck), an arbor adapter, spare pilot drill and a plastic case

Order #	Mfg. #	Each
H25-782	30800600L	**305.00**

LENOX

Hole Saws

- Cuts all materials including stainless steel to 1-1/2" cutting depth
- Reduced stress on teeth
- Arbor adapter sold separately

H27-140	10954300S	Bi-Metal Utility Bit Kit	**149.00**

Vari-Bit Step Drill Bits

- Steps make hole size identification easy
- Double flute design cuts burr-free holes
- Drills metals (steel, brass, copper, stainless steel, aluminum) up to 1/8" thick as well as wood and plastics
- True 135° drill point starts fast, no center punching
- For use with 1/4" drills and larger (**H24-871**) and 3/8" drills and larger (all other models)

Order #	Mfg. #	Description	Size	Each
H24-871	VB1	13 Step Vari-Bit	1/8" to 1/2"	**79.00**
H24-872	VB3	9 Step Vari-Bit	1/4" to 3/4"	**125.00**

Cooler Thermometer

- Self-adhesive tabs for permanent mounting
- 1-1/2" diameter
- °F/°C scale

Order #	Mfg. #	Temp. Range	Each
H26-907	535-0-8J	-20°F to +120°F	**20.49**

Digital Pocketknife Style Thermometer

- Temperature probe folds away like a pocketknife
- Select °F or °C
- MAX/MIN and HOLD functions
- Sharp enough to puncture fiberboard and flexduct
- Easily hangs from register

Order #	Mfg. #	Range	Each
H26-467	SPK1	-58°F to +392°F	**79.00**

Fieldpiece

Digital Folding Pocket Thermometer

- Fold-out probe with sharp tip for punching through flexduct or easily hang from register
- T1-T2 differential temperature readings
- MIN/MAX and HOLD functions
- Powered by a single AA battery (included)

Order #	Mfg. #	Range	Each
H27-745	SPK2	-58°F to +392°F	**89.00**

Fieldpiece

IR and Rod Thermometer with Laser

- Precision laser targeting for quick and accurate surface measurements
- Sharp, narrow piercing rod for duct insertion
- MIN/MAX, Data Hold and T1-T2 modes
- Backlit display
- Includes pocket clip, hanging hook and 2 AAA batteries

Order #	Mfg. #	Distance to Spot Ratio	Temp. Range	Accuracy	Emissivity	Each
H27-691	SPK3	8:1	-20°F to +932°F (IR); -40°F to +257°F (Rod)	± 2%	0.95	**259.00**

UEi TEST INSTRUMENTS

Digital Folding Pocket Thermometers

- Fold-out stainless steel temperature probe
- Exposed tip provides accurate readings even when closed
- Built-in magnetic mount
- MIN/MAX record
- Auto power off

Order #	Mfg. #	Description	Range	Each
H27-032	PDT650	Folding Pocket Thermometer	-58°F to +572°F	**65.00**
H28-786	PDT655	Folding Pocket Thermometer with Differential and Large Display	-58°F to +572°F	**85.00**

UEi TEST INSTRUMENTS

Digital Pocket Thermometer

- Waterproof
- Magnet on case for hands-free use
- MIN/MAX and Data Hold
- Auto power off
- Cover acts as handle extension
- Includes battery, sheath and pocket clip

H26-908	PM120-0-8J	Digital Remote Thermometer	-40°F to +122°F	**85.00**
H27-120	9302J	Stainless Steel Mounting Flange	—	**40.99**

Dual Input Digital Thermometer

◀ NEW

- Measure liquid, ambient and surface temperatures
- Calculates differential temperature (T1 - T2)
- Reads maximum, minimum and average temperatures
- 9,999 memory positions
- Data logging
- 2 thermocouple inputs
- Compatible with J, K, T, E, R, S type thermocouples
- °F/°C temperature scale
- Backlight display
- Includes 2 K-Type thermocouples, 3 AA batteries and pouch

Order #	Mfg. #	Range	Each
H29-078 ◀	DT720	-348˚F to +2,498˚F	**435.00**

Dual Input Thermometer

- Great temperature compensation for fast changing environments
- Reads T1, T2 or T1-T2
- MIN/MAX and hold
- °F/°C selectable
- LED indicates disengaged probe
- Includes 2 K-type thermocouples and clear-front case with magnetic hanger

Order #	Mfg. #	Range	Each
H26-668	ST4	-58°F to +2,000°F	**259.00**

Magnatemp Telescopic Probe

- Measures vent temperature to evaluate A/C performance
- 5" flexible probe with magnetic tip
- Extends from 10.5" to 36"
- Temperature range: -58°F to 572°F
- Uses one LR44 battery (included)

Order #	Mfg. #	Each
H28-983	MTEMP	**125.00**

Pocket Digital Psychrometer

- Measures/calculates relative humidity, temperature, dew point, wet bulb and enthalpy
- Designed for in-duct measurement
- Min/max and data hold
- Magnetic mount
- Probe cover can be used as an extension
- Includes 2 CR2032 batteries

Warning: This product contains lithium batteries and cannot be shipped by air

Hazardous Material Shipping Alert

Order #	Mfg. #	Each
H28-015	DTH35	**269.00**

Pocket Digital Psychrometer

- Real-time measurement of wet bulb, dry bulb, dew point and relative humidity
- Backlit dual display

Order #	Mfg. #	Each
H27-393	PRH2	**205.00**

Job Link™ Probes

- A2L compatible
- Powerful wireless signal with up to 1000' range
- Directly transmits to iOS or Android devices with free Job Link app
- Pipe clamp Rapid Rail™ sensor stabilizes in under 5 seconds
- Automatic calibration and long battery life
- Powered by 2 AAA batteries per probe (included)
- JL3KR4 Charge Test Kit includes 2 pressure probes, 2 pipe clamps and carrying case
- JL3KH6 Charge and Air Kit includes 2 psychrometer probes, 2 pressure probes, 2 pipe clamps and carrying case

Order #	Mfg. #	Description	Each
H28-466	JL3RH	Job Link Flex Psychrometer Probe	**325.00**
H28-467	JL3PR	Job Link Pressure Probe	**299.00**
H28-468	JL3PC	Job Link Premium Pipe Clamp Probe	**299.00**
H28-469	JL3KR4	Job Link Charge Test Kit	**995.00**

Order #	Mfg. #	Description	Each
H28-470	JL3KH6	Job Link Charge and Air Kit	**1599.00**
H28-685	JL3LC	Job Link Premium Large Pipe Clamp Probe	**349.00**
H28-472	ANC18	Job Link Probe Kit Case	**175.00**

Wireless Smart Probes

- A2L compatible
- Wireless probes for common HVACR measurements
- Remotely read and analyze measurements from up to 8 probes
- Bluetooth connectivity for use with iOS and Android devices with free app
- Up to 350' Bluetooth Range
- Save results as PDF or Excel files and create custom reports that can be saved or shared via email

610 Digital Psychrometer

- Calculates dewpoint and wet bulb
- Max./Min./Hold functions
- Humidity range: 0 to 100%RH (+/-2.5 % accuracy)
- Includes protective cap, wrist strap and belt clip

Order #	Mfg. #	Each
H26-830	0560-6010	**505.00**

Thermal Imagers

- Compact pocket-sized troubleshooting tool
- Scan an entire area to identify repair or replacement opportunities
- Adjustable emissivity from 0.10 to 0.99
- High and low temperature alarms from -4 to +752°F
- Select color palettes to view multiple temperature readings
- Rechargeable lithium-ion battery
- Includes micro-USB charging cable and carrying case
- **H28-693** has over 10,000 pixel resolution
- **H28-946** has over 49,000 pixel resolution
- **H28-946** is compatible with Klein Tools app

Warning: This product contains lithium batteries and cannot be shipped by air

Thermal Imagers for Android and iOS Devices

- 10,800 pixel high resolution camera
- Temperature range from -4° to +752°F
- Capture and share thermal images and videos
- High and low temperature alarms to monitor systems
- Compatible with Klein Tools Thermal Imager App

Order #	Mfg. #	Description	Each
H28-882	TI220	Thermal Imager for Android®	**559.00**
H28-883	TI222	Thermal Imager for iOS	**559.00**

TELEDYNE FLIR

MSX Thermal Camera

- Easy-to-use, lightweight troubleshooting tool with MSX® two-camera technology
- Scan an entire area to quickly identify repair or replacement opportunities
- 2.4" color LCD with 80 x 60 pixel IR resolution
- MSX (multi-spectral dynamic imaging) adds visual definition to IR images for easier interpretation
- Bullseye laser pointer to indicate measurement area
- Built-in LED work light and lithium-ion rechargeable battery
- Rugged and reliable, built to withstand a 6-1/2' drop
- 24-to-1 distance-to-spot ratio
- Thermal sensitivity/NETD: <70mK
- 10-year detector warranty, 2-years on parts and labor

Warning: This product contains lithium batteries and cannot be shipped by air

Hazardous Material Shipping Alert

TELEDYNE FLIR

Thermal Camera

- Scan an entire area to quickly identify repair or replacement opportunities
- 2.4" color 320 x 240 pixel LCD with 160 x 120 pixel IR resolution
- Laser pointer and cross-hair display for easy targeting of measurement spot
- MSX (multi-spectral dynamic imaging) enhancement adds visual spectrum definition to IR images for easier interpretation
- Built-in 2MP digital camera, work light and Type-K thermocouple input
- 4GB internal memory for storing images
- Bluetooth® real-time remote temperature monitoring and camera image transmission
- Includes lanyard, USB cable, pouch and thermocouple

Warning: This product contains lithium batteries and cannot be shipped by air

FLIR ONE PRO Thermal Cameras

- Turns smartphone or tablet into a thermal camera
- OneFit adjustable-height connector fits phone or tablet, even with case
- Share thermal images and videos to the social media platforms
- VividIR™ provides super resolution image processing
- Free enhanced FLIR ONE App features FLIR ONE Panorama™, FLIR ONE TimeLapse™ and FLIR ONE CloseUp™ functions
- Powered by an internal rechargeable lithium battery
- Smartphone pictured not included

Warning: This product contains lithium batteries and cannot be shipped by air

Temperature Recorder

Supco

- 12 recorders in 1
- For refrigerator, freezer and environmental temperature measurement
- Measures and records temperatures in air, gas, liquids, powders and semi-solids
- Temperature ranges of: -40°F to +30°F, -20°F to +50°F or 50°F to 120°F
- Recording speeds of 6 hours, 24 hours, 7 days and 31 days
- Selectable, single turn or continuous chart rotation
- Remote reading 4" long submersible stainless steel probe with 15' sensor wire
- Standard 120V operation/special 12V feature allows for use in vehicular or marine operation
- Battery backup
- Includes 60 assorted, 6" diameter charts and 2 pens
- Replacement charts are 60 per box

Order #	Mfg. #	Description	Each
H85-283	CR87B	Temperature Recorder	**969.00**
H25-333	CR87-2	24 Hrs. Repl. Charts -20°F to +50°F	**79.00**

H25-706	CRPENB	Blue Replacement Pen	**36.49**
H25-707	CRPENR	Red Replacement Pen	**36.49**

LOGiT Data Loggers

Supco

- Store over 10,000 measurement points
- One-second to 18-hour sample rate; 1-second increments
- Features a precision IC sensor for accuracy
- Locking protection prevents on-site tampering, interruption of recording or erasure of recorded data
- Real-time data monitoring
- Over/under alarm threshold settings
- Visual alarm indication
- User selectable recording start
- **H26-161** logs temperature differential

Order #	Mfg. #	Description	Temp. Range	Humidity Range	Each
H26-161	LTT	Dual Temp Logger	-50°F to +300°F	0% to 95% RH	**479.00**
H26-592	LPT	Pressure/Temp Logger	-40°F to +150°F	—	**639.00**
H26-593	LCV	Current/Voltage Logger	—	—	**525.00**

LOGiT Data Logger Software

Supco

- LOGiT PC software is required for programming recording settings and downloading data with a PC
- Software is sold separately and works with all LOGiT data loggers

Order #	Mfg. #	Each
H26-690	LLSU	**175.00**

Mini Data Loggers With Software

- Miniature, self-contained device provides concise measurements for critical environmental conditions
- High and low temperature alarm with visual indication on demand
- **H26-676** logs temperature only; **H26-629** logs temperature, humidity, dewpoint and wet bulb
- Displays temperature in °F or °C
- PC, delayed start or pushbutton recording control
- View graph and text simultaneously
- Plugs directly into PC or laptop USB connection (cable included)
- 1 second to 18 hour sample rate
- Compatible with Windows 98SE, 2000, ME, XP and Vista
- **H26-629** has a humidity alarm and allows for real time monitoring

Order #	Mfg. #	Temp. Range	Humidity Range	Each
H26-676	SL300T	-40°F to +185°F	—	**245.00**
H26-629	SL300TH	-40°F to +160°F	0% to 99% RH	**279.00**

Data Loggers with Real Time Display

- Display of temperature (°F or °C), time, date, alarm status, logging status and battery life
- User selectable stop on memory full or memory rollover for continuous logging
- Delayed start or push button logging control
- Displays alarm icon for high/low alarm status
- Non-volatile EEPROM memory retains data even if battery fails
- USB interface for fast data transfer
- **H27-538** also displays relative humidity
- **H27-540** temperature range shown for K-Type thermocouple

Order #	Mfg. #	Description	Temp. Range	Humidity Range	Each
H27-537	SL500T	Temperature Data Logger	-5°F to +160°F	—	**255.00**
H27-538	SL500TH	Temperature & Humidity Data Logger	-5°F to +160°F	10% to 90% RH	**355.00**
H27-539	SL500XT	External Probe Temperature Data Logger	-40°F to +176°F	—	**279.00**
H27-540	SL500TC	Thermocouple Temperature Data Logger	-418°F to +2372°F	—	**275.00**

Dataview Data Loggers

- Monitor real-time measurements for instant environment or electrical conditions
- Displays real-time measurements, logging summary, sample rate and memory used
- Graph display shows measurement trends with scrolling feature
- Features visual over and under alarm indicators
- Compatible with Windows™ 98SE/ME, 2000, XP, Vista and Windows™ 7
- Download to your PC for further analysis
- USB connection (cable included)
- Applications for DVTH & DVT4 include refrigerators, freezers, commercial refrigeration systems, wine storage, greenhouses and florist cases
- Applications for DVCV include MRO, industrial processes, variable speed drives and intermittent electrical problems

Specifications:
- Operating temperature: 15°F to 150°F
- Time accuracy: +/- 100ppm @ 75°F
- Power source: 3 AA batteries

Order #	Mfg. #	Description	Each
H26-683	DVTH	Temperature, Humidity and Dew Point Data Logger	**619.00**
H27-536	DVT4	1 Internal And 3 External Temperature Data Logger	**615.00**
H28-112	DVCV	True RMS Current, Voltage and Watts	**585.00**

TempSmart Data Logger

Hazardous Material Shipping Alert

- Compact and portable design for logging temperature and humidity
- Measures dry bulb, wet bulb, temperature and relative humidity
- Stores date and readings for up to 90 days
- Easily export professional looking reports
- Connects to most iPhones, iPads, iPods, Apple Watches and major Android devices
- Free app available at the iTunes store or Android market

Warning: This product contains lithium batteries and cannot be shipped by air

Order #	Mfg. #	Description	Each
H28-162	TS-100	TempSmart Data Logger	**175.00**
H28-229	TS-100-6PK	TempSmart Data Logger Kit (6-Pk.)	**789.00**

Multi-Zone Temperature Testers

- MIN/MAX records highest and lowest temperatures
- Auto shutoff after 15 minutes of non-use
- Backlight for dark environments
- Scan feature stores MIN/MAX for all three probes
- Sealed keypad protects unit from spills and dust
- Battery eliminator jack
- Clear MIN/MAX memory button
- Power: 9V battery (included)
- Includes **H26-080** general purpose puncture probe, **H26-082** surface probe and **H26-081** air and surface probe (**H26-083** humidity stick probe replaces **H26-081** on **E04-836**)
- **E04-836** also displays relative humidity (10 to 95% RH)

Order #	Mfg. #	Description	Temp. Range	Each
E04-835	943-0004-01	3-Zone Temperature Tester	-40°F to +300°F	**1099.00**
E04-836	943-0004-00	3-Zone Temperature/Humidity Tester	-40°F to +300°F	**1599.00**

Temperature Tester Replacement Parts and Accessories

Order #	Mfg. #	Description	Each
H26-080	1075J	6' Puncture Probe	**135.00**
H26-081	2010J	12' Air Probe	**109.00**

H26-083	5028J	6' Humidity Probe	**415.00**

Cordless Pipe Clamp

- Retractable puncture probe
- Temperature accuracy: ±3°F from 14°F to 212°F
- °F or °C selectable
- Response time of puncture probe: 20 seconds in 32°F bath (95% of final reading)
- Response time of pipe clamp probe: 90 seconds on 140°F pipe (95% of reading)
- Thermistor technology
- MIN/MAX and Data Hold
- Auto shutoff after 5 minutes of non-use
- One-handed use, spring-loaded to ensure repeatability
- Includes soft carry case/holster and button cell battery

Order #	Mfg. #	Range	Each
H26-325	4005IJ	-20°F to +300°F	**369.00**

Dual Range Non-Contact Voltage Testers

- Automatically detects low and high voltage (12 to 1,000VAC)
- Auto power-off conserves and extends battery life
- Includes 2 AAA batteries

Order #	Mfg. #	Description	Each
H27-154	NCVT2P	Non-Contact Voltage Tester	**69.00**
H28-504	NCVT-4IR	Non-Contact Voltage Tester with IR Thermometer	**109.00**

Non-Contact Voltage Tester

- Detects 24 to 440VAC
- LED and buzzer voltage detection indicators
- LED appears brighter and buzzer sounds louder as tester is moved closer to voltage source
- Includes 2 button cell batteries

Order #	Mfg. #	Each
H26-504	SNCV1	**48.99**

Continuity Tester

- Provides an audible and visual alarm when connectivity is detected
- Smaller, faster and easier than a voltmeter
- Magnetic case for hands-free use
- Alligator clips
- Includes 1 AAA battery

Order #	Mfg. #	Each
H28-872	TFXCT	**48.49**

Wireless Dual Display Clamp Meter

- Precisely measure and test voltage and frequecy variations
- Automatic AC/DC selection for Volts and Amps
- Magnetic hanger strap with universal application
- Test lead storage for convenience
- Back probes included for mini-split applications

SC Series Clamp Meters

- Built-in non-contact voltage detector
- Dual display with extreme temperature-resistant LCD (SC420, SC440, SC620, SC640 only)
- Includes test leads, thermocouple (except SC220) and carrying case
- SC440, SC620 and SC640 include alligator clip lead extensions
- SC620 and SC640 include 180° swivel-head for easy viewing at any angle

SC Series Wireless Clamp Meters

- Powerful wireless signal with up to 1000' range
- Wirelessly communicates directly with Job Link™ app on iOS and Android devices
- Calculates SEER and EER (using Job Link app)
- Built-in non-contact voltage detector
- Dual display with extreme temperature-resistant LCD
- 3-phase rotation testing with 2 leads
- Includes test leads, alligator clips, thermocouple and carrying case
- SC680 has 180° swivel-head and dual temperature for delta-T

Furnace Install Kits

- Tools and test instruments to install and maintain furnaces
- Kits tailored to specific furnace types
- All kits include Clamp Meter, Combustible Gas Leak Detector, Folding Thermometer, and UEi Backpack
- 520 Kit also includes Manometer
- 521 Kit also includes Manometer and Carbon Monoxide Detector
- 522 Kit also includes Oil Combustion Analyzer

Order #	Mfg. #	Description	Each
H86-243	520KIT	Furnace Install Kit	**1545.00**

Digital Insulation Resistance Testers

- Test for capacitive leakage between conductors, insulation deterioration and buildup of dirt or moisture in motor windings
- Features PI/DAR test, zero reading, lock reading, rotary style selector, protective rubber boot, kick stand, test lead holders, remote probe and worklight
- Includes ATL57 silicone test leads with alligator clips, insulation test probe with alligator clips, soft carrying case and 4 AA batteries

Current Clamp Accessory Head

Measures AC Amps up to 400A

- Connects to Fieldpiece meters, data loggers and **H26-113** EHDL1 electronic handle
- Use with test leads for hard to reach areas

Order #	Mfg. #	Each
H25-622	ACH4	**135.00**

Test Lead Set

- Includes alligator clips
- CAT III 1000V rated

Order #	Mfg. #	Each
H25-853	ATL55	**46.49**

Back Probe Test Lead Set

- Fine tip needle probe with standard test lead extension wire
- Includes test lead extensions (ATLTX) and back probe (ATL5)

Order #	Mfg. #	Each
H27-635	ATLBPK	**105.00**

Meter Replacement Parts and Accessories

Order #	Mfg. #	Description	Each
H25-852	ATT70	Thermocouple K-Type Adapter	**35.49**
H25-413	AF120	Replacement 5A Fuse for DM383, DM410 and DM420 (3-Pk.)	**36.49**
H26-050	AC319	Small Carry Case	**75.00**
H26-051	AC519	Large Carry Case	**95.00**
H28-714	AMH1	Magnetic Hanger	**38.99**

Silicone Test Leads

- Silicone-insulated and rugged to withstand extreme temperatures

Order #	Mfg. #	Each
H26-072	ASLS2	**75.00**

Deluxe Silicone Test Leads

- Silicone-insulated and rugged to withstand extreme temperatures
- Removable tips

Order #	Mfg. #	Each
H26-127	ADLS2	**95.00**

Deluxe Silicone Test Lead Sets

- Silicone-insulated and rugged to withstand extreme temperatures
- Removable tips
- **H27-325** includes ADSL2 test leads, ASA2 alligator leads and RCT2 probe tips

Order #	Mfg. #	Description	Each
H27-325	ADK7	Deluxe Silicone Test Lead Set	**125.00**
H28-027	RCT2	Extended Reach Probe Tip Set	**40.99**

Meter Replacement Parts and Accessories

Order #	Mfg. #	Description	Each
G32-090	ASA2	Alligator Clip Lead Extensions	**25.99**
H26-066	RFM66	Replacement Fuse for SC6X-76, HS35-36, LT17A and LT16A (4-Pk.)	**75.00**
H26-067	RFM74	Replacement Fuse for LT83, LT83A, LT17 and HB74 (4-Pk.)	**48.99**
H25-626	ANC1	Deluxe Nylon Meter Case	**75.00**
H27-330	ANC7	Large (Clamp) Meter Case	**40.99**

Hermetic Compressor Analyzer

- Connects directly to compressor motor; checks for continuity and ground faults in motor windings
- Frees locked rotors by reversing motor action
- Dual voltage operation, 120/240VAC
- 3 ranges of 250VAC starting capacitors, 88 to 301 MFD
- Direct measurement of resistance and voltage facilitated by VOM input jacks
- Convenient breakout jacks for measuring voltage and resistance

Order #	Mfg. #	Each
H24-355	HA1	**865.00**

Digital Megohmmeter

- 1000VDC stresses insulation to measure up to 2000Mohms
- Backlit LCD display
- Auto-off to extend battery life
- Includes case, alligator clip, leads with removable tips and batteries

Order #	Mfg. #	Each
H27-323	SMG5	**339.00**

Insulation Tester/Megohmmeter

- Measures insulation values up to 1,000 megohms at 500V and indicates the condition of insulation on the zone scale
- 20 to 1,000 megohms indicator range
- Uses 2 C batteries (not included)

Order #	Mfg. #	Each
H25-705	M500	**335.00**

Digital Capacitor Tester

- Rates run, start and DC electrolytic capacitors
- Can also be used as a continuity tester
- Two read-out ranges: 0.01 to 10 MFD and 10 to 10,000 MFD
- Includes soft carrying case
- Uses 9V battery (not included)

Order #	Mfg. #	Each
H24-883	MFD-10	**185.00**

Capacitor Discharge Pen

- For discharging capacitors safely
- LED indicators if capacitor is charged
- Magnetic connector or alligator clip adapter

Order #	Mfg. #	Each
H28-525	CAPDIS	**26.49**

Universal ECM Motor Tester

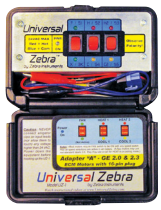
- Compatible with virtually all ECM motors
- Instant go/no-go result
- 24" leads and magnetic case
- No batteries required

Order #	Mfg. #	Each
H28-645	ECMPRO	**145.00**

©2024 Johnstone Supply, LLC

Universal Zebra ECM Motor Testers

- Quickly troubleshoots ECM motor problems
- 3-way position switches test up to 6 speeds
- LEDs indicate power and signals being set
- Includes rugged case and adapter for common GE/Regal Beloit Series 2.0 and 2.3 motors
- UZALL Kit includes UZ-1 Motor Tester and all available motor adapters
- Other adapters sold separately



Order #	Mfg. #	Description	Each
S59-418	UZ-1	Universal ECM Motor Tester	**349.00**
S59-791	UZALL	Universal ECM Motor Tester Kit w/all Adapters	**855.00**

Universal Zebra System Accessories

Order #	Mfg. #	Description	Each
G38-341	UZPH1	Adapter for GENTEQ ECM Series 2.0, 2.3, 2.5 and 3.0	**37.99**
G36-448	UZHMA	Adapter for GE, Regal-Beloit, and GENTEQ Series 1.6, 2.0, and 2.3 ECM Motors	**85.00**
G36-449	UZHMB	Adapter for GE, Regal-Beloit, and GENTEQ Series 3.0 ECM Motors	**85.00**
G38-342	UZPH2	Adapter for X-Motors and X-13	**55.00**
G38-343	UZPH3	Adapter for ECM 142 Motors	**20.99**
G36-450	UZHMC	Adapter for GE, Regal-Beloit, and GENTEQ X-13 and Evergreen 'AH' (but not 'IM') Series ECM Motors; Other Manufacturer's "X-Motors"	**85.00**
G36-451	UZHME	Adapter for GE, Regal-Beloit, and GENTEQ ECM 142 Series Motors (Signal-Controlled ECM Condenser Fan Motors)	**85.00**
G38-344	UZPH4	Adapter for Evergreen 'IM' Series (but not Evergreen 'AH' Series)	**55.00**
G36-452	UZHMF	Adapter for Evergreen 'IM' Series Motors 5 Pin + 4 Pin Plugs (but not Evergreen 'AH' Series)	**85.00**
G36-453	UZEXT	24" Extension/Repair Harness	**41.49**
H27-447	UZACC	Accessories Case	**49.49**

SideWinder Winding Section Analyzer

- Quickly diagnose faulty ECM motors
- Displays faults (shorts or opens) in each phase of winding section
- A second test indicates any shorts between the motor frame and any phase winding
- No external power source needed (includes 9V battery)

Order #	Mfg. #	Description	Each
H28-522	SW-5	SideWinder ECM Motor Winding Section Analyzer	**229.00**
H28-565	ZSWAE	SideWinder Emerson Motor Adapter	**34.49**

Variable Speed Zebra

- Uses simple to operate microprocessor controlled tests
- Accurately diagnoses exactly which component has failed in a variable speed system that isn't working correctly
- Assists in system setup by reporting CFM airflow and motor RPM as room vents and other controls are adjusted
- Allows easy adjustment of all available settings and options on ECM (Variable Speed) blower motors to obtain maximum comfort

Order #	Mfg. #	Each
S59-419	VZ-7	**985.00**

Variable Speed Zebra Accessories

Order #	Mfg. #	Description	Each
S59-421	VZH03	X-13 Motor Adapter Set	**159.00**
S59-425	VZH06	Condenser Unit ECM Fan Motor Adapter Set	**159.00**

ZebraStat

- Low-voltage HVACR diagnostic tool
- Diagnoses low-voltage control problems in system wiring, control boards, thermostats and associated components
- Performs immediate continuity checks on up to six circuits at a time
- Acts as a remote control, saving you steps to/ from attic, roof, basement
- Reports signal levels on control lines - visually displaying them for you
- Monitors voltage levels, displaying it as “OK”, “Questionable” or “Low”
- Act as an automatically-resetting circuit breaker, temporarily replacing a system fuse while looking for “shorted” lines or components

Order #	Mfg. #	Each
S59-424	ZS-2	**389.00**

ZebraStat Accessories

Order #	Mfg. #	Description	Each
G38-345	ZD001	Fused Power Tap Cord	**85.00**
G36-430	ZD002	Safety Power Adapter	**75.00**
G36-436	ZG002	Small Zebra-Gators (10-Pk.)	**69.00**
G36-437	ZG003	Medium Zebra-Gators (8-Pk.)	**85.00**
G36-444	ZG004	Large Zebra-Gators (4-Pk.)	**69.00**

Short Finder Tool

- Locate 3A and 5A shorts in 24VAC circuits
- Auto-resetting
- Trip indication LED
- Includes 18" leads with alligator clips

Order #	Mfg. #	Each
S59-795	ZSPRT	**85.00**

Magtract Retractable Magnetic Jumper

- For use on control boards, thermostats, and other HVAC controls
- Not intended for permanent installation

Order #	Mfg. #	Each
H28-526	MAGTRACT	**31.99**

Magjumper™

- Troubleshoot thermostats, control boards, sensors, and switches
- Powerful magnets with 20” wire leads
- 30 VAC/VDC maximum; 5A

Order #	Mfg. #	Each
G35-907	MAG1YL	**26.99**

Hybrid Jumper

- Alligator clips with magnetic tips
- Troubleshoot thermostats, control boards, sensors, and switches
- 20" wire leads
- 30 VAC/VDC maximum; 5A

Order #	Mfg. #	Each
H28-213	HYB1YL	**26.49**

JUMPER KING™ Multi-Jumper With Selector

- Quickly bypass any low voltage thermostat regardless of style
- Eliminate compressor short cycling and start the system safely
- Innovative circuit selector switches to activate leads/circuits of your choosing
- Resettable popper fuse will never short out
- Includes 20 interchangeable tips: Alligator clamps, magnetic tips, self-piercing insulation tips and spade adapters

Order #	Mfg. #	Each
H28-870	TFXJK	**155.00**

©2024 Johnstone Supply, LLC

Fused Multi Jumper

- Engage multiple circuits at the same time during system troubleshooting
- Removable banana plugs connect to voltmeter to create an extended fused jumper wire
- Magnetic jumper leads with removable rubber caps
- 3-amp fusible link

Order #	Mfg. #	Each
H28-871	TFXMJ	**55.00**

3 Wire Test Cord

- Provides power when electrical outlets are not available
- 3 large clips with white, black and green boots
- 3 to 20V
- 16 gauge, 24” long

Order #	Mfg. #	Each
H27-457	6-CT700F	**49.99**

Flow Hood with Bluetooth

- Accurately measures CFM, FPM, temperature, relative humidity and differential pressure
- Flow straightener for more precise measurement at turbulent outlets
- Large, removable backlit display
- App integration via Bluetooth for fast and easy monitoring and reporting on site
- Weighs less than 6.2 pounds
- Includes flow hood base, 24" x 24" flow hood, USB cable, AA batteries and wheeled soft case with telescoping handle

Order #	Mfg. #	Description	Each
H93-191	0563-4200	Flow Hood	**7245.00**
H93-192	400563-4200	Flow Hood with NIST Certificate	**7645.00**

Flow Hood Accessories

Order #	Mfg. #	Description	Each
H93-193	0554-4200	14" x 14" Flow Hood	**745.00**
H93-194	0554-4201	12" x 48" Flow Hood	**865.00**
H93-195	0554-4202	24" x 48" Flow Hood	**865.00**

Order #	Mfg. #	Description	Each
H93-196	0554-4209	Flow Hood Tripod	**1445.00**
H28-138	0554-0440	16' Silicone Hose	**179.00**
H28-139	0635-2045	19" Pitot Tube	**525.00**

EasyHood™ Airflow Capture Hoods

- Accurately measures airflow and displays on your smart device
- No need to enter duct dimensions, Ak factors or traverse the grille
- Rugged 12" x 12" control box with vortex airflow straightener
- Includes 24" x 24" extension hood, low volume reducer plate (for readings down to 7 CFM) and canvas carrying case
- **H93-216** requires a ABM-100 or ABM-200 meter (sold separately)
- Smartphone pictured not included

Warning: This product contains lithium batteries and cannot be shipped by air

Hazardous Material Shipping Alert

Order #	Mfg. #	Description	Each
H93-216	ABM-HOOD	EasyHood (Requires ABM-100 or ABM-200)	**945.00**
H93-217	ABM-HOOD-200	EasyHood Kit with ABM-200 Wireless Airflow Meter	**1145.00**

Airflow Balancing Meter

- Measures airflow and automatically calculates linear and cubic feet per minute
- Built-in data logging functionality
- Easily email history log for professional looking reports
- Compact anemometer works with all iPhones, iPads, iPods and most major Android devices with 3.5mm audio jack
- Free app available at the iTunes store or Android market
- Range: 19 LFM to 11,000 LFM

Order #	Mfg. #	Each
H28-060	ABM-100	**139.00**

Wireless Airflow Balancing and Environmental Meter

- Compact anemometer works with all iPhones, iPads, iPods and most major Android devices
- Measures air volume, velocity, temperature dry bulb/wet bulb/differential, humidity, dew point, heat index, barometric pressure, density and indoor vs. outdoor conditions
- Built-in data logging functionality, easily email history log for professional looking reports
- Free app available at the iTunes store or Android market
- Powered by CR2450 coin cell lithium battery (included)

Warning: This product contains lithium batteries and cannot be shipped by air

Hazardous Material Shipping Alert

Order #	Mfg. #	Each
H28-096	ABM-200	**265.00**

H28-098	TRI-MIN	6" to 8" Mini Tripod	**65.00**

Wireless Smart Probes

- A2L compatible
- Wireless probes for common HVACR measurements
- Remotely read and analyze measurements from up to 8 probes
- Bluetooth connectivity for use with iOS and Android devices with free app
- Up to 350' Bluetooth Range
- Save results as PDF or Excel files and create custom reports that can be saved or shared via email

Order #	Mfg. #	Description	Each

410 Vane Anemometers

- Airflow velocity meter with temperature measurement
- Integrated 1.5" diameter vane
- Timed mean value calculation
- Max./Min./Hold functions
- Backlit display
- Includes protective cap, wrist strap and belt clip
- Velocity range: 80 to 4,000 FPM
- **H26-827** also measures relative humidity (0 to 100%)

Order #	Mfg. #	Description	Each
H26-826	0560-4101	410-1 Vane Anemometer	**369.00**
H26-827	0560-4102	410-2 Vane Anemometer w/Relative Humidity	**589.00**

Digital Airflow Meter

- Measures air velocity, temperature and relative humidity; calculates CFM, dew point and wet bulb
- Remote rotating vane is perfect for troubleshooting AC and heating systems
- Multi-point average for velocity and total volume (CFM) from multiple outlets
- Temperature range: 14°F to 122°F (-10°C to 50°C)
- Airflow range: 125 to 4,900 ft./min. (2)
- Includes protective hard case and battery

Order #	Mfg. #	Each
H26-475	DAFM3B	**665.00**

©2024 Johnstone Supply, LLC

In-Duct Digital Airflow Meter

- Measures air velocity, temperature and relative humidity; calculates CFM, dew point and wet bulb
- 0.7" diameter vane head with 39" long telescopic and scale marked probe
- In-duct or grill surface measurements
- Temperature range: -4°F to 140°F
- Velocity range: 99 to 3,937 FPM
- Includes protective hard case and 9V battery

Order #	Mfg. #	Each
H85-768	DAFM4	**1099.00**

Airflow Temperature/Humidity Adapter

- Calculates dew point, wet bulb, dry bulb and volumetric flow
- Extension screw input for extending into air flow
- Compatible with iOS® and Android™ devices
- Includes carrying strap and 2 CR2032 lithium batteries
- Airflow range: 217 to 3,937 feet/second
- Temperature range: 0° to 122°F
- Humidity range: 0.1% to 99.9% RH

Order #	Mfg. #	Each
H28-622	DTHA2	**419.00**

In Duct Hot-wire Anemometer

- Measures air velocity and temperature in the duct with 38" telescoping probe
- Dual display for real-time display of CFM, air velocity or temperature
- Large backlit display
- Magnetic hanger on back
- Auto power off after 15 minutes
- Temperature range: -4°F to 140°F
- Air velocity range: 40 to 3,960 FPM
- Includes stabilizing cone and carrying case

Order #	Mfg. #	Each
H27-292	STA2	**919.00**

Manometer

- Used to set manifold pressure for natural or LP gas
- Economically priced and made of durable plastic for years of trouble-free use
- Strong magnet attached to manometer to hold in convenient upright position
- Includes 30" of high-grade vinyl tubing and 1/4" brass MPT to barb fitting
- Scale measures -2" to +15" W.C.

Order #	Mfg. #	Each
H23-606	78075	**89.00**

Gas Pressure Test Kits

- Accurately set manifold pressure for natural or LP gas
- Easier to use than a manometer and more compact
- Special, sensitive diaphragm gauge is calibrated in inches of W.C.
- Tube nipple allows easy connection to manifold

Order #	Mfg. #	Range	Each
H24-817	78060	0 to 35"	**135.00**
H25-047	78055	0 to 10"	**149.00**

Replacement Rubber Adapter

- For use with Yellow Jacket gas pressure test kits
- Adapter fits between the barbed fitting and rubber hose

Order #	Mfg. #	Each
H27-247	78065	**10.49**

FloPro-MD Gas Flow and Pressure Measurement System

- Save time during your start up and commissioning process
- Quickly diagnose gas flow or pressure issues with confidence
- Automatically converts gas flow rate (CFH) to capacity (BTU/hr)
- View and log real time data via a Bluetooth connected smart device

Order #	Mfg. #	Each
H28-632	FPMD75FFKIT	**1099.00**

Gas Test Gauges

- Used for pressure testing all new installations for leaks
- Leakage will be indicated by pressure drop on gauge

Order #	Mfg. #	Size	Range	Each
R56-892	TGB215	1/2" FPT	0 to 15 PSI	**34.99**
R56-893	TGB15	3/4" FPT	0 to 15 PSI	**34.99**
R53-986	TGB30	3/4" FPT	0 to 30 PSI	**34.99**
R53-987	TGB130	1" FPT	0 to 30 PSI	**38.99**
R56-132	TGB60	3/4" FPT	0 to 60 PSI	**34.99**
R56-133	TGB160	1" FPT	0 to 60 PSI	**38.99**
R59-023	TGB100	3/4" FPT	0 to 100 PSI	**34.99**

Wireless Dual Input Manometer

- Compact manometer works with most iPhones, iPads, iPods and Android devices
- Measures static pressure, pressure differential, indoor vs. outdoor pressure and system external static pressure
- Automatically imports local weather data based on smart device GPS location to calibrate and improve accuracy
- Built-in data logging functionality, easily email history log for professional looking reports
- Ruggedized housing with magnetic back
- Free app available at the iTunes store or Android market
- Powered by CR2450 coin cell lithium battery (included)
- **H85-954** kit includes **H28-095** pressure probe kit

Warning: This product contains lithium batteries and cannot be shipped by air

Pressure Probe Kit

- Stainless steel static pressure probe kit for use with SPM-100 manometers
- Includes 2 probes with color coded magnetic handles, 6' sections of rubber tubing and carrying case

Order #	Mfg. #	Each
H28-095	PRB-KIT	**99.00**

Job Link® System Manometers

- Powerful wireless signal with up to 1000' range
- Individual pressure readouts give you P1, P2, and pressure differential in real-time
- All-in-one static, gas and draft pressure
- Measure between zones without snaking a hose under the door
- Document system health with Job Link App reporting
- Powered by 2 AAA batteries per probe (included)
- JL3KM2 Kit includes 2 manometer probes, 2 static pressure probes and hoses, 2 brass screw fittings with extra hoses, 2 slide gas adapters and padded case
- JL3MN includes manometer probe, static pressure probe and hose, brass screw fitting with extra hose and slide gas adapter

Order #	Mfg. #	Description	Each
H28-647	JL3KM2	Job Link® Dual Port Manometer Probe Kit	**475.00**
H28-646	JL3MN	Job Link® Single Port Manometer Probe	**325.00**

Dual Input Digital Manometer

- Measures gas pressure, static pressure and differential
- Features zero adjust button, rugged rubber boot, magnetic hanger and auto power off
- Includes 2 3/16" tubes with brass fittings, 2 3/16" to 5/16" tube adapters and 9V battery

Order #	Mfg. #	Range	Each
H27-304	SDMN5	-60" to +60"	**399.00**

©2024 Johnstone Supply, LLC

Dual Port Manometer and Pressure Switch Tester

- Measures gas pressure, static pressure and differential
- Use to test and adjust pressure switches
- Features include a backlit dual display, zero adjust button, rugged rubber boot, magnetic hanger and auto power off
- Includes 2 hoses with brass screw fittings, 2 static pressure probes, 2 slide on gas adapters, quick connect leads, 3 hoses and Y-splitter, pump bleed accessory, carrying case and 9V battery

Order #	Mfg. #	Range	Each
H27-718	SDMN6	-60" to +60"	**715.00**

Dual Input Digital Manometer

- Protective boot/overmolding with integral magnet for hands-free measurement of gas supply pressures
- Sturdy metal hose-barb connection
- Large backlit LCD display
- 11 selectable units of measure
- Record with elapsed time stamp
- Min/max/average and data hold
- Auto and manual power-off
- EM152 has .01" W.C. resolution
- Includes 9V battery, tubing, brass fitting and pouch

Order #	Mfg. #	Description	Range	Each
H28-244	EM152	Dual Input Digital Manometer	-60" to +60"	**329.00**

Dual Input Hi-Res Digital Manometers

- Measure gas, draft, manifold, and burner pressures
- Dual Input to measure multiple pressure drops
- Measure ambient temperature
- Min/Max/Average hold
- Temperature compensation technology
- **H28-885** includes 60 in. Pressure Tube, 2 Stepped T Fittings, Static pressure probes, and brass fittings
- Case
- 1-Year limited warranty

Order #	Mfg. #	Description	Range	Each
H28-884	EM720	Dual Input Hi-Res Digital Manometer	-80" to +80"	**459.00**
H28-885	EM720SPKIT	Dual Input Hi-Res Digital Manometer Kit	-80" to +80"	**589.00**

510 Compact Dual Port Manometer

- Provides pressure, differential pressure, and air velocity measurements
- Magnetic back provides hands-free operation
- Fully-featured, temperature compensated sensor in a rugged, compact package
- Backlit, LCD display with 3-button operation
- Auto or manual power-off
- Includes hoses, protective leather belt case, wrist strap and 2 AAA batteries
- User selectable units of measure (inH2O, mBar, hPa, PSI, mmH20, mmHg, Pa, inHg, fpm, m/s)
- 1-touch zeroing
- Low battery indicator (50 hour battery life)

Order #	Mfg. #	Each
H26-324	0563-0510-01	**489.00**

Combustible Gas Leak Detector

- Fully adjustable audio and visual indicators
- Low power semi-conductor sensor provides instantaneous detection of leaks as small as 50 PPM
- 18" gooseneck for hard-to-reach areas
- Includes 9V alkaline battery

Order #	Mfg. #	Each
H25-775	CD100A	**605.00**

CD100A Leak Detector Replacement Parts and Accessories

Order #	Mfg. #	Description	Each

INFICON

GAS-Mate Combustible Gas Leak Detector

- Pinpoints leaks as low as 5 PPM
- Great for combustible refrigerants like R290, R600a, and R441a
- Variable audio alarm and flashing LEDs indicate leak strength
- Intrinsically safe

Order #	Mfg. #	Each
H27-053	718-202-G1	**615.00**

INFICON

GAS-Mate Replacement Sensor

- For use with the GAS-Mate combustible gas leak detector
- Pinpoints leaks as low as 5 PPM
- Great for combustible refrigerants like R290, R600a and R441a

Order #	Mfg. #	Each
H28-517	706-700-G1	**145.00**

testo

317-3 Carbon Monoxide Detector

- Measures carbon monoxide (CO) from 0 to 1,999 PPM
- Gas self-check mode to verify instrument response to CO
- Reads true concentration even when powered up in CO contaminated areas
- User adjustable alarm points with audible and visual indicators
- Measurement modes: continuous, HOLD and MAX
- Tick rate increases with increasing gas concentration (can be silenced)
- Includes softcase, earphone and 2 AAA batteries

Order #	Mfg. #	Each
H26-323	0632 3173	**625.00**

UEi TEST INSTRUMENTS

Wireless Carbon Monoxide Detector

- Compact CO detector with wireless capabilities for use with iOS and Android devices
- Measures and displays CO from 0 to 999 PPM
- App show 3 visual danger levels with data logging and emailing capabilities
- Free app available at the iTunes store or Android market
- Includes 3 AAA batteries

Order #	Mfg. #	Each
H28-624	COA2	**499.00**

Fieldpiece

Carbon Monoxide Detector

- Large backlit display shows CO levels from 0 to 1,000 PPM (continuous use) and 0 to 2,000 PPM (5 minute maximum exposure)
- Field replaceable smart sensor
- Fast enough to locate CO in “walk-around” tests
- Alarm and max function
- Auto-off can be disabled for data logging
- Includes rubber boot for added protection and magnetic hanger for hands free operation

Order #	Mfg. #	Each
H27-620	SCM4	**695.00**

Fieldpiece

Combustion Check Meter with AutoPump

- Provides quick combustion checks for comparison with manufacturer specifications
- Set up to work with various fuel types and is customizable
- Choose from 4 display modes: hold, MAX, MIN or real time
- Displays percentage O2, CO2, efficiency, excess air and temperature
- Measures percentage O2 and stack temperature
- Calculates percentage CO2 and excess air
- Displays percentage O2, CO2, excess air and temperature
- Includes AutoPump, filter replacement kit and carrying case

Order #	Mfg. #	Each
H85-703	SOX3	**1099.00**

Combustion Analyzers

- Designed for efficient O2, CO, CO2, draft pressure, and temperature combustion analysis
- SensorVault™ technology for extended sensor life
- LCD Touchscreen Display
- Job Link® compatible
- Magnetic back for hands-free use
- Includes probe, cones, filters, USB-C charging cable and carrying case
- Combustion Analyzer Kits include a Wireless Thermal Printer
- Built-in Manometer in the CAT85's
- The CAT85's are equipped with HydroCycle™ Pump technology

Warning: This product contains lithium batteries and cannot be shipped by air

310 II Combustion Analyzer Kits

- Ideal for residential applications
- Measures O2, CO, CO2, temperature, draught and pressure
- Temperature sensor integrated in the flue gas probe
- Sensor zeroing in 30 seconds
- Easy and intuitive system guide
- High-resolution graphic display
- 8 hour battery life
- Compatible with the testo Smart App
- Includes 310 II Analyzer with integrated magnets, hose and probe assembly, rechargeable lithium-ion battery, USB-C cable and carrying case
- **H86-288** includes bluetooth printer and thermal paper

Order #	Mfg. #	Description	Each
H86-287	0563-3104-01	310 II Residential Combustion Analyzer Kit	**1899.00**
H86-288	0563-3105-01	310 II Residential Combustion Analyzer Kit with Printer	**2499.00**

PROVIDING YOU UNIVERSAL TRUCK STOCK OPTIONS

300 Combustion Analyzer Kits

- Test and tune all types of boilers, heaters and furnaces
- Functions include combustion analysis, draft, temperature, pressure and combustion efficiency
- Large 5" HD touchscreen display shows all values at a glance
- Create documentation including measuring value, measuring location and customer data
- Bluetooth® Connector for testo Smart Probe connectivity
- Email reports via Wi-Fi or save PDF measurement reports directly in the instrument
- All models include O2 and CO sensors (4,000 PPM), USB power supply, compact probe, 10 filters and EasyHeat software
- **H86-099** also includes soft case
- **H86-100** also includes Bluetooth printer, thermal paper rolls (6) and soft case
- **H86-102** also includes long life O2 and CO sensors, NO sensor capability and rugged hard case
- **H86-103** also includes long life O2 and CO sensors, NO sensor capability, Bluetooth printer, thermal paper rolls (6) and rugged hard case

330i Smart Bluetooth Combustion Analyzer Kits

- Remote operation via Bluetooth using smart device and free app
- Measures: O2, CO, temperature, differential temperature, draft and differential pressure
- Calculates: CO2 efficiency, excess air and CO (air free)
- Send reports via email or print with optional Bluetooth printer
- Detachable flue gas probe securely attaches using probe mount
- Long life (up to 6 years) O2 and CO sensors
- Kit #1 (**H86-015**) includes flue gas probe and mount
- Kit #2 (**H86-016**) includes NO/NOx sensor, flue gas probe and mount
- Kit #3 (**H86-017**) includes the 330i analyzer only (no flue gas probe or mount)

Warning: This product contains lithium batteries and cannot be shipped by air
